(Contact Desk 60 at 5760 and ask for assistance in contacting MST Coordinator if no answer at 5766).

### Other:

JAG, pilot episode (1995) ...female officer on Navy vessel learns that her former captain, now an admiral is about to be on a committee with considerable oversight regarding sexual misconduct. She is faced with a possible career ending situation....if she doesn't win the trial, she is the one who will be prosecuted via UCMJ (Uniform Code of Military Justice).

...MST is presented from multiple perspectives in later episodes, including one that addresses the accusation of a female officer by a male subordinate, the officer also needing to maintain her identity because of "don't ask, don't tell."
