

Transportation and Energy Efficiency Handout, Senate Natural Resources Committee
Chris Cole, VTrans Deputy Secretary, April 21, 2015

Background Information:

- ✓ One third of Vermont's total energy use is for transportation and a vast majority of that energy is from gasoline and diesel.
- ✓ Transportation's contribution to GHG emissions:

- ✓ Vermont's Electric Vehicle Deployment:

- ✓ Vermont Public EV charging stations: Drive Electric Vermont's Interactive EV Charging Station Map:
