My name is Vera Bravo Vivar. I emigrated from Russia to the United States, Vermont (in Manchester). In Russia, I was a lawyer and a teacher.

I have been attending classes at the Tutorial Center in Manchester to improve my English so that I can find a good job and communicate more clearly with my writing and speaking. The director and teachers are very professional. The teacher know how to make the lessons specific to my needs as a student.

Through the Tutorial Center, I've met a person from the Department of Labor who will also help me to find a good job. Without the help of Tutorial Center I would not have the chances I do now to find meaningful employment where I can use my skills. I support the Tutorial Center in the effort to get more funding.

The team at the center has truly helped me to change my life, and to open up many opportunities.

All the best
Vera
