

Recipient: Gov. Peter Shumlin

Letter: Greetings,

Please Restore Funding to Vermont Interactive Technologies

As supporters of Vermont Interactive Technologies (VIT), we are writing to request your support.

Your FY 2016 budget recommends \$0 for Vermont Interactive Technologies. If funding is NOT restored, VIT will cease to exist beginning July 1, 2015.

VIT is a valuable resource in Vermont. Without it, thousands of us Vermonters will be denied access to workforce training and degree programs.

The majority of programming that takes place over VIT is large group training. Web based services like Skype cannot replace VIT for these purposes.

An investment in VIT is more than an investment in a distance learning system. It is an investment in Vermonters because it gives us local access to the opportunities we need to learn, work and survive in Vermont. Please support Vermont Interactive Technologies' budget request.

Comments

Name	Location	Date	Comment
Frederick Miller	Pownal, VT	2015-03-09	This cause is extremely important
Nicholas Miller	Ferrisburgh, VT	2015-03-09	I work here.
Eric Kapitan	Danby, VT	2015-03-09	VIT is a very valuable service for the state of Vermont. I know this because I am a technician at the Rutland Vermont site. I have been told countless times by many of the people here who use the service what an asset it is to them. It allows them to participate in an event that otherwise may have been too far for them to travel to.
Francisco Mugnani	Brattleboro, VT	2015-03-09	I've been a proud member of the VIT team for twelve years. VIT helps many Vermonters get together to discuss important issues, and pursue higher learning. It creates new opportunities for people to reach out across the state and beyond. It also cuts down on time and fuel that people would otherwise have to spend driving to other parts of Vermont, thus helping to reduce carbon emissions in our state. The service that VIT provides is important to many working Vermonters and is irreplaceable by current alternatives such as Skype. Support VIT because VIT helps support Vermont.
steve lowell	Newport Center, VT	2015-03-09	vit is a classroom the size of vt. it saves people time and money. would be a shame to lose it.
Holly fortin	Enosburg Falls, VT	2015-03-09	i currently use VIT for nursing school. It will be very detrimental to my education to have VIT close.
carol vanasse	Newport Center, VT	2015-03-09	we need these sites and the programming they offer
Joanne Boyle	Woodstock, VT	2015-03-09	Educating in any form is worthwhile!
Eleanor Hunt	Charlestown, NH	2015-03-09	I'm signing this petition because I believe this is a very important item and needs to be funded and kept alive.
carole bacon	North Springfield, VT	2015-03-09	VIT makes it possible for people, who would not be able to take classes, to get an education while continuing to work and care for their families. They can take classes that often include apprenticeship type training making it possible to get better jobs...without having to travel great distances.
barbara grimes	Burlington, VT	2015-03-09	I'm signing because this entity provides unmatched quality access for students and otherwise meet. Nursing students, plumbers getting their licenses master gardeners getting certified all within an average of only twenty six miles. Shame on you Governor Shulmin and Chancellor Spaulding to willingly leave Vermonters on the side of the road.
Steve Spadaccini	Shelburne, VT	2015-03-09	I own and operate an electrical contractant business and have been able to attend training seminars through VIT a great resource
Linda Brownell	Williston, VT	2015-03-09	VIT has been the backbone of many organizations and course studies for years. It is a valuable state resource that should not be eliminated.
ashley hemenway	Fairfax, VT	2015-03-09	I am a nursing student at Vermont Tech through the St Albans site, which is completely dependent on VIT for conducting lectures. Without VIT it would greatly impact not only my learning but many others just like me all throughout the state.
Carol Peebles	Perkinsville, VT	2015-03-09	I am signing because it gives every student access to training seminars and lectures all over the state. Please rethink your decision to cut funding. Thank you.
Heather Frye	Cavendish, VT	2015-03-09	This is a valuable program to communities and worth supporting!

