H. 210

The Senate proposed to the House to amend House bill, entitled

An act relating to addressing disparities and promoting equity in the health care system

The Senate proposed to the House to amend the bill by striking all after the enacting clause and inserting in lieu of the following:

Sec. 1. FINDINGS

The General Assembly finds that:

(1) The Department of Health's 2018 State Health Assessment indicates that Vermont residents experience barriers to the equal enjoyment of good health based on race and ethnicity, sexual orientation, gender identity, and disability status.

(2) According to the 2018 Department of Health's Behavioral Risk Factor Surveillance System report, non-White Vermonters are:

(A) statistically less likely to have a personal doctor;

(B) statistically more likely to report poor mental health;

(C) more than twice as likely to report rarely or never getting the necessary emotional support;

(D) significantly more likely to have depression;

(E) significantly more likely to have been worried about having enough food in the past year; and

(F) significantly more likely to report no physical activity during leisure time.

(3) According to the Department of Mental Health's analysis entitled "Race Data VPCH Admissions," which reviewed patients admitted from May 1, 2019 to April 30, 2020, Non-White Vermonters are disproportionately represented in the highest level of involuntary hospitalization. At the Vermont Psychiatric Care Hospital, 15 percent of the patients are non-White.

(4)(A) Non-White Vermonters have also been disproportionately affected by COVID-19. According to a data brief published on the Department of Health's website in December 2020, entitled "COVID-19 among Vermonters who are Black, Indigenous, and People of Color (BIPOC)," nearly one in every five COVID-19 cases in Vermont are among Black, Indigenous, and Persons of Color even though these Vermonters make up approximately six percent of Vermont's population. According to that same data brief, the incidence rate for non-White Vermonters is 74.2 versus 26.2 for White Vermonters. The incidence rate for Black Vermonters is 225.7; the incidence rate for Asian Vermonters is 61; the incidence rate for Hispanic Vermonters is 41.7; and the incidence rate for other races is 20.5. Non-White Vermonters are also at a higher risk for more serious outcomes, such as hospitalization.

(B) According to the Department of Health's December 2020 data brief, COVID-19 cases among non-White Vermonters tend to be younger than

for White Vermonters. The average age of persons testing positive for COVID-19 is 33 among non-White Vermonters, whereas the average age is 46 among White Vermonters.

(C) While, according to the Department of Health's 2018 Behavior Risk Factor Surveillance System, there are not statistically significant differences in the rates of preexisting conditions, such as diabetes, lung disease, and cardiovascular disease, among White and non-White Vermonters, the Vermont Department of Health's December 2020 data brief indicates that there are disparities in the rates of preexisting conditions among Vermonters testing positive for COVID-19. As stated in that data brief, the preexisting conditions rate among COVID-19 cases is 19.4 percent for non-White Vermonters and 12.1 percent for White Vermonters. According to the same December 2020 data brief, this suggests that non-White Vermonters are at higher risk of exposure to COVID-19 due to their type of employment and living arrangements. Thirty-six percent of non-White Vermonters had household contact with a confirmed case of COVID-19, as compared to only 20 percent of White Vermonters as stated in the Department of Health's December 2020 data brief.

(5) According to the 2018 Vermont Behavioral Risk Factor Surveillance System Report, adults with a disability are:

(A) five times as likely to consider suicide than adults with no disability;

(B) eight times more likely to report fair or poor health than adults with no disability;

(C) statistically more likely to delay care due to cost than adults with no disability;

(D) seven times more likely to report poor physical health than adults with no disability;

(E) statistically more likely to report poor mental health in the past month than adults with no disability;

(F) more than twice as likely to report rarely or never getting the necessary emotional support as compared to White adults with no disability;

(G) statistically more likely to report having arthritis than adults with no disability;

(H) statistically more likely to have asthma than adults with no disability;

(I) nearly twice as likely to have ever had cancer than adults without

a disability;

(J) statistically more likely to have had skin cancer than adults with no disability;

(K) three times more likely to report having cardiovascular disease than adults with no disability;

(L) five times more likely to report having chronic obstructive pulmonary disease than Vermonters with no disability;

(M) significantly more likely to have depression than adults with no disability;

(N) three times as likely to report having diabetes than those with no disability;

(O) significantly more likely to report having hypertension than those with no disability;

(P) statistically more likely to report having kidney disease than adults with no disability;

(Q) significantly more likely to have been worried about having enough food in the past year when compared to adults with no disability;

(R) more than three times as likely to report housing insecurity in the past year than adults with no disability; and

(S) significantly more likely to report no physical activity during leisure time than adults with no disability.

(6) According to the 2018 Vermont Behavior Risk Factor Surveillance System Report, adults who are LGBTQ are:

(A) three times as likely to report seriously considering suicide compared to non-LGBTQ adults;

(B) statistically more likely to delay care due to cost than non-LGBTQ adults;

(C) statistically more likely to report poor mental health in the past month than non-LGBTQ adults;

(D) statistically more likely to report a disability than non-LGBTQ adults;

(E) statistically more likely to have asthma than non-LGBTQ adults;

(F) significantly more likely to have depression than non-LGBTQ adults; and

(G) significantly more likely to have been worried about having enough food in the past year when compared to non-LGBTQ adults.

(7) LGBTQ youths, according to Vermont's 2019 Youth Risk Behavior Survey, are:

(A) four times more likely to purposefully hurt themselves in the preceding 12 months and four times more likely to make a suicide plan in the preceding 12 months than cisgender, heterosexual peers;

(B) five times more likely to have attempted suicide in the preceding 12 months than cisgender, heterosexual peers;

(C) over three times more likely to experience unwanted sexual contact as compared to cisgender, heterosexual peers;

(D) twice as likely to experience bullying during the preceding month and significantly more likely to skip school due to safety concerns at or on their way to or from school as compared to cisgender, heterosexual peers;

(E) nearly three times more likely to experience housing insecurity as compared to cisgender, heterosexual peers;

(F) twice as likely to face food insecurity as compared to cisgender, heterosexual peers; and

(G) twice as likely to report having a physical disability, long-term health problem, emotional problem, or learning disability as compared to cisgender, heterosexual peers.

(8) According to Preliminary Data from the 2018 State Health Assessment presented to the House Committee on Health Care by the Department of Health in January 2018, Vermonters who experience health inequities report that they:

(A) face discrimination, prejudice, and racism that is often invisible to others;

(B) do not trust and feel misunderstood by "the system";

(C) do not feel valued, included, or safe;

(D) feel like services are not designed to support them;

(E) feel a lack of agency over their health and their own lives; and

(F) believe this takes place because our society has been structured to maintain a status quo that provides them with unequal opportunities.

(9) Vermont's 2018 State Health Assessment indicates that social determinants of health are underlying, contributing factors of the foregoing

health inequities. That is, disparities in social determinants of health contribute to health inequities. Disparities in the social determinants of health exist in Vermont. For example:

(A) According to the Vermont Housing Finance Agency, just 21 percent of Black Vermonters own their own homes, whereas 72 percent of White Vermonters own their own home. Nationally, 41 percent of Black Americans own their own home.

(B) According to the Vermont Housing Finance Agency, the median household income of Black Vermonters is \$41,533.00, while the median household income of White Vermonters is \$58,244.00.

(C) According to the U.S. Census Bureau, in 2018, 23.8 percent of Black Vermonters were living in poverty, while 10.7 percent of White Vermonters lived in poverty. In addition, according to the Vermont Housing Finance Agency, 57 percent of Black Vermonters earned less than 80 percent of Vermont's median income, while 43 percent of White Vermonters earned less than 80 percent of Vermont's median income.

(D) According to the Vermont Housing Finance Agency, about one in two non-White Vermonters experience "housing problems," which is defined by the U.S. Department of Housing and Urban Development as homes that lack complete kitchen facilities or plumbing; overcrowded homes; or households paying more than 30 percent of income towards rent, mortgage payments, and utilities. One in three Vermonters experience "housing problems."

(E) According to the Vermont Coalition to End Homelessness and Chittenden County Homeless Alliance's 2020 Point-in-Time Count, Black Vermonters are overrepresented among Vermonters experiencing homelessness. While Black Vermonters make up about one percent of Vermont's population, they make up six percent of Vermonters experiencing homelessness.

(10) According to the Indian Health Service, "[t]he American Indian and Alaska Native people have long experienced lower health status when compared with other Americans," including a life expectancy among American Indian and Alaska Native people born today that is 5.5 years less than the U.S. all races population.

(11) As outlined in 2021 J.R.H. 2, Vermont's "State-sanctioned eugenics policies targeted Vermonters of Native American Indian heritage, including French-Indian and Abenaki families, and persons of mixed ethnicity and of French-Canadian heritage, as well as the poor and persons with disabilities, among others." These policies, including the State's 1931 sterilization law, are

examples of past injustices in the health care system that continue to impact members of these communities in present day.

Sec. 2. LEGISLATIVE INTENT AND PURPOSE

(a) It is the intent of the General Assembly to promote health and achieve health equity by eliminating avoidable and unjust disparities in health through a systemic and comprehensive approach that addresses social, economic, and environmental factors that influence health. To this end, the General Assembly believes that:

(1) Equal opportunity is a fundamental principle of American democracy.

(2) Equal enjoyment of the highest attainable standard of health is a human right and a priority of the State.

(3) Structural racism, defined as the laws, policies, institutional practices, cultural representations, and other societal norms that often work together to deny equal opportunity, has resulted in health disparities among Vermonters. Great social costs arise from these inequities, including threats to economic development, democracy, and the social health of the State of Vermont.

(4) Health disparities are a function of not only access to health care, but also social determinants of health, including the environment, the physical structure of communities, nutrition and food options, educational attainment, employment, race, ethnicity, sex, geography, language preferences, immigrant or citizen status, sexual orientation, gender identity, and socioeconomic status, that directly and indirectly affect the health, health care, and wellness of individuals and communities.

(5) Efforts to improve health in the United States have traditionally looked to the health care system as the key driver of health and health outcomes. However, there has been increased recognition that improving health and achieving health equity will require broader approaches that address factors that influence health.

(6) Health equity is the attainment of the highest level of health for all people. Health equity can be achieved only by eliminating the preventable differences in the health of one group over another as the result of factors such as race, sexual orientation, gender, disability, age, socioeconomic status, or geographic location.

(7) Definitions of racial categories and identities can be difficult to agree upon, as they often create hierarchies and comparisons that center whiteness, prioritize one group or identity over another, or fail to recognize

historical inequities and oppression. Definitions also shift over time as broader cultural norms change. While potentially problematic, in order to align with data collection standards and create consistency, this bill does use the term “non-White” as defined in 18 V.S.A. § 251 and also seeks to create new definitions that better reflect racial and ethnic identities and categories pursuant to Sec. 6 of this act.

(b) The purpose of this act is to eliminate disparities in health status based on race, ethnicity, disability, and LGBTQ status by:

(1) establishing better and more consistent collection and access to data;

(2) enhancing the full range of available and accessible culturally appropriate health care and public services across Vermont;

(3) ensuring the early and equitable inclusion of Vermonters who experience health inequities because of race, ethnicity, disability, and LGBTQ status in efforts to eliminate such inequities; and

(4) addressing social determinants of health, particularly social, economic, and environmental factors that influence health.

Sec. 3. 18 V.S.A. chapter 6 is added to read:

CHAPTER 6. HEALTH EQUITY

§ 251. DEFINITIONS

As used in this chapter:

(1) “Cultural competency” means a set of integrated attitudes, knowledge, and skills that enables a health care professional to care effectively for patients from cultures, groups, and communities other than that of the health care professional. At a minimum, cultural competency should include the following:

(A) awareness and acknowledgement of the health care professional’s own culture;

(B) utilization of cultural information to establish therapeutic relationships;

(C) eliciting and incorporating pertinent cultural data in diagnosis and treatment;

(D) understanding and applying cultural and ethnic data to the process of clinical care; and

(E) the ability to recognize the importance of communication, language fluency, and interpretation in the provision of health care services

and assist with access to interpretation and appropriate communication services.

(2) “Cultural humility” means the ability to maintain an interpersonal stance that is other-oriented, or open to the other, in relation to aspects of cultural identity that are most important to the client or patient.

(3) “Health disparity” means differences that exist among specific population groups in the United States in attaining individuals’ full health potential that can be measured by differences in incidence, prevalence, mortality, burden of disease, and other adverse health conditions.

(4) “Health equity” means all people have a fair and just opportunity to be healthy, especially those who have experienced socioeconomic disadvantage, historical injustice, and other avoidable systemic inequalities that are often associated with the social categories of race, gender, ethnicity, social position, sexual orientation, and disability.

(5) “Health equity data” means demographic data, including, but not limited to, race, ethnicity, primary language, age, gender, socioeconomic position, sexual orientation, disability, homelessness, or geographic data that can be used to track health equity.

(6) “LGBTQ” means Vermonters who identify as lesbian, gay, bisexual, transgender, queer, or questioning.

(7) “Non-White” means Black, Indigenous, and Persons of Color. It is not intended to reflect self-identity, but rather how people are categorized in the racial system on which discrimination has been historically based in the United States and how Vermont typically disaggregates data solely by White and non-White.

(8) “Race and ethnicity” mean the categories for classifying individuals that have been created by prevailing social perceptions, historical policies, and practices. Race and ethnicity include how individuals perceive themselves and how individuals are perceived by others.

(9) “Social determinants of health” are the conditions in the environments where people are born, live, learn, work, play, worship, and age, such as poverty, income and wealth inequality, racism, and sex discrimination, that affect a wide range of health, functioning, and quality-of-life outcomes and risks. They can be grouped into five domains: economic stability; education access and quality; health care access and quality; neighborhood and built environment; and social and community context. Social determinants of health are systematic, interconnected, cumulative, and intergenerational conditions that are associated with lower capacity to fully participate in society.

§ 252. HEALTH EQUITY ADVISORY COMMISSION

Rep. Donahue of Northfield explained her vote as follows:

“Madam Speaker:

Some of the components in this bill are of concern. In addition, almost every decision we make has a cost-benefit balance to it. I believe that postcards to voters providing easy availability of absentee ballots provides full access, while the cost of a universal ballot system is high. Despite these misgivings, I do support the intent of the bill, and vote yes.”

Rep. Mrowicki of Putney explained his vote as follows:

“Madam Speaker:

Voting yes for this bill was an easy task for me as I bring the voices of a vast majority of the constituents I represent who are aware that access to voting is essential to maintaining our democratic republic. I'm proud of Vermont and your House Government Operations Committee for their work on this bill- as well as the other body. While other states seek to suppress and limit access to voting, including banning providing food and drink to voters waiting in long lines, Vermont is taking the lead in expanding access for voters.”

Rep. Sims of Craftsbury explained her vote as follows:

“Madam Speaker:

I vote yes to make universal vote-by-mail a permanent feature of Vermont's elections. Vermont has a long history of election reforms to increase access to voting and this bill makes permanent the learning from our election during the pandemic. I'm proud to support this bill to make sure every vote counts.”

Rep. Wood of Waterbury explained her vote as follows:

“Madam Speaker:

Unlike other states, today I proudly cast my vote to continue Vermont's tradition of improving voter access to a person's constitutional right to cast a ballot.”

