Chair Lalonde,

Included on the following pages and in the attached spreadsheet are charts and raw data detailing tickets issued for overservice, selling alcohol to a minor, and tickets issued for underage consumption, possession, and misrepresenting age. Please note that when interpreting 2022 data it is important to keep in mind that was a year when many licensees returned to somewhat normal operations, and public sentiment about socializing also largely normalized, which could partially explain what appears to be an uptick in ticket issuance after the two previous years of limited operations and closures.

We do not track our violations by business type, so the data reflected here includes violations resulting from interactions with all licensee types. However, our enforcement experience is that most of tickets issued for violation of DLL G.R. 17 (overservice) were issued to bars and restaurants.

Please let us know if we can provide further context to the Committee.

Thank you,

Wendy Knight
