

April 2, 2015

Dear Rep. Grad:

As a Vermont voter and concerned citizen, I strongly urge you to oppose and vote against the recently "modified" gun bill that just passed the Senate and now is headed to you in the House Judiciary Committee. Vermont has no gun problems or major violent crime issues and everyone seems to agree we do NOT need any new gun laws. This bill to ban felons and mentally ill from owning guns may sound nice but has the potential for abuse in the future and will certainly lead to more gun control legislation. Vermont Gun Sense which seems to have connections from out of state has already said they will be pushing more gun control legislation if this bill passes. Vermont as you know has a solid reputation as being pro Second Amendment and Freedom friendly but if this gun bill passes (even without the background checks provision), this will no longer be the case. So please do what's right and speak out against and vote NO on this unnecessary gun bill in the House Judiciary Committee and full House to KEEP VERMONT SECOND AMENDMENT FRIENDLY! Thank You!

Sincerely,  
Chris Gearhart