Name	Location	Date	Comment
michelle robert	Franklin, VT	2015-03-09	I am a nursing student at VTC and we depend on VIT for our classes.
Sarah O'Neill	Enosburg Falls, VT	2015-03-09	I'm an accepted student for the 2015-2016 year
chad Devereux	Cavendish, VT	2015-03-09	So my wife keeps her job
Nikolas Levesque	Charlestown, NH	2015-03-10	I've been working at VIT for the last year and a half, and it is the best job I've had so far. Everybody is nice, and what the company is doing for people is awesome, I'd hate to see VIT go away.
Carrie Becker	Pittsford, VT	2015-03-10	VIT saves Vermonters and Vermont organizations substantial financial and fuel resources, while providing access for all to essential educational opportunities. A funding cut is devastating not only to the organization, but to thousands of Vermonters dependent on mobile videoconferencing.
Jo-Ann Lowell	Montpelier, VT	2015-03-10	This is an important community resource for those of us who need training!
Norbert lavigne	Burlington, VT	2015-03-10	I'm signing because VIT is a critical resource for education, job growth and economic development
Robert Pegram	Bridport, VT	2015-03-10	Meetings, classes these things are what VIT does best. It's much better than 1 camera per room of people or most conglomerations of single persons per computer into a meeting.
Patti Bacon	Perkinsville, VT	2015-03-10	In our state's primarily rural environment, it's imperative that we provide distance learning opportunities if we want to keep our local economies healthy!
Judith Irving	Brookfield, VT	2015-03-10	over the past 20+ VIT has made it possible for people from all areas of the state to have access to education, to participate in the public hearing process and it has saved businesses, non profits and government significant amounts of money in travel costs while maintaining efficient and timely communication with their constituencies.
Stephanie Munson	Saint Albans, VT	2015-03-10	I am signing this because I am a VTC nursing student and this would be devastating to my future and family.
Caitlin Lowell	Boston, MA	2015-03-10	VIT has been an important part of my life since I was in the second grade. It's an excellent resource for the population of VT and should be preserved!!
Ursula Seuss Brown	Westport, MA	2015-03-12	I worked for VIT for 10 years as Site Coordinator for Addison County and Middlebury and believe that VIT is an important asset for Vermont and saves money for travel and provides an opportunity for distance learning.
Nicole Desjardins	Woburn, MA	2015-03-12	I am from Vermont and know how valuable this program is for people in the area!!
Tom Oppedisano	Cambridge, MA	2015-03-12	Connecting people and giving them the opportunity to learn is a necessity, not something that can be cast aside for budgeting purposes. This supports education.
Kevin Mayor	Barton, VT	2015-03-12	Education is hard to get in a state spread thin. VIT reliably bridges the gaps without requiring computer literacy.
Tracy Sherbrook	Lyndonville, VT	2015-03-12	VIT is a valuable resources in providing access to education to Vermonters.
Darcy Oakes	Bennington, VT	2015-03-12	I want to keep VIT available to the people of Vermont.
Jade Franco	Boston, MA	2015-03-12	Access to technology matters.
Harry Clark	Burlington, VT	2015-03-12	I support distance learning programs for rural areas.

