**Page 9**

**H. 97 Shall the bill pass?**

**Rep. McCoy of Poultney** explained her vote as follows:

“Madam Speaker:

This budget adjustment includes a small, but critical, step towards the longterm goal to achieve prefunded status in our retired state employees’ and teachers’ health benefit funds, as well as in pension funds for each group. We must continue to work together to make further progress to moderate our debt, especially our pensions and unfunded healthcare liabilities, as recommended by Moody’s in October, while improving our demographics and growing our economy.”

**Rep. McCullough of Williston** explained his vote as follows:

“Madam Speaker:

I vote yes in recognition of the most excellent work of the Appropriations Committee. But, with a tear on my cheek for the ‘strong request’ that the members reply ‘yes’ or ‘no’ vs. traditional ‘aye’ or ‘nay.’”

**Page 10**

**H. 3 Shall the bill pass?**

**Rep. Krowinski of Burlington** explained her vote as follows:

“Madam Speaker:

I vote yes because this bill will start a collaborative process that we hope will reduce bias and harassment and teach children the stories and history of all people. This is one step we can take to create a Vermont that works for everyone.”

**Page 11**

**H. 47 Shall the bill pass?**

**Rep. Leffler of Enosburgh** explained her vote as follows:

“Madam Speaker:

While I loathe to level a tax, especially a new one, I feel that my vote yes on this bill signifies my dedication to the health and safety of Vermont’s children and the progress that we have made to decrease addiction and nicotine use over the last twenty years. My vote is for these reasons.”

**Rep. Rosenquist of Georgia** explained his vote as follows:

“Madam Speaker:

I would have voted for this bill with the proposed amendment. We should not raise the tax on the heater itself as it has other uses.”

**Page 12**

**H. 39 Shall the bill be amended as offered by Rep. Scheuermann of Stowe?**

**Rep. Mrowicki of Putney** explained his vote as follows:

“Madam Speaker:

In a representative democracy, our constituents depend on us to carry their voice to the Statehouse. My vote reflects the clear will of Windham 4 voters, both in regards to their merger vote and the recent election where this was in the top 3 issues of campaign 2018. I am in accord with those voters and am glad to bring their voice into the People’s House.”

**Page 14**

**H. 57 Shall the report of the Committee on Human Services be amended as offered by Rep. Rosenquist of Georgia?**

**Rep. Hashim of Dummerston** explained his vote as follows:

“Madam Speaker:

Creating fetal rights by identifying them as individual people is misguided at best, and subversive at worst. It would be misguided because this concept separates a woman from her fetus as different entities, and this is filled with risks in our legal system that would impede a woman’s right to abortion. The purpose of this bill as it stands is to maintain the status quo of a woman’s right to abortion, not to create impediments to that right.”

**Page 15**

**H. 57 Shall the report of the Committee on Human Services be amended as offered by Rep. Rosenquist of Georgia and Rep. Bancroft of Westford?**

**Rep. Copeland-Hanzas of Bradford** explained her vote as follows:

“Madam Speaker:

Unless you have faced the horrific choice of what to do when you’re faced with a diagnosis of a fetus who is incompatible with life you cannot possibly comprehend the pain and suffering this diagnosis brings upon a woman. Of all the amendments being offered today, all of which are designed to intrude in the doctor-patient relationship, this one has to be the most cruel. Unless you have sat side by side with a woman agonizing over the sadness of mourning over the unviability of a hoped-for child and traumatized daily as friends and neighbors, noticing her ever-growing belly, joyfully asked her all the normal questions: due date, sex, names. To insert government in between a woman and her doctor in this, the only type of situation in which doctors might perform abortions later in pregnancy, would effectively sentence this woman to months of re-traumatization and could be nothing short of cruel.”

**Rep. Scheu of Middlebury** explained her vote as follows:

“Madam Speaker:

I voted no on this amendment because it does nothing to maintain a woman’s inherent right to make her own decisions. There is plenty of medical oversight in the event that an abortion must be performed after 23 weeks. I can’t begin to imagine the pain and agony a woman would feel if she had to terminate her pregnancy at this time. This is an amendment in search of a problem that doesn’t exist.”

**Rep. Sibia of Dover** explained her vote as follows:

“Madam Speaker:

I do not support changing Vermont women’s current access to abortion. I vote no.”

**Page 16**

**H. 57 Shall the report of the Committee on Human Services be amended as offered by Rep. Bancroft of Westford?**

**Rep. Gonzalez of Winooski** explained her vote as follows:

“Madam Speaker:

We do not legally restrict access to medical procedures with waiting periods. Putting such a restriction on someone seeking the medical care of an abortion is beyond the scope of government. It disrespects the autonomy of a person seeking this care and disrespects our medical providers. Waiting periods are medically harmful, emotionally painful, and increase abortions performed later in pregnancies. For all these reasons I voted No.”

**Page 17**

**H. 57 Shall the report of the Committee on Human Services be amended as offered by Rep. Bancroft of Westford?**

**Rep. Bancroft of Westford** explained his vote as follows:

“Madam Speaker:

I offered this amendment to insure that parents are aware of a traumatic event in their minor daughter’s life and if she is being abused by an abusive boyfriend or a relative, then this amendment could expose the abuse and end it – not send her back to the abuse.”

**Rep. Colburn of Burlington** explained her vote as follows:

“Madam Speaker:

I have helped young women – sometimes very young women – who were facing this choice. One example stands out to me – a twelve year old who had been raped by her father. The idea of asking a young woman in that scenario to submit to the judicial bypass process set forth in this amendment, with its inherent trauma and delays, is unthinkable. I vote no.”

**Rep. Sullivan of Dorset** explained her vote as follows:

A minor in states with parental involvement laws is apparently old enough to decide to have a child but too young to decide not to have one. I voted no on this amendment because it clearly favors one resolution over the other and serves to restrict and coerce minors into making the choice that their legislators want them to choose, rather than the one that is best for them and their own lives.

Whether someone wants to have children or not should be completely up to the person carrying that pregnancy, as well as anyone else they want to involve. Having a child and having an abortion for that

matter, affects the pregnant person more than it does anyone else. We live in a world where a girl might have anti-choice parents and although she isn't ready to have a child, her parents will not grant her the consent needed to have an abortion. We live in a world where young people are abused by their caregivers and may even be pregnant as a result of this abuse! From TRAP (Targeted Regulation of Abortion Providers) laws that have caused too many abortion clinics to close, to restrictions on gestational age that send many women traveling out of state, to mandatory ultrasounds, waiting periods and counseling laws that unnecessarily burden and traumatize patients, parental notification and consent laws are yet another law that stands in the way of women and their legal right to an abortion.

These laws affect everyone, but they make abortion particularly hard for those already experiencing social and economic marginalization, not limited to poor women, rural women, women of color, and girls under 18. In the context of all the seemingly small barriers to accessing abortion, parental involvement laws can add a major obstacle for minors. For some minors, it may just be a matter of having to tell parents that may not be very supportive of their decision; for others, it may mean being kicked out of their home or further exacerbating an already abusive home life.

Parental involvement laws assume that a minor's parents are going to help their child make the right decision and that parents always have their child's best interests in mind. But, unfortunately, we know that we don't live in that world. Without state laws minors actually will tend to tell their parents, and the younger they are, the more likely they are to seek parental support.

For those who do not tell their parents, they often have important reasons for not doing so. So many of pregnant teens that have experienced abuse report being assaulted, most often by a family member, prior to, during, and after their pregnancy.

We must stop supporting parental involvement laws as if they have any kind of positive effect on the choices of girls. We have to stop ignoring the fact that girls have sex and they need access to birth control and abortion just as adults do. Most of all, we need to stand with girls and include them in the fight for reproductive justice.

Choosing to have a child has a larger impact on a person's life than choosing to have an abortion. It is more of a burden financially, it is more physically strenuous and dangerous to a person's health, it carries far larger consequences on a person's future, and it requires a certain amount of stability, emotionally and otherwise. We do NOT require any kind of parental or court involvement before a person wishing to obtain an abortion, not only do parental involvement laws place minors at risk for more complicated procedures, but also for potentially difficult relationships and home lives as well."

**Page 19**

**H. 57 Shall the report of the Committee on Human Services be amended as offered by Rep. Strong of Albany?**

**Rep. Norris of Shoreham** explained his vote as follows:

"Madam Speaker:

As a member of K of C Council #42 of Middlebury we purchased an ultrasound for Planned Parenthood of Middlebury for use with no cost as a policy of the Knights of Columbus."

**Page 20**

**H. 57 Shall the report of the Committee on Human Services be amended as offered by Rep. Bancroft of Westford?**

**Rep. McCoy of Poultney** explained her vote as follows:

“Madam Speaker:

If the purpose of House bill 57 is to ‘codify current practice’ then I believe this important piece of legislation should be included in the bill.”

**Page 21**

**H. 57 Shall the bill be read a third time?**

**Rep. Burditt of West Rutland** explained his vote as follows:

“Madam Speaker:

Agree or disagree with me – tonight I vote to move H.57 to third reading. Tomorrow is another day.”

**Rep. Gonzalez of Winooski** explained her vote as follows:

“Madam Speaker:

Today I voted yes. Protecting the right to this medical procedure is important for the health of Vermonters. Access to reproductive health care, including abortions, is important physical health, emotional health, economic health, and gender equity.”

**Rep. Harrison of Chittenden** explained his vote as follows:

Madam Speaker:

I came here today hoping H.57 would get amended and I could support the legislation in the end. I came looking for compromise that would maintain a women’s right to choose, keep us compliant with Roe v Wade, but would also recognize the interests of the unborn in their later stages of development. That didn’t happen with the voting down of each and every amendment. Consequently I vote No. I leave with disappointment no doubt shared by many others. H.57 goes too far.”

