ACCD	ACD	7110892206	1	Vermont Housing Incentive Program-Champlain Housing Trust-Act74-G.400(a)(2)	The Vermont Housing Incentive Program (VHIP) is intended to bring underutilized, vacant rental units back into compliance with health and safety codes in order to serve Vermonters exiting homelessness access to safe and affordable housing. The Department of Housing and Community Development works with the five Homeownership Centers, which collectively cover every region of the State to identify property owners with eligible units for repair and provide technical assistance for bringing underutilized rental units online. Available Healthy Homes Initiative (HHI) funding can be used to supplement water-related expenses for VHIP projects. Said property owners commit to an affordable rental rate and to coordinate with the local lead organization on homeless service provisions to house Vermonters experiencing homelessness for a term of at least five years. In order to receive sub-granted funds, Homeownership Centers are conducting outreach to determine need and interest to ensure a geographic distribution that is commensurate with need and available units for rehabilitation. Utilization of affected units will be targeted to Vermonters experiencing homelessness, in conjunction with other resources provided through existing assistance programs providing service support and rental subsidies. This funding will support the Champlain Housing Trust projects in Chittenden, Franklin, and Grand Isle Counties.	2-Negative Economic Impacts	2.16-Long-term Housing Security: Services for Unhoused Persons	Completed less than 50%	7110892206	\$ 2,970,302.00	\$ 2,970,302.00	\$ 547,571.39	\$ 2,970,302.00	\$ 547,571.39	\$ -	\$ -	1	Item	teams/SOV-ARPA/Lists/SFR Reported Projects

ADS	ADS	1105892201	1	Cybersecurity Core Infrastructure and Router Replacements-Act74-G.501(a)(5)	The Agency of Digital Services is applying the allocated ARPA funds to a redesign of its critical infrastructure to address network capacity and security improvements in order to continue to support networks and systems that directly support health, public health, and economic relief programs and the addition of greater redundancy (resilience) is directly related to the burden our remote workforce and exponentially larger online service presence (all due to Covid-19 response) represent. Key in these activities is enhanced cybersecurity protections gained through redundancy, throughput, modern hardware, and cloud security. The architecture of the solution is tailored to ensure that our partner organizations in municipalities have reliable connections to in-scope State services, that those connections are monitored and secured in a way that helps prevent cyber-attacks, and to prevent failure in the central portions of our network where we process and maintain connections for all State Agencies, including those that are on the front lines of our COVID response such as Human Services, Commerce and Community Development, Public Service, and Vermont Emergency Management.	6-Revenue Replacement	6.1-Provision of Government Services	Completed less than 50%	1105892201	\$ 1,500,000.00	\$ 866,966.79	\$ 709,876.25	\$ -	\$ -	\$ -	\$ -	2 Item	teams/SOV-ARPA/Lists/SFR Reported Projects

VAAFM	AFM	2200892205	8	Clean Water Board Agriculture Program-Act84-G.700(a)(5)B	Vermont's 2015 Clean Water Act established a broad suite of requirements that support the protection and restoration of all of Vermont's lakes, rivers, and wetlands. That Act also established a state-supported Vermont Clean Water Fund (CWF) to support a broad suite of water quality improvement projects and project types aimed at reducing water pollution to restore recreational and ecological uses for those waters. The Vermont General Assembly has directed ARPA funds to be made to Clean Water Fund uses, in accordance with the statutory procedures used by the Clean Water Board to recommend CWF appropriations. These projects will align with CWSRF and/or DWSRF guidelines. This appropriation is for projects in FY22. This funding will support the Agency of Agriculture, Food, and Markets with the Best Management Practices Program and Capital Equipment Assistance Program. The Best Management Practices Program provides costshare to farmers to install capital eligible structures to protect water quality. The Capital Equipment Assistance Program provides grants to farmers to purchase capital equipment to be used for practices that protect water quality.	5-Infrastructure	5.9-Clean Water: Nonpoint Source	Completed less than 50%	2200892205	\$ 3,500,000.00	\$ 1,281,199.45	\$ 503,901.74	\$ 527,610.22	\$ 302,610.22	\$ 753,589.23	\$ 201,291.52	6 Item	teams/SOV-ARPA/Lists/SFR Reported Projects

