Subject: VIT funding

March 9, 2015

Dear Senate Appropriations Committee and Chair Jane Ketchel,

It has come to my attention today that funding for VIT services is going to be reduced. I urge you to keep funding this important resource. There are many educational opportunities accessed via interactive television, eg as a school nurse it is necessary to seek out affordable educational opportunities and to network with peers and health care providers throughout Vermont. The Nursing Grand Rounds that are accessed by many school nurses serving rural school populations are an example of this network.

Please continue to fund VIT for all Vermonters.

Sincerely,

Hilary Mack RN

School Nurse.
