

Hi,

Thanks for the hearing on Tue on S.114. As discussed, the committee was looking for a group to lead the psychedelic therapy advisory group. The VT Psychological Association is willing to serve to convene the meetings, staff them to run the meetings and take notes, compile and submit the report. We voted as a board today and it was approved.

I will follow progress on the bill during and after crossover to see if it keeps moving and then begin once the Governor signs it.

Please advise if you'd like to add/edit anything here.

Thank you,

Rick