Name	Location	Date	Comment
Greg Quetel	Barre, VT	2015-03-12	VIT provides an important service to Vermonters. VIT reaches all corners of the state with education, information, and training in a cost effective manner. Vermonters can participate simultaneously in public hearings or meetings without having to travel very far. Right now, in every Vermont County, there are Vermonters who have taken classes, attended conferences or maintained a certification via VIT. A single service that saves Vermonters and state government significant amounts of money; promotes civic involvement in all counties; improves career opportunities across the state; Keeps Vermonters safer by reducing travel during inclement weather; reduces pollution in our state by keeping people close to home--which also means more time with family; and saves Vermonters time. This does not sound like the kind of service that should be eliminated to save money. In these tight financial times Vermont would likely stand to save more money if you have state agencies utilize the services of VIT more often. Funding VIT is an investment with both short term and long term returns.
mike spillane	Colchester, VT	2015-03-12	this is a great tool to reach out to Vermonters across the state....saves gas...no worry about weather for driving
James Mayor	West Glover, VT	2015-03-12	VIT is an indispensable tool for Vermont businesses, educators, organizations and families. It allows visual and verbal contact between virtually everyone in Vermont with nearly everyone in the world, with no technical knowledge or equipment.
jean beaule	Concord, NH	2015-03-12	received this from a friend from Vermont
Andrea Van Woert	Newport, VT	2015-03-13	I am a VTC student that utilizes the VIT space and my second year of nursing school is in jeopardy of drastically changing if funding for the VIT is even slightly diminished none the less cut in entirety. .
Lauren Cornelius	Craftsbury, VT	2015-03-13	VIT brings learning and job opportunities to rural Vermonters!
katrina perry	Newport, VT	2015-03-13	I would not be a nurse today without the VIT studio.
MarilynJackson Adams	Quincy, MA	2015-03-13	I believe education is life giving and sustaining no matter how old or young one is.
Heidi Richard	Johnson, VT	2015-03-13	I am a VTC nursing student using VIT every week for class. The program is a vital to access to higher education in our state.
Nellie Dalrymple	Jamestown, NY	2015-03-14	Vermont is usually not taken seriously and I believe it should be. It might be small but it is still a great little state.
Erika Stovich	Mashpee,, MA	2015-03-14	I have a daughter who just graduated from Vermont Tech with an RN degree. The program made it possible to go to school due to the fact that she lives in a small town...
Holly Loukes	Derby, VT	2015-03-14	I am a 21 year old student in Vermont Technical College's LPN satellite program in Newport. My dream/goal is to become a nurse and it would not be possible for me if it were not for this satellite program, due to having a baby and a family. I feel that taking away our satellite funding would diminish the ability for those of us who have families and cannot travel every day or move to get the education we desire. Please rethink this.
Jennifer Hill	Craftsbury Common, VT	2015-03-14	Im signing this because without it I wouldn't have been able to get my LPN. It is a valuable asset to all Vermonters and this is something that shouldn't be taken away!
cassandra cota	Newport, VT	2015-03-14	I am enrolled in the respiratory therapy class in newport. Getting into this program is a dream come true for me and I would not be and be to travel hours away for schooling. I'm sure this is an expensive program, but it honestly changes a person's life for the better. And that out ways any cost!

Name	Location	Date	Comment
Heidi Florio-Manning	Tampa, FL	2015-03-14	For a friend
Laurence Wall	Newport, VT	2015-03-14	It is worth it.
Morgan Miller	Jeffersonville, VT	2015-03-14	I am currently in the Randolph LPN program and will be attending Williston next year for the RN program. Although this doesn't directly effect my education, I know many people who will make amazing nurses and contribute well to vermont who need these VIT programs to follow through with the dreams they've been working so hard for. At this point vermont needs all the people it can get who want to better themselves and contribute back to the state. Anything stopping those people would just be shooting ourselves in the foot.
Ashlee daigle	Greenwich, CT	2015-03-14	I am going to be in the RN program at Newport for fall Of 2015 and would love to be able to go on and reach my goal of becoming an RN
Jenna Betts	Newport, VT	2015-03-14	I also want to become a nurse and have a family to raise and this is the only way to have my dream come true!
Jeannette Tergliafera	Newport, VT	2015-03-14	Every one needs an oppportunity to obtain an education
Amanda Perkins	Groton, VT	2015-03-14	I am a registered nurse. I utilized VIT to become a nurse. Without it I may not have been able to finish school. I am now a nursing educator and my students depend on this technology.
Christina John	St. Johnsbury, VT	2015-03-14	I got my LPN through VTC and am finishing up my ADN through VTC. This would not have been possible without VIT. VIT allowed me the ability to continue to work to support my family and pursue my goals. Please don't cut VIT.
Tara Brown	Morgan, VT	2015-03-14	I signed this petition because without VIT I would never been able to earn my associates in nursing. Now I have a career that pays enough so that my children and I no longer need to rely on food stamps and fuel assistance. I also have employer supported health insurance. None of this would have been possible without VIT.
McKeinzie Lathrop	Montpelier, VT	2015-03-14	Currently a VTC who might lose their opportunity to go school tomorrow
Jessica Prevost	Hyde Park, VT	2015-03-14	I am a current and future VIT nursing student.
Naomi Badger	Irasburg, VT	2015-03-14	I believe that VIT is an essential part of today's education and the future of our children. Living in a rural area often makes it hard for people to afford and access the education they desire. If it wasn't for VIT I may not have gotten to where I am today. VIT started my career as a nurse and through continuing my education via VIT and online programs I am now and Advsnced Practice Nurse. Don't take away our children's chances at obtaining a higher education by not continuing to find VIT!!
Denise Goodwin	Lyndonville, VT	2015-03-14	I live in NEK of Vermont, and never would have it been possible for me to achieve my nursing degree if it hadn't been for VIT. As the need for nurses continues to increase all over the state, loosing VIT would not only be devistating to our communities who are already struggling to provide sufficient staff, it would be devistating to our colleges who support VIT. It's just a really bad idea!
Michelle Wade	east Wallingford, VT	2015-03-14	without VIT I would not be an LPN who continued to be an RN who continued to be a BSN who continued to be an MSN and Teach Nursing over VIT and then continue to be a NP and a Primary care provider in Vermont - DO NOT TAKE AWAY funding for VIT
Kristen Greenia	Fairfax, VT	2015-03-14	My RN program relied on VIT for access to classroom content. Without it, I would not currently work in an OR in a field already suffering from the nursing shortage.

