H.R. 7 Shall the House adopt the resolution?

Rep. Achey of Middletown Springs explained her vote as follows:

“Madam Speaker:

This resolution was rushed through committee and onto this floor. I understand that there were witnesses who wished to give testimony but were not given the opportunity. I cannot support a resolution produced without due process.”

Rep. Donahue of Northfield explained her vote as follows:

“Madam Speaker:

I cannot – I will not – vote in support of a non-emergency decision on which a formal vote was taken by a committee without public notice of the pending vote.”

Rep. Gannon of Wilmington explained his vote as follows:

“Madam Speaker:

I vote yes because the E.O. would potentially undermine the work that the General Assembly did in Act 166 last session to create an independent body to adjudicate the unprofessional conduct of law enforcement officers. I look forward to working on any legislation that the Governor presents us.”

Rep. Goslant of Northfield explained his vote as follows:

“Madam Speaker:

I support the merits of this change. Benefits of an agency structure include organizing our State's public safety assets for operational efficiencies and to provide better service to all Vermonters. It will help us have a mindful, equitable, fair, and re-producible system of criminal justice and public health service delivery to ensure that we are doing all we can in prevention and education, outreach, and early intervention, ensuring that accountability for those who require more traditional Court sanctions and incarceration are available, and more.

We do not have to take a vote on this until April. I feel this is a rushed decision that did not get the time and attention it deserves in order to contemplate the actual policy before shooting it down.

68.5% of Vermont voters supported Governor Scott in the last election. Vermonters clearly have faith in his judgment and leadership of this State. I believe he should be supported now. Thank you.”

Rep. Gregoire of Fairfield explained his vote as follows:

“Madam Speaker:

I vote no today on principle. While I agree that a change this significant could benefit from a more thorough discussion, I believe it is important to be consistent in our positions. The resolution process appears to have been rushed and we have been told that executive orders are not the best way to govern. At the national level we have seen a modern record for executive actions with great support. So is the

issue that executive orders are not the right way or is it actually that executive orders from a republican governor are not the right way. Consistency is important. We are either in this together or we are not.”

Rep. Higley of Lowell explained his vote as follows:

“Madam Speaker:

I will certainly support every effort to consider this proposal, in bill form, going forward in the Government Operations Committee.”

Rep. Hooper of Burlington explained his vote as follows:

“Madam Speaker:

I voted yes because this order did not seek the input of those most impacted by the resolution. The employees themselves.

The order was far reaching and unlike the former merger of Liquor and Lottery, was a hodge podge of picking one from this agency and another from another, employees, both sworn officers and line staff, saw that process as a breakdown in normally established patterns of communication, supervision, and work flow.

Many employees said they COULD support a change like this, but the ambiguity of this proposal and the seemingly limitless reach created a clear sense of fear on their part.

I consulted my constituents and acted on the information they provided along with the testimony in committee. I remain open to giving this proposal serious review in the traditional arena of a proposed piece of legislation.”

Rep. McCarthy of St. Albans City explained his vote as follows:

“Madam Speaker:

Changes to the delivery of services as essential as law enforcement and public safety must allow us to do our work as legislators, understanding all of the fiscal and policy effects and modifying the proposal as needed. An executive order leaves no room for us to do our work and improve upon its proposals. It is clear that this Executive Order leaves too many questions unresolved. The due process we need for such a proposal requires consideration of legislation. Our disapproval today does not close the door to future consideration of the merits of the Executive Order. I vote yes.”

Rep. McCoy of Poultney explained her vote as follows:

“Madam Speaker:

Today, this body chose to ignore our constituents by not allowing them to testify on an executive order. Regardless of your position on Executive Order 01-21, we failed to live up to our duty to provide a free, open, and accessible government by not allowing these groups and organizations to testify. We must do a better job.

I appreciate, however, the commitment on the part of the Chair and Vice Chair of House Government Operations to work with the Administration on this plan and look forward to a draft committee bill. Thank you.”

Rep. Mrowicki of Putney explained his vote as follows:

“Madam Speaker:

I vote yes, to bring this process to the full deliberations of the Legislature, not to have to approve a take-it-or-leave-it proposition with no option to offer amendment.

Trying to govern by executive orders leaves out the Legislature and the full process of as many committees needed, especially in an undertaking as large and complex as this. I certainly hope this does not represent a trend of trying to govern by executive order, that leaves the Legislature out of the process.

As for noting vote totals, the totals in both houses of the Legislature, that put twice as many members of one party to another in the Legislature are evidence enough of what Vermonters wanted - a balanced approach to Government.”

Rep. Parsons of Newbury explained his vote as follows:

“Madam Speaker:

I believe it is the obligation of this body to do our due diligence for the people we represent. With two months left to make a decision on this Executive Order and witnesses expressing a desire to testify but going unheard in the process. I do not feel like that obligation has been met by this Committee, and that is why I am voting no today.”

Rep. Williams of Granby explained her vote as follows:

“Madam Speaker:

I feel this resolution was not given the opportunity for due processes. Our constituents need an opportunity to be heard.”

Page 9

H. 81 Shall the report of the Committee on General, Housing, and Military Affairs be amended as recommended by Rep. Beck of St. Johnsbury?

Rep. Till of Jericho explained his vote as follows:

“Madam Speaker:

I vote no. Household income includes the income of unrelated individuals living in the same household. It makes absolutely no sense that the income of an unrelated individual should be considered in determining a person's health care insurance premiums.”

Page 11

H. 81 Shall the bill be amended as recommended by the Committee on General, Housing, and Military Affairs?

Rep. Sullivan of Dorset explained her vote as follows:

“Madam Speaker:

I vote no on H. 81 as it stands now. H. 81's removal of the requirement that the same premium percentages and out-of-pocket expenses apply to all participating employees for each plan tier is far from the alleged misleading label of a technical change but is a major fundamental change to the law; it opens up complex negotiation issues, is likely to increase costs and would create a major administrative burden. The bill should ensure that the costs of any proposed outcome for both sides must be considered — particularly if an arbitrator is making the decision.”

Rep. Troiano of Stannard explained his vote as follows:

“Madam Speaker:

I vote yes. I received 85 emails in support of H.81 from all over the state and from teachers, para-educators, cooks, and bus drivers This is about a equitable and fair negotiation for our non-licensed educational employees. These are the people we entrust out children to on a daily basis, many children with special needs. We are all taxpayers, imposing a major increase in health care costs on our lowest employees is inherently unfair. I will always stand with Vermont workers.”

Page 12

H. 177 Shall the bill be read a third time?

Rep. Gregoire of Fairfield explained his vote as follows:

“Madam Speaker:

I vote no today, not due to a view of any person being lesser than another which is an insulting implication. Across the world and in our own nation voting is overwhelmingly restricted to citizens. It is in fact the most precious right that comes with citizenship. Secondly, this bill continues the disenfranchisement of citizens who own property in and pay taxes to the City but who would still be ineligible to have their voice heard regarding how their tax dollars are spent because their primary residence is in another municipality. If our goal is that everyone who pays taxes should have a vote then these people should not be left out.”