House Resolution Placed on Calendar**H.R. 11**

House resolution, entitled

House resolution further extending the House's declaration of a state of emergency and authorizing alternative procedures as necessary thereafter

Offered by: Committee on Rules

Whereas, on the first day of the 2021–22 biennium, the House adopted H.R. 1 (declaring a state of emergency), which declared a state of emergency due to the COVID-19 pandemic for the House's rules and procedures through March 9, 2021, and

Whereas, temporary House Rules 9a and 29a—which the House also adopted on the first day of the biennium via H.R. 2 (authorizing remote debate and voting in the House and House committees)—allow the House and its committees to vote remotely and engage in debate remotely while the House's declaration of a state of emergency is in effect, and

Whereas, the House extended its declaration of a state of emergency through May 15, 2021 via H.R. 8 (extending the House's declaration of a state of emergency), and

Whereas, the ongoing COVID-19 pandemic continues to require that the House and its committees be authorized to participate remotely in order to permit the House to conduct its business in the safest manner possible to prevent the spread of COVID-19 throughout Vermont communities, now therefore be it

Resolved by the House of Representatives:

That the House of Representatives extends its declaration of a state of emergency through May 22, 2021 or through days subsequent to that date as authorized by the House Committee on Rules if required in order to allow the House to complete its business to adjourn prior to any 2021 veto session; through any 2021 veto session; and through the 30 days following the date on which the Governor rescinds all remaining capacity restrictions at gatherings and events and mask and physical distancing requirements issued under the Governor's Declaration of a State of Emergency in Response to COVID-19 as determined by the House Committee on Rules, and be it further

Resolved: If the Governor thereafter reissues capacity restrictions at gatherings and events or requires masks and physical distancing in response to COVID-19, the House Committee on Rules is authorized to meet remotely and is authorized to permit the House of Representatives and its committees to meet, debate, and vote remotely, and be it further

Resolved: If, during a time in which the Governor has not imposed capacity restrictions at gatherings and events or required masks and physical distancing in response to COVID-19—but during which time the House of Representatives cannot meet in the House chamber according to its rules due to State House construction, the inability to comply with Centers for Disease Control guidelines, or other similar reasons—the House Committee on Rules is authorized to adopt alternative procedures that allow the House to meet, debate, and vote in-person in a different manner within the chamber or at another physical location.

Was read by title only and, in the Speaker's discretion, placed on the Calendar for Action tomorrow under Rule 52.

* * * Repeal of U.S. Route 4 Permit * * *

Sec. 5. LEGISLATIVE INTENT

(a) It is the intent of the General Assembly not to repeal 23 V.S.A. § 1432(c), pursuant to Secs. 6 and 36(b) of this act, until the Agency of Transportation:

(1) works with the Town of Woodstock to identify safety concerns related to tractor trailers traveling through the Town on U.S. Route 4; and

(2) incorporates improvements it determines, in its sole authority, are feasible within the town highway right-of-way and scope of work for Woodstock NH PC21(5) within the Agency’s Proposed Fiscal Year 2022 Transportation Program for Program Development—Paving.

(b) The project identified as Woodstock NH PC21(5) is expected to be completed during the summer 2021 construction season and there is no projected fiscal year 2023 funding for the project included in the Proposed Fiscal Year 2022 Transportation Program, so having the repeal of 23 V.S.A. § 1432(c) be effective on January 1, 2022 should provide sufficient time for the Agency to work with the Town to design and complete the project identified as Woodstock NH PC21(5) and the Town to make any additional improvements that it deems necessary.

Sec. 6. 23 V.S.A. § 1432(c) is amended to read:

~~(c) Operation on U.S. Route 4. Notwithstanding any other law to the contrary, vehicles with a trailer or semitrailer that are longer than 68 feet but not longer than 75 feet may be operated with a single or multiple trip overlength permit issued at no cost by the Department of Motor Vehicles or, for a fee, by an entity authorized in subsection 1400(d) of this title on U.S. Route 4 from the New Hampshire state line to the junction of VT Route 100~~

~~south, provided the distance from the kingpin of the semitrailer to the center of the rearmost axle group is not greater than 41 feet. [Repealed.]~~

* * * Federal Infrastructure Funding * * *

Sec. 7. FEDERAL INFRASTRUCTURE FUNDING

(a) Notwithstanding Sec. 1 of this act; 2020 Acts and Resolves No. 121, Sec. 1; 19 V.S.A. § 10g(n); and 32 V.S.A. § 706, if a federal infrastructure bill or other federal legislation that provides for infrastructure funding is enacted that provides Vermont with additional federal funding for transportation-related projects, the Secretary, with approval from the Joint Transportation Oversight Committee pursuant to subdivision (c)(2) of this section, is authorized to exceed federal monies spending authority in the Fiscal Year 2021 and Fiscal Year 2022 Transportation Programs and to obligate and expend federal monies and up to \$2,000,000.00 in State Transportation Fund monies on development and evaluation for additional projects that meet federal eligibility and readiness criteria and have been evaluated through the Agency's prioritization process but are not in the Fiscal Year 2021 or Fiscal Year 2022 Transportation Program.

(b) Nothing in subsection (a) of this section shall be construed to authorize the Secretary to obligate or expend:

(1) State TIB funds above amounts authorized in the Fiscal Year 2021 or Fiscal Year 2022 Transportation Program; or

(2) State Transportation Fund monies if the Agency does not:

(A) expect to accept and obligate federal monies pursuant to subsection (a) of this section in an amount sufficient to cover the additional expenditure of State Transportation Fund monies; and

(B) expect the projects for which State Transportation Fund monies are used to eventually be eligible for funding entirely through federal monies.

(c)(1) The Agency shall promptly report the obligation or expenditure of monies under the authority of this section to the House and Senate Committees on Transportation and to the Joint Fiscal Office while the General Assembly is in session.

(2)(A) Consistent with 19 V.S.A. § 12b(c), the Agency shall promptly report any changes in the availability of federal funds and the anticipated obligation or expenditure of monies under the authority of this section to the Joint Fiscal Office, the Joint Fiscal Committee, and the Joint Transportation Oversight Committee.

(B) If the Joint Transportation Oversight Committee disapproves of

the anticipated obligation or expenditure of monies under the authority of this section, it shall provide notice of that disapproval, and an explanation of the basis for the disapproval, to the Agency within 30 calendar days following receipt of the report of the anticipated expenditure.

(C) If the Joint Transportation Oversight Committee disapproves of an anticipated obligation or expenditure of monies under subdivision (B) of this subdivision (2), the Agency may revise and resubmit for further consideration.

(D) If the Joint Transportation Oversight Committee does not disapprove of the anticipated obligation or expenditure of monies under the authority of this section within 30 calendar days of receipt of the report of the anticipated obligation or expenditure or receipt of a revised submittal, then the anticipated obligation or expenditure is deemed approved.

(d) Subsections (a) and (b) of this section shall continue in effect until February 1, 2022.

Rep. Redmond of Essex explained her vote as follows:

“Madam Speaker:

This resolution – racism as a public health emergency – was crafted with the collaborative input of BIPOC advocates, capturing their areas of concern and laying out a scope of future work of sorts for all of us. This is part of the important work we do together in creating an equitable recovery that leaves no Vermonter behind, not one of us behind.”

Rep. Rosenquist of Georgia explained his vote as follows:

“Madam Speaker:

I voted no on J.R.H. 6. I suggested in our committee to expand the scope of this Resolution to include a wider range of life circumstances that lead to many negative outcomes in our society. Some of these include racial, economic, ethnic, cultural, and sexual disparities. I believe the current Resolution leaves out or misidentifies many of the root cause of these disparities. Let us concentrate on addressing and solving many of these inequities.”

Rep. Mrowicki of Putney explained his vote as follows:

“Madam Speaker:

I vote against this amendment because I trust Vermonters to do the right thing. If facts arise that tell me otherwise, I'm ready to take a look at that but I'm not ready to get caught up in national fallacies that our elections are not secure. I'm not ready to tell Vermonters that I don't trust them because of what

other states are doing as they pass bills that promote voter suppression, especially of BIPOC Americans. I vote no as I trust Vermonters, especially when it comes to our elections.”

Thereupon, the bill was read a third time and passed in concurrence with proposal of amendment.

* * * Legislative Findings and Intent * * *

Sec. 1. FINDINGS AND INTENT

(a) The General Assembly finds that:

(1) For over a decade, Vermont has pursued many approaches and strategies designed to ensure that every Vermonter has access to reliable, affordable, high-speed broadband.

(2) In 2018, through Acts and Resolves No. 169, the General Assembly found that broadband is essential for supporting economic and educational opportunities, strengthening health and public safety networks, and reinforcing freedom of expression and democratic, social, and civic engagement.

(3) We further found in Act No. 169 that the lack of a thriving competitive market in Vermont, particularly in isolated locations, disadvantages the ability of consumers and businesses to protect their interests sufficiently, and we recognized that the State may exercise its traditional role in protecting consumers.

(4) In 2019, through Acts and Resolves No. 79, the General Assembly found that despite the FCC's "light-touch" regulatory approach under Title I of the Communications Act of 1934, rather than "utility-style" regulation under Title II, existing broadband providers are not providing adequate service to many rural areas where fewer potential customers reduce the profitability

necessary to justify network expansion.

(5) Accordingly, reaching the last mile will require a grassroots approach founded on input from and support of local communities. Existing broadband grant programs do not offer the scale to solve this problem, and traditional capital sources typically shy away from businesses with limited revenue history and little equity or collateral.

(6) To this end, public investment in programs and personnel that provide local communities with much-needed resources and technical assistance is required.

(7) In 2020, the COVID-19 public health emergency served as an accelerant to the socioeconomic disparities between the connected and the unconnected in our State. Vermonters who cannot access or cannot afford broadband, many of whom are geographically isolated, face challenges with respect to distance learning; remote working; accessing telehealth services; and accessing government programs and services, including our institutions of democracy, such as the court system.

(8) Indeed, the ongoing public health emergency has highlighted the extent to which robust and resilient broadband networks are critical to our economic future as a whole and provide a foundation for our educational, health care, public health and safety, and democratic institutions.

(9) Broadband infrastructure is critical infrastructure fundamental to accessing other critical services in sectors such as energy, public safety, government, healthcare, education, and commerce.

(10) The goal of universal broadband needs to be elevated as a top priority of the State to meet the economic, health, safety, educational, and social needs of Vermonters.

(11) While private broadband providers have brought broadband services to many households, businesses, and locations in Vermont, significant gaps remain.

(12) When existing broadband providers fail to achieve the goal of providing reliable, high-quality, universal broadband, it is imperative for the State to support and facilitate the construction of broadband infrastructure through financial and other means.

(13) Communications union districts (CUDs) were created by the State to coordinate and implement creative and innovative solutions in their respective territories, particularly where existing providers are not providing adequate service that meets the needs of their residents and businesses while ensuring public accountability.

(14) CUDs are thus positioned to be the unofficial “provider of last resort” for broadband and ensure public accountability for serving all Vermonters within their respective service territories. Yet CUDs have limited access to financial capital necessary for expansion of broadband to unserved and underserved areas of the State.

(15) All Vermont electric ratepayers are supporting the rollout of clean energy technologies, however not all ratepayers are able to access those technologies because they do not have access to adequate broadband. Equity in the energy sector requires universal broadband.

(16) The Department of Public Service simultaneously plays a regulatory role in the telecommunications market while also supporting the development of CUDs in an unregulated competitive broadband market.

(17) To ensure universal broadband in Vermont, there is a need for greater coordination of grassroots broadband solutions both among the CUDs themselves and also with respect to their other potential partners, such as electric distribution utilities, nonprofit organizations, the federal government, and private broadband providers.

(18) In addition to broadband access, it is imperative for the State to address the critical issues of broadband affordability and adoption.

(19) The Department of Public Service estimates that 82 percent of Vermont addresses (254,000 locations) lack access to 100 Mbps symmetrical service. The total cost to provide 100 Mbps symmetrical service to each of these locations is approximately \$1,000,000,000.00. This figure is based on estimates in the Magellan Advisors’ report commissioned by the Department, and it includes estimates of both fixed and variable capital costs for fiber to the premise infrastructure (Feasibility Study of Electric Companies Offering Broadband in Vermont, dated December 31, 2019).

(b) Therefore, this act is intended to protect the public interest by:

(1) ensuring broadband availability to all Vermonters and Vermont addresses;

(2) ensuring public accountability for maintaining and upgrading critical broadband infrastructure;

(3) increasing the reliability of the electric grid and ensuring equal access to clean energy services among all electric ratepayers;

(4) protecting Vermonters’ privacy and unrestricted access to the Internet;

(5) alleviating the inherent tension the Department of Public Service

currently experiences as a result of its dual roles as both regulator and community project developer;

(6) directing public resources to the development of public broadband assets intended to provide universal access;

(7) developing favorable taxing, financing, and regulatory mechanisms to support communications union districts; and

(8) providing time-limited leadership for coordinating the buildout of Vermont's communications union districts and their partners and for developing financing mechanisms to fully support that buildout through a newly created State entity, the Vermont Community Broadband Authority, designed specifically to effectuate these purposes.

The Board shall have approval authority with respect to budget development, program design, grant awards, and all other funding allocations pursuant to this chapter.

(2) The Board shall consist of three members as follows:

(A) one member appointed by the Governor who shall not be an employee or officer of the State at the time of the appointment and who shall have expertise in the area of finance and who shall serve as the Chair;

In addition, the Board may develop standards for the disbursement of grant funds in a manner that both supports the efficient and timely use of funds and also ensures accountability.

§ 8086. BROADBAND CONSTRUCTION GRANT PROGRAM

(a) There is established the Broadband Construction Grant Program to finance the broadband projects of eligible providers that are part of a universal service plan.

(e) Before the Board awards a grant under this Program to a provider who is not a communications union district, the Board shall make a reasonable effort to determine that the carrier's universal service plan does not conflict with or undermine the deployment plans of an existing communications union district.

(f) The Board may provide a grant to a project that enables the provision of broadband service in a geographic area currently served, provided that:

(1) the project is the most cost-effective method for providing broadband service to nearby unserved and underserved locations; and

(2) before awarding the grant, the Board makes a reasonable effort to distinguish served and unserved or underserved locations within the geographic area, including recognition and consideration of known or probable service extensions or upgrades.

(g) The Board may award a grant to an Internet service provider to finance a broadband project, such as a line extension or upgrade, that is not part of a universal service plan if it finds that the project will provide unserved and underserved locations with broadband service capable of speeds of at least 25 Mbps download and 3 Mbps upload on or before December 31, 2021 and is in a geographic area that is not part of a communications union district.

(h) It is the intent of the General Assembly that a broadband project financed under this Program demonstrates an economically sustainable business model that ultimately will be eligible for financing in the private or municipal bond market.

is capable of speeds of at least 100 Mbps symmetrical; and

(F) not more than one-sixth of the total allowable loans under this Program shall be available to eligible borrowers under subdivision (2)(B)(iii) of this subsection (c).

(3) To ensure the limited funding available through the Program supports the highest-quality broadband available to the most Vermonters and prioritizes delivering services to the unserved and underserved, the Authority shall consult with the Department of Public Service and the Vermont Community Broadband Board.

