[Repealed.]~~

~~* * *~~

~~(d) Requirement to participate before the District Commission or the Secretary.~~

~~(1) Participation before District Commission. An aggrieved person shall not appeal an act or decision that was made by a District Commission unless the person was granted party status by the District Commission pursuant to subdivision 6085(c)(1)(E) of this title, participated in the proceedings before the District Commission, and retained party status at the end of the District Commission proceedings. In addition, the person may only appeal those issues under the criteria with respect to which the person was granted party status. However, notwithstanding these limitations, an aggrieved person may appeal an act or decision of the District Commission if the Environmental judge determines that:~~

~~(A) there was a procedural defect that prevented the person from obtaining party status or participating in the proceeding;~~

~~(B) the decision being appealed is the grant or denial of party status;~~
~~or~~

~~(C) some other condition exists that would result in manifest injustice if the person's right to appeal was disallowed. [Repealed.]~~

~~(2) Participation before the Secretary.~~

~~* * *~~

~~(e) Act 250 jurisdictional determinations by a district coordinator.~~

~~(1) The appellant shall provide notice of the filing of an appeal to each person entitled to notice under subdivisions 6085(c)(1)(A) through (D) of this title, to each person on an approved subdivision 6085(c)(1)(E) list, and to the Natural Resources Board.~~

~~(2) Failure to appeal within the time required under subsection (a) of this section shall render the decision of the district coordinator under subsection 6007(c) of this title the final determination regarding jurisdiction~~

~~under chapter 151 of this title unless the underlying jurisdictional opinion was not properly served on persons listed in subdivisions 6085(c)(1)(A) through (D) of this title and on persons on a subdivision 6085(c)(1)(E) list approved under subsection 6007(c) of this title. [Repealed.]~~

* * *

(g) Consolidated appeals. The Environmental Division may consolidate or coordinate different appeals where those appeals all relate to the same project.

* * *

~~(i) Deference to Agency technical determinations. In the adjudication of appeals relating to land use permits under chapter 151 of this title, technical determinations of the Secretary shall be accorded the same deference as they are accorded by a District Commission under subsection 6086(d) of this title. [Repealed.]~~

* * *

(k) Limitations on appeals. Notwithstanding any other provision of this section:

~~(1) there shall be no appeal from a District Commission decision when the Commission has issued a permit and no hearing was requested or held, or no motion to alter was filed following the issuance of an administrative amendment;~~

~~(2) a municipal decision regarding whether a particular application qualifies for a recorded hearing under 24 V.S.A. § 4471(b) shall not be subject to appeal;~~

~~(3) if a District Commission issues a partial decision under subsection 6086(b) of this title, any appeal of that decision must be taken within 30 days of the date of that decision.~~

(l) Representation. The Secretary may represent the Agency of Natural Resources in all appeals under this section. ~~The Chair of the Natural Resources Board may represent the Board in any appeal under this section, unless the Board directs otherwise.~~ If more than one State agency, ~~other than the Board,~~ either appeals or seeks to intervene in an appeal under this section, only the Attorney General may represent the interests of those agencies of the State in the appeal.

(m) Precedent. Prior decisions of the former Environmental Board, Water Resources Board, and Waste Facilities Panel shall be given the same weight and consideration as prior decisions of the Environmental Division.

(n) Intervention. Any person may intervene in a pending appeal if that

person:

(1) appeared as a party in the action appealed from and retained party status;

(2) is a party by right;

(3) ~~is the Natural Resources Board;~~ [Repealed.]

(4) is a person aggrieved, as defined in this chapter;

(5) qualifies as an “interested person,” as established in 24 V.S.A. § 4465, with respect to appeals under 24 V.S.A. chapter 117; or

(6) meets the standard for intervention established in the Vermont Rules of Civil Procedure.

(o) With respect to review of an act or decision of the Secretary pursuant to 3 V.S.A. § 2809, the Division may reverse the act or decision or amend an allocation of costs to an applicant only if the Division determines that the act, decision, or allocation was arbitrary, capricious, or an abuse of discretion. In the absence of such a determination, the Division shall require the applicant to pay the Secretary all costs assessed pursuant to 3 V.S.A. § 2809.