Name	Location	Date	Comment
Connie Robichaud	Lyndonville, VT	2015-03-14	because it opens doors for those who might not be able to further their education without it.
Ashley Currier	Jeffersonville, VT	2015-03-15	As a VTC LPN AND RN graduate with VIT classes- I feel This is something that needs to be funded!
casey nadeau	Newport, VT	2015-03-15	I used vit for my nursing degree in college without that some college degrees and programs would be unavailable and would cut down jobs and education in the state of vt.
Mysha Dompierre	Eden Mills, VT	2015-03-15	I am using VIT this year for my nursing classes and without it I would not be graduating with my associates in nursing. I believe that other people should get the opportunity also.
Kristin Reed	Sheldon, VT	2015-03-15	I am a student right now using VIT, and I am getting my RN. I also received my LPN through a VIT studio program. I would not be a nurse if these studios were not an option. Please re-instate. It is needed.
Emily Abbott	South Royalton, VT	2015-03-15	As a VTC PN student this is a very important issue to me! Every signature helps!!
Charla Nadeau	Island Pond, VT	2015-03-15	I was able to receive my ADN in nursing through VIT. Without it I wouldn't have been able to return to school without uprooting my family to Rutland, Vt.
Ashley Leonard	West Burke, VT	2015-03-15	VIT changed my life, i wouldn't be a nurse without it.
Mary Conrad	Cuttingsville, VT	2015-03-15	If not for VIT, I would not be an RN today. I am a single mother and sole provider for my family. VIT is a priceless resource in our rural state.
Camila Mugnani	Brattleboro, VT	2015-03-15	I believe that programs like VIT are crucial to provide training opportunities and cut down on fuel consumption.
heather graff	Swanton, VT	2015-03-15	I want to attend soon, and would like to use a VIT.
Eric Erwin	Newport, VT	2015-03-15	VIT is critical to serving students and citizens in the rural areas of Vermont. Access to VIT saves thousands of dollars every year in transportation costs.
Heather McAllister	Grand Isle, VT	2015-03-15	I am a student that uses these services and they are crucial to my education!
Colleen Matteson	Ludlow, VT	2015-03-15	I am a graduate of VTC, if not for having the VIT site in Springfield I would not have been able to get my LPN. Or for that matter wouldn't be an RN now. VIT gives the opportunity to go to school closer to where you live and still achieve the education you have strived for. please Shumlin gong cut this funding!!!!
Michalle Merchant	Jeffersonville, VT	2015-03-15	My daughter is in this nursing program this will effect so many
Jessica cooper	Chelsea, VT	2015-03-15	I am currently a VTC nursing student. By cutting the funding to the program you will be making it harder for wonderful programs like the one I am in make it possible to train well qualified nurses throught the state of Vermont. Considering the current shortage of nursing staff, this would not be a good decision for the state of Vermont to make.
Robin Gallup	West Dover, VT	2015-03-15	Its the right thing to do. We need more tech not less
Marie-Christine Potvin	Burlington, VT	2015-03-15	I have used VIT for 10+ years to connect occupational and physical therapists across the state through trainings and workshops
Carol Hodges	Saint Johnsbury, VT	2015-03-15	i live in the NEK and without this resource most of the potential healthcare students would not be able to travel to receive their education.
Ruth Dennis	Burlington, VT	2015-03-15	VIT makes it possible for many Vermonters, particularly women most challenged by poverty, and their families to gain the education they need to make a better life for their families and become self sufficient. This would be silly to cut and, in the long term, not economically wise for the State.
Nykia Hunter	South Burlington, VT	2015-03-15	I use these technologies in order to attend trainings at a reasonable cost that keep me up to date in my field and in the state!