Page 14

H. 133 Shall the bill be amended as recommended by the Committee on Judiciary?

Rep. Batchelor of Derby explained her vote as follows:

“Madam Speaker:

I voted to oppose H.133 in its current form as I cannot, in good conscience, support any legislation which allows seizure of firearms without the highest level of due process. Thank you.”

Rep. LaLonde of South Burlington explained his vote as follows:

“Madam Speaker:

Emergency relief from abuse orders have long been an inexpensive and uncomplicated judicial avenue for victims of abuse to seek immediate safety. When a victim is able to prove past abuse and the immediate danger of further abuse, a court can issue a Relief from Abuse Order. As part of that order, the court has the inherent authority to require the defendant to relinquish firearms. H.133 simply creates a statutory

basis for this authority that clarifies the option to order firearm relinquishment. With this bill, victims will have a clearer understanding that an order removing firearms is available to improve their safety. And, crucially, providing courts explicit as opposed to inherent authority to do so makes this option unambiguous to judges.”

Page 15

H. 133 Shall the bill pass?

Rep. Austin of Colchester explained her vote as follows:

“Madam Speaker:

In August 2006 I was at the Essex Middle School preparing for the opening day of school the next day. An announcement came over the intercom that the District was in lockdown - this was not a drill.

Later I learned that my friend and colleague Alicia Shanks was randomly shot and killed by a jilted lover in search of his girlfriend at the Essex Elementary School.

Perhaps if this relief from abuse order had been in effect back then Alicia would be alive today.”

Rep. Vyhovsky of Essex explained her vote as follows:

“Madam Speaker:

As a gun owner myself and a person who grew up in a family of hunters, I respect the tradition of gun ownership and sportsmanship in Vermont. I am struck today by the one-sided argument that we must protect the right to wield a weapon at all costs with no regard given to the constitutional right to life.

This is a relief from abuse bill that not only does not fundamentally change what is already allowable and common practice, it is also temporary and thus not an issue of rights but a temporary inconvenience to protect the constitutional right to life. I believe based on the statistics that it will save the lives of those who have been abused and terrorized and therefore I vote yes.”

Page 16

H. 360 Shall the bill be read a third time?

Rep. Coffey of Guilford explained her vote as follows:

“Madam Speaker:

Without high-speed internet, rural economies wither, young people seek better opportunity elsewhere, and many older Vermonters become more isolated and left behind. We are at a historic moment to bridge the urban-rural divide and bring rural Vermont up to 21st century speed. I enthusiastically vote yes.”

Rep. Martin of Franklin explained his vote as follows:

“Madam Speaker:

I voted yes to this bill because I recognize the importance of reaching the last mile in broadband coverage. I hope that the CUD's work closely with independent ISP's who have worked so hard to provide internet to its people over the years. In my own town our telephone company has provided exceptional fiber service to its customers for many years and I hope that this bill will ultimately provide the resources these companies need to reach that last mile."

Rep. Morris of Springfield explained his vote as follows:

"Madam Speaker:

I truly support the underlying intent of this bill to bring high-speed broadband service to our remote areas for connecting all Vermonters to the world. However, by excluding the private Internet Service Provider companies, that arguably have installed much of the existing infrastructure and eliminating them from the benefit of this bill, all Vermonters will not be served. We want all our remote learners and business employees to have adequate broadband service, private business is needed to make this happen."

Rep. Sims of Craftsbury explained her vote as follows:

"Madam Speaker:

H. 360 offers a clear and bold community-based strategy for achieving universal access to broadband. The promise of modern communications has bypassed too many of our rural communities in Vermont. I was proud to vote yes because we have a one-in-a-generation opportunity to finally address our digital divide."

Page 17

H. 159 Shall the bill be amended as recommended by the Committee on Commerce and Economic Development, as amended?

Rep. Burditt of West Rutland explained his vote as follows:

"Madam Speaker:

Is government the answer? In some instances, yes. It can provide for some common good, offer some protections from some dangers and enemies and be a safety net for many. There is little question that government tries to do the right thing but at times tries to do too much. In doing so it can crowd out the potential entrepreneurial spirit and innovation of the private sector. I believe this bill has some of that."

Page 19

H. 437 Shall the bill be amended as offered by Rep. Scheuermann of Stowe?

Rep. Sims of Craftsbury explained her vote as follows:

"Madam Speaker:

H. 437 builds on a successful program that helps Vermonters purchase replacement homes. We're all acutely aware that we have a significant shortage of housing opportunities in our community. I voted no so that we can move forward with this program to invest in the future of our housing stock, our communities, and our economy."

Page 20

H. 437 Shall the bill be read a third time?

Rep. Burditt of West Rutland explained his vote as follows:

“Madam Speaker:

A recent study has Vermont at 48th in the U.S. in total taxes per capita. I fear we are headed toward that not so coveted 50th position.”

Rep. Gregoire of Fairfield explained his vote as follows:

“Madam Speaker:

Despite how some would frame the issue- I doubt anyone opposes affordable housing or fails to recognize its need. It is probably an issue we can all agree on. As with many issues, it’s a matter of whether this is the right way to achieve those goals. I do not think it is.”

Rep. Kornheiser of Brattleboro explained her vote as follows:

“Madam Speaker:

I was proud to vote yes, to better to equalize the public burdens and build a Vermont that works for all of us.”

Rep. Martin of Franklin explained his vote as follows:

“Madam Speaker:

A vote of yes on this bill is a slap in the face to all of the industry workers that rely on tourists and second home owners for their income.”

Rep. Till of Jericho explained his vote as follows:

“Madam Speaker:

I vote yes. A no vote is a slap in the face to every manufacturer in Vermont. Our manufacturers desperately want the sales tax exemption for inputs, which is contained in this bill.”

Page 21

H. 439 Shall the bill pass?

Rep. Long of Newfane explained her vote as follows:

“Madam Speaker:

I vote in support of this budget that makes significant investments in many important priorities including childcare, expansion of broad band, housing, clean water, workforce development, and our state college system. I thank our hard working Appropriations Committee for proposing a budget that leaves no Vermonter behind.”

Rep. McCoy of Poultney explained her vote as follows:

“Madam Speaker:

While I support the FY22 budget as presented, I must express my concern over the use of ARPA funds without federal guidelines in place for some of these funds appropriated. As we have until 2024 to spend this money, my hope is we take a moment and pause to regroup and come back in January to appropriate the remaining ARPA funds as well as make adjustments if needed, to the 650 million dollars we have reserved or allocated in this budget. Thank you.”

