

Environmental Division Errata

Several weeks following the publication of the finalized 2015 Statistical Report, errors were noted in the compilation and recording of cases added and disposed for the environmental division. Specifically, it was determined that the number of cases added did not include civil complaints. This revised report updates the number of cases added and disposed; the breakdown of cases added by case type; and the method of disposition. The clearance rate was also recalculated based on the new data.

Environmental Division

a. Environmental: Added, Disposed and Clearance

Fiscal Year	Added	Disposed	Clearance Rate
2011	200	195	98%
2012	183	173	95%
2013	176	197	112%
2014	245	231	94%
2015	203	227	112%

b. Environmental Cases Added by Case Type

Case Type	FY11	FY12	FY13	FY14	FY15