Name	Location	Date	Comment
Kate Williams	Dorset, VT	2015-03-15	Please continue to support VIT, as it is a valuable resource for workforce training.
Anne Mele	Shaftsbury, VT	2015-03-15	This is very important to me
Peggy Owen Sands	Burlington, VT	2015-03-15	Using VIT has enabled me to learn with the pediatric physical and occupational therapists around the state to help keep the quality of services provided as high as possible. We have worked together over VIT for the past 8 to 9 years and the experience has helped therapists who are working alone to feel connected and to gain access to education that would impossible to attend in any other fashion. VIT has cut down the cost of education for continuing education to employers because we do not have to travel far for excellent educational opportunities. And, together, we have created fact sheets that we can share with colleagues and the public to enhance the education of many in the state of VT.
Karen Gartner	Rutland, VT	2015-03-15	I have had the opportunity to participate in state wide meetings with colleagues through VIT. It has allowed for improved communication and networking for pediatric therapists throughout the state which has been very valuable for children and families. please provide funding so that this opportunity can continue!
Grace Nelson	Jericho, VT	2015-03-15	I have used VIT for my continuing education as an Occupational Therapist
Pam Barnard	Waitsfield, VT	2015-03-15	Vit opens the doors to many people to access other professionals and educational opportunities. As a physical therapist working in schools I have stayed connected with my colleagues and help stay current with research.
Diane Solomon	Barre, VT	2015-03-15	This has been a key way to share education and research resources with my colleagues across the state.
Kathleen Fabian	Rio Rancho, NM	2015-03-15	I am the nursing director for Maternal Child Health from 2003-2010. I hired a lot of great nurses who used VIT to complete their program. The NEK cannot afford to lose this program. Unemployment will surely rise in that area due to lack of education and training
Robin Coulter	Derby Line, VT	2015-03-15	My daughter was accepted to this program and will lose out on a very important opportunity for her career of becoming an RN.
Bailee Layn-Gordon	Monkton, VT	2015-03-15	This is a vital communication and education tool for this rural state. As an OT working with students with special needs I often attend VIT sites for workshops and to network with fellow therapists. This is vital to making sure we are connected in all areas of the state and to share ideas that can help our students learn and grow.
Sherise simpson	Lyndonville, VT	2015-03-16	i got my Lpn through Vic vit
Rebecca Harris	Wolcott, VT	2015-03-16	Im signing this because I am a nursing student at Vermont technical college and the VIT funding is essential for RN students education
Kaitlin Adams	Albany, VT	2015-03-16	I'm signing because this is a great program for the working class and families!! Vermont pushes for everyone to go to college but many people have families and job and can't afford to go to school 5 days a week. But as usual, Shumlin is only thinking of the wealthy and is trying to completely diminish the middle class of having any life or hope for a better life. Sign the petition so Vermonters can follow their dreams and support their families at the same time!
Leanne Dickens	North Troy, VT	2015-03-16	I'm signing this petition because I have friends who are using the satellite program right now and without the program they have no other way to complete their degrees due to other commitments and financial situations. I feel that these programs are an absolute must for working mom's and dad's or even young people without any children who have other commitments that would otherwise prevent them from reaching their goals and becoming educated.

