Wednesday, May 8, 2024

At ten o'clock in the forenoon, the Speaker called the House to order.

Devotional Exercises

Devotional exercises were conducted by Reps. Kathleen James of Manchester, Robin Chesnut-Tangerman of Middletown Springs, David Durfee of Shaftsbury, Bobby Farlice-Rubio of Barnet, Tiff Bluemle of Burlington, Gabrielle Stebbins of Burlington, Mari Cordes of Lincoln, Tesha Buss of Woodstock, and Leslie Goldman of Rockingham.

Joint Resolution Referred to Committee

J.R.H. 11

Joint resolution urging the establishment of a National Human Rights Institution in the United States

Offered by: Representatives Christie of Hartford, Elder of Starksboro, Lipsky of Stowe, McGill of Bridport, Quimby of Lyndon, and Templeman of Brownington

Whereas, the United States is a champion of human rights around the world, and it is essential to promote a culture of human rights here at home, and

Whereas, on December 20, 1993, the United Nations (UN) General Assembly adopted Resolution 48/134, which encouraged the “establishment and strengthening of national institutions” on human rights, and, equally important, the UN General Assembly adopted an annex to the resolution, officially referred to as the Paris Principles, which sets forth principles relating to the status of national institutions of human rights, and

Whereas, on March 15, 2006, the UN General Assembly adopted Resolution 60/251 establishing the UN Human Rights Council, the UN-member organization that addresses human rights matters, and

Whereas, on October 7, 2022, the UN Human Rights Council adopted Resolution 51/31, National human rights institutions, that “[e]ncourages States to establish effective, independent and pluralistic national human rights institutions or, where they already exist, to strengthen them,” and

Whereas, according to the Office of the UN High Commissioner for Human Rights, as of December 20, 2023, 88 nations have established National Human

Rights Institutions (NHRI) that are fully compliant with the 1993 Paris Principles, and an additional 32 others have formed NHRIs that are partially compliant with those Principles, and

Whereas, the United States does not have an NHRI or similar governmental office, and

Whereas, the establishment of an NHRI in the United States could provide focus and direction to national efforts to promote and protect human rights and provide important assistance to the efforts of state and local human rights commissions and tribal governments, and

Whereas, on December 15, 2022, many U.S. academic, advocacy, civic, and legal organizations and associated individuals wrote to Ambassador Susan Rice, then-Director of the White House Domestic Policy Council, requesting the creation of a federal commission to study establishing an NHRI in this country, and

Whereas, in 1966, separate from the establishment of the UN Human Rights Council, the world's nations adopted the International Covenant on Civil and Political Rights (ICCPR), which established the UN Human Rights Committee (the Committee), a panel that regularly reviews the ICCPR's signatory nations' compliance with this agreement, and

Whereas, in the fall of 2023, an ad hoc coalition consisting of American and international organizations concerned about human rights submitted to the Committee a report finding that “[t]o achieve full implementation of the ICCPR, the United States must establish an NHRI in accordance with the Paris Principles,” now therefore be it

Resolved by the Senate and House of Representatives:

That the General Assembly urges the establishment of a National Human Rights Institution in the United States, and be it further

Resolved: That the Secretary of State be directed to send a copy of this resolution to President Joseph R. Biden, U.S. Ambassador to the United Nations Linda Thomas-Greenfield, and the Vermont Congressional Delegation.

It is the intent of the General Assembly that a motor vehicle with shading or tinting material that is not allowed under 23 V.S.A. § 1125, as amended by Sec. 14 of this act, poses a danger to the individual operating the motor vehicle, any passengers in the motor vehicle, and other highway users and that such a motor vehicle shall fail the annual safety inspection required under 23 V.S.A. § 1222.

Sec. 16. RULEMAKING; PERIODIC INSPECTION MANUAL; TINTED WINDOWS; OUTREACH

(a) The Department of Motor Vehicles shall, unless extended by the Legislative Committee on Administrative Rules, adopt amendments to Department of Motor Vehicles, Inspection of Motor Vehicles (CVR 14-050-022) consistent with the legislative intent in Sec. 15 of this act to be effective not later than the effective date of Sec. 14 of this act. * * * Rusted Brake Rotors; Safety Inspection * * *

Sec. 17. RUSTED BRAKE ROTORS; LEGISLATIVE INTENT;

BULLETIN; CONTACT INFORMATION FOR FAILURES

(a) Legislative intent. It is the intent of the General Assembly that:

(1) the Department of Motor Vehicles provide information on the existing definition of "rust" in Department of Motor Vehicles, Inspection of Motor Vehicles (CVR 14-050-022) (Periodic Inspection Manual), which is "a condition of any swelling, delamination, or pitting," to all inspection mechanics certified by the Commissioner of Motor Vehicles so there is consistency amongst inspection stations in how the Periodic Inspection Manual is interpreted and applied.

(2) that the presence of rust on brake rotors, by itself, does not constitute a failure for the purpose of the annual safety inspection required under 23 V.S.A. § 1222 and that the presence of rust that is temporary, also known as surface rust, which sometimes results from the vehicle being parked for a period of time, not be sufficient for a motor vehicle to fail inspection because such rust does not cause diminished braking performance that prevents a motor vehicle from adequately stopping.