ANR - DEC	ANR	6140892202	1	Three-Acre Stormwater Management-Engineering Services-Act74-G.700(a)(1)(A)	This is part of Vermont's ARPA Water and Sewer Program. Vermont's Clean Water Act of 2015 established the requirement that all owners of properties install modern stormwater treatment practices on parcels with three or more acres of "impervious surfaces." Construction of these practices is essential to prevent water pollution in Vermont. ARPA resources will provide municipalities and private citizens or business owners resources to do their part for clean water, while complementing other State funding sources. The first phase of the program consists of a solicitation for engineering services contracts to support private landowners to obtain engineering services necessary to comply with new stormwater rules. There are approximately 800 3-Acre Sites, projects affecting roughly 8,000 parcels, within the Lake Champlain and Lake Memphremagog watersheds that are subject to 3-acre requirements. The Department will establish engineering services contracts to assist landowners to access assistance, supported by the ARPA funds.	5-Infrastructure	5.6-Clean Water: Stormwater	Not started	6140892202	\$ 3,835,023.00	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	0 Item	teams/SOV-ARPA/Lists/SFR Reported Projects

ANR - DEC	ANR	6140892203	1	Village Water-Montgomery Decentralized Wastewater Facility-Act74-G.700(a)(2)(A)	Villages form the heart of Vermont's rural communities, yet more than 200 villages lack community wastewater disposal systems, hampering revitalization. More than 100 of Vermont's villages do not have a public municipal water system. This can limit the community's ability to support quality childcare and other businesses. In addition, municipal water systems can help address local drinking and surface water quality issues and prevent homeowners and businesses from the financial burden of addressing these issues individually. While many communities have explored municipal water and wastewater solutions, most do not proceed with the projects due to inability to charge affordable user rates that cover the cost of the project. Over the long term, the types of water and wastewater systems proposed provide economic growth and stability for the residents of these towns, but the financial challenges lie in the initial costs associated with installing these systems. These first projects proposed for grant funding will allow the recipient communities to bridge the affordability gap to overcome this challenge. This funding will support the Montgomery Decentralized Wastewater Facility project.	5-Infrastructure	5.3-Clean Water: Decentralized Wastewater	Not started	6140892203	\$ 507,107.00	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	0 Item	teams/SOV-ARPA/Lists/SFR Reported Projects

ANR - DEC	ANR	6140892206	1	Healthy Homes - On-site Water and Wastewater Solutions-Act74-G.700(a)(4)(B)	During the pandemic, some low-income Vermont homeowners saw their income disproportionately affected by COVID-19 and had their on-site water (such as wells) or wastewater systems (such as septic tanks and leach fields) fail. Many of these residents are not able to pay for system replacement or repairs, find it challenging to navigate the regulatory landscape necessary to construct a replacement system, have trouble accessing on-site water and wastewater professionals, or have limited access to information about the true costs of on-site water and wastewater solutions, which in addition to capital costs, often include "hidden" operation and maintenance costs. This program will provide financial assistance to residential property owners, including owner-occupied multi-family properties with up to four units. The Agency of Natural Resources (Agency) will provide ARPA funding to owner/applicant-occupied single and multi-unit residential properties that have failing or inadequate on-site water and/or wastewater systems.	2-Negative Economic Impacts	2.18-Housing Support: Other Housing Assistance	Completed less than 50%	6140892206	\$ 1,000,000.00	\$ 843,446.79	\$ 840,946.79	\$ -	\$ -	\$ 843,446.79	\$ 840,946.79	\$ -	0 Item	teams/SOV-ARPA/Lists/SFR Reported Projects

ANR - DEC	ANR	6140892206	2	Healthy Homes-On-site Water and Wastewater Solutions-ANDCO-Act74-G.700(a)(4)(B)	As part of the larger Healthy Homes program, this project addresses an emergency water system repair for a small cooperatively owned manufactured home community in Highgate, VT known as ANDCO. This situation was brought to the attention of the Agency of Natural Resources and ACCD by the technical assistance providers for ANDCO, the Cooperative Development Institute (CDI). The CDI works with many cooperatively owned manufactured home communities (MHCs) in Vermont and has been working to assist ANDCO to repair their failed drinking water system.	2-Negative Economic Impacts	2.18-Housing Support: Other Housing Assistance	Completed less than 50%	6140892206	\$	200,000.00	\$	175,000.00	\$	33,911.41	\$	175,000.00	\$	33,911.41	\$	-	\$	-	1 Item	teams/SOV-ARPA/Lists/SFR Reported Projects
ANR - DEC	ANR	6140892206	3	Mobile Home Park-Water & Wastewater Solutions-Admin-Act74-G.700(a)(4)(B)	Some of Vermont's mobile home parks struggle to provide clean and adequate drinking water, wastewater, storm water, and drainage systems. The Mobile Home Park Water/Wastewater Solutions grant program seeks to provide financial support to remedy those challenges and provide safe, affordable housing by providing grants to mobile home parks for both construction of water/wastewater solutions as well as needs analysis, technical assistance, and engineering. This funding will support administrative costs associated with this program.	7-Administrative	7.1-Administrative Expenses	Completed 50% or more	6140892206	\$	300,000.00	\$	224,949.24	\$	224,949.24	\$	-	\$	-	\$	224,949.24	\$	224,949.24	0 Item	teams/SOV-ARPA/Lists/SFR Reported Projects

SAS	SAS	2130892202	1	State's Attorneys and Sheriffs Case Management System Upgrade-Act74-G.501(a)(7)	The Department of State's Attorneys and Sheriffs (SAS) intends to implement a new criminal case management system (CCMS) which is necessary since the current system's vendor no longer supports the system, and a new system will assist with required statistical and demographic data collection, and help manage work to address current cases and backlog from the pandemic. In addition, it will allow SAS to integrate with the Judiciary's new Odyssey and E-File and Serve system for electronic filings, document submission, tracking and court scheduling. The Department, through ADS and BGS, has formally issued the RFP and held the bidders conference on 1/11/23 with 14 vendors. The deadline for questions is 1/18/23 and submissions for the RFP are due 1/30/23. Our Project Manager team from BerryDunn will be working with the SAS review team to identify finalist. We hope to have a selection made by the end of February, with work on a contract for services by end of March/beginning of April.	3-Public Health-Negative Economic Impact: Public Sector Capacity	3.4-Public Sector Capacity: Effective Service Delivery	Not started	2130892202	\$ 1,700,000.00	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	0 Item	teams/SOV-ARPA/Lists/SFR Reported Projects

VSAC	VSA	1110892112	1	Green Mountain Grad Program-Act9-19	The Green Mountain Grad Program provides scholarship assistance for up to 2 free classes in the 2021-2022 academic year at any of the Vermont State Colleges for any Vermont 2020 or 2021 high school graduate. This program also includes a student stipend for transport, books, or other necessary costs. The Vermont General Assembly determined that all high school graduates from the classes of 2020 and 2021 were directly impacted by COVID-19 with virtual learning, canceling of sports and other after school activities, and the lack of access to staff support for post-secondary training and education. This program provides a financial incentive for those students to pursue the training and education that is required for higher paying jobs.	2-Negative Economic Impacts	2.27-Addressing Impacts of Lost Instructional Time	Completed	1110892112	\$ 2,800,000.00	\$ 2,800,000.00	\$ 2,775,460.08	\$ 2,800,000.00	\$ 2,775,460.08	\$ -	\$ -	\$ -	1 Item	teams/SOV-ARPA/Lists/SFR Reported Projects
VSC	VSC	1110892109	1	Practical Nurse Program-Act9-17(a)	The Practical Nurse Program will support scholarships and job training for 40-45 existing staff at skilled nursing facilities with the opportunity to achieve certification as a Practical Nurse through Vermont Technical College. The program will partner with skilled nursing facilities across the state to upskill existing staff at these facilities to achieve certification as a Practical Nurse. This program aims to address the negative public health and economic impacts due to COVID-19 and will help mitigate the shortage of nursing professionals exacerbated by the pandemic.	2-Negative Economic Impacts	2.10-Assistance to Unemployed or Underemployed Workers (e.g. job training subsidized employment supports or incentives)	Completed less than 50%	1110892109	\$ 1,400,000.00	\$ 1,400,000.00	\$ 203,876.83	\$ 1,400,000.00	\$ 203,876.83	\$ -	\$ -	\$ -	1 Item	teams/SOV-ARPA/Lists/SFR Reported Projects

ANR - DEC	ANR	6140892209	1	PFAS Water Testing Program-Act 74-Sec.G.700(a)(6)(B)	The Agency of Natural Resources' Department of Environmental Conservation (ANR-DEC) intends to use this appropriation to issue contracts to qualified laboratories and firms to test water received at wastewater treatment facilities for perfluoroalkyl and polyfluoroalkyl substances (PFAS) and PFAS precursor compounds.	5-Infrastructure	5.5-Clean Water: Other Sewer Infrastructure	Not started	6140892209	\$ 1,250,000.00	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	0 Item	teams/SOV-ARPA/Lists/SFR Reported Projects
ANR - DEC	ANR	6140892303	2	3-Acre Stormwater Permit Engineering Services Contracts-Act185-Sec.700(a)(1)(a)	ANR intends to use SFR funds for the Three Acre Stormwater Permit Support program. The program addresses water and sewer infrastructure needs by providing grants to support installation of modern stormwater treatment practices on parcels with three or more acres of impervious surfaces. ANR's approach will help affected landowners overcome the first hurdle of three-acre rule compliance: permit application fees and the associated cost of engineering services required to apply for the permit. This portion will provide funding for contracts for engineering services to support permit obtainment for fifteen of seventeen regulated Manufactured Home Communities (MHCs).	5-Infrastructure	5.6-Clean Water: Stormwater	Not started	6140892303	\$ 500,000.00	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	0 Item	teams/SOV-ARPA/Lists/SFR Reported Projects

ANR - DEC	ANR	6140892303	3	3-Acre Stormwater Permit Obtainment Rebates-Act185-Sec.700(a)(1)(a)	ANR intends to use SFR funds for the Three Acre Stormwater Permit Support program. The program addresses water and sewer infrastructure needs by providing grants to support installation of modern stormwater treatment practices on parcels with three or more acres of impervious surfaces. ANR's approach will help affected landowners overcome the first hurdle of three-acre rule compliance: permit application fees and the associated cost of engineering services required to apply for the permit. This portion will provide funding for a permit obtainment beneficiary rebate program, to ensure that as many eligible owners are supported as is practicable.	5-Infrastructure	5.6-Clean Water: Stormwater	Not started	6140892303	\$ 2,500,000.00	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	0 Item	teams/SOV-ARPA/Lists/SFR Reported Projects
ANR - DEC	ANR	6140892303	4	3-Acre Stormwater Permit Construction Rebates-Act185-Sec.700(a)(1)(a)	ANR intends to use SFR funds for the Three Acre Stormwater Permit Support program. The program addresses water and sewer infrastructure needs by providing grants to support installation of modern stormwater treatment practices on parcels with three or more acres of impervious surfaces. ANR's approach will help affected landowners overcome the first hurdle of three-acre rule compliance: permit application fees and the associated cost of engineering services required to apply for the permit. This portion will provide funding for a new construction rebate program, for projects owned by low-income Vermonters and Manufactured Home Communities (MHCs).	5-Infrastructure	5.6-Clean Water: Stormwater	Not started	6140892303	\$ 19,000,000.00	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	0 Item	teams/SOV-ARPA/Lists/SFR Reported Projects

DFR	DFR	2210892301	2	COVID-19-Related Paid Leave Retroactive Pay Portion-Act183-Sec.51a.(a)(2)	This program will grant funds to any person with one or more employees (i.e., employer) as reimbursement for the cost of providing COVID-19-related paid leave. This portion will cover funding for the program's retroactive pay.	6-Revenue Replacement	6.1-Provision of Government Services	Not started	2210892301	\$ 5,000,000.00	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	0 Item	teams/SOV-ARPA/Lists/SFR Reported Projects
DPS	DPS	2140892201	25	Flood Resilient Communities-Woodchuck Hollow Demolition-Act74-G.700(a)(7)(A)	The Flood Resilient Communities Fund intends to provide matching grants to government entities, non-profit entities, and individuals to mitigate flood hazards by addressing water and sewer infrastructure needs in accordance with the CWSRF and DWSRF. The Flood Resilient Communities Fund's goal is improving landscape and community resilience and reducing the future public safety and water quality impacts of climate-related flood hazards in Vermont, focusing on buyouts of flood-vulnerable properties. The program will prioritize projects in communities and/or for homeowners with greatest economic need and projects that mitigate repetitive loss among low-income and marginalized portions of the population. This funding will support the acquisition and demolition of 16 Woodchuck Hollow Road.	5-Infrastructure	5.9-Clean Water: Nonpoint Source	Completed less than 50%	2140892201	\$ 123,480.00	\$ 123,480.00	\$ -	\$ 123,480.00	\$ -	\$ -	\$ -	\$ -	1 Item	teams/SOV-ARPA/Lists/SFR Reported Projects
