6 Month Follow-up of 2012 Graduating Class

The following chart provides a summary of the outcomes last year's RTCC graduates have achieved. As is typical of an RTCC graduating class the large majority of those contacted, 94%, are either in college, employed or in military service. The number of RTCC graduates who are enrolled in college (46%) is above the national average and it is especially encouraging to see 34% of our students enrolled in a program that is related to their technical program.

Of those students who graduated in June of 2012:

Status	# of Students	% of Students

4. Employed in a field unrelated to their program	12	17.1