(b) Bulletin. The Department of Motor Vehicles shall issue a clarifying administrative bulletin to all inspection mechanics certified by the Commissioner of Motor Vehicles that:

(1) details the rejection criteria for rotors and drums in the Periodic Inspection Manual;

(2) explains the difference between surface rust and rust that is considerable for purposes of determining if the rejection criteria are met, which requires that the existing rust be “a condition of any swelling, delamination, or pitting”; and

(3) provides information that an inspection mechanic shall provide to the owner of a vehicle that fails inspection because of rusting on rotors and drums.

(c) Contact information. The Department of Motor Vehicles shall include how to contact the Department of Motor Vehicles with questions about the annual safety inspection and the Periodic Inspection Manual on all notices of failure issued by inspection mechanics certified by the Commissioner of Motor Vehicles.

* * * Emergency Warning Lamps and Sirens * * *

Sec. 18. 23 V.S.A. § 1251 is amended to read:

* * * License Plates for Plug-In Electric Vehicles * * *

Sec. 48. LICENSE PLATES FOR PLUG-IN ELECTRIC VEHICLES;

FINDINGS

The General Assembly finds that:

(1) Plug-in electric vehicles (PEVs), which include plug-in hybrid electric vehicles and battery electric vehicles, provide new and unique challenges for first responders and firefighters when responding to the scene of a crash that may involve a PEV.

(2) PEVs are powered by high-voltage batteries, which means that if a PEV is involved in a crash resulting in a fire or in the need for extrication or rescue, or a combination of these, then fire and rescue personnel must invoke special operations to suppress the fire or initiate the extrication or rescue operation.

(3) Other states and countries have begun noting whether or not a motor vehicle is a PEV with a designation on the vehicle's license plate.

(4) First responders and firefighters in Vermont will be in a better position to safely respond to a fire, extrication, or rescue involving a motor vehicle crash if they know whether one or more vehicles involved are a PEV, which can be done, in most instances, with a license plate designation.

Sec. 49. 23 V.S.A. § 304 is amended to read:

(2) For the purchaser of a PEV whose previous plate was not a vanity or special number plate, the Commissioner shall issue a new PEV plate, which the purchaser shall install upon receipt.

(3) For the purchaser of a PEV whose previous plate was a vanity or special number plate and who wishes to retain that plate for the newly purchased PEV, the purchaser may transfer and display the existing plate until the Commissioner issues the purchaser a new vanity or special number plate indicating that the vehicle is a PEV, except as set forth in subsection (d) of this section. **Proposed Amendment to the Vermont Constitution
Adopted in Concurrence****Proposal 4**

Rep. Rachelson of Burlington recommended for the Committee on Judiciary, to which had been referred Proposal 4, which is printed in full below, and reported in favor of its adoption in concurrence.

The proposal having appeared on the Calendar for five legislative days pursuant to House Rule 51a, was taken up.

Subject: Declaration of rights; government for the people; equality of rights

PROPOSAL 4

Sec. 1. PURPOSE

(a) This proposal would amend the Constitution of the State of Vermont to specify that the government must not deny equal treatment under the law on account of a person's race, ethnicity, sex, religion, disability, sexual orientation, gender identity, gender expression, or national origin. The Constitution is our founding legal document stating the overarching values of our society. This amendment is in keeping with the values espoused by the current Vermont Constitution. Chapter I, Article 1 declares "That all persons are born equally free and independent, and have certain natural, inherent, and unalienable rights." Chapter I, Article 7 states "That government is, or ought to be, instituted for the common benefit, protection, and security of the people." The core value reflected in Article 7 is that all people should be afforded all the benefits and protections bestowed by the government, and that the government should not confer special advantages upon the privileged. This amendment would expand upon the principles of equality and liberty by ensuring that the government does not create or perpetuate the legal, social, or economic inferiority of any class of people. This proposed constitutional amendment is not intended to limit the scope of rights and protections afforded by any other provision in the Vermont Constitution.

(b) Providing for equality of rights as a fundamental principle in the Constitution would serve as a foundation for protecting the rights and dignity of historically marginalized populations and addressing existing inequalities. This amendment would reassert the broad principles of personal liberty and equality reflected in the Constitution of the State of Vermont with authoritative force, longevity, and symbolic importance.

Sec. 2. Article 23 of Chapter I of the Vermont Constitution is added to read:

Article 23. [Equality of rights]

That the people are guaranteed equal protection under the law. The State shall not deny equal treatment under the law on account of a person's race, ethnicity, sex, religion, disability, sexual orientation, gender identity, gender expression, or national origin. Nothing in this Article shall be interpreted or applied to prevent the adoption or implementation of measures intended to provide equality of treatment and opportunity for members of groups that have historically been subject to discrimination.

Sec. 3. EFFECTIVE DATE

The amendment set forth in Sec. 2 shall become a part of the Constitution of the State of Vermont on the first Tuesday after the first Monday of

November 2026 when ratified and adopted by the people of this State in accordance with the provisions of 17 V.S.A. chapter 32.

Pending the question, Shall the House adopt the constitutional proposal in concurrence?, **Rep. Rachelson of Burlington** demanded the Yeas and Nays, which demand was sustained by the Constitutional number. The Clerk proceeded to call the roll and the question, Shall the House adopt the constitutional proposal in concurrence?, was decided in the affirmative. Yeas, 140. Nays, 4.