Page 22

H. 436 Shall the bill be amended as offered by Rep. Cina of Burlington and others?

Rep. Ancel of Calais explained her vote as follows:

“Madam Speaker:

The Snelling Surcharge, which has been referenced several times today, was a temporary increase intended to address a short term economic crisis. If we have capacity to increase taxes — and we may — we need to think carefully about how we decide to use that capacity.”

Rep. Black of Essex explained her vote as follows:

“Madam Speaker:

I vote no. An amendment that was drafted overnight, is not the appropriate process to take for either a major piece of tax policy, or for such an important issue as resolving the State pension crisis. We owe our teachers and State employees more than that. They deserve thoughtful consideration within the committees of jurisdiction. A process which provides a thorough examination of the many levers affecting this situation, including tax policy, and allows for extensive and comprehensive testimony.”

Rep. Bluemle of Burlington explained her vote as follows:

“Madam Speaker:

I voted no on this amendment for the reasons stated by many of my colleagues: I believe that issues like this require a full vetting and process. But I am grateful for the amendment, as it has raised the issue of taxation as one tool we should openly explore to address the pension issue and other unmet needs in our State.”

Rep. Bos-Lun of Westminster explained her vote as follows:

“Madam Speaker:

I voted no not because I think the idea in the amendment is not a good one to consider, but because the Legislature needs more time to explore this possibility to make the best decision for the people of Vermont through taking testimony in the legislative process to determine how to address the pension situation most effectively.”

Rep. Brady of Williston explained her vote as follows:

“Madam Speaker:

I would like to think we have always known how vital and complex the work of teachers is but surely the pandemic has made it crystal clear. Schools are the lifeblood of our communities and teachers and school staff educate, nurture, and support our most valuable asset, our children. I appreciate the intent of this amendment brought forth by the Representative from Burlington and the Workers Caucus. While I think we need to take more time to make such tax policy, I sincerely hope that our larger pension conversation will be a comprehensive one that carefully considers our values and that we remember our tax policy is a reflection of our values.”

Rep. Colburn of Burlington explained her vote as follows:

“Madam Speaker:

We have before us today the third reading for two bills that have come forward to raise revenue for the State. I’m not aware of any other vehicles forthcoming that do so. Sometimes proposals must come forward via amendment, when committees of jurisdiction have chosen not to move them forward. I look forward to the serious consideration of this proposal, and others like it, that so many have expressed a commitment to today. Our hardworking teachers and State employees deserve nothing less.”

Rep. Dolan of Waitsfield explained her vote as follows:

“Madam Speaker:

I voted no on this amendment based on the importance of the Legislature’s deliberative process, the role of committees of jurisdiction, and their efforts to engage stakeholders, interested persons, and the public in these discussions.”

Rep. Kornheiser of Brattleboro explained her vote as follows:

“Madam Speaker:

I am deeply committed to working to continue and expand Vermont’s legacy of progressive taxation, thoughtfully, deliberatively, with solid numbers and analysis, on behalf of working Vermonters. This is not the way.”

Rep. McCarthy of St. Albans City explained his vote as follows:

“Madam Speaker:

We have just begun consideration of proposals to meet the challenge of shoring up our public retirement systems. We need a complete understanding of how proposals like this will or will not help us achieve the goal of supporting public employees with a pension they can count on. I look forward to supporting equitable, comprehensive solutions to the pension challenge in future legislation.”

Rep. Morris of Springfield explained his vote as follows:

“Madam Speaker:

I voted no for this amendment. My interest in running for the Legislature was because of the due process system of legislating. Though this amendment may have merit, I believe the process of vetting in the appropriate committees is the correct avenue. From the debate this morning, I expect any future income tax legislation will meet with similar debate. The overall income tax system may need to be part of the overall pension deficit discussion as the various committees explore multiple methods for solutions.”

Rep. Stebbins of Burlington explained her vote as follows:

“Madam Speaker:

I voted no on this amendment for many of the reasons mentioned: the lack of testimony taken, the lack of committee deliberation, the missing fiscal note from JFO, the potential unintended consequences. In a nutshell, I cannot support developing tax policy via a House Floor amendment. But I find saying no troubling and challenging. Yes, significant work is underway in House Government Operations and I do appreciate that effort. But the proposals presented thus far have, from my albeit limited understanding, a long way to go in keeping our word to those who have trusted in us. It is March 26th and adjournment, if it is in mid-May, is nearly upon us. I truly hope that this discussion is heard for what it is: an urgent call to action, to creatively, collaboratively and deliberatively come up with a fair, equitable, and responsible solution. If the desire is to achieve this in this session, we have seven weeks. Let us work together and get this done.”

Rep. Sullivan of Dorset explained her vote as follows:

“Madam Speaker:

I voted no. There is no silver bullet to end the retirement crisis in part because each Vermonter has their own path to retirement. Each fix recommended for the Vermont retirement crisis comes with its own limitations and its own positives. The ingredients for a secure retirement in Vermont were put into existence years ago. This will be a problem of both information and retention, rather than design, that needs much analysis beginning in the committees of jurisdiction.”

Rep. Till of Jericho explained his vote as follows:

“Madam Speaker:

I don’t know at this point whether this proposal is our best option for addressing our pension crisis. I do know that the other proposal I’ve seen is not acceptable.

I also know that the best resolution of the problem will require detailed and extensive deliberations of pros and cons of every proposal. This cannot be accomplished with an amendment on the floor.”

Rep. Troiano of Stannard explained his vote as follows:

“Madam Speaker:

I have long believed that this is an acceptable way to raise revenue. Tax cuts for the most wealthy Americans has furthered the division of wealth. I do believe that asking those who are more fortunate to pay a little more. The pension situation does deserve more radical thinking. I do believe that this is not an adequate process to implement such a change in policy. Thank the Workers Caucus for beginning this discussion forward and I hope it will move forward.”

Rep. Vyhovsky of Essex explained her vote as follows:

“Madam Speaker:

Our teachers and State employees, many of whom are essential workers who have carried our State through this pandemic at their own expense, must be able to trust that we are doing everything we possibly can to ensure that not only does this never happen again but also that we are committed to solving this problem in a way that is not on their backs. Working towards a permanent revenue stream is

one way in which we work towards this. I have spent much of my time in my school office this year supporting crying teachers ready to leave because they do not feel supported. We have many in this State who have fared quite well during the pandemic and can give back. Our teachers and State employees give back to all of our communities everyday -- now is the moment for us to ask that those who are able to give back to do so, so that these important workers can stay here and thrive here, to continue making our communities and our whole State stronger. I am proud to vote in support of this amendment as one part of a creative solution to a very complex and difficult problem that will impact us all.”