**Rep. Krowinski of Burlington** explained her vote as follows:

“Madam Speaker:

This legislation codifies what current practice is in Vermont on abortion care so there is no question – depending on what happens with the Supreme Court. I believe it is a deeply personal decision of whether or when to become a parent and it should be left to a woman and her health care provider. I trust women and that’s why I voted yes.”

**Rep. Mrowicki of Putney** explained his vote as follows:

“Madam Speaker:

I want to first thank all the courageous women who blazed the trail we are keeping open with our work today and the women who have spoken so eloquently today. My vote supports their privacy and self-determination on this most sensitive health care decision. A decision that is – and should remain – solely between a woman and her health care provider. Government has no business imposing itself into these

decisions. This bill changes nothing from current practice but ensures that instability in Washington won't affect rights for women that have been in place for 46 years. Plain and simple, my vote affirms a woman's right to choose for herself."

**Rep. Smith of Derby** explained his vote as follows:

"Madam Speaker:

This bill is a piece of fear legislation. The fear being the possible loss of a U.S. Supreme Court Justice and being followed by a Presidential appointment. That, I believe is the fear behind H. 57. Absolutely."

**Page 22**

**H. 57 Shall the bill be amended as offered by Rep. Donahue of Northfield?**

**Rep. Gonzalez of Winooski** explained her vote as follows:

"Madam Speaker:

Lesbian, bisexual, queer, gay, and questioning youth are 120% more likely to experience, homelessness than their heterosexual peers. Transgender and gender queer youth are at even greater risk. They are also 3.40% more likely to experience pregnancy. Forcing youth to disclose a pregnancy may force other disclosures, exacerbate risk, and reduce youth wellbeing on multiple fronts."

**Rep. Scheu of Middlebury** explained her vote as follows:

"Madam Speaker:

The primary factor in determining whether a young woman consults her parents before seeking abortion care is the quality of her relationship with her parents. As we've heard, most young women do consult their parents. However, many young people live in dysfunctional or unsafe family environments, and no amount of legislation is going to turn these families into stable homes or make communications easier. Forcing vulnerable teens with bad family circumstances to notify their parents puts them at risk of violence or being turned out of their homes. The alternate requirement, compelling a young woman, who is already dealing with a traumatic situation, to stand in front of a perfect stranger of a judge with another stranger who has been appointed as her attorney will not only add to her emotional distress, but also delay the process. For these reasons, I vote no on this amendment."

**Page 25**

**H. 57 Shall the bill be amended as offered by Rep. McFaun of Barre Town?**

**Rep. Elder of Starksboro** explained his vote as follows:

"Madam Speaker:

This amendment would establish medical providers as the gatekeepers to abortion services. I trust women to make their own decision and then to consult with their chosen provider, their family and their friends as they see fit."

**H. 57 Shall the bill pass?**

**Rep. Bancroft of Westford** explained his vote as follows:

“Madam Speaker:

We are fortunate in Vermont that we do not have any pressing financial and social problems, so that we can devote thousands of person hours to passing a bill that does not change anything. I am constantly amazed at my naiveté. I would hope that legislation dealing with such a complex and emotional issue as abortion would require an exhaustive examination of the issues and develop a comprehensive bill based on the best science. This is certainly not the case with H.57. The purpose behind H.57 is simple to provide a platform for political grandstanding. I am pleased that this avenue for political grandstanding on the issue of abortion was chosen instead of the resolution path used in the past. This allowed for a greater opportunity to look at the complexity underlying this issue. Instead of a simple binary choice, the amendments to H.57 allowed for those with different views to have their voices heard. Planned Parent Hood and the ACLU are not the only organizations that will report on how members voted.”

**Rep. Christensen of Weathersfield** explained her vote as follows:

“Madam Speaker:

I am a woman of an age who remembers what it was like before abortions were legal. Women of means left the country to have an abortion. Women with no means traveled to dark alleys.”

**Rep. Colburn of Burlington** explained her vote as follows:

“Madam Speaker:

In my work with Vermont Access to Reproductive Freedom, women shared their stories with me as they faced, what for so many was the most difficult decision of their lives. Again and again people told me whether or not they had considered them selves pro-choice prior to their decisions, access to abortion was keeping their families together and saving their lives. I vote yes tonight to honor their candor and experiences. They taught me that a legislature can never anticipate the totality of circumstances that impact these choices.”

**Rep. Copeland-Hanzas of Bradford** explained her vote as follows:

“Madam Speaker:

It is 2019. Women demand equal treatment. We demand equal opportunity. We demand equal agency over our bodies and our lives. We demand privacy in our own health care decisions. To paraphrase a Pastor from a Vermont church, “The underlying assumption in the debate is that women are not capable of making such deeply important decisions for themselves.” The idea that society must step in and make these decisions for them is something this body has firmly rejected today.”

**Rep. Donahue of Northfield** explained her vote as follows:

“Madam Speaker:

The failure to acknowledge the deeply troubling conflict between the interests of a genetically distinct life and a person’s right to control their own body when it is being called upon to sustain that interconnected

life, makes it impossible for me to support this bill. It is a bill the symbolic value only, since the fact is that a change in the Roe v. Wade precedent would have no effect on Vermont, and since this bill also carries no weight regarding any future actions in Vermont law.”

**Rep. Grad of Moretown** explained her vote as follows:

“Madam Speaker:

I voted yes because H. 57 codifies the current State of Vermont law that has no restrictions on a woman’s access to reproductive healthcare services. H. 57 will ensure a woman’s right to access reproductive health care services, including abortion, remains unconstrained by the law. It will give Vermont women certainty within the law.”

**Rep. Leffler of Enosburgh** explained her vote as follows:

“Madam Speaker:

My time in this chamber is because of and for Vermonters. In this role, I strive to preserve and promote our rights and liberties to the best of my abilities. My vote on this bill is because, while I support an individual’s right to choose, this is not the avenue in which to codify choice. There are serious concerns and questions that this bill raises for me and many of my constituents. Primary of these concerns is that this bill seeks to solve a problem that currently, in this state, does not exist. I support choice; however, to express the will of my constituents, I cannot support this bill. Thank you.”

**Rep. McCoy of Poultney** explained her vote as follows:

“Madam Speaker:

If this bill were to never become law, nothing would change in the State of Vermont. Let me be clear: I am pro-choice; however, I cannot support a bill without addressing the viability of a fetus. Simply stating over and over ‘We’re codifying current practice,’ is just not good enough. What is current practice?”

**Rep. McFaun of Barre Town** explained his vote as follows:

“Madam Speaker:

I don’t believe anyone has a right to tell a woman what to do with her body. I vote yes out of respect for my wife, 2 daughters, and 3 granddaughters. It’s their choice. I hope the never have to make this choice.”

**Rep. Stevens of Waterbury** explained his vote as follows:

“Madam Speaker:

The right to choose - in this case to have a safe and legal abortion – has long been established by law. That law, on a federal level, has protected Vermonters and has allowed for a mother – and most times a father – the ability to plan for the family they think they can raise in health and safety. The fact that right is threatened on the federal level has forced us to capture in our statutes that protect that right. H. 57 puts the laws in our books and it allows us to continue this discussion in the future here in this building. H. 57 is about the health of the mother, plain and simple. It is her mental and physical health that matters in these decisions, and they are best left to the woman and her doctor.”

**Rep. Sullivan of Dorset** explained her vote as follows:

“Madam Speaker:

The principal at stake today is not whether abortion is right or wrong. It is about a woman’s relationship with our government, and specifically her freedom from government control over the most highly personal decision she might make affecting her body. It does not belong to the government and it certainly does not belong to a local prosecutor’s office. It belongs to us, as women.”

**Rep. Webb of Shelburne** explained her vote as follows:

“Madam Speaker:

The Chamber has spoken. Let us now take our attention off abortion. Let us instead take this same degree of time, concern, intensity, and media attention to focus on creating conditions for women who want to bring healthy and thriving families into the world. We will have bills and appropriation requests to support young mothers. To support child care. To support children growing up with trauma so severe it is changing the network connections of their brains. Let us come back together, pro-birth and pro-choice, to work together for a world where Vermont children are born and cared for and the need for abortion is rare. Let us expand what we mean by “pro-life.”

**Rep. White of Hartford** explained her vote as follows:

“Madam Speaker:

As a woman, and particularly a young woman, I vote today to support H. 57. For far too long the individuals least impacted by access to safe and legal abortion have been making the laws that govern abortions. I trust women. Therefore, I cast my vote in favor of codifying the protections Vermonters’ have and safe guarding this fundamental reproductive right.”

**Rep. Yantachka of Charlotte** explained his vote as follows:

“Madam Speaker,

I support the intent of H.57 to ensure reproductive autonomy for women. I also strongly believe that our understanding of biology confirms that a fetus, having reached viability in the womb, is as much a human being as it is after birth. While H.57 does not explicitly address this fact, I am reassured from speaking with several physicians that established medical procedure, including prior consultation with an ethics panel, recognizes this and does not permit abortions after 23 weeks without a medical necessity such as a non-viable fetus or a threat to the patient's life. Furthermore, the federal law prohibiting partial birth abortions is explicitly referenced. With that understanding, I vote yes on H.57.”

**Page 29**

**H. 460 Shall the bill pass?**

**Rep. Burditt of West Rutland** explained his vote as follows:

“Madam Speaker:

Quite simply I voted yes on H.460 because I do believe in giving people a second chance.”