Rep. Brumsted of Shelburne explained her vote as follows:

“Madam Speaker:

I voted yes to pass the Equal Rights Amendment. Remembering back to my 2nd year living in Vermont. I was a Junior at the University of Vermont back in 1986, I volunteered to help at the polls for Governor Kunin, my job was to bring the final vote counts to the then Radisson Hotel, my post was Winooski, VT. The Equal Rights Amendment was on the ballot along with Governor Kunin’s second race for Governor – I assumed both would win. At the end of the vote count, I was given the official results by the Town Clerk and I headed to the Radisson Hotel to post Winooski’s results. After my work was done, I started looking at the board and realized that town after town had voted for Governor Kunin but against the Equal Rights Amendment, I was shocked! I just couldn’t believe that anyone would vote against an equal rights amendment. I knew then I would continue to work on passing this constitutional amendment, hence the beginning of my working on campaigns. I am so pleased to be here this evening 38 years later, as a state legislator able to vote yes on the Equal Rights Amendment; I can help give every Vermont voter the ability to vote on this important amendment. Thank you, Madam Speaker!”

Rep. Chapin of East Montpelier explained her vote as follows:

“Madam Speaker:

I vote yes for Proposal 4 to add equal rights protection for all Vermonters, so that we can take bold steps toward a truly inclusive and equitable community, by enshrining these values and protections in our State Constitution.”

Rep. Graning of Jericho explained her vote as follows:

“Madam Speaker:

It is disappointing that in 2024 we need to codify antidiscrimination, but sadly we do. It gives me hope that today we are moving one step closer to equality for all.”

Rep. LaMont of Morristown explained her vote as follows:

“Madam Speaker:

What we have seen here today is once again how our antiquated system does not work in our favor. So, we follow rules and process that may seem trivial and take time to make necessary amendments as we can. This will be put forth to the voters of Vermont; they will have the ultimate say. It is time we make sure ALL Vermonters are guaranteed the right to equal treatment and dignity. I have said it before, and I will say it again. Equity is not an afterthought.”

Rep. Long of Newfane explained her vote as follows:

“Madam Speaker:

I voted yes because it is time for Vermont to add an equal rights clause to our state constitution in order to ensure all people are guaranteed equal protection under the law. I am proud to support this amendment, which is foundational to protecting the rights of historically marginalized groups and addressing existing inequalities.”

Rep. Rachelson of Burlington explained her vote as follows:

“Madam Speaker:

Today we took an important step toward saying to ALL Vermonters – Discrimination has no place here.”

Rep. Williams of Granby explained her vote as follows:

“Madam Speaker:

As much as I support all the groups listed, there is no equality in a proposal that has the potential to leave a ‘people’ group out.”

Governance recommendations shall include recommendations on staffing levels and a stable appropriation for the funding of the recommended governance structure.

(B) Prioritization criteria. The Working Group shall make recommendations on State aid prioritization criteria that will drive funding towards projects that are aligned to the State's educational policies and priorities.

(C) Eligibility criteria. The Working Group shall consider, at a minimum, the following State aid eligibility criteria:

(i) appropriate maintenance and operations budgeting at the supervisory union level;

(ii) a requirement for eligible supervisory unions to have a five-year capital plan;

(iii) a facility condition index maximum level that would preclude eligibility but may qualify a building for a State share percentage bonus to replace the building;

(iv) a requirement for a supervisory union master planning process that would require consideration of the adaptive reuse of schools;

(v) a prohibition on exclusionary zoning regulations that would preclude lesser resourced families from living in the applicable school district; and

(vi) whether costs associated with repurposing a non-school building to use as a school should be included in a State aid to school construction program;

(D) State base share. The Working Group shall make recommendations as to whether to include a State base share and if so, whether it shall be based on student or community poverty factors. The Working Group shall consider factors such as local taxing capacity, student poverty data, environmental justice metrics, and energy burden metrics.

(E) Incentives. The Working Group shall consider the use of incentives or State share bonuses that align with Vermont's educational priorities with the goal of efficient and sustainable use of taxpayer supported school construction aid to improve student learning environments and opportunities. The Working Group shall consider appropriate limits on cumulative incentives and whether incentives shall be bundled for eligibility. Policy areas to consider for incentives include:

(i) school safety and security;

(ii) health;

(iii) educational enhancements;

(iv) overcrowding solutions;

(v) environmental performance;

(vi) newer and fewer buildings;

(vii) historic preservation;

(I) a district's commitment to adequate funding for ongoing maintenance and operations of any State-funded improvements;

(II) a district's assurance that it will provide adequate training for facilities and custodial staff to properly operate and maintain systems funded through State aid;

(III) a district to complete a full commissioning process as a requirement to receive State funds at the end of the project; and

(IV) a clerk of the works throughout the lifespan of the project.

(ii) The Working Group shall also consider whether the assurance and certification process shall be eligible for State funding support, as well as

whether a preferred vendor list for the commissioning process and clerk of the works is advisable.

(G) Environmental hazards and contaminants. The Working Group shall make recommendations that approach environmental hazards and contaminants in a comprehensive manner, incorporating existing programs into the school construction aid program where possible.

