### Senate Proposal of Amendment

## H. 473

An act relating to radiologist assistants

The Senate proposes to the House to amend the bill by striking out all after the enacting clause and inserting in lieu thereof the following:

Sec. 1. 26 V.S.A. § 2851 is amended to read:

§ 2851. DEFINITIONS

As used in this chapter:

\* \* \*

(8) “Readily available” means that a supervising radiologist is available in person or is available remotely by telephone or through a live, interactive audio and video connection.

(9) “Supervision” means the direction and review by a supervising radiologist, as determined to be appropriate by the Board, of the medical services provided by the radiologist assistant. At a minimum, supervision shall mean that a radiologist is readily available for consultation and intervention. A radiologist assistant may provide services under the direction and review of more than one supervising radiologist during the course of ~~his or her~~ the radiologist assistant’s employment, subject to the limitations on ~~his or her~~ the radiologist assistant’s scope of practice as set forth in this chapter and the protocol filed under subsection 2853(b) of this title.

Sec. 2. 26 V.S.A. § 2857 is amended to read:

§ 2857. SUPERVISION AND SCOPE OF PRACTICE

(a)(1) The number of radiologist assistants permitted to practice under the direction and supervision of a radiologist shall be determined by the Board after review of the system of care delivery in which the supervising radiologist and radiologist assistants propose to practice. Scope of practice and levels of supervision shall be consistent with guidelines adopted by the American

College of Radiology, the American Society of Radiologic Technologists, and the ARRT.

(2) The authority of a radiologist assistant to practice shall terminate immediately upon termination of the radiologist assistant's employment, and the primary supervising radiologist shall immediately notify the Board and the Commissioner of the Department of Health of the termination. The radiologist assistant's authority to practice shall not resume until ~~he or she~~ the radiologist assistant provides proof of other employment and a protocol as required under this chapter.

(3) The primary supervising radiologist and radiologist assistant shall be employed by and have as their primary work site the same Vermont health care facility or an affiliate of the facility; provided, however, that the primary supervising radiologist does not need to be physically present at the same location where the radiologist assistant is practicing as long as a supervising radiologist is readily available for consultation and intervention.

(4) If a supervising radiologist is not physically present at the location at which a radiologist assistant is practicing, the radiologist assistant shall provide services only when a physician licensed pursuant to chapter 23 or 33 of this title, who need not be a radiologist, is physically present at the location and would be responsible for providing intervention or assistance in the event of a medical emergency.

(b)(1) Subject to the limitations set forth in subsection (a) of this section, the radiologist assistant's scope of practice shall be limited to that delegated to the radiologist assistant by the primary supervising radiologist and for which the radiologist assistant is qualified by education, training, and experience. At no time shall the practice of the radiologist assistant exceed the normal scope of the supervising radiologist's practice.

(2) A radiologist assistant ~~may~~ shall not interpret images, make diagnoses, or prescribe medications or therapies but may communicate with patients regarding the radiologist assistant's preliminary observations regarding the technical performance of a procedure or examination and regarding the findings from a radiologist's report. Preliminary observations shall not include any communication about the presence or absence of features or characteristics that would be considered in making a diagnosis.

### Sec. 3. EFFECTIVE DATE

Sec. C.112 PUBLIC SAFETY COMMUNICATIONS SYSTEM; DISPATCH;  
INVENTORY; DESIGN

(a) The General Assembly finds that protecting public safety and welfare is an essential function of State government and it is in the public interest to establish a statewide reliable, secure, and interoperable public safety communications system, comprising integrated 911 call-taking and regional dispatch systems, and to ensure that the system is equitably and sustainably financed and universally accessible by all persons throughout the State.

(b) It is not the intent of the General Assembly to establish a public safety communications system that disrupts or in any way jeopardizes the exceptional dispatch services currently in place or the existing 911 system, but rather to support, enhance, strengthen and build upon those efforts and initiatives.

(c) The transition to a public safety communications system as specified in subsection (a) of this section shall be overseen and managed by the Enhanced 911 Board, in consultation with the Commissioner of Public Safety, the Secretary of Digital Services, the Commissioner of Public Service, and relevant State and local public safety and government stakeholders. In addition, the Board is authorized to retain a project manager and one or more additional consultants with relevant expertise in public safety communications technology, design, and financing to assist with the requirements of this section.

(d) The establishment of a statewide public safety communications system shall occur in essentially three phases that include data collection and analysis, design, and implementation. Certain aspects of each phase may occur simultaneously as deemed appropriate by the Board.