(d) On or before January 1, 2020, and annually thereafter, the Authority shall submit a report of its activities pursuant to this section to the Senate Committee on Finance and the House Committees on Commerce and Economic Development and on Energy and Technology. Any difference between the actual loan losses incurred by the Authority in a fiscal year 2020 through Program termination shall be adjusted in the following year's appropriation.

~~(1) The Program shall terminate when all borrowers enrolled in the Program have repaid in full or loans have been charged-off against the reserves of the Authority.~~

~~(2) Upon termination of the Program, any remaining funds held by the Authority and not used for the Program shall be repaid to the State~~ This is a revolving loan program.

~~(3)~~(2) The accumulated total of the appropriation shall not exceed \$8,500,000.00 over the life of the Program.

J.R.H. 2

The Senate proposed to the House to amend joint House resolution, entitled

Joint resolution sincerely apologizing and expressing sorrow and regret to all individual Vermonters and their families and descendants who were harmed as a result of State-sanctioned eugenics policies and practices

The Senate proposed to the House to amend the joint resolution by striking out all the Whereas and Resolved clauses and inserting in lieu thereof the following:

Whereas, starting in the early 1900s, laws and associated policies were adopted to promote the eugenics movement, and the title of the book *Breeding*

Better Vermonters by Nancy L. Gallagher accurately describes the movement's purported intent, and

Whereas, this movement targeted for elimination those it deemed currently or potentially delinquent, defective, and dependent persons through sterilizations, primarily of women, to prevent individuals from having children, and

Whereas, in 1912, the Vermont General Assembly passed S.79, "An act to authorize and provide for the sterilization of imbeciles, feeble-minded, and insane persons, rapists, confirmed criminals and other defectives," however, Governor Allen M. Fletcher vetoed the bill, citing constitutional concerns that Attorney General Rufus E. Brown had raised, and

Whereas, nevertheless, State agencies and institutions adopted policies and procedures to carry out the intent of the vetoed legislation and the beliefs of the eugenics movement, and

Whereas, in 1925, University of Vermont zoology professor Henry F. Perkins, who established the Eugenics Survey of Vermont and served as President of the American Eugenics Society, collaborated with leaders of Vermont State government to collect evidence of Vermonters' alleged delinquency, dependency, and deficiency, and

Whereas, these State-sanctioned policies targeted the poor and persons with mental and physical disabilities, and

Whereas, these same policies also targeted individuals, families, and communities whose heritage was documented as French Canadian, French-Indian, or of other mixed ethnic or racial composition and persons whose extended families' successor generations now identify as Abenaki or as members of other indigenous bands or tribes, and

Whereas, in 1927, S.59, "An act relating to Voluntary Eugenic Sterilization" passed the Senate but was defeated in the House, and

Whereas, the General Assembly adopted 1931 Acts and Resolves No. 174 (Act 174), "An Act for Human Betterment by Voluntary Sterilization," for the purpose of eliminating from the future Vermont genetic pool persons deemed mentally unfit to procreate, and

Whereas, this State-sanctioned eugenics policy was not an isolated example of oppression but reflected the historic marginalization, discriminatory treatment, and displacement of these targeted groups in Vermont, and

Whereas, eugenics advocates promoted sterilization for the protection of Vermont's "old stock" and to preserve the physical and social environment of Vermont for their children, and

Whereas, the Eugenics Survey received assistance from State and municipal officials, individuals, and private organizations, and the resulting sterilization, institutionalization, and separation policies intruded on the lives of its victims and had devastating and irreversible impacts that still persist in the lives of the targeted groups and especially the descendants of those who were directly impacted, and

Whereas, in conducting the Eugenics Survey, the surveyors were granted access to case files from State agencies and institutions, and the files were made available to persons of authority, including police departments, social workers, educators, and town officials, and

Whereas, as a result of the opening of these files, children and adults were removed from families, individuals were institutionalized or incarcerated, family connections were severed, and the sense of kinship, continuity and community was lost, and

Whereas, the legacy of the eugenics movement continues to influence some of Vermont's current policies and legislation, now therefore be it

Resolved by the Senate and House of Representatives:

That the General Assembly sincerely apologizes and expresses sorrow and regret to all individual Vermonters and their families and descendants who were harmed as a result of State-sanctioned eugenics policies and practices, and be it further

Resolved: That the General Assembly continues to work to eradicate the lasting legacy of its prior actions by listening to and working with the affected individuals and communities, and be it further

Resolved: That the General Assembly recognizes that further legislative action should be taken to address the continuing impact of State-sanctioned eugenics policies and related practices of disenfranchisement, ethnocide, and genocide.

Pending the question, Shall the House concur in the Senate proposal of amendment?, **Rep. Stevens of Waterbury** moved to concur in the Senate proposal of amendment with a further amendment thereto as follows:

In the first Whereas clause, by striking out the phrase "and the title of the book *Breeding Better Vermonters* by Nancy L. Gallagher accurately describes the movement's purported intent,"

Which was agreed to.

**Rules Suspended; Second Reading; Favorable Report;
Third Reading Ordered**

On motion of **Rep. McCoy of Poultney**, the rules were suspended and Senate bill, entitled

An act relating to health care practitioners administering stem cell products not approved by the U.S. Food and Drug Administration

Appearing on the Calendar for Notice, was taken up for immediate consideration.

Rep. Goldman of Rockingham, for the Committee on Health Care, to which had been referred the Senate bill, reported in favor of its passage in concurrence.

Thereupon, the bill was read the second time and third reading was ordered.

(2) If the court orders examination of both the person's competency to stand trial and the person's sanity at the time of the alleged offense, those opinions shall be presented in separate reports and addressed separately by the court. In such cases, the examination of the person's sanity shall only be undertaken if the psychiatrist or, if applicable under subsection 4816(b) of this title, the psychiatrist and the psychologist are able to form the opinion that the person is competent to stand trial, unless the defendant requests that the examinations occur concurrently. If the evaluation of the defendant's sanity at the time of the alleged offense does not occur until the defendant is deemed competent to stand trial, the psychiatrist or, if applicable under subsection 4816(b) of this title, the psychiatrist and the psychologist shall make a reasonable effort to collect and preserve any evidence necessary to form an opinion as to sanity if the person regains competence.

S. 13

Rep. Conlon of Cornwall, for the Committee on Education, to which had been referred Senate bill, entitled

An act relating to the implementation of the Pupil Weighting Factors Report

Reported in favor of its passage in concurrence with proposal of amendment by striking all after the enacting clause and inserting in lieu thereof the following:

Sec. 1. FINDINGS

(a) 2018 Acts and Resolves No. 173, Sec. 11 directed the Agency of Education to undertake a study examining and evaluating the current formula used to weigh economically disadvantaged students, English language learners, and secondary-level students in Vermont for purposes of calculating equalized pupils. The study was also to consider whether new cost factors and weights should be included in the equalized pupil calculation.

(b) The findings from the Pupil Weighting Factors Report dated December 24, 2019 (Report), produced by a University of Vermont-led team of researchers, including national experts on student weighting, were stark, stating that “[n]either the factors considered by the [current] formula nor the value of the weights reflect contemporary educational circumstances and costs.” The Report also found that the current “values for the existing weights have weak ties, if any, with evidence describing the difference in the costs of educating students with disparate needs or operating schools in different contexts.”

(c) The major recommendations of the Report are straightforward, specifically that the General Assembly increase certain of the existing weights and that it add population density (rurality) as a new weighting factor, given

the Report's finding that rural districts pay more to educate a student. However, given the statewide and unique nature of Vermont's education funding system and the reality that any change in the weighting formula is complex due to its relationship to other educational policies and will produce fluctuations in tax rates across the State, the General Assembly has chosen to develop a phased approach to revising the weighting formula.

Sec. 2. TASK FORCE ON THE IMPLEMENTATION OF THE PUPIL

WEIGHTING FACTORS REPORT

(a) Creation. There is created the Task Force on the Implementation of the Pupil Weighting Factors Report. The Task Force shall recommend to the General Assembly an action plan and proposed legislation to ensure that all public school students have equitable access to educational opportunities, taking into account the Pupil Weighting Factors Report dated December 24, 2019 (Report), produced by a University of Vermont-led team of researchers.

(b) Membership. The Task Force shall be a legislative task force and shall be composed of the following six members:

- (3) the Chair of the House Committee on Ways and Means or designee;
- (4) the Chair of the House Committee on Education or designee;

(2) consider how categorical aid can address cost differentials across school districts;

(3) for the purpose of calculating equalized pupils, recommend how to define a "person from an economically deprived background" taking into account the current definition in 16 V.S.A. § 4001(8) and similar definitions in Part A, Title I, of the Elementary and Secondary Education Act, as amended

by the Every Student Succeeds Act, and eligibility for free and reduced-priced lunch under the National School Lunch Act;

(4) in recognition that the current formula used to calculate equalized pupils uses more than one mathematical method, consider changes to the formula to simplify it and make its calculation more transparent;

(5) recommend statutory changes in the Agency of Education's powers and duties to ensure that all school districts are meeting education quality standards and improving student outcomes and opportunities;

(6) recommend how to transition to the recommended weights and categorical aid to promote equity and ease the financial impact on school districts during the transition, including the availability and use of federal funding;

(7) consider the relationship between the recommended weights and categorical aid and the changes to special education funding under 2018 Acts and Resolves No. 173, including the impact on federally required maintenance of effort and maintenance of financial support; and

(8) consider the impact of the recommended weights and categorical aid on the goals and outcomes of 1997 Acts and Resolves No. 60 and 2015 Acts and Resolves No. 46, each as amended.

These payments shall be made from monies appropriated to the General Assembly.

Sec. 3. WEIGHTING FACTORS SIMULATOR

It is the intent of the General Assembly that it pass legislation during the second year of the biennium that implements changes to how education is funded to ensure that all public school students have equitable access to educational opportunities.

Sec. 5. APPROPRIATIONS

Sec. 33. PEV ELECTRIC DISTRIBUTION UTILITY RATE DESIGN

(a) This section serves to encourage efficient integration of PEVs and EVSE into the electric system and the timely adoption of PEVs and public charging through managed loads or time-differentiated price signals.

(b) Unless an extension is granted pursuant to subsection (e) of this section, all State electric distribution utilities shall offer PEV rates, which may include

rates for electricity sales to an entire customer premises, for public and private EVSE not later than June 30, 2024. These rates shall, pursuant to 30 V.S.A. § 225, be filed for review and approval by the Public Utility Commission and encourage:

(1) efficient use of PEV loads consistent with objectives of least-cost integrated planning, set out in 30 V.S.A. § 218c, and 30 V.S.A. § 202(b) and (c);

(1) The Public Utility Commission shall approve PEV rates that it finds, at a minimum:

(A) support greater adoption of PEVs;

(e) The Public Utility Commission may grant a petitioning electric distribution utility an extension of the June 30, 2024 implementation deadline. An extension may only be granted in response to a petition if the Public Utility Commission finds that the electric distribution utility's inability to meet the June 30, 2024 implementation deadline is due to a technical inability to implement a PEV rate, adverse economic impacts to ratepayers that would result from the implementation of a PEV rate, or other good cause demonstrated. The length of the extension shall be directly related to the demonstrated need for the extension.

(f) The Public Utility Commission, in consultation with the Department of Public Service and State electric distribution utilities, shall file written reports with the House Committees on Energy and Technology and on Transportation and the Senate Committees on Finance, on Natural Resources and Energy, and on Transportation that address the goals delineated in subdivisions (c)(1)(A)–(F) of this section, as applicable, and any progress barriers towards the goals contained in subsections (a) and (b) of this section not later than January 15, 2022, January 15, 2023, January 15, 2024, and January 15, 2025.

* * * Work Zone Highway Safety

Automated Traffic Law Enforcement Study and Report * * *

Sec. 40. WORK ZONE HIGHWAY SAFETY AUTOMATED TRAFFIC
LAW ENFORCEMENT STUDY AND REPORT

(a) Findings. The General Assembly finds that:

(1) There are times, either because of insufficient staffing or inherent onsite difficulties, where law enforcement personnel cannot practically be utilized in a work zone.

(2) The objectives of utilizing an automated traffic law enforcement system in a work zone are improved work crew safety and reduced traffic crashes resulting from an increased adherence to traffic laws achieved by effective deterrence of potential violators, which could not be achieved by traditional law enforcement methods.

(3) The use of automated traffic law enforcement systems in work zones is not intended to replace traditional law enforcement personnel, nor is it intended to mitigate problems caused by deficient road design, construction, or maintenance. Rather, it provides deterrence and enforcement at times when and in locations where law enforcement personnel cannot be utilized safely or are needed for other law enforcement activities.

(b) Definitions. As used in this section:

(1) “Automated traffic law enforcement system” means a device with one or more sensors working in conjunction with a speed measuring device to produce recorded images of motor vehicles traveling at more than 10 miles above the speed limit or traveling in violation of another traffic control device, or both.

(2) “Recorded image” means a photograph, microphotograph, electronic image, or electronic video that shows the front or rear of the motor vehicle clearly enough to identify the registration number plate of the motor vehicle or that shows the front of the motor vehicle clearly enough to identify the registration number plate of the motor vehicle and shows the operator of the motor vehicle.

(3) “Traffic control device” means any sign, signal, marking,

channelizing, or other device that conforms with the Manual on Uniform Traffic Control Devices, which is the standards for all traffic control signs, signals, and markings within the State pursuant to 23 V.S.A. § 1025, and is used to regulate, warn, or guide traffic and placed on, over, or adjacent to a highway, pedestrian facility, or bicycle path by authority of the State or the municipality with jurisdiction over the highway, pedestrian facility, or bicycle path.

(c) Study. The Agency of Transportation shall, in consultation with at least the Department of Public Safety and the Associated General Contractors of Vermont, study the feasibility of implementing automated traffic law enforcement systems in work zones in Vermont and make specific recommendations on whether to pursue a program that utilizes automated traffic law enforcement systems within work zones in Vermont, with a specific focus on affecting driver behavior. At a minimum, the Agency shall:

(1) research the cost to procure equipment and services to assist in the implementation of a program that utilizes automated traffic law enforcement systems within work zones in Vermont;

(2) research how images are collected, stored, accessed, used, and disposed of; by whom; and under what timeline or timelines when automated traffic law enforcement systems are used to collect a recorded image of a motor vehicle in violation of a traffic control device in a work zone;

(3) make recommendations on how images should be collected, stored, accessed, used, and disposed of; by whom; and under what timeline or timelines if a program that utilizes automated traffic law enforcement systems within work zones in Vermont is implemented; and

(4) define the system components needed to implement a program that utilizes automated traffic law enforcement systems within work zones in Vermont.

(d) Report. On or before January 15, 2022, the Agency shall submit a written report to the House and Senate Committees on Judiciary and on Transportation with its findings and any proposals for implementation.

(b) In conducting the analysis required under subsection (a) of this section, the Agency, in coordination with the State's 11 RPCs, shall seek input from individuals who are underserved by the State's current transportation system or who may not have previously been consulted as part of the Agency's planning processes.

(c) In order to aid the Agency in conducting the analysis required under subsection (a) of this section, the State's 11 RPCs shall convene regional meetings focused on achieving equity and inclusion in the transportation planning process. Meeting facilitation shall include identification of and outreach to underrepresented local communities and solicitation of input on the transportation planning process pursuant to the transportation planning efforts required under 19 V.S.A. § 10I.

