

**No. 66. An act relating to the Petroleum Cleanup Fund.**

(H.363)

It is hereby enacted by the General Assembly of the State of Vermont:

Sec. 1. 10 V.S.A. § 1941(g) is amended to read:

(g) The owner of a farm or residential heating fuel storage tank used for on-premises heating or an underground or aboveground heating fuel storage tank used for on-premises heating by a mobile home park resident, as defined in section 6201 of this title, who desires assistance to close, replace, or upgrade the tank may apply to the Secretary for such assistance. The financial assistance may be in the form of grants of up to: \$2,000.00 or the costs of closure, replacement, or upgrade, whichever is less for an aboveground storage tank located inside a structure; up to \$3,000.00 or the costs of closure, replacement, or upgrade, whichever is less for an aboveground storage tank located outside a structure; and up to \$4,000.00 or the costs of closure, replacement, or upgrade, whichever is less for an underground storage tank.

Grants shall be made only to the current property owners, except at mobile home parks where a grant may be awarded to a mobile home park resident. To be eligible to receive the grant, an environmental site assessment must be conducted by a qualified consultant during the tank closure, replacement, or upgrade if the tank is an underground heating fuel storage tank. In addition, if the closed tank is to be replaced with an underground heating fuel storage tank, the replacement tank and piping shall provide a level of environmental

protection at least equivalent to that provided by a double wall tank and secondarily contained piping. Grants shall be awarded on a priority basis to projects that will avoid the greatest environmental or health risks. The Secretary shall also give priority to applicants who are replacing their underground heating fuel tanks with aboveground heating fuel storage tanks that will be installed in accordance with the Secretary's recommended standards. The Secretary shall also give priority to lower income applicants. To be eligible to receive the grant, the owner must provide the previous year's financial information, and, if the replacement tank is an aboveground tank, must assure that any work to replace or upgrade a tank shall be done in accordance with industry standards (National Fire Protection Association, or NFPA, Code 31), as it existed on July 1, 2004, until another date or edition is specified by rule of the Secretary. The Secretary shall only authorize up to ~~\$350,000.00~~ \$400,000.00 in assistance for underground and aboveground heating fuel tanks in any one fiscal year from the Heating Fuel Account for this purpose. The application must be accompanied by the following information:

(1) proof of ownership, including information disclosing all owners of record of the property, except in the case where the applicant is a mobile home park resident;

(2) for farm or residential aboveground heating fuel storage tank owners, a copy of the federal income tax return for the previous year;

- (3) identification of the contractor performing any heating fuel storage tank closure, replacement, or upgrade;
- (4) an estimated cost of tank closure, replacement, or upgrade;
- (5) the amount and type of assistance requested;
- (6) a schedule for the work;
- (7) description of surrounding area, including location of water supply wells, surface waters, and other sensitive receptors; and
- (8) such other information and assurances as the Secretary may require.

Sec. 2. EFFECTIVE DATE

This act shall take effect on passage.

Date Governor signed bill: February 10, 2016