Rep. Whitman of Bennington explained his vote as follows:

“Madam Speaker:

I do believe that a more progressive tax structure can create opportunities to address our State’s most critical issues. However, due to the magnitude of our State’s pension funding issue, and the ongoing public hearings and committee work on this topic, I **do not** believe that this amendment is the appropriate process for legislating such a consequential policy decision. I also believe that when proposing a source of revenue such as in this amendment, we need to give our due diligence to ensure that the appropriation of that revenue will bring our State the greatest social, economic, and environmental benefits.”

Rep. Yacovone of Morristown explained his vote as follows:

“Madam Speaker:

If revenues from those among us with the most are not part of the pension solution, we then force the solution solely on the backs of the people who did not cause the problem. I vote yes to show our committees of jurisdiction that I hope they will consider the use of revenues as part of the solution to our pension problems.”

Rep. Yantachka of Charlotte explained his vote as follows:

“Madam Speaker:

I voted Yes on this amendment to emphasize that all options should be on the table in addressing the pension problem, including sharing the burden through the income tax. The benefits that were agreed to by the teachers and State employees must be honored. I respect the committee process in spite of my vote for this amendment, and I know that your Government Operations Committee is doing its best to come up with a solution. The amendment failed, but let it be a signal that the burden of a solution should not fall on the shoulders of those who have earned their benefits.”

Page 23

J.R.H. 2 Shall the resolution be amended as recommended by the Committee on General, Housing, and Military Affairs?

Rep. McCormack of Burlington explained his vote as follows:

“Madam Speaker:

Because of the well-deserved reference to the University of Vermont in J.R.H. 2, let the record show that in June 2019 the University issued a public apology for its role in the Genetics Survey and changed the

name of the library, removing the name of the President of the University at the time of the Genetics Survey. As one of your UVM trustees I enthusiastically voted for these actions as I do today for J.R.H. 2.”

Rep. Ode of Burlington explained her vote as follows:

“Madam Speaker:

I am grateful to vote yes for this resolution today.

Thank you for the work — over the years — to make this vote possible.”

Rep. Patt of Worcester explained his vote as follows:

“Madam Speaker:

In voting for this Resolution, I honor my parents, refugees who escaped the Holocaust and arrived in New York City on Election Day, 1940. I honor my maternal grandmother and grandfather, after whom I am named, who did not escape. I honor other members of my family who perished, including those who fought in the Resistance to that genocide.”

Rep. Rachelson of Burlington explained her vote as follows:

“Madam Speaker:

I am grateful for the opportunity to vote yes on this resolution and thank you and the Committee on General, Housing, and Military Affairs for this chance.

The actions of the past, including the former House body, have caused grave harm to so many. While I was not alive at the time, I know the world, and Vermont today, are very much negatively affected by these awful actions and others that still are happening. I can vouch for the impact this trauma carries on future generations.

My extended family too was partially extinguished in firing squads, and concentration camps. I have witnessed how the impact is passed on to future generations and have seen it shape our family ever since. I remember my daughter’s fascination and horror hearing those stories, and when she read Ann Frank’s diary in elementary school, and her eagerness to visit the Holocaust Museum in D.C. when it first opened. We went and she got physically ill during the visit.

I voted yes, and I vow to take continue to learn more and take bystander intervention training. I commit to doing all that I can in my lifetime to put meaning into the words 'never again'.”

Rep. Sims of Craftsbury explained her vote as follows:

“Madam Speaker:

J.R.H. 2 acknowledges and confronts the shameful history of eugenics and its ongoing legacies here in our State.

Today, we recognize and condemn the State-sanctioned eugenics policies and practices.

I was proud to vote yes on this resolution because our apology is an important step towards addressing the grave injustices of the past, learning from those mistakes, and strengthening our commitment to the values of freedom and unity for all.”

Page 24

H. 227 Shall the bill be read a third time?

Rep. Donahue of Northfield explained her vote as follows:

“Madam Speaker:

I supported Montpelier’s charter change to permit its non-US citizen residents to vote on its community’s own affairs. I would have supported a charter change from Winooski to permit its non-US citizen residents to vote on its community’s own affairs. Voting on a school budget is not just about a community’s own affairs. I cannot support a change that imposes Winooski’s choices on other communities through allowing participation in votes that have a statewide impact.”

Page 25

H. 315 Shall the House concur in the Senate proposal of amendment with a further proposal of amendment thereto?

Rep. Cina of Burlington explained his vote as follows:

“Madam Speaker:

I vote yes because the People desperately need help right now and I do not want to hold up economic relief. However, I am very concerned about the use of an appropriations bill to change health care policy regarding sharing personal health information from the vaccine registry. We must be cautious about the sense of urgency regarding the current public health emergency leading to the erosion of the rights and freedoms of the People.”

Rep. Hango of Berkshire explained her vote as follows:

“Madam Speaker:

While I remain concerned about the premature allocation of ARPA funds in this bill, I voted yes today to support our State’s businesses and Vermonters in need. Thank you.”

Rep. Harrison of Chittenden explained his vote as follows:

“Madam Speaker:

The Appropriations Committee works hard to reach consensus and routinely votes out budgets unanimously. And there are many worthwhile initiatives in this legislation. However, I was out of my comfort zone with the extra \$23-25 million in spending with this one and at the end of the day, I am the one that has to live with my vote.”

Rep. McCoy of Poultney explained her vote as follows:

“Madam Speaker:

While I understand there are must pass sections in this bill, my hope is we can somehow separate our ARPA funding in order to be more transparent in appropriating these funds, apart from the FY22 Budget

and any other bills we may pass, which appropriate ARPA money; perhaps a charge to the Senate to do just this. Thank you.”

Rep. Redmond of Essex explained her vote as follows:

“Madam Speaker:

This bill is a wonderful package of braided funding that will uplift Vermonters during this incredibly challenging time. I am specifically grateful to my colleagues for the \$700K of support for the Association of Africans Living in Vermont and the U.S. Committee on Refugees and Immigrants in Vermont, who have done incredible work strengthening New American, refugee and immigrant Vermonters during the pandemic.”

Rep. Strong of Albany explained her vote as follows:

“Madam Speaker:

I appreciate the hard work of all of the committees on this bill, however, I am still concerned about the data collection and registry language in this bill and am not comfortable at this time to vote yes. Thank you.”

Page 26

H. 157 Shall the bill be amended as recommended by the Committee on General, Housing, and Military Affairs, as amended?

Rep. Campbell of St. Johnsbury explained his vote as follows:

“Madam Speaker:

I vote yes to help both consumers and contractors avoid misunderstandings, to protect both from fraud, and to provide contractors with access to information and trainings to improve the knowledge base and skill of Vermont's construction industry.”

Rep. Martel of Waterford explained her vote as follows:

“Madam Speaker:

I voted no on this bill. My husband was one of those small contractors, he never short changed anyone on a job, although he has been the victim of not being paid when he completed the job.

