Good morning, all.

Attached please see draft language amending the 3-acre permitting requirement to allow for prioritization. Rep. Deen indicated that his intention had been to have this sort of language included in Act 64 from the get-go, and it was lost in drafting.

I would like to meet this week to discuss so that I can get back to Mike O'G and Rep Deen by COB Friday with any changes we'd like to see made.

Thanks!
Julie

Subject: Three-acre draft bill

Sec. Moore

Rep. Deen asked me to forward you the attached draft bill amending the three-acre legacy impervious surface permit requirement under 10 VSA 1264.

He requested you provide him comments or input on the draft.

Please let me know if you have any questions.

Michael O'Grady