**Rep. Donahue of Northfield** explained her vote as follows:

“Madam Speaker:

My vote does not reflect a question about new offenses covered under this bill. It reflects my ongoing opposition to a statute that allows full expungement after too brief a period of time after conviction and sentencing.”

**Rep. Morrissey of Bennington** explained her vote as follows:

“Madam Speaker:

Let’s not be told that the Senate will fix our legislation when we had the opportunity to fix it ourselves. I do hope that the Senate will fix it so that I will be able to vote yes, as I had wanted to today.”

**Rep. Rachelson of Burlington** explained her vote as follows:

“Madam Speaker:

People with criminal records who have remained crime free for 4-7 years are no more likely to commit a new crime than the general public. H.466 helps give people a chance to live their lives without being jobless, homeless, and stigmatized after they have served their sentence. Without tools like expungement, we continue the practice of making a criminal record a life sentence to poverty. Expungements are a win for families, communities, and the economy.”

**Rep. Smith of Derby** explained his vote as follows:

“Madam Speaker:

I do agree with an expungement bill. However, voting to expunge a cocaine conviction and NOT a DUI conviction is not the right way to do this!”

**Page 30**

**H. 530 Shall the bill be read a third time?**

**Rep. Gamache of Swanton** explained her vote as follows:

“Madam Speaker:

I agree with the new standards and vetting board for selection of Adjutant General, but strongly disagree with the legislature continuing to elect the Adjutant General. I believe since the governor is commander-in-chief, it is the governor who should appoint the Adjutant General.”

**Rep. McCoy of Poultney** explained her vote as follows:

“Madam Speaker:

I thank the committee for their work on this bill as this statute needs to be updated. As the wife of a retired Brigadier General of the Vermont Army National Guard, who retired as the Assistant Adjutant General after 38 Years of service, I firmly believe the Adjutant General should be a gubernatorial appointment.”

**Rep. Sibilia of Dover** explained her vote as follows:

“Madam Speaker:

I vote yes. While I originally opposed continuing the process of this body electing the Adjutant General, I have since heard from a number of rank and file guardsmen who support maintaining this important connection between them and the Vermont legislature.”

**Page 31**

**H. 513 Shall the bill be read a third time?**

**Rep. Briglin of Thetford** explained his vote as follows:

“Madam Speaker:

Using the best models of success in Vermont, this bill empowers local communities to solve local deficiencies in broadband service. By supporting these communities with state resources, we can create a Vermont that works for everyone by getting broadband internet access to everyone. It’s time to increase the fiber in Vermont’s telecommunications diet.”

**Rep. Copeland-Hanzas of Bradford** explained her vote as follows:

“Madam Speaker:

There’s no doubt that small town Vermont is an ideal location to raise a family and grow a business. There’s an undeniable charm in our small villages and close-knit communities. Four years ago a young couple moved into my neighborhood with a dream of operating a sustainable farm and CSA. When they realized the cost and barriers to high speed internet in my neighborhood there were shocked. With frustration they asked, ‘What young family would ever make the choice to live in a place with no opportunity to connect to the outside world?’ The technology gap between the haves and the have-nots has disadvantaged our rural families and our small towns for far too long. Many thanks to the Energy and Technology committee for putting a plan in place to close that gap.”

**Rep. McCoy of Poultney** explained her vote as follows: “

Madam Speaker:

I continue to support broadband for all. While I am concerned about ‘the worst case scenario’ as stated in the bill explanation, we need to move forward so we may finally realize broadband for all.”

**Rep. Noyes of Wolcott** explained his vote as follows:

“Madam Speaker:

Access to high-speed broadband internet opens economic markets and drives innovation. It will benefit older Vermonters and help them to age in their homes and communities by providing access to the internet of things, telemedicine, and monitoring services. I voted to support this bill that will provide the funding and tools need to bring broadband to our rural communities, where we need it the most.”

**Page 33**

**H. 439 Shall the bill be amended as recommended by the Committee on Ways and Means?**

**Rep. Browning of Arlington** explained her vote as follows:

“Madam Speaker:

I vote no because we are raising money for a good program in a regressive way that doubles the burden of this tax on ordinary Vermonters. We should raise money for the worthy home weatherization program in a progressive way instead.”

**Rep. Gardner of Richmond** explained her vote as follows:

“Madam Speaker:

I voted no. While I recognize the benefits this bill provides for a few and to the environment, I also recognize the burden it places on many others - our retirees, our young working families and our small business owners – who do not qualify for this program. I strongly support the program but I can’t support the funding source.”

**Rep. Hashim of Dummerston** explained his vote as follows:

“Madam Speaker:

I voted yes because I do strongly support our weatherization program, and I do actively support addressing climate change as do many of my constituents. However, I feel compelled to express my disappointment in the fact that our opportunity to fairly debate and vote on the amendment from the member of Arlington was taken from us.”

**Rep. McCullough of Williston** explained his vote as follows:

“Madam Speaker:

I vote yes for weatherization to make Vermont’s grandmothers warmer, while giving them a more cost-effective use of their limited and often meager dollars.”

**Rep. Mrowicki of Putney** explained his vote as follows:

“Madam Speaker:

I voted yes to help low income Vermonters; yes, for climate action; yes for a cleaner environment for today and future generations; yes for increased weatherization; and, yes to thank the Ways and Means Committee for their work on this vital piece of legislation.”

**Page 34**

**H. 439 Shall the bill be amended as offered by Rep. Mattos of Milton?**

**Rep. Beck of St. Johnsbury** explained his vote as follows:

“Madam Speaker:

Vermonters deserve transparency. The fuel tax is a tax on carbon heating fuels, with the revenue used to reduce carbon usage. It is a carbon tax whether it is convenient to say it or not.”

**Rep. Till of Jericho** explained his vote as follows:

“Madam Speaker:

I vote no. This is not a carbon tax. A carbon tax is based on the amount of carbon released when a fuel is burned. Here we have tax based on gallons purchased. Propane, diesel, and kerosene each release different amounts of carbon but are taxed the same in this bill. The purpose of a carbon tax is to alter behavior. The purpose of this bill is to alter buildings to reduce money spent on heating and cooling and to improve people’s health.”

**Rep. Young of Greensboro** explained his vote as follows:

“Madam Speaker:

Not in my wildest dreams did I ever imagine so many of my Republican colleagues voting to create a carbon tax.”

**Page 35**

**H. 439 Shall the bill be amended as offered by Rep. Graham of Williamstown?**

**Rep. Bartholomew of Hartford** explained his vote as follows:

“Madam Speaker:

I’ve served on the Agriculture and Forestry Committee for quite a few years. Therefore, I clearly understand that our farmers are struggling and was seriously tempted to vote for this amendment. However, this is an important bill that begins to address the challenges presented by climate change. It’s a small step to address the easiest way to reduce the amount of fossil fuel we use. This is fuel that is needlessly wasted due to our housing inventory that is in desperate need of weatherization. Our greatest fuel efficiency comes from fuel we don’t use. The time to find easy and inexpensive solutions to climate change passed long ago. The path forward in finding a solution will not be easy and will touch everyone.”

**Rep. Beck of St. Johnsbury** explained his vote as follows:

“Madam Speaker:

Vermont’s farmers and foresters are on the ropes. They will be heartened to know we’ve reduced their tax burden.”

**Rep. Burditt of West Rutland** explained his vote as follows:

“Madam Speaker:

I find it interesting 7-8 years ago we passed a Working Landscapes bill that in part gave relief to the forestry industry. Today we are potentially revoking part of that relief.”

**Rep. Campbell of St. Johnsbury** explained his vote as follows:

“Madam Speaker:

I am sympathetic to the needs of farmers, foresters, and the construction industry. As this is not a heating use, and the intent of the tax is to reduce heating use, and also in the spirit of compromise, I vote to support this amendment.”

## Page 36

**H. 439 Shall the bill be amended as offered by Rep. Browning of Arlington?**

**Rep. Browning of Arlington** explained her vote as follows: “

Madam Speaker:

I vote yes for an increase in funding for low income home weatherization using 50% increase in the fuel tax. This is a common sense and balanced compromise between no increase and a 100% increase in that tax.”

**Rep. Seymour of Sutton** explained his vote as follows:

“Madam Speaker:

Be it a 1 cent increase or a 2 cent increase, the people of Vermont have still been taxed too much.”

## Page 38

**H. 531 Shall the bill pass?**

**Rep. Jessup of Middlesex** explained her vote as follows:

“Madam Speaker:

H.531 addresses three important areas. First, it expands high quality and affordable childcare slots. Second, it incentivizes those who care for our youngest Vermonters to stay in the field. And third, it allows parents and guardians to return to the workforce. In sum, H.531 exemplifies ‘doing well by doing good.’”

**Rep. Nicoll of Ludlow** explained his vote as follows:

“Madam Speaker:

I vote yes today for childcare providers and small businesses throughout our state.”

**Rep. Ode of Burlington** explained her vote as follows:

“Madam Speaker:

Passage of this childcare bill is a ‘win’ for Vermont. It is essential for continued economic development. It helps businesses, small and large. It supports parents and children. It is important to our workforce. And it sends a signal to young families that Vermont strives to continue to be a healthy place to live and to raise a family.”

**Rep. Pugh of South Burlington** explained her vote as follows:

“Madam Speaker:

There would be one more enthusiastic yes if the representative from Waterbury, one of the bill reporters, had been able to be here this evening.”