Some contractors are also called a local handy man...thank goodness, as you could get a job done at a reasonable price, and in a timely fashion, but in today's world not many jobs come in under \$3500. This bill just kills any chance of being a small caring contractor in your own community. More business unfriendly times in Vermont, more new \$100,000 job positions to be overseers, no wonder people in this State are getting more discouraged at just trying to make a living and moving out.”

Rep. Smith of Derby explained his vote as follows:

“Madam Speaker:

It disappoints me that some of my friends will be turned into criminals simply for helping friends.”

Rep. Williams of Granby explained her vote as follows:

“Madam Speaker:

The presenter of the bill continues to remind us that this bill is designed to protect the consumer. I would like to see a bill that protects the consumer while considering the contractor. This bill does not do that. My frustration is that so many choose to support only one side of the issue. This bill should not be pushed through. Too many gray areas have been presented but not addressed. I am sad that my friend, my neighbor, my local handyman will pay the price. This is why I vote no on this bill.”

Page 27

H. 225 Shall the bill be read a third time?

Rep. Brady of Williston explained her vote as follows:

“Madam Speaker:

I voted yes today on H.225 on behalf of people who cannot. I voted yes today for too many of my high school students who taught me about the trauma of addiction and even what the hub and spoke model is because they poured their souls into research projects that were all too personal. Too many of my students are experts about the toll of addiction by losing parents, siblings, and friends. I also voted yes today in memory of my cousin who lost his battle with addiction tragically young.”

Rep. Colburn of Burlington explained her vote as follows:

“Madam Speaker:

I vote yes. To any Vermonter struggling with substance use disorder, please stay with us, in whatever way works for you. We love you, you matter, and we want you here.”

Rep. Goslant of Northfield explained his vote as follows:

“Madam Speaker:

I voted no on H.225. I also want to save lives. I strongly believe this drug will save the lives of people fighting addiction. However, my concern is that this drug could lead an unsuspecting, uninformed young person down the road toward addiction. If that tragic event was to happen, my decision would haunt me for life.

I also feel we did not have current testimony from the Vermont Department of Public Safety and the Vermont Department of Health and probably others as I feel this bill was rushed.

I wish I had more time and testimony to possibly support this bill. After all, we all want to save and protect ALL lives. Thank you.”

Rep. James of Manchester explained her vote as follows:

“Madam Speaker:

I vote yes today in support of everyone who is struggling with opioid use disorder and everyone who has fought or is fighting to overcome the disease of addiction. The barriers to recovery are real and they are

daunting. I vote yes to break down those barriers, to confront stigma, to help my fellow Vermonters, to reduce harm, and to save lives.”

Rep. Kornheiser of Brattleboro explained her vote as follows:

“Madam Speaker:

Today I gratefully vote yes to put personal decisions in the hands of my neighbors and save lives.”

Rep. Martin of Franklin explained his vote as follows:

“Madam Speaker:

Thank you, Madam Speaker. I cautiously voted YES on this bill in honor of my cousin and childhood best friend who succumbed to his addictions fueled by his constant run ins with the judicial system from a young age. The culture he ultimately embraced by being a regular in the courtroom never helped reverse the course of his addiction. A hard hand has proved to not be the solution. Vermonters suffering from this disease need our help and I believe this bill creates a path forward.”

Rep. Partridge of Windham explained her vote as follows:

“Madam Speaker:

Nearly four years ago, my niece died of a fentanyl overdose. Had something less lethal been available to her, she might be alive today. If you have not experienced the loss of a loved one to substance abuse disorder, you are fortunate. It breaks hearts and tears families apart. Today, I cast my vote for Megan Anne and have faith that this bill will save lives.”

Rep. Redmond of Essex explained her vote as follows:

“Madam Speaker:

I cast my yes vote today in honor of 13 women who had returned to VT communities post-incarceration and have passed away since last November, the majority due to overdose. We must activate every tool in the toolbox to help Vermonters struggling with substance use disorder. In our Human Services Committee, we heard repeated testimony from providers that some Vermonters who don’t trust systems and institutions initially use non-prescription buprenorphine as their first steps to get into doctor-prescribed Medication Assisted Treatment. This is about reducing harm and giving Vermonters every pathway possible into treatment.”

Rep. Rogers of Waterville explained her vote as follows:

“Madam Speaker:

For those who have lost someone to an opiate overdose, there is no right or wrong way that the life should have been saved. The right way to save their life would’ve been the way that worked for them.”

Rep. Stebbins of Burlington explained her vote as follows:

“Madam Speaker:

I vote yes on H.225, because this bill will help save lives and also in honor of a constituent. This constituent ran against me in this past year’s primary. Throughout his campaign, he shared his personal story of nearly dying and living homeless, as a result of addiction. His strength of character and focus on helping everyone

he can struggling with addiction, stays with me. When he lost the campaign, I vowed to keep his story and message front and center in my mind.”

Rep. Sullivan of Dorset explained her vote as follows:

“Madam Speaker:

I voted yes. The biggest effect of decriminalization has been to allow the stigma of drug addiction to fall, to let people speak clearly and to pursue professional help without fear. This bill allows the possibility to deal with drug users outside the criminal system. Criminal prohibitions have also impeded the use of drugs for legitimate medical research, and have prevented patients from accessing drugs for palliative care and pain treatment. It is best for governments to rely instead on non-penal regulatory and public health policies when they can.”

Rep. Whitman of Bennington explained his vote as follows:

“Madam Speaker:

I believe that today we have sent a message to all Vermonters that substance use disorder is not a crime. Thank you.”

Page 28

H. 175 Shall the bill be amended as offered by Rep. Marcotte of Coventry and others?

Rep. Gregoire of Fairfield explained his vote as follows:

“Madam Speaker:

If this bill did not include multi-use containers such as orange, cranberry, apple, and other juices and gallons of water then I would have supported it.”

Rep. Goldman of Rockingham explained her vote as follows:

“Madam Speaker:

I live in an area of the State without a nearby redemption center. I believe that H.175 is good for the environment and have started working with local officials to bring a redemption center to our town to take pressure off our retailers.”

Page 29

H. 175 Shall the bill be read a third time?

Rep. Gregoire of Fairfield explained his vote as follows:

“Madam Speaker:

A provision in a law that most that it pertains to do not know about and that anyone can be exempted from should tell all of us that it is not a provision that should exist to begin with. That's just common sense. Businesses that already struggle to survive do not need another hurdle to jump through.”

Rep. LaLonde of South Burlington explained his vote as follows:

“Madam Speaker:

H.175 provides a long overdue update to the Bottle Bill. It will further reduce litter, increase the value of recycled material by improving recycling efforts, and cut energy use and climate pollution by processing more recycled materials instead of raw materials into new containers.”

