

Dear legislators,

I'm emailing to voice my support for \$10.82 million for the implementation of the pilot planning grant housing begun by Act 186. I know several young adults with a developmental disability (relative, neighbor, friend) and they need your support for long-term, stable housing.

I support developing a pipeline for funding the annual development of stable, service-supported housing for adults with developmental disabilities. These young adults have a lot to offer our community and they deserve our help. Right now, many of them are supported by aging parents and I wonder what will happen to them when their parents can no longer support them. They need stable, service-supported housing so that they can continue to be part of our community when they no longer have the support of aging parents.

Thank you for supporting this important legislation.