(d) The Agency shall file a written report with its analysis and a recommendation on a transportation equity framework as required under subsection (a) of this section with the House and Senate Committees on Transportation not later than January 15, 2022.

* * * Legislative Findings and Intent * * *

Sec. 1. FINDINGS AND INTENT

(a) The General Assembly finds that:

(1) For over a decade, Vermont has pursued many approaches and strategies designed to ensure that every Vermonter has access to reliable, affordable, high-speed broadband.

(2) In 2018, through Acts and Resolves No. 169, the General Assembly found that broadband is essential for supporting economic and educational opportunities, strengthening health and public safety networks, and reinforcing freedom of expression and democratic, social, and civic engagement.

(3) We further found in Act No. 169 that the lack of a thriving competitive market in Vermont, particularly in isolated locations, disadvantages the ability of consumers and businesses to protect their interests sufficiently, and we recognized that the State may exercise its traditional role in protecting consumers.

(4) In 2019, through Acts and Resolves No. 79, the General Assembly found that despite the FCC's "light-touch" regulatory approach under Title I of the Communications Act of 1934, rather than "utility-style" regulation under Title II, existing broadband providers are not providing adequate service to many rural areas where fewer potential customers reduce the profitability necessary to justify network expansion.

(5) Accordingly, reaching the last mile will require a grassroots approach founded on input from and support of local communities. Existing broadband grant programs do not offer the scale to solve this problem, and traditional capital sources typically shy away from businesses with limited revenue history and little equity or collateral.

(6) To this end, public investment in programs and personnel that provide local communities with much-needed resources and technical assistance is required.

(7) In 2020, the COVID-19 public health emergency served as an accelerant to the socioeconomic disparities between the connected and the unconnected in our State. Vermonters who cannot access or cannot afford broadband, many of whom are geographically isolated, face challenges with respect to distance learning; remote working; accessing telehealth services; and accessing government programs and services, including our institutions of democracy, such as the court system.

(8) Indeed, the ongoing public health emergency has highlighted the extent to which robust and resilient broadband networks are critical to our economic future as a whole and provide a foundation for our educational, health care, public health and safety, and democratic institutions.

(9) Broadband infrastructure is critical infrastructure fundamental to accessing other critical services in sectors such as energy, public safety, government, health care, education, and commerce.

(10) The goal of universal broadband needs to be elevated as a top priority of the State to meet the economic, health, safety, educational, and social needs of Vermonters.

(11) While private broadband providers have brought broadband services to many households, businesses, and locations in Vermont, significant gaps remain.

(12) When existing broadband providers fail to achieve the goal of providing reliable, high-quality, universal broadband, it is imperative for the State to support and facilitate the construction of broadband infrastructure through financial and other means.

(13) Communications union districts (CUDs) were created by the State to coordinate and implement creative and innovative solutions in their respective territories, particularly where existing providers are not providing adequate service that meets the needs of their residents and businesses while ensuring public accountability.

(14) CUDs are thus positioned to be the unofficial “provider of last resort” for broadband and ensure public accountability for serving all Vermonters within their respective service territories. Yet CUDs have limited access to financial capital necessary for expansion of broadband to unserved and underserved areas of the State.

(15) All Vermont electric ratepayers are supporting the rollout of clean energy technologies, however not all ratepayers are able to access those technologies because they do not have access to adequate broadband. Equity in the energy sector requires universal broadband.

(16) The Department of Public Service simultaneously plays a regulatory role in the telecommunications market while also supporting the development of CUDs in an unregulated competitive broadband market.

(17) To ensure universal broadband in Vermont, there is a need for greater coordination of grassroots broadband solutions both among the CUDs themselves and also with respect to their other potential partners, such as electric distribution utilities, nonprofit organizations, the federal government, and private broadband providers.

(18) In addition to broadband access, it is imperative for the State to address the critical issues of broadband affordability and adoption.

(19) The Department of Public Service estimates that 82 percent of Vermont addresses (254,000 locations) lack access to 100 Mbps symmetrical service. The total cost to provide 100 Mbps symmetrical service to each of these locations is approximately \$1,000,000,000.00. This figure is based on estimates in the Magellan Advisors’ report commissioned by the Department, and it includes estimates of both fixed and variable capital costs for fiber to the premise infrastructure (Feasibility Study of Electric Companies Offering Broadband in Vermont, dated December 31, 2019).

(b) Therefore, this act is intended to protect the public interest by:

(1) ensuring broadband availability to all Vermonters and Vermont addresses;

(2) ensuring public accountability for maintaining and upgrading critical broadband infrastructure;

(3) increasing the reliability of the electric grid and ensuring equal access to clean energy services among all electric ratepayers;

(4) protecting Vermonters’ privacy and unrestricted access to the Internet;

(5) alleviating the inherent tension the Department of Public Service currently experiences as a result of its dual roles as both regulator and community project developer;

(6) directing public resources to the development of public broadband assets intended to provide universal access;

(7) developing favorable taxing, financing, and regulatory mechanisms to support communications union districts; and

(8) providing time-limited leadership for coordinating the buildout of Vermont's communications union districts and their partners and for developing financing mechanisms to fully support that buildout through a newly created State entity, the Vermont Community Broadband Board, designed specifically to effectuate these purposes.

- (e) The Board shall not award a grant to an eligible provider who is not a communications union district unless the Board determines that the provider's universal service plan does not conflict with or undermine the universal service plan of an existing communications union district.
- (f) The Board may provide a grant to an eligible provider that enables the provision of broadband service in a geographic area currently served, provided that:
- (1) the proposed project is a cost-effective method for providing broadband service to nearby unserved and underserved locations that is

capable of speeds of at least 100 Mbps download and 100 Mbps upload;

(2) any overbuild is incidental to the overall objectives of the universal service plan required for funding under this Program; and

Whether it’s the next recession or pandemic or just the bad luck of being laid off and in between jobs, Vermonters need to know we have an economy that leaves no one behind. Sec. 8. VERMONT RENTAL HOUSING INVESTMENT PROGRAM;

PURPOSE

(a) Recognizing that Vermont's rental housing stock is some of the oldest in the country and that much of it needs to be updated to meet code requirements and other standards, the Vermont Rental Housing Investment Program is intended to incentivize private apartment owners to make significant improvements to both housing quality and weatherization by providing grants and forgivable loans that are matched in part by the property owner.

(b) The Program seeks to take the lessons learned from the successful Re-housing Recovery Program established with funds provided by the Federal CARES Act and implement them in a State-funded program.

Sec. 9. 10 V.S.A. chapter 29, subchapter 3 is added to read:

Subchapter 3. Housing; Investments

§ 699. VERMONT RENTAL HOUSING INVESTMENT PROGRAM

(a) Creation of program.

(1) The Department of Housing and Community Development shall design and implement the Vermont Rental Housing Investment Program through which the Department shall award funding to statewide or regional nonprofit housing organizations, or both, to provide competitive grants and forgivable loans to private landlords for the rehabilitation, including weatherization, of eligible rental housing units.

(2) The Department shall develop statewide standards for the Program, including factors that partner organizations shall use to evaluate applications and award grants and forgivable loans.

(b) Eligible rental housing units. The following units are eligible for a grant or forgivable loan through the Program:

(1) Non-code compliant. The unit does not comply with the requirements of applicable building, housing, or health laws.

(2) New accessory dwelling. The unit will be a newly created accessory dwelling unit that meets the requirements of 24 V.S.A. § 4412(1)(E).

(c) Administration. The Department shall require a housing organization that receives funding under the Program to adopt:

(1) a standard application form that describes the application process and includes instructions and examples to help landlords apply;

(2) an award process that ensures equitable selection of landlords, subject to a housing organization's exercise of discretion based on the factors adopted by the Department pursuant to subsection (a) of this section; and

(3) a grant and loan management system that ensures accountability for funds awarded.

(d) Program requirements applicable to grants and forgivable loans.

(1) A grant or loan shall not exceed \$30,000.00 per unit.

(2) A landlord shall contribute matching funds or in-kind services that equal or exceed 20 percent of the value of the grant or loan.

(3) A project may include a weatherization component.

(4) A project shall comply with applicable building, housing, and health laws.

(5) The terms and conditions of a grant or loan agreement apply to the original recipient and to a successor in interest for the period the grant or loan agreement is in effect.

(6) The identity of a recipient and the amount of a grant or forgivable loan are public records that shall be available for public copying and

inspection and the Department shall publish this information at least monthly on its website.

(e) Program requirements applicable to grants. For a grant awarded under the Program, the following requirements apply for a minimum period of five years:

(1) A landlord shall coordinate with nonprofit housing partners and local coordinated entry organizations to identify potential tenants.

(2)(A) Except as provided in subdivision (2)(B) of this subsection (e), a landlord shall lease the unit to a household that is exiting homelessness.

(B) If, upon petition of the landlord, the Department or the housing organization that issued the grant determines that a household exiting homelessness is not available to lease the unit, then the landlord shall lease the unit:

(i) to a household with an income equal to or less than 80 percent of area median income; or

(ii) if such a household is unavailable, to another household with the approval of the Department or housing organization.

(3)(A) A landlord shall accept any housing vouchers that are available to pay all, or a portion of, the tenant's rent and utilities.

(B) If no housing voucher or federal or State subsidy is available, the total cost of rent for the unit, including utilities not covered by rent payments, shall not exceed the applicable fair market rent established by the Department of Housing and Urban Development.

(4)(A) A landlord may convert a grant to a forgivable loan upon approval of the Department and the housing organization that approved the grant.

(B) A landlord who converts a grant to a forgivable loan shall receive a 10 percent credit for loan forgiveness for each year in which the landlord participates in the grant program.

(f) Requirements applicable to forgivable loans. For a forgivable loan awarded under the Program, the following requirements apply for a minimum period of 10 years:

(1)(A) A landlord shall accept any housing vouchers that are available to pay all, or a portion of, the tenant's rent and utilities.

(B) If no housing voucher or federal or State subsidy is available, the cost of rent for the unit, including utilities not covered by rent payments, shall not exceed the applicable fair market rent established by the Department of Housing and Urban Development.

(2) The Department shall forgive 10 percent of the amount of a forgivable loan for each year a landlord participates in the loan program.

(g) Lien priority. A lien for a grant converted to a loan or for a forgivable loan issued pursuant to this section is subordinate to:

(1) a lien on the property in existence at the time the lien for rehabilitation and weatherization of the rental housing unit is filed in the land records; and

(2) a first mortgage on the property that is refinanced and recorded after the lien for rehabilitation and weatherization of the rental housing unit is filed in the land records.

Sec. 10. REPORT

On or before February 15, 2022, the Department of Housing and Community Development shall report to the General Assembly concerning the design, implementation, and outcomes of the Vermont Housing Investment Program, including findings and any recommendations related to the amount of grant awards.

Sec. 11. VERMONT HOMEOWNERSHIP REVOLVING LOAN FUND;

PURPOSE

(a) The purpose of the Vermont Homeownership Revolving Loan Fund created in Sec. 12 of this act is to provide no-interest loans to increase access to homeownership.

(b) The Program is intended to assist Vermonters who otherwise may be unable to purchase a home or who may be unable to afford the costs to rehabilitate, weatherize, or otherwise make necessary improvements to a home they purchase.

(c) The Program is also intended to place a special focus on increasing the homeownership rates of households identifying as Black, Indigenous, or Persons of Color, who are systematically disenfranchised from financing real estate through traditional banking and have therefore been generationally dispossessed of the ability to develop lasting wealth.

Sec. 12. 10 V.S.A. § 699a is added to read:

§ 699a. VERMONT HOMEOWNERSHIP REVOLVING LOAN FUND

(a) Creation of Program. The Department of Housing and Community Development shall design and implement the Vermont Homeownership Revolving Loan Fund, through which the Department shall provide funding to statewide or regional nonprofit housing organizations, or both, to issue no-interest loans to first-time homebuyers.

(b) Eligible housing units. The following units are eligible for a loan through the Program:

(1) Existing structure. The unit is an existing single-family dwelling, a multifamily dwelling with not more than four units, a mobile home, or a condominium.

(2) Accessory dwelling. The unit is an accessory dwelling unit that meets the requirements of 24 V.S.A. § 4412(1)(E).

(c) Eligible applicants; priorities.

(1) To be eligible for a loan through the Program, an applicant shall:

(A) be a first-time homebuyer in Vermont;

(B) have a household income of not more than 120 percent of the area median income; and

(C) occupy the dwelling, or a unit within the dwelling, as his or her full-time residence.

(2) A housing organization may give priority to an applicant whose employer provides down payment assistance or funding for rehabilitation costs.

(d) Administration. The Department shall require a housing organization that receives funding under the Program to adopt:

(1) a standard application form that describes the application process and includes instructions and examples to help homebuyers apply;

(2) an award process that ensures equitable selection of homebuyers; and

(3) a loan management system that ensures accountability for funds awarded.

(e) Outreach. Recognizing that Black, Indigenous, and Persons of Color have historically not had access to capital for homeownership purchases and have been systemically discriminated against in the housing market, the Department, working with Vermont chapters of the NAACP, AALV, USCRI, the Executive Director of Racial Equity, the Vermont Commission on Native American Affairs, local racial justice organizations, the Vermont Housing Finance Agency, and the nonprofit homeownership centers, shall develop a plan of active outreach and implementation to ensure that program opportunities are effectively communicated, and that funds are equitably awarded, to communities of Vermonters who have historically suffered housing discrimination.

(f) Program requirements.

(1) A loan issued through the Program:

(A) shall not exceed a standard limit set by the Department, which shall not exceed \$50,000.00;

(B) shall be zero interest, and payments shall be suspended while the homebuyer occupies the home; and

(C) shall become due in full upon the sale or transfer of the home or upon refinancing with approval by the Department and the housing organization that issued the loan.

(2) A rehabilitation project that is funded by a loan through the Program may include a weatherization component and shall comply with applicable building, housing, and health laws.

(3) A homebuyer may use not more than 25 percent of a loan for down payment and closing costs and fees.

(4) A homebuyer shall repay a loan.

(g) Revolving loan fund. The Department shall use the amounts from loans that are repaid to provide additional funding through the Program.

(h) Lien priority. A lien for a loan issued pursuant to this section is subordinate to:

(1) a lien on the property in existence at the time the lien for the loan is filed in the land records; and

(2) a first mortgage on the property that is refinanced and recorded after the lien for the loan is filed in the land records.

Sec. 13. DUTIES CONTINGENT ON FUNDING

The duties of the Department of Housing and Community Development specified in Secs. 10 and 12 of this act are contingent upon available funding.

Sec. 14. REPORT

(B) the landlord needs to occupy the rental premises;

(C) the tenant is not participating or does not qualify for the Vermont Emergency Rental Assistance Program; or

Rep. Cina of Burlington explained his vote as follows:

“Madam Speaker:

Our extractive economy was built on stolen land and does not recognize our birthright as humans to live freely upon the Earth. It treats housing and access to the land as commodities that can be bought, leased, and sold. Under these conditions, we must protect people from exploitation and abuse and we must find more ways to make housing accessible and affordable to all. I vote yes because housing is a human right.”

Rep. Donahue of Northfield explained her vote as follows:

“Madam Speaker:

I believe the unintended consequence of this part of the bill will be a loss of rental housing capacity and a reduction in housing affordability. That’s the last thing we need. I cannot support it.”

