We are committed to providing customers with the tools you need to avoid downtime by repairing your own Case IH and New Holland equipment when possible. Consider this your stop for all the self-repair resources needed to get the job done yourself.

- **Modern Ag Equipment:** Modern tractors and combines aren't simple pieces of machinery. This equipment uses complex components, electronics and software to provide advanced customer features and critical safety functions, such as road transport speed management and sustainability features, like our emissions systems. That's why, while we support your right to repair your equipment, we don't support modification.
- **Dedicated Dealer Network:** At CNH Industrial, we have high dealer standards, which include required service technical training conducted in part by us. This makes our dealer network the perfect partner in ensuring the peak performance you've come to expect and deserve from Case IH and New Holland products and solutions. With over 725 committed dealers across North America, we're confident that we can provide you with the support you need when you need it.
- **Self-Repair Tools:**
 - **Operator Manuals & Installation Instructions:** Get all the documents you need to maintain your equipment. These operator's manuals, installation instructions and training materials can be instantly accessed through MyCaseIH.com or MyNewHolland.com.
 - **MyCaseIH.com and MyNewHolland.com:** Register your supported equipment on the MyCaseIH and MyNewHolland website to get the most out of your products. Explore our knowledge base for maintenance tips and troubleshooting as well as manage your fleet from any device.
 - **MyCNHStore.com:** Conveniently shop for genuine branded parts designed and optimized for our machines, 24/7/365.
 - **Proactive Support Alerts:** The Proactive Support tools within eTIM allow the Case IH and New Holland dealer network to work with you to ensure early identification of issues and maximum performance from your connected machine, providing the ultimate level of connected and proactive maintenance and service alerts.
 - **Customer Electronic Service Tool (EST):** The customer EST allows you to connect with your Case IH or New Holland equipment via a protocol adapter for: Controller Status/Version Retrieval, Parameter Monitoring, Fault Code Troubleshooting and Digital versions of hydraulic and electrical schematics.
 - **Remote Service Tool:** On select models, your local Case IH and New Holland dealer can remotely diagnose maintenance and service issues and identify the parts you need to stay up and running without ever needing to visit the field or operation site.

***Read only for parameters related to safety or emissions controls.**

Kubota

For Earth, For Life

As shown above, this is a testament to Kubota's commitment to ensuring they adhere to the highest level of emission's compliance. The state of Vermont has shown a commitment to go above and in some cases beyond to lower the states carbon footprint. With a bill like this, which would provide little to no oversight to emissions standard which dealers and manufacturers are bound to adhere to.
