

Act No. 48 (H.480). Education; expanded learning opportunities

An act relating to making miscellaneous technical and other amendments to education laws

This act makes a number of technical and other changes to education laws set forth in Title 16. Among other things, it exempts the University of Vermont from existing law requiring written employee authorization before an employer may pay wages electronically. The act also creates a Vermont Expanded Learning Opportunities Special Fund, available to the Agency of Education to support structured educational and social programs for children and youth after school and during the summer. A working group of the Prekindergarten–16 Council will develop recommendations relating to designing an Expanded Learning Opportunities Grant Program and to soliciting funding.

Multiple effective dates, beginning on June 3, 2015