**Page 40**

**H. 524 Shall the bill be amended as offered by Rep. Harrison of Chittenden?**

**Rep Yacovone of Morristown** explained his vote as follows:

“Madam Speaker:

I visited Woodbury recently to attend a pie breakfast, and while wondering how many ‘points’ the pie I was eyeing might have I saw a sign on the wall of the school gym that said TEAM – Together Everyone Achieves More. I am reminded of that sign (and the pie) today. When we are divided, when we splinter off, we lose. Together we all achieve more.”

**Page 41**

**H. 542 Shall the bill be read a third time?**

**Rep. Cina of Burlington** explained his vote as follows:

“Madam Speaker:

I vote yes because I appreciate the efforts of the Appropriations committee to create a balanced budget within our means. However, I must register my concern because we haven't made climate action enough of a priority. What will be the cost of our inaction today on the people and our planet tomorrow?”

**Rep. Krowinski of Burlington** explained her vote as follows:

“Madam Speaker:

I vote yes for this budget. By supporting higher education, making mental health and parent child center investments, just to name a few, help us create a Vermont that works for all of us. This budget provides strategic investment in Vermont families and programs that boost the economy and build stronger, healthier communities. Thank you.”

**Rep. McCoy of Poultney** explained her vote as follows:

“Madam Speaker:

I sincerely thank the House committee on Appropriations for their hard work and diligence in presenting a balanced budget. I am disappointed we could not meet the Governor's recommend of 8 million to ensure we are appropriately resourcing our clean water efforts, which was also recommended by the Clean Water Board. I will be disappointed if a bill is put forth in the coming weeks that recommends a new tax or fee to make up for this 8 million funding gap. We all agree that clean water is a priority, however, without information on a path forward on clean water, I am anxious we do not have a complete picture on whether this expenditure will be restored and how it will be funded.”

**Page 42**

**H. 524 Shall the bill pass?**

**Rep. Chesnut-Tangerman of Middletown Springs** explained his vote as follows:

“Madam Speaker:

This bill is an important piece of legislation to protect affordable health coverage for all Vermonters.”

**Rep. Dolan of Waitsfield** explained her vote as follows:

“Madam Speaker:

I support this bill because it preserves the critical elements in the affordable care act that benefits all of us, such as coverage for people with pre-existing conditions and to achieve stabilization of the health care marketplace.”

**Page 43**

**H. 541 Shall the bill pass?**

**Rep. McCoy of Poultney** explained her vote as follows:

“Madam Speaker:

I thank the House Ways and Means Committee for their hard work. I voted yes; however, I remain concerned about reducing the capital gains exclusion percentage by 10%.”

**Rep. McFaun of Barre Town** explained his vote as follows:

“Madam Speaker:

Although I appreciate the good work of the Ways and Means Committee I can't vote for a tax that is going to affect low income people.”

**Rep. Scheuermann of Stowe** explained her vote as follows:

“Madam Speaker:

Thank you Madam Speaker. I vote yes on this bill because it is a sound one. While I don't agree with all of the provisions, I truly appreciate the work on the estate tax, the land gains tax, the downtown tax credit program, and the online travel agencies. I thank the committee for their work."

**Rep. Till of Jericho** explained his vote as follows:

"Madam Speaker:

I vote yes. A yes vote is a vote to increase the exemption from the estate tax. A yes vote is a vote to increase downtown and village center and affordable housing tax credits and assistance. A yes vote is a vote to simplify the lands gains tax. A yes vote is a vote to clarify the property transfer tax. A no vote because of disagreement with a single provision is a vote to not do these things and is extremely foolish."

**Page 44**

**H. 542 Shall the bill pass?**

**Rep. Dolan of Waitsfield** explained her vote as follows:

"Madam Speaker:

I support this bill and look forward to working with everyone here today to achieve a long term funding solution to provide clean water statewide. Providing safe clean water is a priority for all of us. Flood resilience is a priority for all of us. With outdoor recreation and tourism being a \$2.5 billion per year industry, clean water is also important to a healthy economic future."

**Rep. Sheldon of Middlebury** explained her vote as follows:

"Madam Speaker:

I vote yes on this fiscally responsible budget that balances many needs while reflecting the priorities of Vermonters."

**Rep. Stevens of Waterbury** explained his vote as follows:

"Madam Speaker:

I voted yes on this bill. The investments made within this budget will continue to serve low income Vermonters, middle class Vermonters, our downtowns, our National Guard, and our efforts to provide affordable housing to more Vermonters. I am grateful for the committee's long work, and for the coherent vision it represents on our behalf."

**Rep. Toll of Danville** explained her vote as follows:

"Madam Speaker:

Today the Vermont legislature exhibited a standard that other states and our national leaders should model. Working together, legislators from all political parties found common ground in support of our state budget on a nearly unanimous vote. Well done – Vermont!"

Page 45

**H. 107 Shall the Report of the Committee on Ways and Means as amended be substituted by the amendment offered by Reps. Browning of Arlington and Sullivan of Dorset?**

**Rep. Browning of Arlington** explained her vote as follows:

“Madam Speaker:

I vote yes for a moderate and financially sustainable paid family and medical leave program is equitable and flexible.”

**Rep. Leffler of Enosburgh** explained her vote as follows:

“Madam Speaker:

I voted yes on this amendment because it is and was the fiscally responsible, moderate, measured approach with which to move forward. Supporting our Vermont families should always be taken with the perspective of cost and sustainability.”

**Rep. Sullivan of Dorset** explained her vote as follows:

“Madam Speaker:

I strongly believe that paid family leave – especially parental leave for newborn infants – provides important benefits to workers, their families and even their employers. Providing paid leave with moderate replacement rates up to a cap, for limited durations of time makes good sense, as does paying for the leave with a modest increase in the payroll tax. This tax should be primarily on employees, and fully funded to avoid burdening the federal or state governments with new fiscal shortfalls. But it is important to strike the right balance between these benefits and the costs imposed on other workers, employers and perhaps the governments in question. Failure to consider these costs might well create a range of serious problems - such as shortfalls and lower employment for less educated younger women. It would be a great shame if such policies harm the very people whom we intend to benefit from them. That is why I support H. 107, the amendment brought by the Representative from Arlington.”

Page 46

**H. 107 Shall the bill be read a third time?**

**Rep. Chesnut-Tangerman of Middletown Springs** explained his vote as follows:

“Madam Speaker:

Accidents and emergencies don't happen on schedule. As we heard in testimony today, they strike randomly and unexpectedly. This bill provides a safety net that we all weave, and we all benefit from, when and if we need it.”

**Rep. Donahue of Northfield** explained her vote as follows:

“Madam Speaker:

A program funded with employer options for contribution does not 'level the playing field' – it creates an inequity in access to a benefit, exacerbating the accident of history that created our existing gross inequities in access to health care. Our first priority with any new revenue this state can afford to raise from its citizens should be that desperately elusive goal – achieving equitable access to health care.”

**Rep. Feltus of Lyndon** explained her vote as follows:

“Madam Speaker:

The \$80 million price tag for this bill is way out of proportion to our other critical needs in higher education, environmental protection, and human services. For this reason, I voted no.”

**Rep. Hooper of Randolph** explained his vote as follows:

“Madam Speaker:

This bill creates a policy that can and will be, exercised as a recruiting tool for employers across Vermont. I believe Paid Family Leave will develop as a key component to attracting and retaining young families to our demographically distressed, Green Mountain State.”

**Rep. Leffler of Enosburgh** explained her vote as follows:

“Madam Speaker:

I appreciate all of the work that was done by the various committees on this bill. However, I refuse to accept the premise that this bill is the only path forward. Just today we heard four paths forward for Vermonters. I support our Vermont families and because of that I did not support this bill. It isn't right yet! This body owes Vermonters our diligence to do this correctly. \$80 Million isn't right. We have options and should be taking the time to flesh them out. Just last year, a similar proposal was touted at \$17 million. Now this bill demands \$80 million from our paychecks. Who knows what it will be going forward. All of these factors and more are why I voted against this bill.”

**Rep. McCoy of Poultney** explained her vote as follows:

“Madam Speaker:

Vermonters do not have a limitless tax capacity. Some would argue we've already exceeded it. To raise taxes by \$80 million is an enormous policy decision, one that I cannot support when we have far more urgent needs in this state such as higher education, early education, mental health, housing, roads and bridges, and moving the economy to one less dependent on carbon emissions. H.107 is the wrong bill at the wrong time and one I cannot support.”

**Rep. Mrowicki of Putney** explained his vote as follows:

“Madam Speaker:

My yes vote is a vote for Vermont to join the rest of the civilized, industrial world and provide paid family leave. To be family friendly, to attract young families, to attract new workers, paid family leave will go a long way to achieve those goals. Thanks to all your committees, Madam Speaker, who worked hard on this vital legislation.”

**Rep. Noyes of Wolcott** explained his vote as follows:

“Madam Speaker:

I vote yes for older Vermonters whose families can now provide care during an illness or end of life care and not have to worry about the financial stress of missing work.”

**Rep. Ode of Burlington** explained her vote as follows:

“Madam Speaker:

The majority of Vermont businesses are small and employ a significant percentage of the workforce: 90 percent of businesses in Vermont have fewer than 20 employees, and employ 28 percent of the workforce, while 98.5 percent of businesses in Vermont have fewer than 100 employees and employ 62 percent of the workforce. Yet these are the very businesses that struggle to provide robust benefit packages to their employees and their struggle to retain the workers who might leave to work for a larger company that are able to do so. These are some of the reasons why Vermont small businesses overwhelmingly support the creation of a strong, universal family and medical leave insurance program. A universal family and medical leave insurance program is part of building a strong, small business economy and a healthy workforce. This program will help attract more young professionals to the state, encourage young people and families to stay in Vermont, and level the playing field for small businesses.”

