

To whom it may concern

October 14, 2014

As you know, when I got out of prison there was a huge amount of TV and newspaper coverage that I had to deal with. No matter where I went the press wasn't far away!

When I finally settled in _____: Vermont I found out from the _____ county sheriff's Department that they were getting many (the exact number you would need to ask them) phone calls from towns people telling (the sheriffs dept.) that I was seen in front of this persons yard or in that persons backyard, or near this school, etc.

If at that time a G.P.S. system had been available for me to wear I would have gladly put it onto my leg so I could have proven to all that I was not in this person's back yard or hanging around this school, etc.

This G.P.S. system will help defend the recently released maxed-out high profile offender (who wants to work with law enforcement and the community) from false accusations.

I am still interested in this G.P.S. system and I would put it on today if it was offered to me. This G.P.S. system would help me keep accountable, because I know that someone is watching me all the time.

We read in the newspapers and hear on TV that the goal is to keep everyone safe and I agree with this!

But let's not forget the offender. We need your help too! This G.P.S. system is a fantastic tool to help keep us all safe!

Thank you for hearing my letter

Sincerely:
