DPS Division/Team Overview

- Vermont Task Force One - Urban Search and Rescue (USAR)
 - Responds to all major disasters in the State
 - Primary water rescue resources for the State
 - Responds statewide to assist local departments with building stabilization after fires or other emergencies
 - 90-member team of part time employees and 1 full time
- VT Hazardous Materials Response Team (HAZMAT)
 - Established in 1993 via 20 V.S.A. § 33
 - Singular team responding statewide to hazardous materials emergencies
 - 35-member team with a 1 full time chief
 - Provides training to local fire departments in hazardous materials
- Recreational Enforcement Unit-Vermont State Police (VSP)
 - Responsible for recreational boating safety on all Vermont waterways
 - Recreational safety enforcement
 - Underwater recovery team assist statewide in recovery operations
 - Snow machine storage
 - Staffed with full time and auxiliary troopers
- Division of Fire Safety (FS) Williston Regional Office
 - Provides code, enforcement, and investigation services to the Northwest section of the State

Special Teams Facility and Storage

CECF (Cash Funds)
FY 24 \$250,000
FY25 \$1,000,000

Current State

- USAR and HAZMAT
 - AOT garage in Colchester
 - AOT needs to reoccupy this space for their operational needs
 - No classroom or training areas
 - Building layout requires equipment to be positioned with a forklift to fit equipment inside
 - Some equipment currently being stored outside
 - Space is too small for current and future needs
 - No fire protection system leaving equipment at risk
 - 100% of USAR's assets
 - Primary HAZMAT response truck and storage
 - Completely inadequate bathrooms and break space
- Marine Unit
 - New building removed from scope of new Williston facility
 - Housed in the current Williston Public Safety Facility
 - Deteriorating building shell and systems
 - Eventual sale of building
 - This unit provides maintenance of VSP's recreational vehicle fleet
- Division of Fire Safety
 - High cost leased space in Williston
- Co-locating
 - Provides location with shared facilities such as classrooms, storage, and base of operations for DPS teams
 - Increase productivity and functionality between the teams
 - Sharing of resources such as equipment maintenance and personnel
 - Indoor and outdoor storage
- FY 24/25 \$1,250,000 – Design cost
