
This act summary is provided for the convenience of the public and members of the General Assembly. It is intended to provide a general summary of the act and may not be exhaustive. It has been prepared by the staff of the Office of Legislative Counsel without input from members of the General Assembly. It is not intended to aid in the interpretation of legislation or to serve as a source of legislative intent.

Act No. 149 (S.202). An act relating to plug-in photovoltaic devices

Subjects: Energy; public service; renewable energy; solar energy; portable solar energy generation devices; appliance efficiency

This act exempts plug-in photovoltaic devices from needing a certificate of public good or an interconnection agreement if they meet the requirements of the statute. It also updates 9 V.S.A. § 2795, which lists the appliances covered by Vermont's appliance efficiency standards; subdivision (a)(6) on the list states that the Commissioner of Public Service shall include in the rules on appliance efficiency any products listed on the federal appliance efficiency list in 10 C.F.R. §§ 430 and 431 as those provisions existed on January 19, 2017. This bill changes the date to January 19, 2025, in order to capture updates to the list made at the federal level.

Effective Date: July 1, 2026
