Subject: Vit

I own laplantes Plumbing and heating and I have learned that vit is going away due to funding. I believe it's a mistake. Show a new proposed plan for this education at a cheaper better plan that is approved by the administration before this program is cut. I have used this program for my entire 22 year career to continue education, that you as the leader of this state require for my professional liscense to be valid. This is the best value to continue the states requirements. Until there are better software or systems to be applied we should continue. Or what is our license actually meaning to the state.