(p) Administrative record. The Secretary shall certify the administrative record as defined in chapter 170 of this title and shall transfer a certified copy of that record to the Environmental Division when:

~~(1) there is an appeal of an act or decision of the Secretary that is based on that record; or~~

~~(2) there is an appeal of a decision of a District Commission, and the applicant used a decision of the Secretary based on that record to create a presumption under a criterion of subsection 6086(a) of this title that is at issue in the appeal.~~

§ 8505. APPEALS TO THE SUPREME COURT

(a) Any person aggrieved by a decision of the Environmental Division pursuant to this subchapter, any party by right, or any person aggrieved by a decision of the Land Use Review Board may appeal to the Supreme Court within 30 days ~~of~~ following the date of the entry of the order or judgment appealed from, provided that:

* * * Forest Blocks * * *

Sec. 19. 10 V.S.A. § 6001 is amended to read:

§ 6001. DEFINITIONS

As used in this chapter:

* * *

(47) “Habitat connector” means land or water, or both, that links patches of habitat within a landscape, allowing the movement, migration, and dispersal of wildlife and plants and the functioning of ecological processes. A habitat connector may include features including recreational trails and improvements constructed for farming, logging, or forestry purposes.

(48) “Forest block” means a contiguous area of forest in any stage of succession and not currently developed for nonforest use. A forest block may include features including recreational trails, wetlands, or other natural features that do not themselves possess tree cover and improvements constructed for farming, logging, or forestry purposes.

(49) “Habitat” means the physical and biological environment in which a particular species of plant or wildlife lives.

Sec. 20. 10 V.S.A. § 6086(a)(8) is amended to read:

(8) Ecosystem protection; scenic beauty; historic sites.

(A) Scenic beauty, historic sites, and rare and irreplaceable natural areas. Will not have an undue adverse effect on the scenic or natural beauty of the area, aesthetics, historic sites, or rare and irreplaceable natural areas.

~~(A)~~(B) Necessary wildlife habitat and endangered species. A permit will not be granted if it is demonstrated by any party opposing the applicant that a development or subdivision will destroy or significantly imperil necessary wildlife habitat or any endangered species; ~~and~~:

(i) the economic, social, cultural, recreational, or other benefit to the public from the development or subdivision will not outweigh the economic, environmental, or recreational loss to the public from the destruction or imperilment of the habitat or species; ~~or~~

(ii) all feasible and reasonable means of preventing or lessening the destruction, diminution, or imperilment of the habitat or species have not been or will not continue to be applied; or

(iii) a reasonably acceptable alternative site is owned or controlled by the applicant which would allow the development or subdivision to fulfill its intended purpose.

(C) Forest blocks and habitat connectors. A permit will not be granted for a development or subdivision within or partially within a forest block or habitat connector unless the applicant demonstrates that a project will not result in an undue adverse impact on the forest block or habitat connector. If a project as proposed would result in an undue adverse impact, a permit may only be granted if effects are avoided, minimized, or mitigated as allowed in accordance with rules adopted by the Board.

Sec. 21. CRITERION 8(C) RULEMAKING

(a) The Land Use Review Board (Board), in collaboration with the Agency of Natural Resources, shall adopt rules to implement the requirements for the administration of 10 V.S.A. § 6086(a)(8)(C). It is the intent of the General Assembly that these rules discourage fragmentation of the forest blocks and habitat connectors by encouraging clustering of development. Rules adopted by the Board shall include:

(1) How forest blocks and habitat connectors are further defined, including their size, location, and function, which may include:

(A) information that will be available to the public to determine where forest blocks and habitat connectors are located; or

(B) advisory mapping resources, how they will be made available, how they will be used, and how they will be updated.

(2) Standards establishing how impacts can be avoided or minimized, including how fragmentation of forest blocks or habitat connectors is avoided or minimized, which may include steps to promote proactive site design of

buildings, roadways and driveways, utility location, and location relative to existing features such as roads, tree lines, and fence lines.