**Rep. Rachelson of Burlington** explained her vote as follows:

“Madam Speaker:

As a mom I was one of many in the workforce, sending my sick children on Tylenol to childcare and hoping for the best. I’ve been out of work many times this past year alone – to help take care of my very ill father and then to be with him when he was passing away; to be with my husband and care for him during his cancer surgery this past week and of today I’ve been with my husband as he had extensive surgery and was in the ICU. If I didn’t have paid sick leave, I don’t know what I would have done. For years, California, Rhode Island, and New Jersey have been running successful paid sick leave programs without negative financial ramifications. Keeping sick people at home where they belong will minimize unnecessary spreading of illness. We owe it to Vermonters to implement this important benefit.”

**Rep. Redmond of Essex** explained her vote as follows:

“Madam Speaker:

Data from Change the Story VT tells us that 43% of working women in this state are single mothers – 43%! H. 107, an insurance program to provide paid family and medical leave in Vermont – which these working women will contribute to – will allow single mothers the space to care for aging parents and young children should unforeseen circumstances present themselves, God forbid. H. 107 is a key component of our State’s economic development strategy and attracting young people to Vermont.”

**Rep. Sibilia of Dover** explained her vote as follows:

“Madam Speaker:

I cannot support a new 80 million dollar payroll tax for a new insurance program when our existing health care system is under such stress, particularly in rural Vermont. This body this year has failed to address that growing financial stress in our healthcare system.”

**Rep. Stevens of Waterbury** explained his vote as follows:

“Madam Speaker:

144,000 Vermonters who make less than \$27,000 a year. 75,000 more who make up to \$47,000. Go and ask these 210,000 Vermonters if they would like to access to an insurance program that would help them keep their jobs and their homes and their health for less than 80 cents a day. Dollar to donut they’ll see an awesome benefit that will help their families when they need it. When I have an opportunity to put money in the pockets of Vermonters when they need it most, I will.”

**Rep. Sullivan of Dorset** explained her vote as follows:

“Madam Speaker:

I support paid family leave, but urge great caution regarding its costs and the unintended consequences on those we are intending to help. We have a fiduciary responsibility to pass good law. H. 107 is not there.”

**Page 47**

**H. 107 Shall the bill pass?**

**Rep. Austin of Colchester** explained her vote as follows:

“Madam Speaker:

Thank you. After this legislative session ends I will go back to volunteering at the Vermont Respite House. As a volunteer I spend time bringing meals to residents (not called patients), feeding them if needed, taking them out for walks, and sitting with them. The expected life expectancy is between one to six months for a resident. I also observe the loved ones who come to visit and sit vigil with a family member or dear friend. Some can only visit after work or on the weekends due to distance and/or work obligations. By voting on this bill I have taken the first step in alleviating the suffering of those who cannot be at their loved one’s side to ‘walk them home.’”

**Rep. Browning of Arlington** explained her vote as follows:

“Madam Speaker:

I vote no because if the program defined in H.107 were to go into effect it will have a large cost that will use up \$80 million of our taxing capacity. This allocation of tax revenue to this new program will make it harder for Vermont to ensure access to health care, harder for us to address climate change, and harder for us to clean up the state’s water. We should have chosen to start the Paid Family and Medical Leave Program smaller for a better balance.”

**Rep. Christie of Hartford** explained his vote as follows:

“Madam Speaker:

'May the good of the many outweigh the good of the few.'"

**Rep. Copeland-Hanzas of Bradford** explained her vote as follows:

"Madam Speaker:

As a small business owner I am so excited to move Paid Family Leave Insurance one step closer to passage. My yes vote today is for Abby who had to come back to work when her baby was just 2 1/2 weeks old because her family finances couldn't bear another missed paycheck. For Holly who put off a necessary medical procedure for far too long because her family depended on her paycheck and couldn't make do without it. For every Vermonter who will no longer have to choose between family health and family finances, for every small Vermont employer who has always longed to be able to provide this peace of mind. Today we vote yes for a strong, healthy, prosperous Vermont."

**Rep. Campbell of St. Johnsbury** explained his vote as follows:

"Madam Speaker:

For too many Vermonters, a medical emergency is a financial emergency. For far too many it's financial ruin. Others have observed universal medical insurance is as important, or more so, than this bill. Yes, it is. But foregoing income, risking your job, is a terrible choice. Health care is, or should be, a right, not a privilege. Paid family and medical leave must be also."

**Rep. Elder of Starksboro** explained his vote as follows:

"Madam Speaker:

I vote yes for paid family leave. H.107 creates an opportunity for workers to invest in themselves, their families, and their neighbors."

**Rep. Gardner of Richmond** explained her vote as follows:

"Madam Speaker:

It is heart breaking to have to choose between paying your family's bills and caring for a loved on. It is a choice no one should have to make. I support this bill."

**Rep. Howard of Rutland City** explained her vote as follows:

"Madam Speaker:

From a family who would have benefitted greatly from this bill while my husband was sick and dying. I thank the members voting yes for this bill. Thank you."

**Rep. Mrowicki of Putney** explained his vote as follows:

"Madam Speaker:

Whether it's broadband, child care, clean water, or paid family leave, it's essential we make these investments in Vermont and Vermonters. If we continue to think these things will happen magically

without financial investments, Vermont will struggle to attract and keep people here. My vote is to invest in a brighter future for Vermont.”

**Rep. Scheu of Middlebury** explained her vote as follows:

“Madam Speaker:

I vote yes on the Paid Family and Medical Leave Insurance program. Experience and research has proven time and again that these programs help business improve work retention, which saves employers money through the reduced cost of turnover. Employees and families are less stressed and more productive. Smaller businesses are better able to compete with larger businesses. We have an incredible opportunity to support not only businesses, but our hard-working Vermont families and people who are considering relocating to Vermont. This bill will help ensure that we have a Vermont that works for all of us.”

**Rep. Sullivan of Dorset** explained her vote as follows:

“Madam Speaker:

While I strongly support Paid Family Leave, if the state must force employers to enact such policies, then we can be pretty sure they don’t make economic sense for the firms in question. As such we may now expect employers to reduce the attractiveness of employment contracts offered to women since they are the primary benefits of pregnancy leave. This bill is not in good legal form and needs further due diligence.”

**Rep. Troiano of Stannard** explained his vote as follows:

“I voted yes. It has been mentioned during this debate that there are many of us who will be moving out of the labor market. This bill will allow our sons and daughters to care for us and not lose their jobs or pay while they are doing so.”

Page 49

**S. 68 Shall the bill be read a third time?**

**Rep. Christie of Hartford** explained his vote as follows:

“Madam Speaker:

I voted yes because our community, Hartford, voted yes to recognize Indigenous Peoples’ Day by a substantial margin. The Abenaki community has held a gathering each year where the White River and Connecticut River converge. The Hartford members are proud to vote yes for our whole community.”

**Rep. Gamache of Swanton** explained her vote as follows:

“Madam Speaker:

While I am in full support of establishing an Indigenous Peoples’ Day, I strongly oppose eliminating the recognition and substitution of Columbus Day as the goal in this purpose. I proposed in committee that a separate date be established for Indigenous Peoples’ recognition in February, the same month that celebrates both Black History and American History, as well as Columbus. It should serve as an

opportunity to expand knowledge of all documented historical facts in schools as part of the curriculum. It was voted down.”

**Rep. Goslant of Northfield** explained his vote as follows:

“Madam Speaker:

I am disappointed that this bill replaces Columbus Day. I would have supported the bill had it recognized both Columbus and Indigenous Peoples’ Day.”

**Rep. Gregoire of Fairfield** explained his vote as follows:

“Madam Speaker:

Indigenous people deserve recognition by our society. What they deserve is their own unique day honoring their heritage and contributions, not a political ploy replacing a day recognizing another historical figure regardless of how we may now perceive him or other figures of the past.”

**Rep. Kornheiser of Brattleboro** explained her vote as follows:

“Madam Speaker:

Passing this bill, while a very simple act, asks us some very essential questions – What intention do we set with our attention? What stories do we tell our children? How do we make sense of our history and how does this changing knowledge affect how we build our future? By enacting Indigenous Peoples’ Day we have an opportunity to right historical damages and shift our attention to where it is most needed.”

**Rep. Mrowicki of Putney** explained his vote as follows:

“Madam Speaker:

We lose nothing but gain much in taking this small but significant step, to at long last recognize the first peoples of this state and nation, from whom we took much including using the political system of the Iroquois to develop our own political system.”

**Rep. Norris of Shoreham** explained his vote as follows:

“Madam Speaker:

It is important enough that Indigenous Peoples’ Day should be a special day and not a replacement for someone else’s day.”

**Rep. Smith of Derby** explained his vote as follows:

“Madam Speaker:

I don’t believe that Columbus Day should be replaced with a day of recognition titled ‘Indigenous Peoples’ Day.’ I do however believe that the Native Americans of the State of Vermont do very much deserve their day of recognition! And deserve to be named as Native Americans and not Indigenous.”

**Rep. Stevens of Waterbury** explained his vote as follows:

“Madam Speaker:

S.68 is a simple bill with a high level of importance. It will allow us to acknowledge that the indigenous people of Vermont deserve recognition in a way that all Vermonters will appreciate – with a respect that solemnizes their fate and heritage.”

**Rep. Toleno of Brattleboro** explained his vote as follows:

“Madam Speaker:

The history of oppression, genocide, and cultural desecration which accompanied the expansion of European power into the lands of our native peoples is well documented, but seldom reflected in our public discourse. May this bill serve as a small step towards the deeper reconciliation with our collective past we must make, by marking the year with an opportunity to revisit a fuller and more inclusive narrative of our history.”

