

"ECFiber kicked out Montpelier" - false.

- 1) A CUD cannot eject a town. Only a town can remove itself.
- 2) Montpelier joined CVFiber and continued its membership in ECFiber
- 3) Montpelier decided there was no point to being members of both and voted to leave ECFiber

ECFiber's public monies were deminimus over the years as a review of our financials will show. The dark fiber from the state may have been worth up to \$1 million originally but was poorly constructed and we've had to replace significant parts of it.

F. X. Flinn

Chair, Governing Board (Town of Hartford Delegate)

East Central Vermont Telecommunications District (dba ECFiber)

e: chair@ecfiber.net | m:802-369-0069

he/him; Like kd lang and B. B. King,

I go by my initials, which are for Francis Xavier

Just a reminder, ECFiber never has spaces or periods, it's a trade name, not an acronym or abbreviation.
