20 property types and characteristics, including use, occupancy or vacancy, square
21 footage, and any other relevant factors.

1 (3) Options for and any implementation of implicit bias reduction
2 training for listers and assessors.

13 (B) recommendations to distinguish between different types and uses
14 of property on the municipal and statewide education grand lists and a detailed
15 proposal for designating new or updated property types and integrating them

17 overall property taxation system beginning on January 1, 2026.

18 (2) The written submission required under this subsection shall identify
19 and recommend the means to achieve consistency in property valuation and
20 taxation across the State in order to prioritize the elimination of racial,
21 socioeconomic, and other implicit biases. Pursuant to this subdivision, the

1 Department shall review and revise State training programs and guidance
2 provided to listers and assessors, including the Vermont Department of Taxes,
3 Division of Property Valuation and Review publication titled “Lister and
4 Assessor Handbook A Guide for Vermont Listers and Assessors,” for instances
5 of racial, socioeconomic, and other implicit biases and report on any revisions
6 made or planned to be made to those training programs and guidance.

7 (3) The implementation proposal required under subdivision (1)(A) of
8 this subsection regarding the creation of a statewide reappraisal system shall
9 make recommendations and propose legislative language, as applicable or
10 needed to achieve the Department’s recommendations, regarding the
11 following:

12 (A) Adequate funding, including cost-saving measures and

19 municipality’s municipal and statewide education grand list, including:

20 (I) selection and prioritization criteria;

1 (II) any proposed adjustments to the coefficient of dispersion
2 threshold that causes a reappraisal order pursuant to 32 V.S.A. § 4041a;

3 (III) the frequency and efficacy of conducting full and
4 statistical reappraisals on a set schedule; and

5 (IV) any other recommendations for establishing a reappraisal
6 schedule.

7 (ii) The implementation proposal shall list the municipalities that,
8 at the time of passage of this act, have been ordered to reappraise pursuant to
9 32 V.S.A. § 4041a for the longest period of time and propose the means to
10 prioritize a first State-level reappraisal for those municipalities' grand lists,
11 provided no municipality shall be required to reappraise in fewer than six years
12 after completion of the most recent full reappraisal. The implementation
13 proposal shall further list the municipalities that have recently undergone or are
14 currently undergoing a reappraisal and propose the means to ensure that those
15 municipalities' grand lists are not scheduled for a first State-level reappraisal in
16 fewer than six years after completion of the most recent full reappraisal.

17 (C) Creation of a reappraisal appeal structure that:

18 (i) ensures impartiality and installs procedural safeguards against
19 conflicts of interest;

1 (ii) ensures all communities have convenient and reasonable
2 access to State appeal hearings, regardless of the geographical location of the
3 appellant;

4 (iii) based on a study of other State administrative appeal
5 structures, incorporates the strengths and advantages of those appeal structures;
6 and

9 narrowing or eliminating the role of Boards of Civil Authority within the
10 appraisal appeal process.

11 (D) Streamlining, integrating, and updating State and municipal
12 software vendor agreements and information technology systems relating to
13 reappraisals and maintaining municipal and statewide education grand lists,
14 including the integration of any new or updated property types into municipal
15 and statewide education grand lists, as applicable, and the overall property
16 taxation system beginning on January 1, 2026. The implementation proposal
17 shall further estimate costs and analyze any other considerations regarding
18 software vendor agreements.

19 (E) Existing definitions and data metrics currently gathered by
20 municipal Computer Assisted Mass Appraisal (CAMA) systems and the
21 potential for using those definitions and data to collect information on the

1 number of residential units, land value distinct from the value of buildings or
2 other improvements on the land, the year of construction for buildings or other
3 improvements, and any other pertinent data relating to properties in this State.

4 (F) Distinguishing between contiguous parcels for purposes of
5 property valuation and the payment of the per-parcel fee under 32 V.S.A.
6 § 5405(f).

7 (G) Incentivizing municipalities to submit grand list parcel map data
8 to the Vermont Center for Geographic Information, including conditioning
9 payment of higher per grand list parcel fees on the submission of data.

10 (H) Incorporating the principles of a high-quality tax system into a
11 potential statewide reappraisal system as enumerated by the National
12 Conference of State Legislatures, “Tax Policy Handbook for State Legislators”
13 (February 2010), 3rd ed., including sustainability, reliability, fairness,
14 simplicity, economic competitiveness, tax neutrality, and accountability.

15 (4) The recommendations and detailed proposal required under
16 subdivision (1)(B) of this subsection regarding new or updated property types
17 that apply to municipal and statewide education grand lists and the overall
18 property taxation system shall include the following:

19 (A)(i) Legislative language, as applicable or needed to achieve the
20 Department’s recommendations, that differentiates between grand list
21 properties based on property type and characteristics, including use, occupancy

1 or vacancy, square footage, and any other relevant factors. The detailed
2 proposal shall recommend how certain property types and characteristics could
3 be identified and data could be collected, including:

4 (I) different types of rental and affordable housing properties;

5 (II) the number of residential units in this State, including the
6 number of residential units per parcel;

7 (III) land value distinct from the value of buildings or other
8 improvements on the land;

9 (IV) the year of construction for buildings or other
10 improvements; and

11 (V) any other pertinent data relating to properties in this State.

12 (ii) The recommendation under this subdivision (4)(A) shall
13 consider the way that existing municipal and statewide education grand list
14 property categories used for purposes of the equalization study could be
15 reconfigured and consolidated and any other means to identify properties in
16 order to obtain detailed, accurate, and consistent data on all properties
17 throughout the State.

18 (B) Updating existing information technology systems or creating a
19 new data collection and reporting system, or both, and creating a designation
20 process for integrating different property types into the municipal and
21 statewide education grand lists and the overall property taxation system in a

1 detailed, accurate, and consistent way that takes into consideration the
2 compliance and administrative burdens placed on both property owners and
3 municipal and State administrators. The detailed proposal shall provide clear
4 and actionable guidance on any new or updated property types and the
5 designation process for both property owners and municipal listers and
6 assessors.

8 assessors with conducting the initial designation, data collection, and reporting
9 of any new or updated property types.

10 (D) Integration of new or updated property types into a potential