## **Page 50**

**S. 68 Shall the House propose to the Senate to amend the bill as offered by Reps. Batchelor of Derby and Gamache of Swanton?**

**Rep. Chesnut-Tangerman of Middletown Springs** explained his vote as follows:

“Madam Speaker:

Two thoughts: 1) History is not objective. It is written by the victors. In writing our history we have erred grievously. 2) When you make a mistake, admit it, correct it, and move on. We are doing that today.”

**Rep. Donahue of Northfield** explained her vote as follows:

“Madam Speaker:

Removing a holiday celebrating Columbus for discovering America is not changing history. It is correcting an error of the history we were once taught.”

## **Page 51**

**H. 207 Shall the bill be amended as recommended by the Committee on Government Operations?**

**Rep. Browning of Arlington** explained her vote as follows:

“Madam Speaker:

I vote no, because any municipality that wishes to provide noncitizens with the right to vote can encourage them to become citizens.”

**Rep. Copeland-Hanzas of Bradford** explained her vote as follows:

“Madam Speaker:

Non-citizens voting was the norm for much of the U.S. history. Less than a century ago non-citizens were even allowed to vote in presidential elections. Putting this 1924 change in historical context it was post WWI rise in nationalism that led to the denial of that right. For the first 100 years of U.S. history it was the policy to not only encourage immigration but to extend voting rights as an intentional preparation for citizenship. Today we recognize that for the residents of Montpelier they, too, wish to welcome residents who were born elsewhere to join in their local municipal elections. And to be true to our history that, embrace it or not, we are a nation of immigrants.”

**Rep. Hashim of Dummerston** explained his vote as follows:

“Madam Speaker:

This debate has reminded me of the first years my parents came here and resided in Boston with their visas. It took years for them to do the work necessary to become citizens. And during that interim time, they entered the medical field and the military to serve their community and country. Yet they could cast no votes in any local elections that would affect their community. I’m proud that we are taking a step forward to provide voting access to noncitizens who live, work and serve in our communities.”

**Rep. Hooper of Montpelier** explained her vote as follows:

“Madam Speaker:

I voted yes in support of the City of Montpelier engaging all of her residents in Montpelier City life. I thank the members for the thoughtful, important debate in which we learned that the Vermont Constitution allows and the Supreme Court affirms this choice.”

**Rep. Kitzmiller of Montpelier** explained his vote as follows:

“Madam Speaker:

I want to thank the House for this positive vote. It is very important to the citizens, and the non-citizens, who reside in Montpelier.”

**Rep. Mrowicki of Putney** explained his vote as follows:

“Madam Speaker:

My vote supports the good work of your Government Operations committee and the vote of the people of Montpelier. The more we can encourage civic engagement and the more we can encourage voting, the better for all of us.”

**Rep. Ralph of Hartland** explained his vote as follows:

“Madam Speaker:

I vote yes because non-citizens are part of our political community and whether we like it or not they are impacted by the laws and decisions we make. Not allowing them to vote is a violation of their right for

self-determination, which has contributed to a culture where non-citizens are disproportionately affected by health issues, poverty, social welfare, and hunger. Furthermore through this disenfranchisement these people oftentimes bear the brunt of political scapegoating by racists and xenophobes. I support this bill because everyone who lives here and is impacted by our laws should have the right to vote and to self-determination.”

**Rep. Sullivan of Dorset** explained her vote as follows:

“Madam Speaker:

Voting should be inextricably tied to U.S. citizenship. While I believe that more needs to be done to encourage people who have decided to live in this country to participate fully in our political life, the answer is not to sever voting or jury service from citizenship. Common U.S. citizenship is an important source of social cohesion, even at the local level. Jury service and voting are quintessentially a prerogative and responsibility of citizenship. If non-citizens can vote in local elections without becoming citizens, it gives them another reason to not seek naturalization.”

**Rep. Yacovone of Morristown** explained his vote as follows:

“Madam Speaker:

My yes vote is a reflection of my strong support for local control and my strong belief that taxation without representation is wrong.”

**Page 52**

**S. 86 Shall the bill be read a third time?**

**Rep. Gardner of Richmond** explained her vote as follows:

“Madam Speaker:

I started smoking in high school. My parents didn’t smoke but my friends did. Had cigarettes not been legal for us to buy, we probably would never have started and I would have never had to go through the difficult process of quitting. I voted yes.”

**Rep. Gregoire of Fairfield** explained his vote as follows:

“Madam Speaker:

I voted yes. Tobacco and nicotine are indeed bad, for individuals and society, yet it’s hard to rationalize robbing adults of their rights. I have a hard time with the concept of being a probationary adult with only partial rights. T21 will happen at the national level soon regardless of our actions today.”

**Rep. Leffler of Enosburgh** explained her vote as follows:

“Madam Speaker:

We cannot have an expected and anticipated age of adulthood, with all of the rights, liberties, and responsibilities entailed and continue to carve out pieces and parts because we desire the authority to

make better choices. The autonomy and responsibility of adulthood cannot be piecemealed. Either we allow individuals to make their own choices, albeit some bad choices, or we drop the pretense.”

**Rep. McCullough of Williston** explained his vote as follows:

“Madam Speaker:

I vote yes for S.86; quoting the American Lung Association of Vermont, ‘If you can’t breathe, nothing else matters.’”

**Rep. Seymour of Sutton** explained his vote as follows:

“Madam Speaker:

I do not believe it is the responsibility of the legislature to determine choices that individuals must make for themselves. Individual choices require individual responsibility.”

**Rep. Till of Jericho** explained his vote as follows:

“Madam Speaker:

This is the 4th biennium that I have proposed raising the smoking age to 21. Since the beginning there has been tri-partisan support with 25 co-sponsors in the 2013-2014 session. Tobacco 21 is a critical tool in fighting big tobacco’s ongoing attempts to ensnare our children. I am proud today to say that Vermont is joining the 12 other states and over 450 towns and counties that have already taken this step to protect our children.”

**Rep. Wood of Waterbury** explained her vote as follows:

“Madam Speaker:

Today, on the 4th anniversary of my father’s death from lung cancer, I proudly vote yes to reduce the opportunity for today’s youth to become addicted to what he called ‘cancer sticks.’”

**Page 53**

**S. 86 Shall the House proposal of amendment be amended as offered by Rep. Helm of Fair Haven?**

**Rep. Gregoire of Fairfield** explained his vote as follows:

“Madam Speaker:

As a veteran who has never smoked I have a significant problem further eroding the rights of men and women who volunteer to lay down their lives for our country. It may not be a healthy decision but it should be their decision. I thank the member for his service and sacrifice.”

**Rep. Smith of Derby** explained his vote as follows:

“Madam Speaker:

Any individual who takes a solemn oath to defend this nation deserves equal rights and equal respect of a 21 year old.”

**Page 54**

**S. 133 Shall the bill be recommitted to the Committee on Judiciary?**

**Rep. Anthony of Barre City** explained his vote as follows:

“Madam Speaker:

I respect the work of the committee. Issues yet to be resolved have been raised by Barre City representatives. I am confident these unresolved issues will be soon addressed and resolved satisfactorily.”

**Rep. Murphy of Fairfax** explained her vote as follows:

“Madam Speaker:

It is our job to write legislation that is clear and not to require our Attorneys General to reach out to ad hoc committees to be able to implement it. This request to return the bill to committee for a needed fix should be supported by all members.”

**Page 55**

**S. 40 Shall the bill pass in concurrence with proposal of amendment?**

**Rep. Trieber of Rockingham** explained his vote as follows:

“Madam Speaker:

The question before us is not should we protect our children from lead; of course we should. The question is, rather, how to pay for it. The longer we continue to funnel General Funds into education costs, thereby obscuring the actual cost of education from Vermonters, the more we delay the inevitable conclusion that our grand experiment of education funding is nothing more than an abject failure.”

**Rep. Webb of Shelburne** explained her vote as follows:

“Madam Speaker:

With the passage of this bill, Vermont will have the lowest mandatory action level in the country with one of the most health-protective remediation plans and supports.”

**Page 56**

**Prop 5 Shall the proposal be adopted?**

**Rep. Burditt of West Rutland** explained his vote as follows:

“Madam Speaker:

I had a member ask me how I was voting on Prop 5. I told him I was voting no. I was asked if I was against women's reproductive rights? I said, 'Not at all.' I'm against opening and changing our Constitution."

**Rep. Colburn of Burlington** explained her vote as follows:

"Madam Speaker:

Reproductive freedom put simply is freedom. I vote yes."

**Rep. Gregoire of Fairfield** explained his vote as follows:

"Madam Speaker:

Amending the Constitution is a serious issue; it is a last resort action not to be taken lightly. Abortion is legal and will remain legal. We are not in a situation where a right is being abridged or where the document's intent is in need of updating. I vote no to opening the amendment process. That is the issue actually in front of us today."

**Rep. Harrison of Chittenden** explained his vote as follows:

"Madam Speaker:

While I voted no on H.57, I supported Proposal 5 after careful consideration because it offers some balance with the inclusion of "compelling state interest" and most importantly, allows the proposal to go forward on a path that will put the issue before the voters. The Vermont Constitution belongs to all Vermonters and as such, all voters deserve the right to decide if this proposal should be in their constitution.