(H) Pre-program construction aid. The Working Group shall consider whether and to what extent State aid should be made available to school districts that begin construction projects prior to the establishment or renewal of a State school construction aid program.

(I) Current law. The Working Group shall review State statutes and State Board of Education rules that concern or impact school construction and make recommendations to the General Assembly for any amendments necessary to align with the Working Group's proposed construction aid program.

(J) Efficiencies. The Working Group shall identify areas where economizations or efficiencies might be gained in the creation of the program, including consideration of the following:

(i) a prequalification process for consultants with experience in the planning, renovation, and construction of kindergarten through grade 12 schools; and

(i) the economic, social, cultural, recreational, or other benefit to the public from the development or subdivision will not outweigh the economic, environmental, or recreational loss to the public from the destruction or imperilment of the habitat or species; ~~or~~

(ii) all feasible and reasonable means of preventing or lessening the destruction, diminution, or imperilment of the habitat or species have not been or will not continue to be applied; or

(iii) a reasonably acceptable alternative site is owned or controlled by the applicant which would allow the development or subdivision to fulfill its intended purpose.

(C) Forest blocks and habitat connectors. A permit will not be granted for a development or subdivision within or partially within a forest block or habitat connector unless the applicant demonstrates that a project will not result in an undue adverse impact on the forest block or habitat connector. If a project as proposed would result in an undue adverse impact, a permit may only be granted if effects are avoided, minimized, or mitigated as allowed in accordance with rules adopted by the Board.

Sec. 14. CRITERION 8(C) RULEMAKING

(a) The Land Use Review Board (Board), in collaboration with the Agency of Natural Resources, shall adopt rules to implement the requirements for the administration of 10 V.S.A. § 6086(a)(8)(C). It is the intent of the General Assembly that these rules discourage fragmentation of the forest blocks and habitat connectors by encouraging clustering of development. Rules adopted by the Board shall include:

(1) How forest blocks and habitat connectors are further defined, including their size, location, and function, which may include:

(A) information that will be available to the public to determine where forest blocks and habitat connectors are located; or

(B) advisory mapping resources, how they will be made available, how they will be used, and how they will be updated.

(2) Standards establishing how impacts can be avoided or minimized, including how fragmentation of forest blocks or habitat connectors is avoided or minimized, which may include steps to promote proactive site design of buildings, roadways and driveways, utility location, and location relative to existing features such as roads, tree lines, and fence lines.

(3)(A) As used in this section, “fragmentation” generally means dividing land that has naturally occurring vegetation and ecological processes into smaller areas as a result of land uses that remove vegetation and create physical barriers that limit species’ movement and interrupt ecological processes between previously connected natural vegetation. However, the rules shall further define “fragmentation” for purposes of avoiding, minimizing, and mitigating undue adverse impacts on forest blocks and habitat connectors. “Fragmentation” does not include the division or conversion of a forest block or habitat connector by an unpaved recreational trail or by improvements constructed for farming, logging, or forestry purposes below the elevation of 2,500 feet.

(B) As used in this subsection (a), “recreational trail” has the same meaning as “trails” in 10 V.S.A. § 442.

(4) Criteria to identify the circumstances when a forest block or habitat connector is eligible for mitigation. As part of this, the criteria shall identify the circumstances when the function, value, unique sensitivity, or location of the forest block or habitat connector would not allow mitigation.

(5) Standards for how impacts to a forest block or habitat connector may be mitigated. Standards may include:

(A) appropriate ratios for compensation;

(B) appropriate forms of compensation such as conservation easements, fee interests in land, and other forms of compensation; and

(C) appropriate uses of on-site and off-site mitigation.

(b) The Board shall convene a working group of stakeholders to provide input to the rule prior to prefilings with the Interagency Committee on Administrative Rules. The Board shall convene the working group on or before July 1, 2025.

(c) The Board shall file a final proposed rule with the Secretary of State and Legislative Committee on Administrative Rules on or before June 15, 2026.

The Center for Geographic Information shall be available to provide assistance to the Secretary in carrying out the ~~GIS-based~~ resource mapping.

~~(b) The Secretary of Natural Resources shall consider the GIS-based resource maps developed under subsection (a) of this section when providing evidence and recommendations to the Public Utility Commission under 30 V.S.A. § 248(b)(5) and when commenting on or providing recommendations under chapter 151 of this title to District Commissions on other projects.~~

(c) The Secretary shall establish and maintain written procedures that include a process and science-based criteria for updating resource maps developed under subsection (a) of this section. Before establishing or revising

these procedures, the Secretary shall provide opportunities for affected parties and the public to submit relevant information and recommendations.

(12) A future land use element, based upon the elements in this section, that sets forth the present and prospective location, amount, intensity, and character of such land uses in relation to the provision of necessary community facilities and services and that consists of a map delineating future land use area boundaries for the land uses in subdivisions (A)–(J) of this subdivision (12) as appropriate and any other special land use category the regional planning commission deems necessary; descriptions of intended future land uses; and policies intended to support the implementation of the future land use element using the following land use categories:

(A) Downtown or village centers. These areas are the mixed-use centers bringing together community economic activity and civic assets. They include downtowns, villages, and new town centers previously designated under chapter 76A and downtowns and village centers seeking benefits under the Community Investment Program under section 5804 of this title. The downtown or village centers are the traditional and historic central business and civic centers within planned growth areas, village areas, or may stand alone. Village centers are not required to have public water, wastewater, zoning, or subdivision bylaws.

