Subject: Funding for Vermont's Working Landscape

Dear Theresa Utton; I understand your committee will be considering to continue funding the Working Landscape Fund.

I am a lifelong, senior Vermonter who has witnessed the changes in our state particularly the loss of so many dairy farms. Even with the loss of dairy farms I am very pleased with the direction Vermont's agricultural use of the landscape is going with the significant diversity of those folks who want to directly work the land to those who create value added products.

There are many reasons for the State to support, encourage and motivate the use of our landscape for agriculture or a related purpose. Although I might disagree with how some of my taxes are spent in other areas of government, I am 100% behind investment in our working landscape.