Rep. Stevens of Waterbury explained his vote as follows:

“Madam Speaker:

I would like to correct a statement I made a moment ago. During the roll call I looked up the statute regarding hunting camps, and they would be exempt from this registration, as they are not considered a dwelling unit under 9 V.S.A. chapter 137.”

Thereupon, the question of the second division, Shall the House propose to the Senate to amend the bill in the second division, which is the remainder of the amendment recommended by the Committee on General, Housing, and Military Affairs, as amended?, was agreed to. Thereafter, third reading was ordered.

Orders of the Day Interrupted

On motion of **Rep. Cina of Burlington**, orders of the day were interrupted for the purpose of making announcements.

Recess

At one o'clock and twenty-nine minutes in the afternoon, the Speaker declared a recess until the fall of the gavel.

At two o'clock and thirty-seven minutes in the afternoon, the Speaker called the House to order.

Senate Proposal of Amendment Concurred in**H. 106**

The Senate proposed to the House to amend House bill, entitled

An act relating to equitable access to a high-quality education through community schools

The Senate proposed to the House to amend the bill by striking out all after the enacting clause and inserting in lieu thereof the following:

* * * Short Title * * *

Sec. 1. SHORT TITLE

This act shall be called the "Community Schools Act."

* * * Findings and Purpose * * *

Sec. 2. FINDINGS AND PURPOSE

(a) Findings. The General Assembly finds that:

(1) Every child should be provided with an equitable education, as defined by the Agency of Education as access to the resources, opportunities, and educational rigor they need at the right moment in their education, whatever their race, gender identity, sexual orientation, ethnicity, religion, language, disability, family background, or family income may be. Every child should be able to grow up with the opportunity to achieve their dreams and contribute to the well-being of society. Our public schools must be designed and equipped to fully deliver on that promise.

(2) According to the National Center for Education Statistics, more than half of the nation's schoolchildren live in low-income households, meaning they qualify for free or reduced-price lunch, a percentage that has risen steadily in recent decades. According to the Vermont Agency of Education, an average of 38 percent of students across all supervisory unions during the 2019–2020 school year qualified for free or reduced-price lunch. As a result, some schoolchildren face more challenges than others in succeeding in school and in life. Recognizing that students need fresh and nutritional foods to enable them to focus on their education and that many students come to school

hungry, providing universal school meals offered at no cost to students or their families advances the goals that community school programs seek to achieve.

(3) Community schools facilitate the coordination of comprehensive programs and services that are carefully selected to meet the unique needs of students and families and build on the assets they bring to their schools and communities. Community schools combine challenging and culturally inclusive learning opportunities with the academic and social supports every student needs to reach their potential.

(4) According to research reports from the Learning Policy Institute, the four key pillars of the community schools approach, which are integrated student supports, expanded and enriched learning time and opportunities, active family and community engagement, and collaborative leadership and practices, promote conditions and practices found in high-quality schools as well as address out-of-school barriers to learning. Research additionally supports the necessity of safe, inclusive, and equitable learning environments to reinforce student success and well-being. These elements do not function independently, but are instead part of a unified and interconnected approach.

(5) This research also shows that community school interventions can result in improvements in a variety of student and family outcomes, including attendance, academic achievement, reducing systemic racial and economic injustices and inequities, and high school graduation rates, and can meet the Every Student Succeeds Act standard of “evidence-based” approaches to support schools identified for comprehensive and targeted support and intervention.

(6) Research also shows that these programs offer a strong return on investment. According to impact studies, each dollar invested in a community coordinator position returns approximately \$7.00 in net benefits to the school (Return on Investment of a Community School Coordinator: A Case Study; APEX and Community School Partnership; 2019). Every dollar invested in programs and support (including medical, dental, and social services; afterschool and summer enrichment; parent engagement; and early childhood services) can yield up to \$15.00 in return (Community Schools as an Effective School Improvement Strategy: A Review of the Evidence; Anna Maier, Julia Daniel, Jeannie Oakes, and Livia Lam; 2017).

(7) According to the Learning Policy Institute, “establishing community schools” is one of 10 recommended strategies for restarting and rethinking the role of public education in the wake of the COVID-19 pandemic. Community schools serve as resource hubs that provide a broad range of easily accessed, well-coordinated supports and services that help students and families with increasingly complex needs. These schools, at their core, are about investing

in children, through quality teaching; challenging, engaging, and culturally responsive curricula; wrap around supports; safe, just, and equitable school climate; strong ties to family and community; and a clear focus on student achievement and well-being.

(8) Community schools are important centers for building community connection and resilience. When learning extends beyond the walls of the school through active engagement with community partners as with place-based learning, relationships expand and deepen, community strengths are highlighted, and opportunities for building vitality surface through shared learning.

(9) Community schools have been established in many states and settings, from New York City to Chicago and Los Angeles. But the approach has also been successful in rural communities. In McDowell County, West Virginia (population 22,000), community schools are part of a public-private partnership, a collaboration between state government, nonprofit agencies, businesses, and philanthropic foundations, that aims to “make educational improvement the route to a brighter economic future.” The national nonprofit Rural School and Community Trust is an active advocate for expanding this model in rural areas, calling the relationship between good schools and thriving communities “crucial.” In Vermont, a growing number of schools are implementing or exploring the model, from Molly Stark Elementary in Bennington, which offers school-based health services, extended hours, summer school, and family learning activities, to the school-based health center in Winooski.

(10) Recognizing that literacy proficiency is a foundational learning skill, community schools can advance the State goal of improving literacy for all students in the State. Achieving this goal will require a multiyear and multidimensional effort requiring continued focus by the General Assembly, the Administration, and school leaders, and community schools are an important component of that effort.

(b) Purpose. This act provides funding for the implementation of community school programs that provide students with equitable access to a high-quality education and creates the Task Force on Universal School Lunch.

Sec. 3. COMMUNITY SCHOOLS; FUNDING

(a) Definitions. As used in this section:

(1) “Community school coordinator” means a person who:

(A) is a full-time or part-time staff member serving in an eligible

school or in a school district or supervisory union with an eligible school and appointed in accordance with Vermont law; and

(B) is responsible for the identification, implementation, and coordination of community school programs, subject to the operational and reporting structure of the community school coordinator's employer.

(2) "Community school programs" mean programs offered at a public elementary or secondary school that include all five of the following:

(A) Integrated student supports, which address out-of-school barriers to learning through partnerships with social and health service agencies and providers, coordinated by a community school coordinator, which may include access to services such as medical, dental, vision care, and mental health services or access to counselors to assist with housing, transportation, nutrition, immigration, or criminal justice issues, and include what young people bring with them to the classroom and the ways that schools and communities working together can enhance and embrace the knowledge and capacity that students and families can offer their schools. This could include educational strategies like universal design for learning, recognition and respect for cultural and linguistic diversity, and practices that focus on building and supporting relationships such as restorative practices.

(B) Expanded and enriched learning time and opportunities, which may include before-school, afterschool, weekend, summer programs, and during the school day, that provide additional academic instruction, individualized academic support, enrichment activities, and learning opportunities that emphasize real-world learning and community problem-solving and that may include art, music, drama, creative writing, hands-on experience with engineering or science, tutoring and homework help, and recreational programs that enhance and are consistent with the school's curriculum.

(C) Active family and community engagement, which brings students' families and the community into the school as partners in children's education and makes the school a community hub, where all students and their families feel a sense of belonging and engagement. This shall include broad student and community participation, with a diversity of income, race, gender, newcomer status, language, and ability represented in the design, implementation, and evaluation of all activities, that is embraced by the leaders and decision-makers in schools and communities. This also provides adults with a facility to access educational opportunities they want, which shall include access to evidence-based literacy instruction and may include coordinating services with outside providers to offer English as a second language classes, green card or citizenship preparation, computer skills, art,

financial literacy, career counseling, job skills training, services for substance misuse, and other programs that bring community members into the building for meetings or events.

(D) Collaborative leadership and practices, which build a culture of professional learning, collective trust, and shared responsibility using strategies that shall, at a minimum, leverage the multitiered system of supports and include a community school coordinator and an integrated school and community leadership team that include youth and family representatives, and may include other leadership or governance teams; teacher learning communities; and other staff to manage the multiple, complex, joint work of school and community organizations.

(E) Safe, inclusive, and equitable learning environments.

(3) “Eligible recipient” means:

(A) a school district with one or more eligible schools;

(B) a supervisory union with one or more eligible schools;

(C) two or more school districts, each with one or more eligible schools that seek to work collaboratively to provide community school programs; or

(D) two or more supervisory unions, each with one or more eligible schools that seek to work collaboratively to provide community school programs.

(4) “Eligible school” means a public elementary or secondary school that:

(A) has a student body where at least 40 percent of students are eligible for free or reduced-price lunch under the Richard B. Russell National School Lunch Act, 42 U.S.C. § 1751 et seq.; or

(B) has been identified for comprehensive or equity support and intervention under Section 1111 of the Elementary and Secondary Education Act of 1965, Pub. L. 89-10, as amended, or otherwise identified by the State as in need of additional support.

(5) “Site-based leadership team” means an interdisciplinary, school-based leadership team that may include the school principal, the community school coordinator, teachers, other school employees, students, families, community partners, nonprofit organizations, unions, and neighboring community residents that supports collaborative planning, implementation, and oversight of community school programs by the eligible recipient.

(b) Funding authorization. The Secretary of Education is authorized to

provide annual funding for a period of three years to an eligible recipient to use as required under subsection (d) of this section.

(c) Funding administration.

(1) Subject to subdivision (2) of this subsection, the Secretary of Education shall determine, using the Agency of Education's equity lens tool, which eligible recipients shall receive funding and the amount of funding, and the Secretary shall provide the funding on or before September 1 of each of 2021, 2022, and 2023 to recipients. The Secretary may deny or reduce second- and third-year funding if the Secretary finds that the recipient has made insufficient progress towards developing and implementing community school programs. In determining which eligible recipients shall receive funding, the Secretary shall take into account relative need, based on the extent to which community school program services are needed and the extent to which the eligible recipient seeks to offer them.

(2) In determining which eligible recipients shall receive funding and the amount of funding and to advance the principles for Vermont's trauma-informed system of care under 33 V.S.A. § 3401, the Secretary of Education shall collaborate with the Director of Trauma Prevention and Resilience Development and the Vermont Child and Family Trauma Work Group.

(3) The Agency of Education shall inform all eligible recipients of the availability of funding under this act and, for those eligible recipients most in need of this funding, shall educate these eligible recipients on community school programs and their benefits. The Agency of Education shall also advise all eligible recipients of other sources of funding that may be available to advance the purpose of this act.

(d) Use of funding.

(1) A recipient of funding under this act shall use the funding to:

(A) if a needs and assets assessment has not been conducted within the prior three years that substantially conforms with the requirements in this subdivision, then, in collaboration with the site-based leadership team, conduct a needs and assets assessment that includes:

(i) where available, and where applicable, student demographic, academic achievement, and school climate data, disaggregated by major demographic groups, including race, ethnicity, English language proficiency, students with individualized education plans, and students eligible for free or reduced-price lunch status;

(ii) access to and need for integrated student supports;

(iii) access to and need for expanded and enriched learning time

and opportunities;

(iv) school funding information, including federal, State, local, and private education funding and per-pupil spending, based on actual salaries of personnel assigned to the eligible school;

(v) information on the number, qualifications, and stability of school staff, including the number and percentage of fully certified teachers and rates of teacher turnover; and

(vi) active family and community engagement information, including:

(I) family and community needs based on surveys, information from public meetings, or information gathered by other means;

(II) measures of family and community engagement in the eligible schools, including volunteering in schools, attendance at back-to-school nights, and parent-teacher conferences;

(III) efforts to provide culturally and linguistically relevant communication between schools and families; and

(IV) access to and need for family and community engagement activities;

(B) hire a community school coordinator to, in collaboration with the site-based leadership team, develop and implement community school programs or designate a community school coordinator from existing personnel and, in collaboration with the site-based leadership team, augment work already being performed to develop and implement community school programs; and

(C) if the recipient has not fully implemented positive behavioral integrated supports under 16 V.S.A. § 2902, provide professional development to staff on positive behavioral integrated supports and implement those supports.

(2) A recipient of funding under this act may use the funding to, in collaboration with the site-based leadership team, develop and implement a plan to improve literacy outcomes and objectively assess those outcomes.

(3) If a needs and assets assessment has not been conducted under subdivision (1)(A) of this subsection within the prior three years, the first year of funding shall be used to conduct the needs and assets assessment of the school to determine what is necessary to develop community school programs and an action plan to implement community school programs. During the second and third years of the funding, the community school coordinator shall,

in collaboration with the site-based leadership team, oversee the implementation of community school programs.

(e) Evaluation.

(1) At the end of each year of funding, each recipient shall undergo an evaluation designed by the Agency of Education using its equity lens tool.

(2) On or before each of December 15, 2022 and 2024, the Agency of Education shall report to the General Assembly and the Governor on the impact of the funding under this act. The report shall be made publicly available on the Agency of Education's website.

(f) Ability to operate as a community school. Any school district or school, regardless of whether it receives funding under this act, may function as a community school as defined in this section.

(b) On or before December 31, 2021 and annually thereafter, a school board operating a school lunch, breakfast, or summer meals program shall report to the Agency of Education an estimate of the percentage of the cost of all foods purchased by the school board for those programs that were locally produced foods during the one-year period ending on June 30 of that year.

(c)(1) Beginning with the 2021–22 school year and thereafter, supervisory unions shall be eligible for a local foods incentive grant (grant) from funds appropriated to the Agency of Education for this purpose.

(2) A supervisory union may apply for the grant if it has:

(A) developed a locally produced foods purchasing plan that describes the supervisory union’s goals for purchasing locally produced foods

and its plan to achieve those goals;

(B) designated an individual as the food coordinator for locally produced foods who shall be responsible for implementing the locally produced foods purchasing plan;

(4) If a supervisory union is eligible for a grant under subdivision (3) of this subsection, then the Agency shall make the grant payment, subject to appropriation, on or before the following March 31 after submission of the supervisory union's application, which is due on or before January 15 of that year, which shall be equal to \$0.15 per reimbursable school lunch served by the supervisory union in the prior school year through the National School Lunch Program. A supervisory union may apply for this grant and receive this grant funding only once.

(5)(A) A supervisory union that has received a grant under subdivision (4) of this subsection (c) may, on or before January 15, 2023 or on or before January 15 of any year thereafter, apply for a further grant by submitting to the Agency of Education information that demonstrates that at least 15 percent of the cost of all foods purchased or grown, raised, or produced by the supervisory union during the one-year period ending on June 30 of the previous year were local to Vermont as defined in 9 V.S.A. § 2465a(b), excluding:

(i) foods purchased or grown, raised, or produced by the supervisory union that were used to provide catering services for which the supervisory union received compensation; and

(ii) fluid milk.

(B) If a supervisory union grows, raises, or produces food, it shall assign a fair market value to that food for the purpose of reporting its cost.

(C) A vendor that contracts with a supervisory union to supply food products shall certify to the supervisory union which of the food products

supplied meet the definition of local to Vermont, taking into account the exclusions under subdivision 5(A) of this subsection (c).