(B) Planned growth areas. These areas include the high-density existing settlement and future growth areas with high concentrations of population, housing, and employment in each region and town, as appropriate. They include a mix of historic and nonhistoric commercial, residential, and civic or cultural sites with active streetscapes, supported by land development regulations; public water or wastewater, or both; and multimodal transportation systems. These areas include new town centers, downtowns, village centers, growth centers, and neighborhood development areas previously designated under chapter 76A of this title. These areas should generally meet the smart growth principles definition in chapter 139 of this title and the following criteria:

(i) The municipality has a duly adopted and approved plan and a planning process that is confirmed in accordance with section 4350 of this title

and has adopted bylaws and regulations in accordance with sections 4414, 4418, and 4442 of this title.

(ii) This area is served by public water or wastewater infrastructure.

(iii) The area is generally within walking distance from the municipality's or an adjacent municipality's downtown, village center, new town center, or growth center.

(iv) The area excludes identified flood hazard and river corridor areas, except those areas containing preexisting development in areas suitable for infill development as defined in section 29-201 of the Vermont Flood Hazard Area and River Corridor Rule.

(v) The municipal plan indicates that this area is intended for higher-density residential and mixed-use development.

(vi) The area provides for housing that meets the needs of a diversity of social and income groups in the community.

(vii) The area is served by planned or existing transportation infrastructure that conforms with "complete streets" principles as described under 19 V.S.A. chapter 24 and establishes pedestrian access directly to the downtown, village center, or new town center. Planned transportation infrastructure includes those investments included in the municipality's capital improvement program pursuant to section 4430 of this title.

(C) Village areas. These areas include the traditional settlement area or a proposed new settlement area, typically composed of a cohesive mix of residential, civic, religious, commercial, and mixed-use buildings, arranged along a main street and intersecting streets that are within walking distance for residents who live within and surrounding the core. These areas include existing village center designations and similar areas statewide, but this area is larger than the village center designation. Village areas shall meet the following criteria:

(i) The municipality has a duly adopted and approved plan and a planning process that is confirmed in accordance with section 4350 of this title.

(ii) The municipality has adopted bylaws and regulations in accordance with sections 4414, 4418, and 4442 of this title.

(iii) Unless the municipality has adopted flood hazard and river corridor bylaws, applicable to the entire municipality, that are consistent with the standards established pursuant to 10 V.S.A. § 755b (flood hazard) and 10 V.S.A. § 1428(b) (river corridor), the area excludes identified flood hazard

and river corridors, except those areas containing preexisting development in areas suitable for infill development as defined in 29-201 of the Vermont Flood Hazard Area and River Corridor Rule.

(iv) The municipality has either municipal water or wastewater. If no public wastewater is available, the area must have soils that are adequate for wastewater disposal.

(v) The area has some opportunity for infill development or new development areas where the village can grow and be flood resilient.

(D) Transition or infill area. These areas include areas of existing or planned commercial, office, mixed-use development, or residential uses either adjacent to a planned growth or village area or a new stand-alone transition or infill area and served by, or planned for, public water or wastewater, or both. The intent of this land use category is to transform these areas into higher-density, mixed-use settlements, or residential neighborhoods through infill and redevelopment or new development. New commercial linear strip development is not allowed as to prevent it negatively impacting the economic vitality of commercial areas in the adjacent or nearby planned growth or village area. This area could also include adjacent greenfields safer from flooding and planned for future growth.

(E) Resource-based recreation areas. These areas include large-scale resource-based recreational facilities, often concentrated around ski resorts, lakeshores, or concentrated trail networks, that may provide infrastructure, jobs, or housing to support recreational activities.

(F) Enterprise areas. These areas include locations of high economic activity and employment that are not adjacent to planned growth areas. These include industrial parks, areas of natural resource extraction, or other commercial uses that involve larger land areas. Enterprise areas typically have ready access to water supply, sewage disposal, electricity, and freight transportation networks.

(G) Hamlets. Small historic clusters of homes and may include a school, place of worship, store, or other public buildings not planned for significant growth; no public water supply or wastewater systems; and mostly focused along one or two roads. These may be depicted as points on the future land use map.

(H) Rural; general. These areas include areas that promote the preservation of Vermont's traditional working landscape and natural area features. They allow for low-density residential and some limited commercial development that is compatible with productive lands and natural areas. This

may also include an area that a municipality is planning to make more rural than it is currently.

(I) Rural; agricultural and forestry. These areas include blocks of forest or farmland that sustain resource industries, provide critical wildlife habitat and movement, outdoor recreation, flood storage, aquifer recharge, and scenic beauty, and contribute to economic well-being and quality of life. Development in these areas should be carefully managed to promote the working landscape and rural economy, and address regional goals, while protecting the agricultural and forest resource value.