**Rep. Leffler of Enosburgh** explained her vote as follows:

"Madam Speaker:

Any day which this body can promote additional liberty for Vermonters is a good day. A Constitutional Amendment has the potential to directly judge the will of Vermonters and put into our most precious and important governing document new language to guide our state in perpetuity. Proposition Five received my vote for two clear reasons: First and foremost, more than 180 legislators should have the opportunity to speak and vote on this issue. I like to think that we all vote for our constituents, however this gives us the opportunity to remove all doubt. Vermonters should have the chance to vote on this issue. Second, the language in this proposition is clear, without convolution or caveats. Unlike other legislation we have seen this year, it asserts individual liberty within the 'compelling state interest achieved by the least restrictive means.' It serves the interests of Vermonters while protecting our most vulnerable women and children."

**Rep. Mrowicki of Putney** explained his vote as follows:

"Madam Speaker:

I vote to keep abortion safe and legal for all women, not just the wealthy. The recent attacks on women's choice would ensure that only the wealthy would have access to safe abortions, the way it was before Roe v. Wade. My vote is for all women to keep their choice, and keep abortion safe and legal for all."

**Page 57**

**S. 113 Shall the bill be read a third time?**

**Rep. Harrison of Chittenden** explained his vote as follows:

"Madam Speaker:

While this bill is imperfect in my view, I supported it to keep the conversation alive."

**Rep. McCoy of Poultney** explained her vote as follows:

"Madam Speaker:

While I am in favor of eliminating plastic bags, I do not support dictating to a private establishment what they shall minimally charge, when that establishment deems it necessary to charge a fee, for a paper bag."

**Rep. Mrowicki of Poultney** explained his vote as follow:

"Madam Speaker:

My yes vote supports the work of our committee and says yes to a cleaner environment for the children who have been asking for this bill – and a cleaner future."

**Rep. Page of Newport City** explained his vote as follows:

"Madam Speaker:

It is important to note that besides prohibiting plastic bags, polystyrene, and single use plastic straws, this bill also requires that the ANR report a study on landfill operations in VT and the environmental costs for such an operation."

**Rep. Rachelson of Burlington** explained her vote as follows:

"Madam Speaker:

Plastic bags, much like billboards, mar Vermont's beauty, and significantly contribute to our planet's serious environmental problems. It's about time Vermont takes this important and responsible step to be part of the solution. I'm proud to vote yes."

**Rep. Yantachka of Charlotte** explained his vote as follows

"Madam Speaker:

The U.S. is the #1 trash producing country in the world accounting for 40% of the waste with 5% of the population. Vermonters may be better than most Americans at recycling, but we still throw a lot of stuff

away. This bill is a small but important step away from our throw-away mindset, which is why I vote yes on this bill.”

**Page 58**

**S. 96 Shall the bill be read a third time?**

**Rep. Austin of Colchester** explained her vote as follows:

“Madam Speaker:

A 5 year UVM study found that lakeside communities in Vermont lose close to \$17 million in economic activity and 200 full time jobs – in July and August alone – for every one meter decrease in water quality. Lake related tourism, restaurants, hotels, recreation services face a \$12 million drop in direct summer expenditures. The study focused on the VT lakeside counties of Chittenden, Addison, Franklin, and Grand Isle. Clean water is an economic driver in VT.”

**Rep. Browning of Arlington** explained her vote as follows:

“Madam Speaker:

I vote yes because I know the impatience of fully funding our clean water efforts. However, I deplore the refusal of this chamber to insure that no revenue shortfall will force future education property tax rates higher than they otherwise would be, due to removal of revenue from the Education Fund for a purpose unrelated to education.”

**Rep. Graham of Williamstown** explained his vote as follows:

“Madam Speaker:

I voted no as being a farmer I know the importance of quality water, but creating another layer of barriers with little expertise of need project on farms when we already have a good program in place will not help the cause.”

**Rep. Gregoire of Fairfield** explained his vote as follows:

“Madam Speaker:

Water quality is of the greatest concern and should be properly funded. However, raiding the education fund even temporarily is unacceptable to me. The quality of our great water ways is unacceptable. We can and should do better. It’s shameful that we are so far behind the 8 ball on this important issue.”

**Rep. Krowinski of Burlington** explained her vote as follows:

“Madam Speaker:

I vote yes because a long term clean water infrastructure funding package will strengthen our economy, public health and environment. By taking this action we can help our communities thrive. Thank you.”

**Rep. Leffler of Enosburgh** explained her vote as follows:

“Madam Speaker:

I cannot support this bill’s ‘robbing Peter to pay Paul’ method of funding. Taking money from our schools via the education fund is not the steady clean water funding we need. We need a clear funding source for clean water that doesn’t take from our teachers and students. I hope to see this change before we close the doors on this session.”

**Rep. Scheuermann of Stowe** explained her vote as follows:

“Madam Speaker:

I vote no on this bill, not because I don’t support funding our clean water efforts. In fact, I certainly do. But to do it using the rooms and meals tax claiming that it is the nexus to clean water, puts us on the wrong path. I’m hopeful the other body and the administration will either find another avenue, or, better yet, find the funding within existing revenue.”

**Rep. Sibiliala of Dover** explained her vote as follows:

“Madam Speaker,

Despite the good work of both committees I’m very concerned about the long term consequences of how we are moving funds out of the education fund in this bill. I will offer an amendment on third reading.”

**Page 69**

**S. 96 Shall the bill pass in concurrence with proposal of amendment?**

**Rep. Dolan of Waitsfield** explained her vote as follows:

“Madam Speaker:

I voted yes for clean water. A vote for water is a vote for life. Clean water benefits our communities, our economy, and our way of life. All in means that we all have an obligation to safeguard our waters for Vermonters, our visitors, for this and for future generations.”

**Rep Gamache of Swanton** explained her vote as follows:

“Madam Speaker:

We need to put money into cleaning our waters, but the money should not come from raiding the education fund and so I vote No only because of the funding mechanism.”

**Rep. Gregoire of Fairfield** explained his vote as follows:

“Madam Speaker:

As I stated yesterday – we are way behind on the issue of water quality to a point where it’s honestly shameful. However, the education fund should be protected to a far greater degree than it is. It should be used only for Education. There are better ways that are more sustainable. Further, we should levy heavy fines on municipalities that discharge untreated sewage unto our lake.”

**Rep. Leffler of Enosburgh** explained her vote as follows:

“Madam Speaker:

I strongly support clean water investments as they are necessary but I am still frustrated and disappointed in how we are robbing education to make ends meet. We can and should do better.”

**Rep. McCoy of Poultney** explained her vote as follows:

“Madam Speaker:

While I voted yes on the bill I continue to be concerned about raising new “cloud” taxes instead of finding ways to fund clean water using our available means. We cannot continue on this trajectory as I am very concerned that we have, in fact, reached our tipping point.”

**Rep. O’Sullivan of Burlington** explained her vote as follows:

“Madam Speaker:

I voted yes to clean our waters and provide a multi-million dollar stimulus package unequalled in current history. We are investing in clean water by investing in our economy. Vermonters will do the work and Vermonters will reap the benefits.”

**Rep. Rachelson of Burlington** explained her vote as follows:

“Madam Speaker:

I voted yes and want to be on record that continuing to call the ed fund the ‘ed’ fund invites misleading assumptions and comments like ‘We’re robbing’ the ed fund, when other monies are being put in and taken out for other purposes as well. It’s time to rename the fund.”

**Rep. Sheldon of Middlebury** explained her vote as follows:

“Madam Speaker:

Today I vote yes to Vermonters working together to leave a legacy of clean water for future generations.”

**Rep. Sibilio of Dover** explained her vote as follows:

“Madam Speaker:

We have two funds, the general fund and the education fund. This proposal is funded with revenues previously dedicated to the education fund. I cannot support proposals that take funds out of the education fund for non-education expenses.”

**Rep. Sullivan of Dorset** explained her vote as follows:

“Madam Speaker:

The core issue here is whether we know the full scale of negative impact plastic waste can have on marine or terrestrial environments or not, we do know that introducing pollutants that may never break down in the environment can have implications that will far exceed any of our predictions. So I thank the committee for this work and support the bill.”

**Rep. Yacovone of Morristown** explained his vote as follows:

“Madam Speaker:

In the end, Madam Speaker, after you strip away all the noise, all the interference of worries about the impact on rooms and meals taxes, or the cloud, or the education fund, we are left with the cold stark reality that day after day raw sewage is polluting our lakes and streams. Since January, 17 million gallons of raw sewage has been dumped into our waters. At this rate the toxic waste will surpass the 43 million gallons of sewage dumped into our water last year. We are the Green Mountain State, not the green lake state. I am proud of the work of our committees to help us find a positive path forward.”

**Rep. Young of Greensboro** explained his vote as follows:

“Madam Speaker:

The narrative that there is a robbing of the Ed Fund is untrue. Nearly 14M in new money has been added.”

#### Page 60

**S. 23 Shall the Report of the Committee on General, Housing, and Military Affairs, as amended, be amended as offered by Rep. Browning of Arlington?**

**Rep. Browning of Arlington** explained her vote as follows:

“Madam Speaker:

I vote yes for a gradual and cautious approach to further increases in the minimum wage. It is important for the labor market and businesses to have time to absorb these increases so that some of the Vermonters we are trying to help are not hurt through loss of hours or loss of jobs.”

**Rep. Donahue of Northfield** explained her vote as follows:

“Madam Speaker:

I would like to support an increase in our minimum wage if done cautiously, with due attention to potential negative economic impacts that actually hurt workers. This amendment does that, so I vote yes.”

