Flexibility in content, location, time	various types of learners across		students and their families perceive college costs as too hig (sticker price) and may not enrol or enroll part-time, work off
Nort-term and long-term positive with high ROI (NIEER, 2005) ss of 2005 report first getting rmation sometime before gh school. (6) cles of Education" as the new	lunch eligible students meet/exceed proficiency standards (VT DOE) 34% of Class of 2005 report first getting postsecondary education information sometime before entering high school. (6) paradigm: Education as a cycle of 1. Individualized Instruction	2. Flexibility in content, location, time	various types of learners across		students and their families perceive college costs as too hi (sticker price) and may not enro or enroll part-time, work off
	1. Individualized Instruction	2. Flexibility in content, location, time	various types of learners across		campus, etc.
	1. Individualized Instruction	2. Flexibility in content, location, time		the lifespan	
		"student: prisoner v. explorer"	3. Effective Assessment to tailor learning options		5. Technology not as an after- thought, but as a critical tool for transformation
					"for students, technology is a way of life k-20 transformation mus leverage that reality"
the paradigm: education reform	unity Colleges, CC and 4-yr schools must match new vision of k-20 edu on conversation at all levels: "local, s		periences; not remedial; articulatior	agreements the norm	
ould start talking about going to Help children adopt good bits and effective study skills.	Monitor courses child is taking. (1) Create a 4-year academic course plan.	Access to college preparation information		Go on College Tours, attend "College Pathways"-type events	Provide activities that involve parents throughout the college preparation and application process; Apply to Colleges
gh school graduates who enroll ire more likely to report having arents about post-high-school e the 6th grade (20%) than ents who do not continue their 14%). (2)		Distribution of college preparation information is inequitable: lower percentage of economically disadvantaged parents (42-47%) get information than do economically well-off parents (66-74%). (7)			Among parents whose students attend college, involvement in college planning varies by activit from 91% discussing interests to 56% helping decide which schoo to attend. (12)
ning for high school course 1)	Take Algebra, Geometry. (1)	Take Core Curriculum: English, Math, Sci	ience, History, Geography, Foreign	Language, Computer Science, ar Take Advanced Placement cours	
				Dual-Enrollment (ref)	.,
			Take PLAN (prep for SAT)	Take PSAT	Take SAT (ACT)
			866 out of 8,218 sophomores (VT pub hs) took PSAT in 03-04. (8,9)	4,456 out of 7,837 juniors (VT pub hs only) took PSAT in 03- 04. (8,9)	5,484 out of 7,614 seniors (VT pub hs only) took SAT in 03-04. (8,9)
	About 12% of 8th graders who studied algebra do not pursue postsecondary education; 47% obtain a BA or higher. (3)	College Entrance Courses			
	studied algebra do not pursue postsecondary education; 47%	College Entrance Courses			
		studied algebra do not pursue	studied algebra do not pursue postsecondary education; 47% College Entrance Courses	studied algebra do not pursue postsecondary education; 47% College Entrance Courses public for the public formation of the pub	About 12% of 8th graders who studied algebra do not pursue postsecondary education; 47% 59% of Class of 2005 HS graduates report completing recommended ACT College Entrance Courses 866 out of 8,218 sophomores (VT pub hs) took PSAT in 03-04. (8,9) 4,456 out of 7,837 juniors (VT pub hs) took PSAT in 03-04. (8,9)

Research Shows:	75% of college-bound Class of 2005 seniors report making decision to continue their education before the 8th grade. (6)	intend to go to college. (7)		91% of 10th graders say they plan to pursue some form of post-HS education (including voc/tech). (5)		Over 73% of Class of 2005 ht/gAC school graduates planned to pursue some form of postsecondary education. (6) Aspiration varies by county. Females have a higher aspiration rate than males, 79% v 68%. (6) 53.4% of Class of 2003 high school graduates who attended one of the regional technical centers planned to pursue some form of postsecondary training immediately after graduation. (6)	Oct 2010
High School Graduates/Not							
Research Shows:	12% of Class of 2005 seniors who are not planning to pursue their education report making that decision before the 8th grade. (6)	6% of Class of 2005 seniors who are not planning to pursue their education report making that decision in the 8th grade. (6)	12% of Class of 2005 seniors who are not planning to pursue their education report making that decision in the 9th grade. (6)	11% of Class of 2005 seniors who are not planning to pursue their education report making that decision in the 10th grade. (6)	19% of Class of 2005 seniors who are not planning to pursue their education report making that decision in the 11th grade. (6)	40% of Class of 2005 seniors who are not planning to pursue their education report making that decision in the 12th grade. (6)	
						Among those not going on to college: most important reason for not continuing "Need a break from school" (24%) and "I want or need to support myself" (22%). (6)	

Financial Literacy and Financial	Assistance				
Recommended:	5 5 5	Financial Literacy for parents and children		Attend "Paying for College" workshops	Apply for financial aid
Research Shows:	Just over one third of parents report having saved for college. (12) Among parents who saved for college, 41% began saving before middle school, average savings \$11,373. (12) 18% of surveyed adults with children not in college have a 529 account. (13)	their parents actively taught them how to manage money. (10)	Only 26% of parents of 9th-10th graders estimate tuition within 25% of actual cost; nearly 47% of parents could not estimate. (17)	parents benefits from having access to information and	Parents differ in how involved they are in the financial planning process; involvement varies by activity and by SES factors. (12)
