FY2022 Year in Review Summary:

In many ways, FY22 began much like FY21 COVID-19 continued to cast a shadow over the State and the country resulting in major changes in the workforce landscape. Large numbers of employees continue to work remotely. The hybrid element of remote work adds a layer of complexity that the employees, supervisors, and HR staff had to navigate in a constantly changing environment. COVID-19 testing centers continued to be busy through 2021. COVID-19, of course, added new challenges to the bargaining process. Perhaps one of the most significant occurrences of FY22 is the unprecedented change in employee expectations in an increasingly complex workplace environment. As you can see below, we broke records across Talent and Acquisition metrics. Voluntary terminations increased significantly in FY22 resulting in an overall turnover rate of over 15%. At the same time, the ability to attract qualified candidates became increasingly difficult and complex.
