

**Act No. 41 (H.117). Public service; telecommunications; Division for Telecommunications and Connectivity, municipal government**

**An act relating to telecommunications**

This act, among other things, establishes a Division for Telecommunications and Connectivity within the Department of Public Service. In addition, it makes amendments to the State law requiring the reporting of retransmission fees to the Attorney General's Office. It also allows two or more towns and cities to form a communications union district.
