

House Health Care Committee

May 6, 2015

(Submitted by Wendy Davis, MD – Professor of Pediatrics, UVM College of Medicine)

Estimated vaccination coverage by state and vaccination among children enrolled in kindergarten: 2013-2014 school year

New England States **with** philosophic exemption:

<u>Vaccine</u>	<u>MMR</u>	<u>DTaP</u>	<u>Varicella (2)</u>	<u>Total NME*</u>	<u>Total '13-14</u>	<u>Total '12-13</u>
Maine	89.9%	94.4%	93.8% (req. 1 dose only)	5.2%	5.5%	4.3%
Vermont	91.2%	92.0%	89.4%	6.1%	6.2%	6.1%

New England states **without** philosophic exemption:

Connecticut	96.9%	97.0%	96.7%	1.6%	1.9%	1.7%
Massachusetts	95.1%	93.0%	93.9%	1.1%	1.5%	1.5%
New Hampshire**	≥94.7%	≥94.7%	≥94.7%	2.5%	2.8%	2.5%
Rhode Island	95.1%	96.0%	94.7%	0.7%	1.0%	1.1%
U. S. median	94.7%	95.0%	93.3%		1.8%	

Healthy People 2020 target = 95%

*NME = nonmedical exemption (religious + philosophic)

Total = total exemptions (medical + nonmedical)

**Proportion enrolled may be <100% (incomplete information re: actual current enrollment)
