

## **Towns Involved In Public Service Board Process**

***Provided To House Natural Resources January 29, 2013***

*The following is a list of municipalities that have participated in the Section 248 process or from whom we have heard concerns about projects that would be located in or near their towns. This includes projects that involve generation, testing for generation (MET towers) and transmission, including the VELCO upgrade and natural gas pipeline proposals. These represent expressions of concern over the course of many years, generally as proposals affect them.*