(J) Rural; conservation. These are areas of significant natural resources, identified by regional planning commissions or municipalities based upon existing Agency of Natural Resources mapping that require special consideration for aquifer protection; for wetland protection; for the maintenance of forest blocks, wildlife habitat, and habitat connectors; or for other conservation purposes. The mapping of these areas and accompanying policies are intended to help meet requirements of 10 V.S.A. chapter 89. Any portion of this area that is approved by the LURB as having Tier 3 area status shall be identified on the future land use map as an overlay upon approval.

(b) The various elements and statements shall be correlated with the land use element and with each other. The maps called for by this section may be incorporated on one or more maps, and may be referred to in each separate statement called for by this section.

(c) The regional plan future land use map shall delineate areas within the regional planning commission's member municipalities that are eligible to receive designation benefits as centers and neighborhoods when the future land use map is approved by the Land Use Review Board per 10 V.S.A. § 6033. The areas eligible for designation as centers shall be identified on the regional plan future land use map as regional downtown centers and village centers. The areas eligible for designation as neighborhoods shall be identified on the regional plan future land use map as planned growth areas and village areas in a manner consistent with this section and chapter 139 of this title. This methodology shall include all approved designated downtowns, villages, new town centers, neighborhood development areas, and growth centers existing on December 31, 2025, unless the subject member municipality requests otherwise.

(d) With the exception of preexisting, nonconforming designations approved prior to the establishment of the program, the areas eligible for designation benefits upon the Land Use Review Board's approval of the regional plan future land use map for designation as a center shall not include development that is disconnected from a downtown or village center and that

lacks an existing or planned pedestrian connection to the center via a complete street.

(e) The Vermont Association of Planning and Development Agencies shall develop, maintain, and update standard methodology and process for the mapping of areas eligible for Tier 1B status under 10 V.S.A. § 6033 and designation under chapter 139 of this title. The methodology shall be issued on or before December 31, 2024, in consultation with the Department of Housing and Community Development and Land Use Review Board.

Sec. 50. REGIONAL PLANNING COMMISSION STUDY

(a) The Vermont Association of Planning and Development Agencies (VAPDA) shall hire an independent contractor to study the strategic opportunities for regional planning commissions to better serve municipalities and the State. This study shall seek to ensure that the regional planning commissions are statutorily enabled and strategically positioned to meet ongoing and emerging State and municipal needs and shall review the following: governance, funding, programs, service delivery, equity, accountability, and staffing.

(b) A stakeholder group composed of the Vermont League of Cities and Towns, Vermont Council on Rural Development, the Department of Housing and Community Development, the Agency of Administration, the Office of Racial Equity, legislators, and others will be invited to participate in the study to provide their insights into governance structure, accountability, and performance standards.

(d) On or before December 31, 2024, the study report shall be submitted to the House Committees on Environment and Energy, on Commerce and Economic Development, and on Government Operations and Military Affairs and the Senate Committees on Economic Development, Housing and General Affairs, on Natural Resources and Energy, and on Government Operations.

§ 5803. DESIGNATION OF DOWNTOWN AND VILLAGE CENTERS

(a) Designation established. A regional planning commission may apply to the LURB for approval and designation of all centers by submitting the regional plan future land use map adopted by the regional planning commission. The regional plan future land use map shall identify downtown centers and village centers as the downtown and village areas eligible for designation as centers. The Department and State Board shall provide comments to the LURB on areas eligible for center designation as provided under this chapter.

(b) Inclusions. The areas mapped by the regional planning commissions as a center shall allow for the designation of preexisting, designated downtowns, village centers and new town centers in existence on or before December 31, 2025.

(c) Exclusions. With the exception for preexisting, nonconforming designations approved prior to the establishment of the program under this chapter or areas included in the municipal plan for the purposes of relocating a municipality's center for flood resiliency purposes, the areas eligible for

designation benefits upon the LURB's approval of the regional plan future land use map for designation as a Center shall not include development that is disconnected from a Center and that lacks a pedestrian connection to the Center via a complete street.

(d) Approval. The LURB shall conduct its review pursuant to 10 V.S.A. § 6033.

(e) Transition. All designated downtowns, village centers, or new town centers existing as of December 31, 2025 will retain current benefits until December 31, 2026 or until approval of the regional future land use maps by the LURB, whichever comes first. All existing designations in effect December 31, 2025 will expire December 31, 2026 if the regional plan does not receive LURB approval under this chapter. All benefits for unexpired designated downtowns, village centers, and new town centers that are removed under this chapter shall remain in effect until July 1, 2034. Prior to June 30, 2026, no check-in or renewals shall be required for the preexisting designations. New applications for downtowns, villages, and new town centers may be approved by the State Board prior to the first public hearing on a regional future land use map or until December 31, 2025, whichever comes first.

(f) Benefits Steps. A center may receive the benefits associated with the steps in this section by meeting the established requirements. The Department shall review applications from municipalities to advance from Step One to Two and from Step Two to Three and issue written decisions. The Department shall issue a written administrative decision within 30 days following an application. If a municipal application is rejected by the Department, the municipality may appeal the administrative decision to the State Board. To maintain a downtown approved under chapter 76A after December 31, 2026, the municipality shall apply for renewal following a regional planning approval by the LURB and meet the program requirements. Step Three designations that are not approved for renewal revert to Step Two. The municipality may appeal the administrative decision of the Department to the State Board. Appeals of administrative decisions shall be heard by the State Board at the next meeting following a timely filing stating the reasons for the appeal. The State Board's decision is final. The Department shall issue guidance to administer these steps.

(1) Step One.

(A) Requirements. Step One is established to create an accessible designation for all villages throughout the State to become eligible for funding and technical assistance to support site-based improvements and planning. All downtown and village centers shall automatically reach Step One upon

approval of the regional plan future land use map by the LURB. Regional plan future land use maps supersede preexisting designated areas that may already meet the Step One requirement.

(B) Benefits. A center that reaches Step One is eligible for the following benefits:

(i) funding and technical assistance eligibility for site-based projects, including the Better Places Grant Program under section 5810 of this chapter, access to the Downtown and Village Center Tax Credit Program described in 32 V.S.A. § 5930aa et seq., and other programs identified in the Department's guidance; and

(ii) funding priority for developing or amending the municipal plan, visioning, and assessments.

(2) Step Two.

(A) Requirements. Step Two is established to create a mid-level designation for villages throughout the State to increase planning and implementation capacity for community-scale projects. A center reaches Step Two if it:

(i) meets the requirements of Step One or if it has a designated village center or new town center under chapter 76A of this title upon initial approval of the regional plan future land use map and prior to December 31, 2026;

(ii) has a confirmed municipal planning process pursuant to 24 V.S.A. § 4350;

(iii) has a municipal plan with goals for investment in the center; and

(iv) a portion of the center is listed or eligible for listing in the National Register of Historic Places.

(B) Benefits. In addition to the benefits of Step One, a center that reaches Step Two is eligible for the following benefits:

(i) funding priority for bylaws and special-purpose plans, capital plans, and area improvement or reinvestment plans, including priority consideration for the Better Connections Program and other applicable programs identified by Department guidance;

(ii) funding priority for infrastructure project scoping, design, engineering, and construction by the State Program and State Board;

(iii) the authority to create a special taxing district pursuant to chapter 87 of this title for the purpose of financing both capital and operating costs of a project within the boundaries of a center;

(iv) priority consideration for State and federal affordable housing funding;

(v) authority for the municipal legislative body to establish speed limits of less than 25 mph within the center under 23 V.S.A. § 1007(g);

(vi) State wastewater permit fees capped at \$50.00 for residential development under 3 V.S.A. § 2822;

(vii) exemption from the land gains tax under 32 V.S.A. § 10002(p); and

(viii) assistance and guidance from the Department for establishing local historic preservation regulations.

(3) Step Three.

(A) Requirements. Step Three is established to create an advanced designation for downtowns throughout the State to create mixed-use centers and join the Vermont Downtown Program. A center reaches Step Three if the Department finds that it meets the following requirements:

(i) Meets the requirements of Step Two, or if it has an existing downtown designated under chapter 76A of this title in effect upon initial approval of the regional future land use map and prior to December 31, 2026.

(ii) Is listed or eligible for listing in the National Register of Historic Places.

(iii) Has a downtown improvement plan.

(iv) Has a downtown investment agreement.

(v) Has a capital program adopted under section 4430 of this title that implements the Step Three requirements.

(vi) Has a local downtown organization with an organizational structure necessary to sustain a comprehensive long-term downtown revitalization effort, including a local downtown organization that will collaborate with municipal departments, local businesses, and local nonprofit organizations. The local downtown organization shall work to:

(I) enhance the physical appearance and livability of the area by implementing local policies that promote the use and rehabilitation of historic and existing buildings, by developing pedestrian-oriented design requirements, by encouraging new development and infill that satisfy such

design requirements, and by supporting long-term planning that is consistent with the goals set forth in section 4302 of this title;

(II) build consensus and cooperation among the many groups and individuals who have a role in the planning, development, and revitalization process;

(III) market the assets of the area to customers, potential investors, new businesses, local citizens, and visitors;

(IV) strengthen, diversify, and increase the economic activity within the downtown; and

(V) measure annually progress and achievements of the revitalization efforts as required by Department guidelines.

(vii) Has available public water and wastewater service and capacity.

(viii) Has permanent zoning and subdivision bylaws.

(ix) Has adopted historic preservation regulations for the district with a demonstrated commitment to protect and enhance the historic character of the downtown through the adoption of bylaws that adequately meet the historic preservation requirements in subdivisions 4414(1)(E) and (F) of this title, unless recognized by the program as a preexisting designated new town center.

(x) Has adopted design or form-based regulations that adequately regulate the physical form and scale of development with compact lot, building, and unit density, building heights, and complete streets.

(B) Benefits. In addition to the benefits of Steps One and Two, a municipality that reaches Step Three is eligible for the following benefits:

(i) Funding for the local downtown organization and technical assistance from the Vermont Downtown Program for the center.

(ii) A reallocation of receipts related to the tax imposed on sales of construction materials as provided in 32 V.S.A. § 9819.

(iii) Eligibility to receive National Main Street Accreditation from Main Street America through the Vermont Downtown Program.

(vi) Highest priority for locating proposed State functions by the Commissioner of Buildings and General Services or other State officials, in

consultation with the municipality, Department, State Board, the General Assembly committees of jurisdiction for the Capital Budget, and the regional planning commission. When a downtown location is not suitable, the Commissioner shall issue written findings to the consulted parties demonstrating how the suitability of the State function to a downtown location is not feasible.