(3)(A) As used in this section “fragmentation” generally means dividing land that has naturally occurring vegetation and ecological processes into smaller areas as a result of land uses that remove vegetation and create physical barriers that limit species’ movement and interrupt ecological processes between previously connected natural vegetation. However, the rules shall further define “fragmentation” for purposes of avoiding, minimizing, and mitigating undue adverse impacts on forest blocks and habitat connectors. “Fragmentation” does not include the division or conversion of a forest block or habitat connector by an unpaved recreational trail or by improvements constructed for farming, logging, or forestry purposes below the elevation of 2,500 feet.

(B) As used in this subsection (a), “recreational trail” has the same meaning as “trails” in 10 V.S.A. § 442.

(4) Criteria to identify the circumstances when a forest block or habitat connector is eligible for mitigation. As part of this, the criteria shall identify the circumstances when the function, value, unique sensitivity, or location of the forest block or habitat connector would not allow mitigation.

(5) Standards for how impacts to a forest block or habitat connector may be mitigated. Standards may include:

(A) appropriate ratios for compensation;

(B) appropriate forms of compensation such as conservation easements, fee interests in land, and other forms of compensation; and

(C) appropriate uses of on-site and off-site mitigation.

(b) The Board shall convene a working group of stakeholders to provide input to the rule prior to pre-filing with the Interagency Committee on Administrative Rules. The Board shall convene the working group on or before July 1, 2025.

(c) The Board shall file a final proposed rule with the Secretary of State and Legislative Committee on Administrative Rules on or before June 15, 2026.

Sec. 22. 10 V.S.A. § 127 is amended to read:

§ 127. RESOURCE MAPPING

(a) ~~On or before January 15, 2013, the~~ The Secretary of Natural Resources shall complete and maintain resource mapping based on the Geographic

Information System (GIS) or other technology. The mapping shall identify natural resources throughout the State, including forest blocks and habitat connectors, that may be relevant to the consideration of energy projects and projects subject to chapter 151 of this title. The Center for Geographic Information shall be available to provide assistance to the Secretary in carrying out the ~~GIS-based~~ resource mapping.

(b) The Secretary ~~of Natural Resources~~ shall consider the ~~GIS-based~~ resource maps developed under subsection (a) of this section when providing evidence and recommendations to the Public Utility Commission under 30 V.S.A. § 248(b)(5) and when commenting on or providing recommendations under chapter 151 of this title to District Commissions on other projects.

(c) The Secretary shall establish and maintain written procedures that include a process and science-based criteria for updating resource maps developed under subsection (a) of this section. Before establishing or revising these procedures, the Secretary shall provide opportunities for affected parties and the public to submit relevant information and recommendations.

* * * Wood Products Manufacturers * * *

Sec. 23. 10 V.S.A. § 6093 is amended to read:

§ 6093. MITIGATION OF PRIMARY AGRICULTURAL SOILS

(a) Mitigation for loss of primary agricultural soils. Suitable mitigation for the conversion of primary agricultural soils necessary to satisfy subdivision 6086(a)(9)(B)(iv) of this title shall depend on where the project tract is located.

* * *

(5) Wood products manufacturers. Notwithstanding any provision of this chapter to the contrary, a conversion of primary agricultural soils by a wood products manufacturing facility shall be allowed to pay a mitigation fee computed according to the provisions of subdivision (1) of this subsection, except that it shall be entitled to a ratio of 1:1 protected acres to acres of affected primary agricultural soil.

* * *

* * * Road Rule * * *

Sec. 24. 10 V.S.A. § 6001(3)(A)(xii) is added to read:

(xii) The construction of a road or roads and any associated driveways to provide access to or within a tract of land owned or controlled by a person. For the purposes of determining jurisdiction under this subdivision, any new development or subdivision on a parcel of land that will be provided

access by the road and associated driveways is land involved in the construction of the road.

(I) Jurisdiction under this subdivision shall not apply unless the length of any single road is greater than 800 feet, or the length of all roads and any associated driveways in combination is greater than 2,000 feet.