(6) If a supervisory union is eligible for a grant under subdivision (5) of this subsection, the Agency shall, on or before the following April 30 after submission of the supervisory union's application, which is due on or before January 15 of that year, make the grant payment, subject to appropriation, which shall be determined as follows:

(A) \$0.15 per reimbursable school lunch served in the prior school year through the National School Lunch Program for supervisory unions purchasing at least 15 percent locally produced foods;

(B) \$0.20 per reimbursable school lunch served in the prior school year through the National School Lunch Program for supervisory unions purchasing at least 20 percent locally produced foods; or

(C) \$0.25 per reimbursable school lunch served in the prior school year through the National School Lunch Program for supervisory unions purchasing at least 25 percent locally produced foods.

(7) A supervisory union may apply for and receive grant funding under subdivisions (5) and (6) of this subsection for each year that it qualifies for this grant funding. For applications covering the 2020–2021 school year, meals served through the Summer Food Service Program shall also be counted for this grant payment.

(8) The Agency of Education may perform sample audits for any year that grant funds are paid to supervisory unions under subdivision (6) of this subsection to verify that information provided to the Agency under subdivision (5) of this subsection is accurate. If the Agency makes a grant payment under subdivision (6) of this subsection to a supervisory union that was based on inaccurate information reported by the supervisory union, the Agency may seek reimbursement from the supervisory union for an overpayment or reimburse the supervisory union for an underpayment or may adjust future grant amounts under this section to reflect the over- or underpayment.

(d)(1) On or before January 31, 2022 and annually thereafter, the Agency of Education shall submit to the Senate Committees on Agriculture and on Education and the House Committees on Agriculture and Forestry and on Education in an aggregated form:

(A) the information received from supervisory unions regarding the percentage of locally produced foods, as the supervisory unions define them, that were reported under subsection (b) of this section; and

(B) the percentage of locally produced foods, using the grant funding definition, that were reported under subdivision (c)(5) of this section and the amount of grant funding paid to supervisory unions under subdivision (c)(6) of this section in the prior school year.

(2) The provisions of 2 V.S.A. § 20(d) regarding expiration of required reports shall not apply to the reports required by this subsection.

Sec. 8. AGENCY OF EDUCATION; STAFFING

The following position is created in the Agency of Education: one full-time, classified position specializing in the administration of school food programs. There is appropriated to the Agency of Education from the General Fund in fiscal year 2022 the amount of \$100,000.00 for salary, benefits, and operating expenses.

“May 20, 2021

The Honorable John Bloomer, Jr.
Secretary of the Senate
115 State House
Montpelier, VT 05633-5401

Dear Mr. Bloomer:

Pursuant to Chapter II, Section 11 of the Vermont Constitution, I am returning S.107, *An act relating to confidential information concerning the initial arrest and charge of a juvenile*, without my signature, because of concerns with the policy to automatically raise the age of accountability for crimes, and afford young adults protections meant for juveniles, without adequate tools or systems in place.

Three years ago, I signed legislation intended to give young adults who had become involved in the criminal justice system certain protections meant for juveniles. At the time, I was assured that, prior to the automatic increases in age prescribed in the bill, plans would be in place to provide access to the rehabilitation, services, housing and other supports needed to both hold these young adults accountable and help them stay out of the criminal justice system in the future.

This has not yet been the case. In addition to ongoing housing challenges, programs designed and implemented for children under 18 are often not appropriate for those over 18. Disturbingly, there are also reports of some young adults being used – and actively recruited – by older criminals, like drug traffickers, to commit crimes because of reduced risk of incarceration, potentially putting the young people we are trying to protect deeper into the criminal culture and at greater risk.

I want to be clear: I’m not blaming the Legislature or the Judiciary for these gaps. All three branches of government need to bring more focus to this issue

if we are going to provide the combination of accountability, tools and services needed to ensure justice and give young offenders a second chance.

For these reasons, I believe we need to take a step back and assess Vermont's "raise the age" policy, the gaps that exist in our systems and the unintended consequences of a piecemeal approach on the health and safety of our communities, victims and the offenders we are attempting to help. I see S.107 as deepening this piecemeal approach.

I also remain concerned with the lack of clarity in S.107 regarding the disparity in the public records law between the Department of Public Safety and the Department of Motor Vehicles.

Based on the objections outlined above, I am returning this legislation without my signature pursuant to Chapter II, Section 11 of the Vermont Constitution. I believe this presents an opportunity to start a much-needed conversation about the status of our juvenile justice initiatives and make course corrections where necessary, in the interest of public safety and the young Vermonters we all agree need an opportunity to get back on the right path.

Sincerely,

/s/Philip B. Scott

House Resolution Adopted**H.R. 12**

House resolution, entitled

House resolution honoring the memory of George Floyd by designating May 25, 2021 as a Day of Remembrance and Action

Offered by: Representative Christie of Hartford

Whereas, on May 25, 2020, four Minneapolis police officers, including Derek Chauvin, responded to a call that George Floyd, a Black man, was attempting to pay for a purchase with counterfeit currency, and

Whereas, despite George Floyd's pleas, Officer Chauvin knelt on George Floyd's neck unabated for more than nine minutes, and he became unresponsive and died, and

Whereas, Officer Chauvin was charged with third-degree murder, second-degree murder, and second-degree manslaughter, and

Whereas, on April 20, 2021, a Minnesota trial court jury found Officer Chauvin guilty of all three charges, and

Whereas, this verdict offers a historic opportunity for our nation and State to adopt a new course towards the administration of justice that is sensitive to America's racial diversity and the historic and continuing tensions between Americans who are Black, Indigenous, or Persons of Color and the law enforcement community, now therefore be it

Resolved by the House of Representatives:

That this legislative body honors the memory of George Floyd by designating May 25, 2021 as a Day of Remembrance and Action, and be it further

Resolved: That the Clerk of the House be directed to send a copy of this resolution to the Vermont Human Rights Commission, the Executive Director

of Racial Equity, the Vermont chapters of the NAACP, and the Vermont Congressional Delegation.

Rep. Killacky of South Burlington explained his vote as follows:

“Madam Speaker:

I voted yes to suspend the rules because I support landlords as well as tenants. This bill had made exceptions to the eviction moratorium because we heard from landlords who needed immediate relief. This bill also stands up the VHIP program which needs to be implemented without delay to continue the work started this past year with CRF funds. Waiting on this bill hurts landlords and tenants.”

Rep. Redmond of Essex explained her vote as follows:

“Madam Speaker:

I voted for a rules suspension today as I have numerous constituents in dire need of adjustments to the State of Emergency eviction moratorium in place. They have tried to negotiate with tenants to no avail, they are being paid no rent, and/or they need to live on the premises again themselves. Likewise,

there are 19,000 rental units statewide that are not compliant to current housing standards that need to be brought online to create more affordable housing. S.79 provides landlords money to rehab those dwellings and get them online quickly to address an affordable housing crisis across the state.”

Sec. A.101 PURPOSE

(a) The purpose of this act is to provide appropriations for the operations of State government during fiscal year 2022. It is the express intent of the General Assembly that activities of the various agencies, departments, divisions, boards, and commissions be limited to those that can be supported by funds appropriated in this act or other acts passed prior to June 30, 2021. If in this act there is an error in either addition or subtraction, the totals shall be adjusted accordingly. Apparent errors in referring to section numbers of statutory titles within this act may be disregarded by the Commissioner of Finance and Management.

(c) Unless codified or otherwise specified, all narrative portions of this act apply only to the fiscal year ending on June 30, 2022.

Sec. A.103 DEFINITIONS

The Governor may spend such funds for such purposes for not more than 45 days prior to legislative or Joint Fiscal Committee approval. (a) The General Assembly finds:

(1) Business investment by Canada-based businesses provides the opportunity to generate increased employment, increase the range of job opportunities for Vermonters, and increase the dynamism of our communities.

(2) From the past work of the Department of Economic Development, we know that small- and mid-sized businesses in Quebec, Ontario, and other provinces in the region have a natural inclination to explore Vermont as the site for expansion in the U.S. market.

(3) Developing a program to attract businesses and investment from Canada-based businesses and engaging the services of a foreign trade representative to provide local recruitment support can allow the State and its businesses to tap resources of institutions, enterprises, and people to a greater degree and to develop lead generation services, expansion monitoring, in-market representation, market intelligence, and the ability to engage and nurture high-growth companies primed for expansion.

(4) It is the intent of the General Assembly to fund the services of a

foreign trade representative for two years in order to begin the work of cultivating relationships with Canada-based partners and developing prospects for attracting business relocation and investment in Vermont.

Sec. H.11 APPROPRIATION; REPORT

(a) The Agency of Commerce and Community Development shall use the \$300,000.00 appropriated from the General Fund in Sec. G.300(b)(1) of this act to provide funding for up to two years for a contract with a foreign trade representative consistent with this act.

(b) On or before January 15, 2022, the Agency of Commerce and Community Development shall report to the House Committee on Commerce and Economic Development and the Senate Committee on Economic Development, Housing and General Affairs concerning:

- (1) the terms of the contract; and
- (2) metrics to evaluate success of the contract and the representative.

(b) On or before January 15, 2023, the Agency of Commerce and Community Development shall report to the House Committee on Commerce and Economic Development and the Senate Committee on Economic Development, Housing and General Affairs concerning:

- (1) the type and number of business contacts and engagement;
- (2) the type of businesses, jobs, and wages brought to the State; and
- (3) recommendations concerning the continuation or expansion of the program.

* * * Workforce Development and Education * * *

Sec. H.12 WORKFORCE DEVELOPMENT AND EDUCATION

(a) Findings.

(1) Due to the COVID-19 public health emergency, the Vermont State Colleges have experienced a significant decrease in applications, and the board of directors has voted to freeze tuition for the 2021–2022 academic year both to keep students' costs low and to mitigate the economic impact of COVID-19 on enrollment.

(2) Deposit activity, a signal of anticipated enrollment for the fall 2021 semester, has declined between five and 20 percent at two of the four VSC institutions, and FAFSA filing for Vermont is down seven percent year over year.

(3) While the enrollment gap is narrowing from earlier in the fall, it is still significantly wider than normal due to the complexities of how the

pandemic is affecting Vermont's high schools and high school students, for example, due to remote learning and the necessity for guidance counselors to broaden the reach of their services to struggling students.

(4)(A) The federal Pell Grant eligibility for first-time, full-time Vermont students is high, signifying that families are financially distressed.

(B) In the fall of 2019, the percentage of first-time, full-time students who were Pell eligible were as follows: CCV (57 percent), CU (39 percent), NVU (49 percent), and VTC (41 percent).

(C) These students, already economically disadvantaged, are disproportionately impacted by the pandemic and related economic crisis.

(5) In addition to increasing the needs of Vermont's secondary and postsecondary students, the COVID-19 pandemic has also placed significant burden on the Vermont workforce, which can benefit from expanded opportunities available at the Vermont State Colleges.

(b) Purpose. In light of these findings, it is the intent of the General Assembly to provide funding to expand opportunities for education at the Vermont State Colleges for Vermonters:

(A) who have been impacted by the COVID-19 pandemic through layoffs, furloughs, or reduced hours or due to being employed in an industry that has been severely affected; and

(B) who are pursuing education and training and require educational assistance and other support due to economic harm and lost opportunities arising from the COVID-19 public health emergency.

Sec. H.13 MICROBUSINESS DEVELOPMENT PROGRAM; EMBRACE

(a) The General Assembly finds that the Microbusiness Development Program has demonstrated the capability to help individuals lift themselves out of poverty by providing the technical support and financial assistance necessary to start and sustain entrepreneurial enterprises.

(b) To continue the success of the Microbusiness Development Program, in fiscal year 2022, the General Assembly has appropriated the following amounts in this act:

(1) the amount of \$200,000.00 in additional base funding from the General Fund to the Department for Children and Families, Office of Economic Opportunity, for pass-through grants to the Community Action Agencies to provide funding for the regional Microbusiness Development Programs pursuant to 3 V.S.A. § 3722; and

(2) the amount of \$2,000,000.00 from the funds available to the State

under the American Rescue Plan Act of 2021 to the Department for Children and Families, Office of Economic Opportunity, to be granted to the Community Action Agencies for the Statewide Community Action Network's Economic Micro Business Recovery Assistance for the COVID-19 Epidemic (EMBRACE) to assist the Vermont microbusiness owners impacted by COVID-19 and for new businesses started by individuals who have been impacted by the COVID-19 pandemic through layoffs, furloughs, or reduced hours or due to being employed in an industry that has been severely affected.

Sec. H.14 STATE BUSINESS DEVELOPMENT; BLACK, INDIGENOUS,
AND PERSONS OF COLOR

(a) Intent.

(1) Racial wealth disparities are a function of not only access to income but also the ability to start and sustain a business, access land, and own property.

(2) Vermont embraces its responsibility to course correct the historical impact of economic exploitation and exclusion from opportunity due to race and ethnicity for American descendants of slavery and the broader Black, Indigenous, and Persons of Color community.

(3) In order to rectify this history of inequity, it is the intent of this General Assembly to acknowledge and address wealth disparity and cultural disempowerment by creating economic opportunity and cultural empowerment, using new systems that empower Vermonters who have historically suffered from discrimination and lacked equal access to public or private economic benefits due to race, ethnicity, geography, language preference, and immigrant or citizen status.

(b) Findings.

(1) The Vermont Partnership for Fairness and Diversity conducted a survey of BIPOC businesses after the Emergency Recovery Grant programs closed. The survey analysis included three core recommendations: form a state BIPOC Commission, create a BIPOC business association, and improve data collection and the State's understanding of BIPOC business needs.

(2) The Committee sought information from over a dozen BIPOC business and community and State leaders to learn what BIPOC businesses need to be economically successful in Vermont. Core findings included:

(A) allow BIPOC businesses to lead and define how to strengthen economic development for BIPOC-owned businesses and what organizational structures would best support the Vermont BIPOC business community;

(B) offer more support to BIPOC businesses by assisting them in

procuring State contracts, securing capital investment and customer cultivation, and finding technical support;

(C) improve language access and cultural competency practices within State economic development programs and strengthen connections to BIPOC businesses; and

(D) improve State data collection to better serve the variety of identities represented within the BIPOC community.

(3)(A) The Secretary of State, in cooperation with the Agency of Digital Services, is leading the development project for the creation of a business portal to deliver a single point of entry for Vermont businesses to interact with the State across multiple agencies and departments.

(B) When the portal becomes active, which is projected to occur in 2022, the Secretary of State will collect data on race, ethnicity, and gender for individuals registering businesses.

(c) BIPOC business development project.

(1)(A) The Agency of Commerce and Community Development shall use the \$150,000.00 appropriated in Sec. G.300(a)(18) to provide funding for one or more contractors to convene BIPOC businesses, organizations, and community leaders; other business organizations; and representatives from the Agency of Commerce and Community Development and other State agencies and departments as necessary, to create a set of recommendations on how to support BIPOC business development, which may include the creation of a BIPOC business network, the creation of minority business development center or authority, or one or more other similar entities or organizations.

(B) Not more than five percent of the amount appropriated in this section may be used for administrative purposes, including translation services.

(2) The Executive Director of Racial Equity and the Racial Equity Advisory Panel, with the collaboration and support of the Agency of Commerce and Community Development, shall:

(A) issue a request for proposals on or before August 15, 2021; and

(B) finalize hiring and ensure that work under any contracts issued begins on or before October 15, 2021.