Page 30

S. 53 Shall the report of the Committee on Ways and Means be amended as offered by Rep. Sibilia of Dover and others?

Rep. Cina of Burlington explained his vote as follows:

“Madam Speaker:

Veterans put their lives on the line to support the economic interests of this country. We should be giving more tax breaks to veterans and less tax breaks to corporations.”

Rep. Stevens of Waterbury explained his vote as follows:

“Madam Speaker:

For many years, your General, Housing, and Military Affairs Committee has worked to bring benefits to veterans who live in our State, and we have done it largely in the spirit of balancing our support for our soldiers and the needs of all Vermonters. It took us years to allow property tax relief to disabled veterans, and then to slowly raise the limits when it was shown locally that budgets could handle the number of people who applied. It has also taken years for this House to propose any tax benefit on pensions for a vote on the floor, and I am glad that the Ways and Means Committee has taken the time to break down the passion behind the request and the fiscal realities, and to finally propose the benefit in the bill. I voted no on this amendment to honor this major step forward for our veterans who qualify for the benefits, many if not most are our soldiers from the National Guard, and to acknowledge the Committee for bringing some relief to a substantial number of retired Vermonters.”

Rep. Strong of Albany explained her vote as follows:

“Madam Speaker:

As a Gold Star Mother, I believe this is a small sacrifice that we can make in our state budget to show appreciation for those who have sacrificed so much for us and our freedom. Thank you.”

Page 31

S. 53 Shall the House propose to the Senate to amend the bill in the second division of the recommended proposal of amendment (Secs. 9-12 in the second instance of the amendment)?

Rep. Martel of Waterford explained her vote as follows:

“Madam Speaker:

I voted no on this cloud bill.

Before we always laughed about how money grows on trees. Apparently the trees have all died, because now we are going to move up to the clouds to fill our State coffers. How sad it has come to this. By the way if I buy a Turbo Tax at the store, I only pay sales tax once, not monthly or whenever you decide to tax us.”

Page 33

S. 53 Shall the bill be read a third time?

Rep. Colburn of Burlington explained her vote as follows:

“Madam Speaker:

While I am disappointed that this body chose to enact 20 million dollars’ worth of annual corporate tax cuts through the single sales factor policy, I believe the good in other portions of this bill outweighs the bad.”

Rep. Long of Newfane explained her vote as follows:

“Madam Speaker:

I vote in support of this bill. It accomplishes many things, including a new exemption to the sales tax for menstrual products, it updates the calculation for corporate income tax liability and repeals a sales tax exemption on vendor-hosted pre-written computer software. It also creates an exclusion on the first \$10,000 of federally taxable U.S. Military retirement pay. These provisions will have an overall positive impact on Vermonters.”

Rep. McCoy of Poultney explained her vote as follows:

“Madam Speaker:

With a 300 million dollar surplus, one billion dollars in CRF funding, and an additional one billion dollars in ARPA funds, which should hit our bank account sometime in May, I cannot support tax increases to businesses at this time.”

Rep. Small of Winooski explained her vote as follows:

“Madam Speaker:

Though this bill strayed far from its original intention, I support this bill because of the positive impacts it will have in our community.”

Rep. Till of Jericho explained his vote as follows:

“Madam Speaker:

Lest we forget, this bill is entitled: An act relating to exempting feminine hygiene products from the Vermont Sales and Use Tax. It is way past due time to remove this unfair, gender specific tax on the women of Vermont.”

Rep. Vyhovsky of Essex explained her vote as follows:

“Madam Speaker:

I voted yes because of the good in this bill. This bill gets us towards a long fought goal of equity for those of us who menstruate and for our veterans. However, I find it troubling that in a bill entitled An act relating to exempting feminine hygiene products from sales tax, that I am forced to also accept amendments to our tax structure that are likely only to benefit our top one hundred tax filers most. Thank you.”

Page 34

H. 449 Shall the bill be read a third time?

Rep. Bos-Lun of Westminster explained her vote as follows:

“Madam Speaker:

I have heard from more constituents about pensions than any other topic. I hope a task force can be created that can develop a shared understanding of the pension challenge and come to agreement about the best way to proceed, to honor the years of service and the contracts made with Vermont's workers, AND to make the system sustainable for the future. Equal representation in the task force of workers and other stakeholders, would get the process off to the strongest start. This bill did not have that. As a new legislator I was told the first two factors to consider when casting a vote are: first your conscience and second your constituents. Both these factors led to my no vote today.”

Rep. Burke of Brattleboro explained her vote as follows:

“Madam Speaker:

I support addressing the pension issue. I voted no on this bill because of the composition of the task force. I believe that perception matters, and that the process and outcome of the work will be much more successful when the union members feel honored by equal participation.”

Rep. Burrows of West Windsor explained her vote as follows:

“Madam Speaker:

I, too, support efforts to address the pension problem. I appreciate and applaud the difficult and good work of the committee and Speaker, and I have faith in the process and that all parties will work diligently toward resolution. I also ran on a platform of inclusion, and to me, unless the makeup of legislative representatives on the task force is designated tri-partisan, it is not inclusive. Thank you.”

Rep. Cordes of Lincoln explained her vote as follows:

“Madam Speaker:

For those of us that support the notion of pensions, there is little argument that we must address the condition of the funds for long term viability, ensure a comprehensive analysis of the operations and performance of VPIC, while protecting taxpayers and public employees. I am grateful to House Government Operations for their diligence in including recommendations from the Workers Caucus and from impacted employees to improve the process laid out in H. 449 and I indeed support much of it, but

cannot support the bill without a true balance on the task-force of representation for employees. Let's not add to the decades long whittling away of real and democratic representation of worker voices."

Rep. Kornheiser of Brattleboro explained her vote as follows:

"Madam Speaker:

I vote yes today so we can continue the difficult work of preserving our public pensions for future retirees."

Rep. Long of Newfane explained her vote as follows:

"Madam Speaker:

Today we take important steps toward resolving the crisis facing our public retirement systems. With this bill we bring more professionalism and expertise to the governance of the retirement funds. The Task Force in this bill sets out a fair, transparent process for recommending changes to preserve the pension systems as sustainable tools to recruit and retain teachers and State employees. Keeping the promise of defined benefit pensions for our public workers is a benefit for all Vermonters. I vote yes."

Rep. McCarthy of St. Albans City explained his vote as follows:

"Madam Speaker:

I vote yes. The unfunded liabilities for the pensions and other retirement benefits for State employees, teachers and troopers is a \$5.6 billion challenge we cannot afford to ignore. This bill makes sure that the body governing pension investments is more independent and professional. Our work is not done, to save the retirement systems and honor our commitments to Vermont's public employees. The Task force we establish here will listen to those workers and Vermonters about how best to do this. This is a good start."

