**Subject:** Ag Exemption S.102

Dear Committee Members,

We are an industry that has live animals that must be cared for 24-7 and **if workers left in strike it would create animal welfare state of emergency; potential for a food crisis and interruption in the supply chain** that many depend on, and **potential environmental situations in regards to the management of animal wastes** as everything is dependent on workforce 24-7. **We are asking for an Ag exemption. Dairy farms are continuing to work through voluntary training and over site provided by their dairy cooperatives to address any concerns of their workers.** These programs have been developed and are necessary for farms to ship and sell their product and as a way to ensure positive relationships with consumers.

Respectfully, We need your help! Please exempt Ag from S.102.

Thanks,  
Travis, Adam & Julie Longway