(3)(A) The request for proposals shall include the following requirements for a qualified contractor:

(i) demonstrated experience working with BIPOC businesses or populations, or both;

(ii) knowledge of the Vermont business industries and concentrations of BIPOC-owned businesses;

(iii) proposal on how to convene stakeholders, provide information, and conduct outreach that includes language access for limited English-proficient individuals;

(iv) economic and business development expertise; and

(v) experience in organizational structures.

(B) In making their selection, the Panel, Executive Director, and Agency shall give priority to a contractor with experience working with BIPOC-owned businesses and knowledge of the Vermont business community.

(C) The Agency shall cause the request for proposals to be translated upon request of a potential applicant.

(4)(A) On or before February 15, 2022, each contractor shall deliver to the Panel, the Director, the Agency, and the legislative committees of jurisdiction a preliminary report on financial resources and policy changes needed to support BIPOC business development.

(B) On or before July 1, 2022, each contractor shall submit a final report summarizing the process and deliberations and a final set of recommendations on what entities, organizations, or other measures will best support BIPOC business development.

(d) Collection of data.

(1)(A) The Secretary of State shall collect race, ethnicity, and gender data for individuals registering businesses in the State of Vermont as part of its business portal and for individuals seeking licensure, certification, or registration through the Office of Professional Regulation.

(B) The Secretary shall ensure that data collection pursuant to this subsection is achieved through voluntary procedures and the collection of data does not affect, and does not create the perception that the information provided affects, any action of the Secretary or the Office of Professional Regulation.

(2) The Secretary shall provide data from the portal and from the Office of Professional Regulation to the Secretary of Administration, who shall make the data available to relevant agencies and departments within State government to inform economic development policy priorities and strategies as it relates to BIPOC-, women-, and gender non-binary-owned businesses and their needs as businesses and employers.

(3) Once completed, the Secretary of State shall incorporate

recommendations related to data collection from the BIPOC business development project created in this section.

Sec. H.15 ENTREPRENEURS' SEED CAPITAL FUND

(a) Entrepreneurs' Seed Capital Fund. The Entrepreneurs' Seed Capital Fund, created by the Vermont Economic Development Authority pursuant to 10 V.S.A. § 291, is a \$5.1 million revolving "evergreen" capital fund in operation since 2010 serving Vermont's entrepreneurs and early-stage technology-enabled companies for job growth, income potential, and wealth creation. Since inception, the Fund's portfolio companies have now raised in excess of \$182 million. The Fund is professionally managed by the Vermont Center for Emerging Technologies (VCET).

(b) Appropriation. The General Assembly has appropriated the amount of \$900,000.00 from the General Fund to the Entrepreneurs' Seed Capital Fund in Sec. G.300(b)(2) of this act to provide risk stage seed capital to Vermont businesses that have experienced economic disruption either through reduced business, new business formation, or through an unmanageable increase in new business.

(c) Investment; categories. Notwithstanding any provision of 10 V.S.A. § 290 to the contrary, the Fund shall invest in businesses consistent with the following:

(1) The Fund shall invest in rapid seed and early growth stage employers that have a viable plan for recovery and growth.

(2) The Fund shall make expedited investments using simplified investment terms and instruments, including stock, convertible notes, forgivable loans, royalty financing, or grants with equity warrants.

(3) The expected range per new investment is \$20,000.00 to \$100,000.00 from this appropriation.

(4) The Fund shall prioritize sourcing and funding on BIPOC-, veteran-, and women-owned businesses.

(5) In continuing to serve the Vermont innovation ecosystem and notwithstanding the expedited program timeline, the Fund shall pursue co-investment participation from local and regional investors, including Vermont venture funds, family offices, community foundations, accredited individual "angel" investors, lending institutions, and other relevant sources.

(6) Prior to providing seed capital, the Fund may ensure that an applicant has consulted with, and has accessed any available funding from, the Vermont Economic Development Authority.

(d) Eligibility. For-profit Vermont businesses are eligible except where other significant State appropriated Coronavirus Relief Fund program resources have been directed. These excluded sectors include:

- (1) traditional in-person retail operations;
- (2) lodging, hospitality, and real estate operations; and
- (3) restaurants and food service operations.

Sec. H.16 10 V.S.A. § 291(b)(3) is amended to read:

(3)(A) Before the Fund makes any investments, the Fund shall have and maintain a board of five advisors who shall be appointed as follows: two shall be appointed by the Authority, two shall be appointed by the Fund manager, and one shall be appointed jointly by the Authority and the Fund manager.

(B) The appointing authorities shall coordinate their appointments to ensure that the Board comprises advisors with diverse professional and personal backgrounds and experiences.

(C) The Board of Advisors shall represent solely the economic interest of the State with respect to the management of the Fund and shall have no civil liability for the financial performance of the Fund.

(D) The Board of Advisors shall be advised of investments made by the Fund and shall have access to all information held by the Fund with respect to investments made by the Fund.

Sec. H.17 SEED CAPITAL FUND; REPORT

On or before January 15, 2022 the Seed Capital Fund shall report to the Senate Committee on Economic Development, Housing and General Affairs and to the House Committee on Commerce and Economic Development concerning:

(1) whether and how the Fund and the Vermont Economic Development Authority can integrate preferential treatment and provide continuing investment through its lending programs for businesses that have received capital investment from the Fund; and

(2) the Fund's efforts and outcomes to prioritize sourcing and providing funding to BIPOC-, veteran-, and women-owned businesses pursuant to Sec. H.16 of this act.

* * * Capital Investment Grants * * *

Sec. H.18 CAPITAL INVESTMENT GRANT PROGRAM

(2) The purpose of the program is to make funding available for transformational projects that will provide each region of the State with the opportunity to attract businesses, retain existing businesses, create jobs, and invest in their communities by encouraging capital investments and economic growth.

(3) A recipient may combine grant funds with funding from other sources but shall not use grant funds from multiple sources for the same costs within the same project.

(4) The Agency shall release grant funds upon determining that the applicant has met all Program conditions and requirements.

(5) Nothing in this section is intended to prevent a grant recipient from applying for additional grant funds if future amounts are appropriated for the program.

(d) Data model; approval.

(1) The Agency shall collaborate with the Legislative Economist to design a data model and related methodology to assess the fiscal, economic, and societal impacts of proposals and prioritize them based on the results.

* * * Economic Recovery Grants * * *

Sec. H.19 ECONOMIC RECOVERY GRANTS

(a) The Agency of Commerce and Community Development shall use the \$20,000,000.00 appropriated to it in Sec. G.300(a)(13) of this act for

Economic Recovery grants and the amounts appropriated to it in 2021 Acts and Resolves No. 9, Sec. 3 to provide grants to businesses consistent with the requirements of that Sec. 3 and further subject to the following:

(1) The value of a grant shall not exceed the lesser of a business's net adjusted loss, three months of fixed expenses, or \$150,000.00.

(2) The Agency shall defer final calculation and payment of grant awards for a reasonable period of time to determine the availability of COVID-19-related financial assistance from other State and federal sources.

(3) The Agency may adjust the calculation of tax loss for non-COVID-19-related items, including carryforward losses and depreciation.

(b) The Agency of Commerce and Community Development shall provide grants to businesses subject to the provisions and guidance controlling economic relief funds that are available through the American Rescue Plan Act of 2021, as follows:

(1) Program to respond to economic harm.

(A) The Agency shall design and implement the economic recovery grant program to ensure that grants provided to businesses respond to the public health emergency with respect to the Coronavirus Disease 2019 (COVID-19) or its negative economic impacts.

(B) In assessing whether a program or service "responds to" the COVID-19 public health emergency, the Agency shall, first, identify a need or negative impact of the COVID-19 public health emergency and, second, identify how the program addresses the identified need or impact.

(2) Program response is related and proportional to harm.

(A) The Agency shall ensure that its program response is related and reasonably proportional to the extent and type of harm experienced.

(B) Uses that bear no relation or are grossly disproportionate to the type or extent of harm experienced are not eligible uses.

(3) Economic harm resulting from or exacerbated by COVID-19.

(A) The Agency shall design and implement the economic recovery grant program to address economic harms resulting from or exacerbated by the public health emergency.

(B) The Agency shall assess the connection between the negative economic harm and the COVID-19 public health emergency, the nature and extent of that harm, and how the use of this funding would address such harm.

(C) While recognizing that economic impacts may either be

immediate or delayed, the Agency shall not provide assistance to a business that did not experience a negative economic impact from the public health emergency and that therefore would not be an eligible recipient of funds.

(4) Recognizing harm to certain industries.

(A) The Agency shall recognize that certain industries, such as tourism, travel, and hospitality, were disproportionately and negatively impacted by the COVID-19 public health emergency. Aid provided to tourism, travel, and hospitality industries should respond to the negative economic impacts of the pandemic on those and similarly impacted industries.

(B) Aid may be considered responsive to the negative economic impacts of the pandemic if it supports businesses, attractions, business districts, and Tribal development districts operating prior to the pandemic and affected by required closures and other efforts to contain the pandemic.

(C) When considering providing aid to industries other than tourism, travel, and hospitality, the Agency shall consider the extent of the economic impact as compared to tourism, travel, and hospitality.

(D) The Agency shall also consider whether impacts were due to the COVID-19 pandemic, as opposed to longer-term economic or industrial trends unrelated to the pandemic.

(c) On or before December 15, 2021, the Agency shall submit a report to the House Committee on Commerce and Economic Development and the Senate Committee on Economic Development, Housing and General Affairs concerning the implementation of this section, including detailed information concerning business grant recipients and recommendations for any necessary legislative action to adjust program criteria and benefits.

Rep. Coffey of Guilford explained her vote as follows:

“Madam Speaker:

This pandemic has called for new thinking and bold action to address the gaps and inequities in our system and to build back better. In this budget we make critical steps and investments to course correct the history of economic exploitation and exclusion from economic opportunity due to race and ethnicity by creating much needed infrastructure to support to strengthen, grow and attract BIPOC-owned businesses and promote racial equity and opportunity across Vermont. Budgets are expressions of our priorities and our values and I am proud to support this budget and to continue to work for a Vermont where everyone has access to opportunity, and where everyone is welcome and can thrive. ”

Rep. Ode of Burlington explained her vote as follows:

“Madam Speaker:

Thank you to the Speaker of the House for her leadership in our collaborative budgeting process. Thank you to my fellow legislators who built a budget that is all it can be in these challenging times. I support this budget and the work it allows us to do for Vermonters and Vermont. Thank you.”

Rep. Wood of Waterbury explained her vote as follows:

“Madam Speaker:

I am proud and thankful to vote yes for this budget. On March 25th the House passed H.153, a bill that will provide our legislative body with sufficient data to make informed decisions about our Medicaid-funded home and community-based providers like the designated and specialized service agencies, our Choices for Care providers and other long term support agencies. That bill is still sitting in the other body awaiting action. However, through the hard work and attention to the needs of vulnerable Vermonters, this budget ensures that we do not fall further behind. It provides a 3% cost of living adjustment through a Medicaid rate increase that will support these providers, their workforce, and most of all the Vermonters who require support.”

On motion of **Rep. McCoy of Poultney**, the rules were suspended and action on the bill was ordered messaged to the Senate forthwith and the bill delivered to the Governor forthwith.

Joint Resolution Adopted in Concurrence

J.R.S. 29

By Senator Balint,

J.R.S. 29. Joint resolution relating to final adjournment of the General Assembly 2021.

Resolved by the Senate and House of Representatives:

Governor's Veto Letter

“June 1, 2021

The Honorable BetsyAnn Wrask
Clerk of the Vermont House of Representatives
115 State St.
Montpelier, VT 05633

Dear Ms. Wrask:

Pursuant to Chapter II, Section 11 of the Vermont Constitution, I am returning H.177, *An Act Relating to Approval of an Amendment to the Charter of the City of Montpelier* without my signature.

This is an important policy discussion that deserves further consideration and debate. Allowing a highly variable town-by-town approach to municipal voting creates inconsistency in election policy, as well as separate and unequal classes of residents potentially eligible to vote on local issues. I believe it is the role of the Legislature to establish clarity and consistency on this matter. This should include defining how municipalities determine which legal residents may vote on local issues, as well as specifying the local matters they may vote on. Returning these bills provides the opportunity to do this important work.

For these reasons I am returning this legislation without my signature pursuant to Chapter II, Section 11 of the Vermont Constitution. I understand these charter changes are well-intentioned, but I ask the Legislature to revisit the issue of non-citizen voting in a more comprehensive manner and develop a statewide policy or a uniform template and process for those municipalities wishing to grant the right of voting in local elections to *all* legal residents.

Sincerely,

Philip B. Scott

Re: H.225, An act relating to possession of a therapeutic dosage of buprenorphine

Dear Legislators:

Today, I signed H.225, *An act relating to possession of a therapeutic dosage of buprenorphine*, despite concerns on whether there is a need for this legislation given the availability of substance misuse treatment options through our proven hub and spoke system. I am concerned about the lack of data on decriminalizing buprenorphine and its effectiveness in reducing opiate overdoses is unproven. The impact of diverted medication and its use outside of treatment is also a concern, given the critical support the hub and spoke system provides, and with the difficulty prescribers may face in their work to ensure successful treatment.

However, we know addiction is a chronic illness and continue to see the devastating impacts on individuals, their families, and communities. Although I remain skeptical, I signed this bill because it is well-intentioned and offers another potential approach to reduce the impacts of substance use disorder. Most importantly, from my perspective, was the Legislature's decision to include an endpoint for this law, which will sunset on July 1, 2023, providing experts the opportunity to assess the effectiveness of this initiative.

It is important to me that we do not unravel previous progress, increase abuse of diverted drugs, or jeopardize the success of the hub and spoke system.

Attached to this letter please find Executive Order 05-21, directing the chief prevention officer to assemble a task force charged with setting performance metrics and collecting and measuring the data needed to assess the effectiveness of decriminalizing buprenorphine.

Sincerely,
Philip B. Scott
Governor

Text of Executive Order 05-21

**“STATE OF VERMONT
EXECUTIVE DEPARTMENT
EXECUTIVE ORDER NO. 05-21**

[Decriminalized Buprenorphine Task Force]

WHEREAS, since taking office, the Governor has demonstrated commitment to providing access to opiate addiction treatment for individuals in need; and

WHEREAS, through hard work and partnership among state, local and community partners, the state can now quickly meet the demand for opiate addiction treatment services in all 14 counties; and

WHEREAS, Vermont is nationally recognized for its collaborative “hub and spoke” system of treatment for opiate addiction; and

WHEREAS, the Governor remains committed to building upon the progress of previous administrations in this area by re-focusing efforts in the areas of education and prevention, treatment, recovery and enforcement; and

WHEREAS, State and local law enforcement and the courts are working with the health system to get individuals treatment and prosecute the large dealers; and

WHEREAS, unfortunately, with the COVID -19 pandemic and the isolation and the increased financial and other stressors faced by Vermonters, Vermont saw a dramatic spike in fatal and non-fatal opioid overdoses; and

WHEREAS, in an effort to do all we can to address increased numbers of opioid overdose fatalities, the Legislature passed, and the Governor signed into law H. 225, *An act relating to possession of a therapeutic dosage of buprenorphine*, which decriminalizes the possession of 224 milligrams or less of buprenorphine on the theory that greater street availability will result in fewer opioid-related deaths and a greater likelihood those with substance misuse disorder will seek treatment; and

WHEREAS, although the data on whether decriminalizing buprenorphine is effective in reducing opiate overdoses is unproven, we know substance use disorder is a chronic illness and we continue to see the devastating impact of opioid addiction; and

WHEREAS, the Legislature has included an endpoint for H. 225, which will sunset on July 1, 2023, providing experts the opportunity to assess the effectiveness of this initiative.

