

Written Testimony received February 18, 2016 via e-mail

Chairman Klein and House Natural Resources and Energy Committee Members:

H.577 is on your calendar for a possible vote on Friday afternoon and we wanted to communicate that Vermont Electric Cooperative is supportive of this housekeeping bill. The bill would amend Title 30 Sections 2924 and 3044 so that the thresholds are consistent with Section 248 of the same Title. We expect the inconsistency was just an oversight when changes were made in 2011 to Section 248. Thank you for considering this change that will facilitate the co-op being able to efficiently implement our responsibilities in the best interest of our members.

Andrea Cohen, Manager
Government Affairs and Member Relations
Vermont Electric Cooperative