Rep. Mrowicki of Putney explained his vote as follows:

"Madam Speaker:

My yes vote is to continue the process, continue to bring as many voices to be heard on this, and set the State pension fund on the road to recovery so we don't have to visit this again in a few years or hopefully again. We do well to make sure this work is thorough, deliberate, and long lasting for all Vermonters."

Rep. Sims of Craftsbury explained her vote as follows:

"Madam Speaker:

I vote yes because our teachers, troopers, and State employees deserve security in retirement. On an issue as important as this, we can't let perfect be the enemy of good. The magnitude of the problem we face with the pension fund is significant and we must take time this summer, with all the voices at the table, to look at every option. This bill is an important step forward to address the pension crisis and set our public retirement systems on a sustainable path for the future."

Rep. Small of Winooski explained her vote as follows:

"Madam Speaker:

If we are looking for informed and equitable solutions to the pension problem then we need to have trust in the taskforce. Those impacted by the pension system cannot trust the taskforce without equal representation: between impacted workers and non-impacted stakeholders. The way that I read this

prescriptive legislation and what I'm hearing from my constituents shows a clear lack of trust in this taskforce as it stands. So, I ask why we are rushing this legislation and not listening to who we serve: the people.”

Rep. Sullivan of Dorset explained her vote as follows:

“Madam Speaker:

Insolvency is a term not often technically understood and can be used loosely on the pension issue. More important is the word 'default.' States that default on pension obligations would face significantly higher interest rates on subsequent bond issues, if they could borrow at all. A state’s reputation can suffer for a long time and may not be able to return to credit markets without federal assistance. Pensions have multiple purposes and they may be given different weights, but policy needs to bear them all in mind.

I support this bill as a step to bringing to the table those charged with identifying potential recommendations on how to reach a meeting of the minds regarding the pension situation at hand.”

Rep. Wood of Waterbury explained her vote as follows:

“Madam Speaker:

I vote yes for H.449. The importance of securing retirement benefits for the valued State employees and teachers is critical, particularly after their year of stressful service to our State. Much has been said about the make-up of the pension task force. I have full confidence in the ability of the teacher and State employee representatives to amplify the voices of those they represent.”

Rep. Vyhovsky of Essex explained her vote as follows:

“Madam Speaker:

I am committed to a sustainable pension system for all we have promised a pension, and hopefully even expanding the pension system to all Vermonters. H.449 sets up an unbalanced taskforce, with 6 members of labor on a fifteen-member taskforce. Our labor groups have told us loudly and clearly that they do not trust this task force. Given my experience in group facilitation, I am confident that this taskforce is set up to start in a place of adversary and mistrust, and this is not how we build collaborative solutions. If we truly want to solve this issue, we need to listen fully to those most impacted in order to start from a place of trust. Due to my significant concerns with the structure of the taskforce, the charge of the taskforce, some of the changes to governance, and the overall process of arriving at this bill, I cannot support H.449 and vote no.”

Rep. Yantachka of Charlotte explained his vote as follows:

“Madam Speaker:

I vote Yes on H.449 as a step forward in spite of my concerns about balance on the Pension Study Task Force. I hope the members appointed to the Task Force from the Legislature will look objectively at solutions and not be wedded to a predetermined position.”

Page 36

H. 361 Shall the bill be read a third time?

Rep. McCullough of Williston explained his vote as follows:

“Madam Speaker:

By voting yes in support of Brattleboro's Charter, I acknowledge and support Vermont’s youth and Vermont’s future.”

Page 37

S. 20 Shall the House propose to the Senate to amend the bill as recommended by the Committee on Human Services?

Rep. Dolan of Waitsfield explained her vote as follows:

“Madam Speaker:

I voted for S.20 because it targets four of the largest sources of PFAS contamination in Vermont. This bill protects public health particularly the most vulnerable members of our communities – our infants and children. There are available cost-effective PFAS-free alternatives today. This bill also makes sound economic sense. The bill reduces or avoids the healthcare costs associated with exposure. The bill reduces or avoids the high costs of detection, clean up, treatment and disposal of PFAS-contaminated soils and water and the management of contaminated landfill leachate. The bill supports our dairy industry and local foods movement, and the VT brand.”

Rep. Redmond of Essex explained her vote as follows:

“Madam Speaker:

Banning forever chemicals like PFAS is a critical step in prioritizing the cleanliness and health of our pristine outdoors. S.20 centers our lakes, rivers, streams, groundwater, soil, and food and drinking water systems in creating a toxics-free environment that ensures the protection of our beloved Green Mountain State. The step we have taken today is a game-changing investment in our rural and suburban landscapes and will help rebuild the economy in all 14 counties.”

Rep. Sims of Craftsbury explained her vote as follows:

“Madam Speaker:

I vote yes to protect consumers from the harmful effects of PFAS and other dangerous chemicals.

These 'forever chemicals' do not break down easily and they persist in our bodies and the environment. And these chemicals are everywhere: in our food packaging, clothing, cookware, and many common households’ items.

This bill will protect Vermonters by reducing their exposure to these toxic chemicals.”

Page 39

S. 15 Shall the bill be read a third time?

Rep. Donahue of Northfield explained her vote as follows:

“Madam Speaker:

Some of the components in this bill are of concern. In addition, almost every decision we make has a cost-benefit balance to it. I believe that postcards to voters providing easy availability of absentee ballots provides full access, while the cost of a universal ballot system is high. Despite these misgivings, I do support the intent of the bill, and vote yes.”

Rep. Mrowicki of Putney explained his vote as follows:

“Madam Speaker:

Voting yes for this bill was an easy task for me as I bring the voices of a vast majority of the constituents I represent who are aware that access to voting is essential to maintaining our democratic republic. I'm proud of Vermont and your House Government Operations Committee for their work on this bill- as well as the other body. While other states seek to suppress and limit access to voting, including banning providing food and drink to voters waiting in long lines, Vermont is taking the lead in expanding access for voters.”

Rep. Sims of Craftsbury explained her vote as follows:

“Madam Speaker:

I vote yes to make universal vote-by-mail a permanent feature of Vermont's elections. Vermont has a long history of election reforms to increase access to voting and this bill makes permanent the learning from our election during the pandemic. I'm proud to support this bill to make sure every vote counts.”

Rep. Wood of Waterbury explained her vote as follows:

“Madam Speaker:

Unlike other states, today I proudly cast my vote to continue Vermont's tradition of improving voter access to a person's constitutional right to cast a ballot.”

Page 40

J.R.H. 6 Shall the House adopt the resolution on its part?

Rep. Cina of Burlington explained his vote as follows:

“Madam Speaker:

I vote yes because if racism is a public health emergency, then the cure is not to ignore the harm of racism any more. Instead, we must move at warp speed to take care of each other better, for the vaccine to racism is manufactured from the recognition and celebration of our common humanity.”