NOW, THEREFORE, BE IT RESOLVED, that I, Philip B. Scott, by the authority vested in me as Governor of the State of Vermont, do hereby issue the following directive to the Chief Prevention Officer to coordinate with interested agencies and parties to gather data and assess the impact of legislation to decriminalize the possession of 224 milligrams or less of buprenorphine, as follows:

- A. The Chief Prevention Office shall have the authority to convene a Buprenorphine Task Force made up of representatives from the Departments of the Agency of Human Services and the Department of Public Safety to establish

metrics and gather baseline data as necessary to assess the impact of the decriminalization of buprenorphine on Vermonters and Vermont communities.

The Chief Prevention Officer shall call the first meeting of the Task Force prior to June 30, 2021.

B. The Chief Prevention Officer and the Task Force shall:

1. Develop metrics to assess impacts of expanded access to buprenorphine in the community and advise the Governor on the data to be collected and periodically reported to the Governor.
2. Collaborate with relevant Executive Branch agencies, departments, boards, and commissions, including the Chief Performance Officer and the Executive Director of Racial Equity as well as community treatment providers and local law enforcement to gather relevant data and records necessary to carry out the purposes of this Executive Order.
3. Manage and oversee the collection of data to determine the nature and scope of the impact of the buprenorphine decriminalization policy.
4. No later than January 1, 2023 make recommendations to the Governor regarding the continuation of, and any modifications needed to the policy and state programming, as applicable.

This Executive Order shall take effect upon signing and shall continue in full force and effect until further order by the Governor or June 30, 2023, whichever is earlier.

WITNESS my name hereunto
subscribed and the Great Seal of
the State of Vermont hereunto
affixed at Montpelier this 1st day

I am directed to inform the House that the Senate has on its part completed the business of the session and is ready to adjourn, pursuant to the provisions of J.R.H. 10.

Message from the Senate No. 78

A message was received from the Senate by Mr. Bloomer, its Secretary, as follows:

Madam Speaker:

I am directed to inform the House that:

The Governor has informed the Senate that on July 2, 2021, he returned without signature and *vetoed* a bill originating in the Senate of the following title:

S. 79. An act relating to improving rental housing health and safety.

Text of Communication from Governor

The text of the communication from His Excellency, the Governor, whereby he vetoed and returned unsigned **Senate Bill No. S. 79**, to the Senate is as follows:

“July 2, 2021

The Honorable John Bloomer, Jr.
Secretary of the Senate
115 State House
Montpelier, VT 05633-5401

Dear Mr. Bloomer:

Pursuant to Chapter II, Section 11 of the Vermont Constitution, I am returning S.79, *An Act Relating to Improving Rental Housing and Safety*, without my signature because I believe this bill would reduce the number of housing options for Vermonters at a time when we are grappling with a critical housing shortage. While we all want safe housing and lodging options for Vermonters and visitors, in my opinion this bill does not accomplish this shared goal.

As you well know, I have repeatedly advocated for improving Vermont's aging long-term rental housing stock, which is why we used pandemic emergency housing relief and other funds to initiate innovative housing programs like the Vermont Rental Housing Investment Program and the Vermont Homeownership Revolving Loan Fund. Fortunately, these programs can move forward despite this veto with the dedicated funding included in the Fiscal Year 2022 appropriations bill.

Most agree we suffer from a critical housing shortage for middle income, low income and homeless Vermonters, but the solution is not more regulation. Instead, we need to invest in new and rehabilitated housing in every corner of our state. We need to lower costs to make housing more affordable and we need to ease complicated and duplicative permitting requirements while we have the funding to grow and improve our housing stock. This is what I have proposed since my first year as governor and I will continue to do so.

S.79 targets all rental units in all types of buildings and dwellings with few exceptions. I believe this will discourage everyday Vermonters from offering their homes, rooms or summer cabins for rent, not as a primary business but as a means to supplement their income so they can pay their mortgage as well as their property taxes.

Adding additional restrictions, costs and hoops to jump through will not only reduce the number of long-term rentals, but also short-term lodging options when we have a surge in tourists, including foliage and ski seasons. Tourists and visitors having more lodging options when deciding where to stay makes Vermont more competitive and helps our economy.

I am willing to work with the Legislature to modernize our statewide life safety inspection model and initiate a long-term rental registry if we include the following provisions:

- First, I would support a rental housing registry for only those buildings which exceed two dwelling units available for rental for more than 120 days per year. This will ensure we are differentiating between those renting a unit merely to support household expenses, and more professional landlords operating a rental business.
- Second, the health safety inspection obligations transferred in S.79 to the Division of Fire Safety are an expansion of DFS fire safety inspection obligations to include health inspections. This also expands the responsibility for health code inspections from a local "complaint-based" system to the mandatory statewide inspection authority of DFS. Further, S.79 takes away the existing discretion of DFS to determine if a violation merits shutting a residence down for rental. Under S.79, one uncorrected

health or safety violation will make a unit unavailable. There must be a commonsense risk consideration added.

I also believe we need more thorough consideration of timelines, resource needs, regulatory flexibility for DFS, training needs for local health officials and impacts on rental housing resources before transferring total oversight to DFS. The bill currently includes five new positions to carry out much of this work. Truly fulfilling the bill's mandate would require an even more costly expansion of the bureaucracy in the future, which I could not support. Perhaps Senator Brock's amendment could be considered a bridge to longer-term modernization.

- Third, I ask the Legislature to continue to support the Vermont Rental Housing Investment Program and the Vermont Homeownership Revolving Loan Fund, which, again, will move forward with funding from the FY22 budget.
- Finally, I also believe we must work together on Act 250 reforms and permitting, especially in light of our unprecedented housing investments. My Administration will make themselves available at any time over the summer and fall to discuss potential paths forward.

Based on the objections outlined above, I am returning this legislation without my signature pursuant to Chapter II, Section 11 of the Vermont Constitution.

Sincerely,

/s/Philip B. Scott
Governor

At twelve o'clock and fifteen minutes in the afternoon, the Speaker called the House to order.

Governor's Call for Special Session

“I, Philip B. Scott, Governor of the State of Vermont, by virtue of the authority vested in me by the Constitution, find it necessary to call together the Vermont General Assembly, and I do hereby summon the members of the Senate and House of Representatives to meet in their respective chambers in the State House, together with the officers of the two Houses, on Monday, the 22nd day of November, A.D., 2021, at 10:00 in the forenoon, for the limited purpose of passing legislation to allow, but not require, each municipality to adopt, by action of the municipality’s governing body, a mask mandate beginning Monday, November 29, 2021, or upon passage, whichever is earlier, and as further specified in my letter dated November 15, 2021 to the President Pro Tempore of the Senate and the Speaker of the House, attached hereto.

WITNESS my name hereunto subscribed and the Great Seal of the State of Vermont hereunto affixed at Montpelier this 17th day of November, A.D., 2021.

/s/ Philip B. Scott
Governor

/s/ Brittney L. Wilson

Secretary of Civil and Military Affairs”

**Governor's Letter To Speaker Krowinski
and Senate President *Pro Tempore* Becca Balint**

“November 15, 2021

The Honorable Becca Balint, Senate President Pro Tempore
The Honorable Jill Krowinski, Speaker of the House
115 State Street
Montpelier, VT 05633

Dear President Pro Tempore Balint and Speaker Krowinski:

Thank you for finding time to meet this afternoon.

As you know, I believe the Executive’s emergency authority should be used judiciously. These powers must be reserved for significant emergencies. As a democratic constitutional republic, our constitution clearly intends to balance the power of government, so no one branch, official, or group of officials, is in a position of absolute power. Abuse of emergency powers – or lowering expectations of when and how they might be used – is a dangerous and slippery slope we must not allow and should never be politicized.

There is no doubt that COVID-19 continues to be a persistent challenge. We will be dealing with periodic surges and clusters as we navigate the path from pandemic to endemic. As Dr. Levine has noted, eventually it will become just another virus like seasonal flu or the common cold. But we must continue to do our part as individuals and community members to move forward on this path by getting vaccinated, receiving boosters, and protecting the elderly Vermonters who are most at risk.

As you know, because of vaccine effectiveness, boosters and advancing treatments, case fatality and case hospitalization rates are declining. In fact, even in this period of high case counts, over the last 30 days rates in the over 65 age bands (those most at risk of hospitalization) have declined by 2.5 percent. In addition, with nearly two years of experience, knowledge of the virus and its risks have increased substantially. Thankfully, while it is a challenge, and we must remain vigilant and encourage the unvaccinated to do their part, it no longer rises to the level of an emergency that would justify use of emergency powers.

As President Biden has frequently noted, this is now a pandemic of the unvaccinated. And I believe confrontations over mandates, and the partisan politicization of these issues, ultimately delay the decisions we need these individuals to reach. As such, I do not believe a mask mandate will have the impact you hope at this time. Based on our earlier experience with a mandate, we are unlikely to see compliance among the unvaccinated adults we need to mask, and in the places where we need more people to mask – like in social gatherings where food and alcohol is involved.

To put it more bluntly, the people, businesses and communities who comply with guidance – or who welcome mandates – are not where we need the greatest change; politicized conflict only makes it more difficult to persuade those who we need to reach. However, during this period of elevated cases I will continue to strongly encourage these Vermonters to wear masks indoors when around others from outside their household, get vaccinated and make good choices on a day-to-day basis.

In light of your recent press releases, it's obvious we have differences of opinion regarding how best to move forward from pandemic to endemic and use of gubernatorial emergency powers.

For these reasons, I propose a special session of the General Assembly for the single purpose of expressly granting each individual municipality the narrowly crafted, and time-limited, authority to mandate the use of facial coverings indoors within their jurisdictions.

Specifically, I'm willing to support legislation that is clearly and narrowly crafted to do the following:

First, the legislation must be limited to facial covering requirements indoors within a municipality's jurisdiction (except schools, which shall remain governed by the policies set forth by the local school board) for the specific, and exclusive, purpose of addressing COVID-19.

Second, the legislation must allow each municipality to enact, by action of the municipality's governing body, a mask mandate beginning Monday, November 29, 2021, or upon passage, whichever is earlier.

Third, the legislation and authority to impose a local mask mandate shall sunset on April 30, 2022.

Fourth, the statute passed in special session must require the governing body of the municipality to reevaluate and vote to extend or rescind the policy on a month-to-month basis.

I offer this as a compromise – not because I believe mandates are the right approach under current circumstances. Therefore, I want to be very clear, should the Legislature propose any additional restrictions or mandates on a statewide or municipal basis, I will not support them. This special session would be for the exclusive purpose of passing narrowly crafted, and time-limited legislation giving municipalities the temporary authority to mandate the use of facial coverings indoors within their jurisdictions, as outlined above.

I have asked my staff to prepare the paperwork calling a special session for Monday, November 22, 2021, and look forward to discussing this compromise proposal when we meet later today.

Sincerely,
/s/ Philip B. Scott
Governor

Rep. Bos-Lun of Westminster explained her vote as follows:

“Madam Speaker:

I believe this amendment is a good idea but there is not adequate time to process it fully and move forward with the mask guidelines we came together to address today. I hope we can revisit the issue of removing criminal penalties when we convene in January.”

Rep. Colburn of Burlington explained her vote as follows:

“Madam Speaker:

While I oppose criminalization of this issue – and many others- I don’t think it makes sense to treat this matter differently than any other municipal authority. Furthermore, as has been widely acknowledged, it is highly unlikely that any municipality will take this action. Thus, I don’t think the additional expense to taxpayers that it would take to enact this is justified. I’d rather sent that money to a syringe exchange program.”

Rep. Kornheiser of Brattleboro explained her vote as follows:

“Madam Speaker:

I trust my community to hold neighbors accountable to public health measures with the tools they need and the lightest possible touch.”

Thereupon, the bill was read the third time.

Pending the question, Shall the bill pass in concurrence? **Rep. Brennan of Colchester** demanded the Yeas and Nays, which demand was sustained by the Constitutional number. The Clerk proceeded to call the roll and the question, Shall the bill pass in concurrence? was decided in the affirmative. Yeas, 90. Nays, 41.

Rep. Bos-Lun of Westminster explained her vote as follows:

“Madam Speaker:

I voted yes for this bill because I believe in science. Masks prevent spread, which can save lives. Early in the pandemic, my dear friend Archana Mandpe contracted COVID and did not survive. I cast my vote today in the hope that Vermont communities will use the strategies we know to protect and preserve life. I urge communities around Vermont to pass protective mask policies. When we return in January we need to pass more comprehensive protective

legislation. We have already lost 404 Vermonters. We must work together to prevent loss of life and other difficult consequences of COVID.”

Rep. Cordes of Lincoln explained her vote as follows:

“Madam Speaker:

A haiku

Thousands dead or disrupted

Healthcare is drowning

The Governor walks away.”

Rep. Donahue of Northfield explained her vote as follows:

“Madam Speaker:

I believe it is the appropriate time to go even beyond the underlying intent of this bill as it addresses urgent public health issues. However, I will not support a bill that permits criminal convictions that are presumably not the intent of the majority of this body. We ought to only pass bills that enact what we intend to enact as law, especially when it is a substantive issue such as giving the authority to impose criminal sanctions.”

Rep. Leffler of Enosburgh explained her vote as follows:

“Madam Speaker:

I wholeheartedly support governance in following best practices in this pandemic. Washing of hands, testing when feeling ill or preemptively for large gatherings, getting vaccinated, and wearing masks to protect myself and those around me.

I support people choosing to mask up and I continue to support businesses’ right to require masks within their stores/locations.

However, this bill crosses lines that make it something I cannot support. I cannot support passing this buck onto our towns in this manner. I cannot support the vague and altogether too broad guidelines on enforcement and penalties and other various definitions that we are leaving up to the towns, especially the matter of criminal penalties to a local rule. Vermonters deserve clear, concise, and uniform guidance when it comes to this pandemic and this bill does not serve this purpose. I do not support this bill but I will continue to support Vermonters as they mask up, vax up, and work to bring this virus to an endemic stage.”

Rep. Vyhovsky of Essex explained her vote as follows:

“Madam Speaker:

I am voting yes today not because I think this is a good policy, I do not. If we were following the science we would be enacting a masking policy driven by the data. However, this is the corner we have been backed into by the administration’s unwillingness to lead and protect Vermonters. I hope it at least reduces the harm in the communities that have the resources and capacity to enact it.”

Rep. Yacovone of Morristown explained his vote as follows:

“Madam Speaker:

United we stand, divided we fall. This bill divides us. The juice is simply not worth the squeeze.”

Thereupon, on motion of **Rep. LaClair of Barre Town**, the rules were suspended and the bill was ordered messaged to the Senate forthwith and the bill delivered to the Governor forthwith.