Name	Location	Date	Comment
Karen Downey	Burlington, VT	2015-03-16	As an Occupational Therapist working in the school districts of Vermont, VIT has provided vital for my continuing education and collaboration with other school based Occupational and Physical Therapists across the state. The loss of VIT would be very detrimental for our Vermont school-based Occupational and Physical Therapists serving children with special education services.
Alexis Burnham	Bethel, VT	2015-03-16	This will affect me trying to get my RN in springfield
Amanda Palmer	Williamstown, VT	2015-03-16	I have used the VIT system during college to earn my nursing degree and afterward to maintain my continuing education. Without funding to continue using VIT to educate future nursing students, the colleges are going to have to reduce locations and class sizes. As a LPN in the work force, we are already feeling and struggling with a nursing shortage. This will likely increase that burden on employers, staff and patients. Please reconsider.
Patricia Thomas	Pittsford, VT	2015-03-16	VIT is a valuable resource that allows for Vermonter to access enriching classes, lectures etc.
Damian poludin	Hartford, VT	2015-03-16	this is IMPORTANT!
Martha Dezotell	Barre, VT	2015-03-16	Without nurses there are also a shortage of LNA and I feel the pinch working more hours then the normal person
Bryarlie Buckley	Barre, VT	2015-03-16	I am a vtc LPN studnt and this directly affects me and my classmates! This is a wonderful program and there shouldn't be any reason to cut it down
Joanne Montanye	Saint Albans City, VT	2015-03-16	<p>In 20 years as a VIT studio technician, I have seen lives transformed, careers built, and communities strengthened; all because VIT brought educational opportunity within reach of Vermonters disenfranchised by time, distance, access, and life circumstances.</p> <p>I watched people who previously had no chance at a future, seize the opportunity, do the work, and become: nurses, electricians, educators, plumbers, computer engineers, special ed teachers, librarians, master gardeners, early child ed specialists, business majors, EMTs, therapists and administrators. Some of them went on to law school. Some of them ran for office- and won!</p> <p>VIT is also used by businesses, organizations, and municipal and state agencies to deliver training sessions to their own employees- it provides efficiencies of numbers, classroom structure, and simultaneous multi-platform connectivity that cannot yet be replicated via DIY internet chat utilities.</p> <p>Politicians and pundits complaining about brain drain should finally recognize that these hard-working VIT students are the ones who live here, work here, study here, build careers and businesses here, and STAY here. VIT delivers the best ROI in the state of Vermont, because it invests in the people. To discard this under the pretense of "saving" the people a few short-term dollars is a failure of logic and an abdication of responsibility to the public.</p>
Hayley leblanc	North Troy, VT	2015-03-16	I'm going to school to be an RN and to be able to do that I need this program. I've put a lot of hard work and effort for this career and I'm not throwing that away now.
Deb Sharpe	Richmond, VT	2015-03-16	I'm signing because VIT is the means by which related service providers (Speech and Language, Occupational, and Physical Therapists stay current on research and best practice for meeting the needs of children with special education needs throughout the state. Eliminating the capacity to bring speakers to our rural areas via VIT will result in even more inequity among the school districts across the state.

Name	Location	Date	Comment
Kara Santaw	North Troy, VT	2015-03-16	I'm signing because the VIT program allows me to go to school for Respiratory Therapy. Without this program I wouldn't be able to follow my dream of becoming an RT.
Sam Wright	Dover, NH	2015-03-16	Respiratory Care!!!
Anna Thorburn	Woodstock, VT	2015-03-16	I am a mother of 6 and travel 1 hour to my VIT site. Without this technology, many of us will not be able to attend college and obtain degrees that help support our families. VIT is consistent with the culture of Vermont & is a necessity for promoting education.
Beth Pastor	White River Junction, VT	2015-03-16	VIT is critical for me as a school physical therapist - it is the only way I can regularly meet with and review research with the other school therapists in the state.
Jenny LeBlanc	North Troy, VT	2015-03-16	I am signing this petition so that my daughter can finish her RN degree without having to travel hours each way for her to finish this degree. MANY students use this VIT for schooling!!!
Lynnette Devereux	Belmont, VT	2015-03-16	This is a very important step in education. I feel it is needed here in VT...It will hurt a lot of people here.
Nancy Columb	Rutland, VT	2015-03-16	I use this technology almost weekly and it saves me from driving halfway across the state each time. This in turn saves me wear & tear on my car and time which can be spent doing more productive things than driving.
Kara Campbell	North Troy, VT	2015-03-17	Living in rural VT is difficult!
kaicey lasher	Troy, VT	2015-03-17	I'm a 20 year old woman expecting a child in July and I want to become a nurse to support my family using these programs. Cutting funding for education shouldn't be an option, cutting absurdly large government paychecks should be.
Paul Woodruff	Colchester, VT	2015-03-17	Have used the VIT sites for training of pediatric PT and OT's throughout the state. Great opportunity to reach a number of people.
andy start	North Troy, VT	2015-03-17	It is imperative that everyone has a chance to advance themselves. We spend far to much money on those who do not. Shouldn't we reward those who want more?
Karen Szely	Newport, VT	2015-03-17	In 2011, I completed and was certified as an Extension Master Gardener through a UVM course offered at 17 VIT studio sites throughout Vermont. I, and other students living in the Northeast Kingdom, attended weekly classes at the VIT Newport studio located in the North Country Career Center. Every year hundreds of Vermonters are given an opportunity to take this important environmental and educational course because of VIT. Please restore funding to VIT, a very valuable Vermont resource.
gregory lamson	Milton, VT	2015-03-17	this service is needed
Mary E. Fleck	Barton, VT	2015-03-18	We need VIT more than ever to bring educational programming to our rural areas, where decreased income combined with transportation and geographic challenges continue to be barriers to many of our residents. Talk about bad timing!
Paula Schramm	Enosburg Falls, VT	2015-03-18	I have benefitted from VIT by being able to give testimony to & to hear answers from legislators and Administration officials, and to listen to the live testimony of Vermonters all over the state. This is just one small aspect of what VIT resources enable Vermonters to do. The workforce training and degree programs that are made accessible through VIT are a wonderful investment in people, allowing them to become self-sufficient and find good jobs. Destroying the resource that makes this possible is "penny-wise and pound-foolish"and makes no sense.