(1) Data collection and analysis. (A) an inventory of all existing dispatch infrastructure and equipment, including facilities, hardware, software, applications, and land mobile radio systems, referring to and incorporating any existing relevant data collected by a State or municipal entity;

(B) the number of full-time and part-time personnel currently performing dispatch service, taking into account personnel who have other responsibilities in addition to providing dispatch service;

(C) the current total spending on dispatch service in Vermont, taking into account all federal, State, and municipal appropriations and fees;

mapping data collected by a dispatch center or other entity;

(E) with the assistance of the Vermont League of Cities and Towns, a needs assessment to determine where and to what extent there are gaps in dispatch service or significant challenges to the delivery of dispatch service and to identify those municipalities that are likely to be most affected by either the curtailment of dispatch service from the two State-run public safety answering points or from a new financing mechanism for the continuation of such service;

(F) an assessment of the service provided by each dispatch center and identification of particular challenges or vulnerabilities, if any, including with regard to workforce, failover procedures, communications technology, costs, and governance; and

(G) collection and assessment of any other information the Board deems relevant.

(2) Design. On or before January 15, 2024, the Board shall develop findings and recommendations related to draft elements of a preliminary design for a public safety communications system, including identification of an implementation timeline and any additional data and resources needed to develop a final design on or before January 15, 2025. The final design shall include:

(A) technical and operational standards and protocols that ensure an interoperable and resilient system that incorporates computer-aided dispatch systems and land mobile radios;

(B) technology life cycle standards to ensure system and database upgrades are timely, sufficiently financed, and properly managed;

(C) system and database security and cybersecurity standards;

(D) continuity of operations standards and best practices that encompass failover procedures and other system redundancies to ensure the continuous performance of mission-critical operations;

(E) workforce training standards and other staffing best practices that support the retention and well-being of dispatch personnel;

(F) a resource allocation plan that ensures dispatch service is available in all regions of the State, including the establishment of new dispatch centers or expanded capacity and capability of existing dispatch centers, if deemed appropriate by the Board;

(G) a process for annually reviewing the budgets of dispatch centers;

(H) a recommended governance model to ensure effective State and regional oversight, management, and continuous improvement of the system, including identification of staffing or operational needs to support such oversight and management of the system by the Board or by another State agency, if deemed appropriate by the Board;

(I) cost estimates for implementing the system in Vermont, including operational and capital costs;

(J) an overview of sustainable and equitable financing mechanisms, taking into consideration:

(i) existing budgets for regional and local dispatch;

(ii) the population, grand list, and call volume of each municipality;

(iii) existing and potential State funding streams;

(iv) available federal funding opportunities for public safety agencies and emergency communications systems, including equipment, network infrastructure, and services;

(v) financing models adopted in other jurisdictions for public safety communications systems; and

(vi) any other standards or procedures deemed necessary or appropriate by the Board.

(e) On or before January 15, 2024, the Board shall submit the findings and recommendations required by subdivisions (d)(1) and (2) of this section in a written report to the Senate Committees on Government Operations and on Finance and the House Committees on Government Operations and Military Affairs, on Ways and Means, and on Environment and Energy.

CALENDAR YEAR 2023–2024 SUPPLEMENTAL COST OF  
LIVING PAYMENTS; INTENT; ACTUARIAL COST  
ANALYSIS

(a) Intent. It is the intent of the General Assembly that:

(1) The maximum percentage value methodology set forth in 16 V.S.A. § 1949 that applies to the postretirement adjustment allowances for the Vermont State Teachers’ Retirement System (VSTRS) shall be actuarially evaluated to determine the cost required to revert to the methodology used prior to the enactment of 2016 Acts and Resolves No. 114.

(2) The General Assembly further intends to make such a reversion by future legislative action amending 16 V.S.A. § 1949, provided that the present value of changes to the postretirement adjustment allowance methodology be fully funded at the time the change is made and not increase the unfunded liability in VSTRS.

(3) The General Assembly further intends that if the June 30, 2023, change in the Consumer Price Index exceeds the statutory maximum percentage values set forth in 16 V.S.A. § 1949 (b)(1), the General Assembly will provide a sufficient appropriation in the 2024 Budget Adjustment Act to make a one-time supplemental payment, similar in form to that described in subsection (b) of this section, to qualifying VSTRS retired members and beneficiaries in calendar year 2024.

(c) Actuarial cost analysis. Following the completion of the next experience study, expected in fall 2023, the State Treasurer shall conduct an actuarial analysis to evaluate the cost of changing the current methodology for calculating the postretirement adjustment allowance for the Vermont State Teachers' Retirement System to a methodology calculated by applying the maximum percentage values set forth in 16 V.S.A. § 1949(b)(1) to the postretirement adjustment allowance rather than applying the statutory maximum percentage values to the net percentage change in the Consumer Price Index. The actuarial analysis shall take into account any changes to actuarial assumptions that may occur following the experience study to be performed at the end of fiscal year 2023, as required by 16 V.S.A. § 1942.

(d) Report. Based on the actuarial cost analysis described in subsection (c) of this section, on or before January 15, 2024, the State Treasurer shall submit a report to the House and Senate Committees on Appropriations with an actuarial cost estimate for changing the VSTRS postretirement adjustment allowance methodology as set forth in subsection (c) of this section.