Rep. Redmond of Essex explained her vote as follows:

“Madam Speaker:

This resolution – racism as a public health emergency – was crafted with the collaborative input of BIPOC advocates, capturing their areas of concern and laying out a scope of future work of sorts for all of us. This

is part of the important work we do together in creating an equitable recovery that leaves no Vermonter behind, not one of us behind.”

Rep. Rosenquist of Georgia explained his vote as follows:

“Madam Speaker:

I voted no on J.R.H. 6. I suggested in our committee to expand the scope of this Resolution to include a wider range of life circumstances that lead to many negative outcomes in our society. Some of these include racial, economic, ethnic, cultural, and sexual disparities. I believe the current Resolution leaves out or misidentifies many of the root cause of these disparities. Let us concentrate on addressing and solving many of these inequities.”

Page 43

S. 15 Shall the House amend its proposal of amendment as offered by Rep. Strong of Albany and others?

Rep. Mrowicki of Putney explained his vote as follows:

“Madam Speaker:

I vote against this amendment because I trust Vermonters to do the right thing. If facts arise that tell me otherwise, I'm ready to take a look at that but I'm not ready to get caught up in national fallacies that our elections are not secure. I'm not ready to tell Vermonters that I don't trust them because of what other states are doing as they pass bills that promote voter suppression, especially of BIPOC Americans. I vote no as I trust Vermonters, especially when it comes to our elections.”

Page 46

S. 62 Shall the bill be read a third time?

Rep. Long of Newfane explained her vote as follows:

“Madam Speaker:

I'm proud to vote to support the work of our committees on S.62, who came together to craft a path forward to not only refill our Unemployment Trust Fund in the spirit of the grand bargain, but to also increase the unemployment benefits that we provide Vermont workers moving forward. Whether it's the next recession or pandemic or just the bad luck of being laid off and in between jobs, Vermonters need to know we have an economy that leaves no one behind. Thanks to the good work of our committees, we have a bill that is fair to Vermont's businesses, while also lifting up Vermont workers.”

Page 47

S. 79 Shall the House propose to the Senate to amend the bill as recommended by the Committee on General, Housing, and Military Affairs, as amended in the first division of amendment (Secs. 1-7, sec. 18(a)(1)-(a)(4), (b)(1)-(2), (c)(e))?

Rep. Cina of Burlington explained his vote as follows:

“Madam Speaker:

Our extractive economy was built on stolen land and does not recognize our birthright as humans to live freely upon the Earth. It treats housing and access to the land as commodities that can be bought, leased, and sold. Under these conditions, we must protect people from exploitation and abuse and we must find more ways to make housing accessible and affordable to all. I vote yes because housing is a human right.”

Rep. Donahue of Northfield explained her vote as follows:

“Madam Speaker:

I believe the unintended consequence of this part of the bill will be a loss of rental housing capacity and a reduction in housing affordability. That’s the last thing we need. I cannot support it.”

Rep. Stevens of Waterbury explained his vote as follows:

“Madam Speaker:

I would like to correct a statement I made a moment ago. During the roll call I looked up the statute regarding hunting camps, and they would be exempt from this registration, as they are not considered a dwelling unit under 9 V.S.A. chapter 137.”

Page 49

S. 79 Shall the House suspend its rules to message its actions on the bill to the Senate forthwith?

Rep. Killackey of South Burlington explained his vote as follows:

“Madam Speaker:

I voted yes to suspend the rules because I support landlords as well as tenants. This bill had made exceptions to the eviction moratorium because we heard from landlords who needed immediate relief. This bill also stands up the VHIP program which needs to be implemented without delay to continue the work started this past year with CRF funds. Waiting on this bill hurts landlords and tenants.”

Rep. Redmond of Essex explained her vote as follows:

“Madam Speaker:

I voted for a rules suspension today as I have numerous constituents in dire need of adjustments to the State of Emergency eviction moratorium in place. They have tried to negotiate with tenants to no avail, they are being paid no rent, and/or they need to live on the premises again themselves. Likewise, there are 19,000 rental units statewide that are not compliant to current housing standards that need to be brought online to create more affordable housing. S.79 provides landlords money to rehab those dwellings and get them online quickly to address an affordable housing crisis across the state.”

Page 50

H. 439 Shall the report of the Committee of Conference be adopted?

Rep. Coffey of Guilford explained her vote as follows:

“Madam Speaker:

This pandemic has called for new thinking and bold action to address the gaps and inequities in our system and to build back better. In this budget we make critical steps and investments to course correct the history of economic exploitation and exclusion from economic opportunity due to race and ethnicity by creating much needed infrastructure to support to strengthen, grow and attract BIPOC-owned businesses and promote racial equity and opportunity across Vermont. Budgets are expressions of our priorities and our values and I am proud to support this budget and to continue to work for a Vermont where everyone has access to opportunity, and where everyone is welcome and can thrive. ”

Rep. Ode of Burlington explained her vote as follows:

“Madam Speaker:

Thank you to the Speaker of the House for her leadership in our collaborative budgeting process. Thank you to my fellow legislators who built a budget that is all it can be in these challenging times. I support this budget and the work it allows us to do for Vermonters and Vermont. Thank you.”

Rep. Wood of Waterbury explained her vote as follows:

“Madam Speaker:

I am proud and thankful to vote yes for this budget. On March 25th the House passed H.153, a bill that will provide our legislative body with sufficient data to make informed decisions about our Medicaid-funded home and community-based providers like the designated and specialized service agencies, our Choices for Care providers and other long term support agencies. That bill is still sitting in the other body awaiting action. However, through the hard work and attention to the needs of vulnerable Vermonters, this budget ensures that we do not fall further behind. It provides a 3% cost of living adjustment through a Medicaid rate increase that will support these providers, their workforce, and most of all the Vermonters who require support.”

Page 51

H. 177 Shall the bill pass, notwithstanding the Governor's refusal to approve the bill?

Rep. Hooper of Montpelier explained her vote as follows:

“Madam Speaker:

Montpelier is pleased to welcome non-citizens and is fortunate that they are active members of our community. They are volunteers on city boards and committees, active in our schools, library and senior center. They are friends and neighbors helping make Montpelier a great place. It is only right that we acknowledge their importance in our community by asking them to vote on local matters. Montpelier welcomes all to be part of our civic life.”

Page 52

H. 227 Shall the bill pass, notwithstanding the Governor's refusal to approve the bill?

Rep. Small of Winooski explained her vote as follows:

“Madam Speaker:

All of Winooski’s residents contribute to our community in a multitude of ways, and together we create the advantageous diversity our community has celebrated for almost 100 years - regardless of citizenship status. This change to our municipal charter will allow any qualified Winooski resident to have a voice in local matters that affect them, their families, and their lives.”