Name	Location	Date	Comment
Catherine Paradiso	Burlington, VT	2015-03-19	As a school nurse, I appreciate the Nursing Grand Rounds to add to my continuing education. Please don't cut VIT!!!
Paula Crossett	Montpelier, VT	2015-03-19	As a school nurse I have been to the Montpelier site often to participate in medical conferences to keep me up to date with my school nurse practice. There are very few opportunities for school nurses to keep current and not be out of school. I am also signing as a mother whose son attends the plumbing and heating classes via VIT through the Department of Labor. With these classes he will be able to increase his education and will have the skills for employment at livable wages.
Kathleen Gorton	Sheldon, VT	2015-03-19	I attend UVM AHEC Nursing Grand Rounds for school nurses 5 times a year at ST Albans site. These sessions are valuable professional development for school nurses all over the state.
Jeanette Hutchins	WRJct., VT	2015-03-19	AHEC presents the mosr pertinent and comprehensive continuing education available for Vermont school nurses. I am not a VT resident but am employed in VT and pay my share of taxes to this state.
Diana Smith	Essex Junction, VT	2015-03-19	Nursing Grand Round is a valuable resource for school nurses
Lynn Miner	North Clarendon, VT	2015-03-19	VIT provides a valuable educational connection for VT School Nurses
Louise Mongeon RN, NCSN	Burlington, VT	2015-03-19	As a school nurse in VT, 6 times a year we access VIT for training that are not available any other way. Please restore the funding.
Claire Molner	Proctor, VT	2015-03-19	I believe that VIT saves time and energy for the people who use it. As a member of the VSSNA I appreciate the ability to participate in Nursing Grand Rounds close to my home rather than having to travel to obtain mandatory in-service education. I also think that using VIT allows access to information such as hearings, committees, classes and even gardening tips not easily available. Please reconsider de-funding the VIT program.
Lynne Jakubauskas	Montpelier, VT	2015-03-19	VIT is a vital resource for school nurses in Vermont. We "meet" five times a year to receive updated health information and to network with school nurses from the entire state. PLEASE continue to fund VIT!
Lois Thibault	Williamsville, VT	2015-03-19	I am able to benefit as a school nurse with continued education and opportunities through the use of VIT.
Lorri LePage	Newport, VT	2015-03-19	PLEASE put some thought into this budget. VIT is the most economical form of education there is. WE are an extremely transportation challenged state. We are an extremely poverty stricken state. We NEED resources such as this one to move forward. No cuts. Raise revenue.
Arlene Hanson	Townshend, VT	2015-03-19	I'm signing this petition because I'm a school nurse and the AHEC Grand Rounds that I access via the VIT at Brattleboro Union High is the most pertinent professional development offered for school nursing and it would be hard to replace for rural school nurses.
Deborah Norotsky	South Burlington, VT	2015-03-19	I am a school nurse who has learned a great deal from the VIT Nursing Grand Rounds series
Tara McMahon	Essex Junction, VT	2015-03-19	I am a school nurse and have been to the VIT site in St. Albans for the School Nurse Grand Rounds program. Without the VIT site, I would not have been able to attend these very valuable educational opportunities

