

CTIA Proposed Amendments to S.310 Section 18

- Page 44, lines 1-3. Modify the new text so it reads as follows: "... through a public safety answering point. For delivery of 911 calls to a Next Generation 9-1-1 provider, originating service providers shall deliver 911 calls to commercially reasonable point (or points) of interconnection defined by the Board, consistent with applicable Federal Communications Commission requirements and in accordance with approved i3 Standards for Next Generation 9-1-1."
- Page 46, lines 1 and 5. Insert "available" before "Automatic Number Identification" at line 1, and "consistent with Federal Communications Commission requirements" after "911 caller" at line 5.
- Page 46, lines 5-7. Insert "For delivery of 911 calls to a Next Generation 9-1-1 provider" at the beginning of the sentence at line 5, and insert "FCC requirements and" after "in accordance with" at line 7.
- Page 46 - 47, lines 18-20 and lines 1-2. Delete new Section (f) in its entirety.