(II) As used in this subdivision (xii), “roads” shall include any new road or improvement to a class 4 town highway by a person other than a municipality, including roads that will be transferred to or maintained by a municipality after their construction or improvement.

(III) For the purpose of determining the length of any road and associated driveways, the length of all other roads and driveways within the tract of land constructed after July 1, 2026 shall be included.

(IV) This subdivision (xi) shall not apply to:

(aa) a State or municipal road, a utility corridor of an electric transmission or distribution company, or a road used primarily for farming or forestry purposes; and

(bb) development within a Tier 1A area established in accordance with section 6034 of this title or a Tier 1B area established in accordance with section 6033 of this title

(V) The conversion of a road used for farming or forestry purposes that also meets the requirements of this subdivision (xi) shall constitute development.

(VI) The intent of this subdivision (xii) is to encourage the design of clustered subdivisions and development that does not fragment Tier 2 areas or Tier 3 areas.

Sec. 25. RULEMAKING; ROAD CONSTRUCTION

The Natural Resources Board may adopt rules after consulting with stakeholders, providing additional specificity to the necessary elements of 10 V.S.A. § 6001(3)(A)(xii). It is the intent of the General Assembly that any rules encourage the design of clustered subdivisions and development that does not fragment Tier 2 areas or Tier 3 areas.

(46) “Tier 3” means an area consisting of critical natural resources defined by the rules of the Board. The Board’s rules shall at a minimum determine whether and how to protect river corridors, headwater streams, habitat connectors of statewide significance, riparian areas, class A waters, natural communities, and other critical natural resources.

Sec. 27. TIER 3 RULEMAKING

(a) The Land Use Review Board, in consultation with the Secretary of Natural Resources, shall adopt rules to implement the requirements for the administration of 10 V.S.A. § 6001(3)(A)(xiii) and 10 V.S.A. § 6001(46). It is the intent of the General Assembly that these rules identify critical natural resources for protection. The Board shall review the definition of Tier 3 area, determine the critical natural resources that shall be included in Tier 3, giving due consideration to river corridors, headwater streams, habitat connectors of statewide significance, riparian areas, class A waters, natural communities, recommend any additional critical natural resources that should be added to the definition, and how to define the boundaries. Rules adopted by the Board shall include:

(1) any necessary clarifications to how the Tier 3 definition is used in 10 V.S.A. chapter 151;

(12) A future land use element, based upon the elements in this section, that sets forth the present and prospective location, amount, intensity, and character of such land uses in relation to the provision of necessary community facilities and services and that consists of a map delineating future land use area boundaries for the land uses in subdivisions (A)–(J) of this subdivision (12) as appropriate and any other special land use category the regional planning commission deems necessary; descriptions of intended future land uses; and policies intended to support the implementation of the future land use element using the following land use categories:

(A) Downtown or village centers. These areas are the mixed-use centers bringing together community economic activity and civic assets. They include downtowns, villages, and new town centers previously designated under chapter 76A and downtowns and village centers seeking benefits under the Community Investment Program under section 5804 of this title. The downtown or village centers are the traditional and historic central business and civic centers within planned growth areas, village areas, or may stand alone. Village centers are not required to have public water, wastewater, zoning, or subdivision bylaws.

(B) Planned growth areas. These areas include the high-density existing settlement and future growth areas with high concentrations of population, housing, and employment in each region and town, as appropriate. They include a mix of historic and non-historic commercial, residential, and civic or cultural sites with active streetscapes, supported by land development regulations; public water or wastewater, or both; and multimodal transportation systems. These areas include new town centers, downtowns, village centers, growth centers, and neighborhood development areas previously designated under chapter 76A of this title. These areas should generally meet the smart growth principles definition in chapter 139 of this title and the following

criteria:

(i) The municipality has a duly adopted and approved plan and a planning process that is confirmed in accordance with section 4350 of this title and has adopted bylaws and regulations in accordance with sections 4414, 4418, and 4442 of this title.

(ii) This area is served by public water or wastewater infrastructure.

(iii) The area is generally within walking distance from the municipality's or an adjacent municipality's downtown, village center, new town center, or growth center.

