

**Act No. 147 (H.823). Conservation and land development; economic development**

**An act relating to encouraging growth in designated centers and protecting natural resources**

This act encourages development in designated centers and existing settlements and discourages strip development outside those areas through amendments to the jurisdiction and criteria of 10 V.S.A. chapter 151 (Act 250) and to the statutes governing the priority assigned to financing of municipal pollution control projects and the process for obtaining a wastewater and potable water supply permit.
