9 Sec. 1. 16 V.S.A. § 3441 is added to read:

10 § 3441. FACILITIES MASTER PLAN GRANT PROGRAM; REPORT

11 (a) Intent. It is the intent of the General Assembly that the Facilities
12 Master Plan Grant Program established pursuant to this section shall enable
13 supervisory unions and independent career and technical education districts to

15 educational needs and goals of the supervisory union. The goal of a facilities
16 master plan shall be to facilitate an evaluation of the capacity of existing
17 facilities to deliver on identified 21st century educational goals. A facilities
18 master plan shall also enable and require supervisory unions to engage in
19 intentional and robust conversations with the larger community that will
20 hopefully lead to the successful passage of bonds needed to support the
21 renovation or construction needs of the supervisory union. It is the intent of

9 Program to be administered by the Agency of Education, from funds
10 appropriated for this purpose to supervisory unions and independent career and
11 technical education districts to support the development of educational
12 facilities master plans. Grant funds may be used to hire a consultant to assist
13 in the development of the master plan with the goal of developing a final
14 master plan that complies with State construction aid requirements.

15 (d) Standards for the disbursement of funds. The Agency shall develop
16 standards for the disbursement of grant funds in accordance with the following:

17 (1) Grants shall be awarded to applicants with the highest facilities
18 needs. The Agency shall develop a prioritization formula based on an
19 applicant’s poverty factor and average facilities condition index score. The
20 Agency shall develop or choose a poverty metric to use for the prioritization
21 formula. The Agency may give priority to applications with a regionalization

1 focus that consist of more than one supervisory union or independent career
2 and technical education district that apply as a consortium.

3 (2) Award amounts shall be commensurate with the gross square
4 footage of buildings located within the applicable supervisory union or career
5 and technical education district.

6 (3) The Agency shall develop minimum requirements for an educational
7 facilities master plan, which shall include, at a minimum, the following
8 elements:

9 (A) a description of the educational mission, vision, and goals of the
10 supervisory union;

11 (B) a description of educational programs and services offered by the
12 supervisory union;

13 (C) the performance of a space utilization assessment;

14 (D) the identification of new program needs;

15 (E) the development of enrollment projections;

16 (F) the performance of a facilities assessment; and

17 (G) information regarding the various design options explored to
18 address the supervisory union's identified needs.

19 (e) Report. Annually on or before December 31, the Agency shall submit
20 to the House and Senate Committees on Education a written report with
21 information on the implementation of the grant program created in this section.

5 CONSULTANTS

6 On or before October 15, 2024, the Agency of Education shall coordinate
7 with the Department of Buildings and General Services to develop
8 prequalification criteria for alternative project delivery consultants and
9 architecture and engineering firms specializing in kindergarten through grade
10 12 school design and construction. The Department shall assist the Agency in
11 distributing requests for qualifications and in reviewing the resulting responses
12 for approval and prequalification. The Department shall maintain the list of
13 prequalified firms and consultants and shall make the list available to school
14 districts and supervisory unions.

1 recommendations shall include recommendations on staffing levels and a
2 stable appropriation for the funding of the recommended governance structure.

3 (B) Prioritization criteria. The Working Group shall make

17 that would require consideration of the adaptive reuse of schools;

18 (v) a prohibition on exclusionary zoning regulations that would

2 building to use as a school should be included in a State aid to school
3 construction program;

14 school construction aid program, including the following populations:

15 (i) elementary students;

16 (ii) high school students;

17 (iii) supervisory unions with low population density, as defined by
