I spoke with MaryJo Feuerbach yesterday afternoon to answer questions she had about the Act 73 report. I explained the issues the working group identified (e.g., cost share, revenue collection and project delivery) and the specific next steps we are taking, and our desire to work with the Legislature during the coming session to address them.

She also inquired about the status of the stormwater rule. I indicated that the rule was largely drafted and that I was meeting with a key legislator (David Deen) and leg counsel this afternoon to address some clarifying questions we had regarding prioritization and that we anticipated moving forward with the rule and 3-acre permit in relatively short order following the resolution of that conversation.