(vii) Funding for infrastructure project scoping, design, and engineering, including participation in the Downtown Transportation and Related Capital Improvement Fund Program established by section 5808 of this title.

§ 5804. DESIGNATED NEIGHBORHOOD

(a) Designation established.

(1) A regional planning commission may request approval from the LURB for designation of areas on the regional plan future land use maps as a designated neighborhood under 10 V.S.A. § 6033. Areas eligible for designation include planned growth areas and village areas identified on the regional plan future land use map. This designation recognizes that the vitality of downtowns and villages is supported by adjacent and walkable neighborhoods and that the benefits structure must ensure that investments for sprawl repair or infill development within a neighborhood is secondary to a primary purpose to maintain the vitality and livability and maximize the climate resilience and infill potential of centers.

(2) Approval of planned growth areas and village areas as designated neighborhoods shall follow the same process as approval for designated centers provided for in 10 V.S.A. § 6033 and consistent with sections 4348 and 4348a of this title.

(b) Transition. All designated growth center or neighborhood development areas existing as of December 31, 2025 will retain current benefits until December 31, 2026 or upon approval of the regional plan future land use maps, whichever comes first. All existing neighborhood development area and growth center designations in effect on December 31, 2025 will expire on December 31, 2026 if the regional plan future land use map is not approved. All benefits that are removed for unexpired neighborhood development areas and growth centers under this chapter shall remain active with prior designations existing as of December 31, 2025 until December 31, 2034. Prior to December 31, 2026, no check-ins or renewal shall be required for the existing designations. New applications for neighborhood development area designations may be approved by the State Board prior to the first hearing for a regional plan adoption or until December 31, 2025, whichever comes first.

(c) Requirements. A designated neighborhood shall meet the requirements for planned growth area or village area as described in section 4348a of this title.

(d) Benefits. A designated neighborhood is eligible for the following benefits:

(1) funding priority for bylaws and special-purpose plans, capital plans, and area improvement or reinvestment plans, including priority consideration for the Better Connections Program and other applicable programs identified by Department guidance;

(2) funding priority for Better Connections and other infrastructure project scoping, design, engineering, and construction by the State Community Investment Program and Board;

(3) eligibility for the Downtown and Village Center Tax Credit Program described in 32 V.S.A. § 5930aa et seq.;

(4) priority consideration for State and federal affordable housing funding;

(5) certain housing appeal limitations under chapter 117 of this title;

(6) authority for the municipal legislative body to lower speed limits to less than 25 mph within the neighborhood;

(8) exclusion from the land gains tax provided by 32 V.S.A. § 10002(p); and

(9) the authority to create a special taxing district pursuant to chapter 87 of this title for the purpose of financing both capital and operating costs of a project within the boundaries of a neighborhood.

(D) An applicant shall provide matching funds raised through crowdfunding of not less than 33 percent of the grant award. The Department may require a higher percent of matching funds for certain project areas to ensure equitable distribution of resources across Vermont.

(e) The Department of Housing and Community Development, with the assistance of a fiscal agent, shall distribute funds under this section in a manner that provides funding for projects of various sizes in as many geographical areas of the State as possible.

(f) The Department of Housing and Community Development may use up to 15 percent of any appropriation to the Fund from the General Fund to assist with crowdfunding, administration, training, and technological needs of the Program.

Rep. Peterson of Clarendon explained his vote as follows:

“Madam Speaker:

This bill is too large, too sweeping in scope, and simply not ready for enactment. In an end of biennium rush, bill H.687 is being crammed down the throats of Vermonters, leaving rural communities to suffer the consequences.”

Rep. Sheldon of Middlebury explained her vote as follows:

“Madam Speaker:

Yes on H.687 to modernize our State land use framework to support human and natural communities as they adapt to a changing climate by establishing a

location-based structure for state land use regulation that protects critical natural resources with encouraging economic development and housing.”

Rep. Smith of Derby explained his vote as follows:

“Madam Speaker:

A lot of hard work and dedication my Energy and Environment Committee went into this bill. I voted in favor of this amendment in committee. After hearing some of my colleagues speak on the bill, I believe a No vote is best for my Derby constituents and for the Northeast Kingdom.”

Rep. Stebbins of Burlington explained her vote as follows:

“Madam Speaker:

I vote yes because to build thriving communities and housing in a way that keeps Vermont’s character, requires us to have a functioning land use board working within a decision-making framework based on where we want to build more swiftly versus where we should prudently require a consistent process environmental review. This bill supports on-farm businesses, requires flood disclosure, grows needed revenue through the Property Transfer Tax, extends last years’ housing exemptions, and more. This phenomenal, sprawling bill is exactly what we need now.”

Rep. Stevens of Waterbury explained his vote as follows:

“Madam Speaker:

The housing crisis as we talk about it here is not unique to Vermont. Every state in this country is in crisis for many different reasons. First, and foremost, is funding. Zoning and land use are incredible components and are necessary to make sure we live up to our own standards. We must acknowledge that we won’t easily raise enough revenue to take care of the most vulnerable Vermonters, as well as that we have no control over the cost of money and commodities to build the housing. Saving the crisis requires more of everything, done in a measured and thoughtful way. H.687 does this. I vote yes.”
