

I am writing about my Grandson who has severe Autism. He will never be able to hold a job, live alone, or even venture out into the world without someone next to him to protect him. Right now he is in a wonderful School in New Hampshire, a boarding School , where he is very happy, Unfortunately he can only remain there for one more year, until he turns 22 yrs old. So far his only options in Vt. are for him to return home to his Mom. His Mom loves and adores him, as we, his Grandpa & I do, but we are in our mid 80's and are unable to offer the support we would like to give, and that he needs at this stage of his life. He is prospering in the school in N.H. he enjoys the camaraderie of the other students , he enjoys having a roommate, all the activity around him. We need Residential housing in Vermont, somewhere to house these most unfortunate of humans who are unable to care for themselves, My daughter is a single Mom who has another younger child at home to raise, she cannot give her son the attention he needs. Please Help. Thank you.