#### Page 62

**S. 23 Shall the Report of the Committee on General, Housing, and Military Affairs, as amended, be amended as offered by Rep. Chesnut-Tangerman of Middletown Springs in the first instance of amendment?**

**Rep. Cordes of Lincoln** explained her vote as follows:

“Madam Speaker:

Minimum wage is a women’s issue. The majority of Medicaid service caregivers are women who are still struggling with pay inequity. ‘It’ll be the year 3888 before [women] make a buck.’ (Laurie Anderson - ‘Beautiful Red Dress’) Minimum wage is a dignity issue. Many of our friends, including those in our own State House who serve us food, need food stamps to make ends meet. Raising the minimum wage as soon as possible is just one imperative step we must take to lift up the vulnerable, improve our economy, and reverse the ever-widening income and wealth gap.”

**Rep. Hooper of Burlington** explained his vote as follows:

“Madam Speaker:

I support putting money in Vermonters pockets. Clearly trickle down does not work. The largest employer in the state has a \$15 hiring rate in 2020. This will be an economic boost for Chittenden County businesses large and small. It will happen next year so to my mind this body delaying full implementation so much longer is ill advised.”

**Rep. Yantachka of Charlotte** explained his vote as follows:

“Madam Speaker:

Every Vermonter who works 40 hours per week deserves to be paid enough to pay the rent, heat their home, feed and clothe their family, and get to and from work. They deserve a livable wage today, not by 2024 or 2026. I support what this amendment is trying to do. However, we live within the reality of this building, and, based on what we’re hearing from the Governor, adopting this amendment will likely prevent any increase in the minimum wage from becoming law. So, as much as I would like to vote YES on this amendment, I have to vote NO to improve our chances to get more money into the pockets of those at the bottom of the pay scale sooner than later.”

## Page 63

**S. 23 Shall the Report of the Committee on General, Housing, and Military Affairs, as amended, be amended as offered by Rep. Chesnut-Tangerman of Middletown Springs in the second instance?**

**Rep. Chesnut-Tangerman of Middletown Springs** explained his vote as follows:

“Madam Speaker:

I want to thank the body for this debate. This is critical and will be ongoing. It is important that we continue to push for a more livable state and a livable wage. Thank you all.”

## Page 64

**S. 23 Shall the bill be read a third time?**

**Rep. Colburn of Burlington** explained her vote as follows:

“Madam Speaker:

I voted against amendments to dilute a minimum wage increase and for amendments to get us to a livable wage sooner. At the end of the day, I can’t oppose a wage increase that is an improvement on current law. That said, we can and should do better than this for working Vermonters. This work is not over.”

**Rep. Krowinski of Burlington** explained her vote as follows:

“Madam Speaker:

I vote yes. When Vermonters have more money in their pockets, working families have more to invest back into our local economy, growing jobs and creating economic opportunity in all of Vermont’s 14 counties. Raising the minimum wage will help us grow an economy that works for everyone, not just a select few.”

**Rep. Leffler of Enosburgh** explained her vote as follows:

“Madam Speaker:

I voted against this bill because I refuse to ignore the harm implicit in this bill to our small towns and small businesses and most importantly Vermonters. If, as previously mentioned today, it is the will of this body to have money in Vermonters’ pockets, I seriously suggest we start by leaving the money already there alone.”

**Rep. Ode of Burlington** explained her vote as follows:

“Madam Speaker:

Raising the minimum wage will help lift tens of thousands of working Vermonters out of poverty. It will result in increased income tax revenue for the State of Vermont and it will reduce dependency on state programs that support low income families. Raising the minimum wage is good for Vermont’s workers, Vermont’s families, Vermont’s businesses (helping to prevent expensive employee turnover), and Vermont’s economy.”

**Rep. Ralph of Hartland** explained his vote as follows:

“Madam Speaker:

I support minimum wage and am willing to take the risks associated with a wage hike on our economy and businesses because I strongly support all efforts to bring Vermonters out of poverty and to provide an adequate income. However I cannot support this bill because with it brings all the risks but doesn’t actually mandate a livable wage in a timely fashion that could help Vermonters. As a result I am afraid this bill as is will hurt Vermonters and the Vermont economy. I’m frustrated that we would let political victories supersede the best interests of our state.”

**Rep. Sullivan of Dorset** explained her vote as follows:

“Madam Speaker:

Some of the biggest beneficiaries of minimum wage increases are children. Higher wages ease the grind of poverty, freeing up people’s capacity to quit. While a higher minimum wage is powerful medicine,

raising the minimum wage might only be a temporary fix, so I would like to see the future discussions go to focusing on minimum income instead.”

**Rep. White of Hartford** explained her vote as follows:

“Madam Speaker:

More women than men are working minimum wage jobs – nationally women make up two-thirds of all minimum wage earners. Raising women’s wages would have positive impacts on Vermont’s economy and move us towards closing the wage gap which would reduce the poverty rate. I vote yes because it is the pragmatic and moral choice.”

**Rep. Wood of Waterbury** explained her vote as follows:

“Madam Speaker:

I am supportive of a minimum wage increase, but not at the expense of older Vermonters and people with disabilities. We must keep the promise to address the Medicaid rates.”

**Page 67**

**S. 169 Shall the House propose to the Senate to amend the bill as offered by Rep. Brennan of Colchester?**

**Rep. Seymour of Sutton** explained his vote as follows:

“Madam Speaker:

I am disappointed that this amendment was not supported by more members of the House. I truly felt this was an opportunity to make this bill better for all Vermonters. Let us not forget that gun rights are women's rights as well.”

**Page 68**

**S. 169 Shall the bill be committed to the Committee on Health Care?**

**Rep. Donahue of Northfield** explained her vote as follows:

“Madam Speaker:

Is this a gun restriction law under the guise of suicide prevention, or a suicide prevention effort through the vehicle of a gun restriction law? A refusal to have the Health Care committee review it answers that question.”

**Page 69**

**S. 169 Shall the bill be read a third time?**

**Rep. Ancel of Calais** explained her vote as follows:

“Madam Speaker:

When my husband was serving in the Vermont Senate, he introduced a waiting period bill. He introduced it because of concerns about domestic violence and suicide prevention. That was 30 years ago. All I can think to say at this moment is, Finally!”

**Rep. Austin of Colchester** explained her vote as follows:

“Madam Speaker:

Andrew Black was a student of mine and I do wonder if this law had been enacted earlier if he would be alive today.”

**Rep. Grad of Moretown** explained her vote as follows:

“Madam Speaker:

I vote yes. S. 169 moves us towards our goals of suicide prevention, preventing domestic violence related homicides, and decreasing firearm related crimes such as human and drug trafficking. S. 169 is an important public health and safety measure that will save lives.”

**Rep. Mrowicki of Putney** explained his vote as follows:

“Madam Speaker:

My yes vote is for public safety. This bill will slow down a situation spinning out of control and help keep firearms out of the wrong hands at the wrong time. And, yes if it saves one life, it’s worth it.”

**Rep. Redmond of Essex** explained her vote as follows:

“Madam Speaker:

Today, Everytown for Gun Safety released the results of a survey of 800 VT adults. It shows that 80 percent of Vermonters support a 24-hour waiting period for all handgun sales. The survey also indicates that 75 percent of Vermonters support gun violence prevention legislation that was passed by VT lawmakers last year. My Essex constituents overwhelmingly support S. 169 and I have heard from dozens and dozens of them. I cast my vote this evening in favor of a waiting period and I do so in honor of a beloved young man from Essex who departed this life much too early, and his courageous parents whose advocacy will save future VT lives.”

Page 71

**S. 37 Shall the bill pass in concurrence with proposal of amendment?**

**Rep. Goslant of Northfield** explained his vote as follows:

“Madam Speaker:

This bill will kill industry that wants to invest in Vermont. The increase risk, embodied in this bill, will cause companies to choose other states. We desperately need economic growth in this state. This bill will hamper this growth and have a profound impact on our future tax revenues. Therefore I strongly oppose this bill.”

**Rep. Kornheiser of Brattleboro** explained her vote as follows:

“Madam Speaker:

I vote yes because in a well-regulated business environment both the economy and the people can thrive.”

**Rep. McCoy of Poultney** explained her vote as follows:

“Madam Speaker:

As we will be the first state in the nation to codify this diagnostic testing remedy, we should have been as clear as possible in articulating this law. I am disappointed we did not listen to the many businesses which expressed concerns and offered paths for resolution so that the entire body could have gotten to yes and supported our businesses.”

**Rep. Rachelson of Burlington** explained her vote as follows:

“Madam Speaker:

This bill will make Vermont an outlier, but in a good way. Vermont will be seen as an outlier state that protects and looks out for our neighbors, friends, and constituents. It will be exactly what attracts responsible businesses to our state, as well as people wanting a healthy place to live and raise their families.”

**Page 73**

**H. 16 Shall the House concur in the Senate proposal of amendment with a further amendment thereto as offered by Rep. Harrison of Chittenden?**

**Rep. Donahue of Northfield** explained her vote as follows:

“Madam Speaker:

When the other body tacks a substantive new proposal on an unrelated bill, we need to vet that proposal as we would any other bill: in its committee of jurisdiction and expertise. That did not happen here, and ramming a change of this significance through in this way utterly violates the thoughtful process that is the hallmark of any good legislation.”

**Rep. McCoy of Poultney** explained her vote as follows:

“Madam Speaker:

This is a Boards and Commissions bill. The idea we tack on binding arbitration, which should be vetted as its own bill, does not sit well at all with me.”

**Page 74**

**S. 96 Shall the House concur in the Senate proposal of amendment to the House proposal of amendment?**

**Rep. Beck of St. Johnsbury** explained his vote as follows:

“Madam Speaker:

The House's proposal to fund clean water would have increased sales tax fairness, made the Education Fund whole, and freed up General Fund revenues to address programs currently being underfunded.”