Name	Location	Date	Comment
Brenda Perkins	Williston, VT	2015-03-19	Vermont is a rural state where it is hard to have access to relevant professional development. Through VIT, school nurses, who work often in isolation from other medical/health professionals, have a chance to participate in Nursing Grand Rounds with school nurses from all over the state. An invaluable program that directly benefits Vermont's youth.
Shelley Torrey	Hinesburg, VT	2015-03-19	The VIT sites are important for continuing education opportunities for school nurses.
Martha Israel	Montpelier, VT	2015-03-19	This program is an integral part of my continuing education and gaining professional competencies. Since Vt is such a rural state with few/no continuing education opportunities for school nurses, we need this type of service.
Cor Trowbridge	Brattleboro, VT	2015-03-19	Brattleboro Community TV broadcasts public hearings recorded by VIT. There isn't another venue that could substitute for the function of gathering and sharing statewide testimony.
Holly Robbins	Burlington, VT	2015-03-19	AHEC provides Nursing Grand Rounds for School Nurses every other month and I rely on them to stay current in my practice. They have been very sensitive and responsive to changes in the school nurse world, and have provided us great inservices every time for free!!
Ellen Wakker	West Rutland, VT	2015-03-19	I count on the Nursing Grand Rounds as a way to stay on top of the game in school nursing. so much of what is being taken away in this year's budget affects those of us working hard to stay afloat financially. The grand rounds are a free resource for us and eliminates driving to Burlington to attend a workshop.
Christine Kierstead	Brattleboro, VT	2015-03-19	I think VIT is a vital resource in our community. I attend school nurse conferences here and once took a microbiology class through VIT. I was very grateful that I didn't have to travel all the way up to Randolph Ctr every week.
Deborah Sanguinetti	Barre, VT	2015-03-20	Continuing education is essential to my continued professional development and career advancement. I can take advantage of Interact TV offerings in Montpelier when I would not be able to drive to the same session being held somewhere in the state. We need to increase the use of Interact TV and save mileage.
Maureen macdonald	Brattleboro, VT	2015-03-20	I am a retired school nurse and look forward to these professional events which I also participated in when I worked. the time and location are essential in rural Vermont.
Al Walskey	Williston, VT	2015-03-20	As a legally blind disabled Vietnam Veteran who no longer drives I find it more doable to go to a VIT site to participate and/or testify on important state political issues. Recently, when I was unable to get to a VIT site I was able to watch the testimony of others from my home computer. I urge the legislature to provide accommodations to the disabled under the provisions of the ADA by upgrading the VIT system so that the disabled can testify from home via the Internet. :-). Sadly, transportation and the lack of accommodations act as a barrier to this vulnerable underserved population.
Linda Maloney	Enosburg Falls, VT	2015-03-20	I'm signing because the Episcopal Diocese of Vermont depends on VIT to communicate with our far-flung parishes, especially in preparation for our annual convention!

Recipient: Gov. Peter Shumlin

Letter: Greetings,

Please Restore Funding to Vermont Interactive Technologies

As supporters of Vermont Interactive Technologies (VIT), we are writing to request your support.

Your FY 2016 budget recommends \$0 for Vermont Interactive Technologies. If funding is NOT restored, VIT will cease to exist beginning July 1, 2015.

VIT is a valuable resource in Vermont. Without it, thousands of us Vermonters will be denied access to workforce training and degree programs.

The majority of programming that takes place over VIT is large group training. Web based services like Skype cannot replace VIT for these purposes.

An investment in VIT is more than an investment in a distance learning system. It is an investment in Vermonters because it gives us local access to the opportunities we need to learn, work and survive in Vermont. Please support Vermont Interactive Technologies' budget request.
