Subject: RE: Draft Stormwater Permitting Rule

Hi again. Here is a revised notification letter, and list of funding sources. Sorry for the delay, I was under the impression we had some level of funding for privates. The attached letter and list of funding sources makes it clear they are only available for municipal projects. The funding sources is the same document recently put together by Kari and Rebecca. Thanks. -Padraic

Subject: RE: Draft Stormwater Permitting Rule

Julie, Emily – Sorry to be a bother on this, but I'm wondering if we are we likely to release the draft pre-ICAR version of the rule to stakeholders in the near term, and then undertake focused outreach, as mentioned by the Governor's office, in advance of filing with ICAR? Or, does this outreach need to take place before we release the pre-ICAR stakeholder version? Releasing the pre-ICAR version and re-engaging with stakeholders will be a significant effort, so I'm just trying to get a sense of our timing.

As to the list of funding sources mentioned below, I hope to have it from Kari today.

Thank you. -Padraic

Subject: RE: Draft Stormwater Permitting Rule

Julie, Emily – As to next steps on the Rule, we'd like to get the draft out to stakeholders as soon as we can, to allow for informal review before we submit it to ICAR. Our hope is to hit the December ICAR, which is a tight timeframe. Please let me know once we have the ok to share this draft of the rule.

When we met with the Governor's office it was my understanding that they were interested in what a notification letter for the "3-acre sites" would look like. To that end I have attached a draft example letter. Additionally, Kari is working with Rebecca to compile a list of funding sources, and I'll add that to the letter as soon as it is ready.

Finally, the version of the rule that Elizabeth just sent is very similar to the previous version, but we have added a -very important – definition of three acre sites, and built in additional flexibilities for sites that partially meet standards. We'll use the period between releasing the stakeholder version and filing with ICAR to add more specifics regarding partial treatment, BMP curves, etc.

Happy to discuss any questions you might have. Thank you. -Padraic

Subject: Draft Stormwater Permitting Rule

Julie and Emily,

Attached is a clean copy of the draft "Stormwater Permitting Rule." Please let me know if you have any questions about the Rule generally or about specific language or provisions.

Best,
Elizabeth