(iv) The area excludes identified flood hazard and river corridor areas, except those areas containing preexisting development in areas suitable for infill development as defined in section 29-201 of the Vermont Flood Hazard Area and River Corridor Rule.

(v) The municipal plan indicates that this area is intended for higher-density residential and mixed-use development.

(vi) The area provides for housing that meets the needs of a diversity of social and income groups in the community.

(vii) The area is served by planned or existing transportation infrastructure that conforms with "complete streets" principles as described under 19 V.S.A. chapter 24 and establishes pedestrian access directly to the downtown, village center, or new town center. Planned transportation infrastructure includes those investments included in the municipality's capital improvement program pursuant to section 4430 of this title.

(C) Village areas. These areas include the traditional settlement area or a proposed new settlement area, typically composed of a cohesive mix of residential, civic, religious, commercial, and mixed-use buildings, arranged along a main street and intersecting streets that are within walking distance for residents who live within and surrounding the core. These areas include existing village center designations and similar areas statewide, but this area is larger than the village center designation. Village areas shall meet the following criteria:

(i) The municipality has a duly adopted and approved plan and a planning process that is confirmed in accordance with section 4350 of this title.

(ii) The municipality has adopted bylaws and regulations in accordance with sections 4414, 4418, and 4442 of this title.

(iii) Unless the municipality has adopted flood hazard and river corridor bylaws, applicable to the entire municipality, that are consistent with the standards established pursuant to 10 V.S.A. § 755b (flood hazard) and 10 V.S.A. § 1428(b) (river corridor), the area excludes identified flood hazard and river corridors, except those areas containing preexisting development in areas suitable for infill development as defined in 29-201 of the Vermont Flood Hazard Area and River Corridor Rule.

(iv) The municipality has either municipal water or wastewater. If no public wastewater is available, the area must have soils that are adequate for wastewater disposal.

(v) The area has some opportunity for infill development or new development areas where the village can grow and be flood resilient.

(D) Transition or infill area. These areas include areas of existing or planned commercial, office, mixed-use development, or residential uses either adjacent to a planned growth or village area or a new stand-alone transition or infill area and served by, or planned for, public water or wastewater, or both. The intent of this land use category is to transform these areas into higher-density, mixed-use settlements, or residential neighborhoods through infill and redevelopment or new development. New commercial linear strip development is not allowed as to prevent it negatively impacting the economic vitality of commercial areas in the adjacent or nearby planned growth or village area. This area could also include adjacent greenfields safer from flooding and planned for future growth.

(E) Resource-based recreation areas. These areas include large-scale resource-based recreational facilities, often concentrated around ski resorts, lakeshores, or concentrated trail networks, that may provide infrastructure, jobs, or housing to support recreational activities.

(F) Enterprise areas. These areas include locations of high economic activity and employment that are not adjacent to planned growth areas. These include industrial parks, areas of natural resource extraction, or other commercial uses that involve larger land areas. Enterprise areas typically have ready access to water supply, sewage disposal, electricity, and freight transportation networks.

(G) Hamlets. Small historic clusters of homes and may include a school, place of worship, store, or other public buildings not planned for significant growth; no public water supply or wastewater systems; and mostly focused along one or two roads. These may be depicted as points on the future land use map.

(H) Rural; general. These areas include areas that promote the

preservation of Vermont's traditional working landscape and natural area features. They allow for low-density residential and some limited commercial development that is compatible with productive lands and natural areas. This may also include an area that a municipality is planning to make more rural than it is currently.

(I) Rural; agricultural and forestry. These areas include blocks of forest or farmland that sustain resource industries, provide critical wildlife habitat and movement, outdoor recreation, flood storage, aquifer recharge, and scenic beauty, and contribute to economic well-being and quality of life. Development in these areas should be carefully managed to promote the working landscape and rural economy, and address regional goals, while protecting the agricultural and forest resource value.

(J) Rural; conservation. These are areas of significant natural resources, identified by regional planning commissions or municipalities based upon existing Agency of Natural Resources mapping that require special consideration for aquifer protection; for wetland protection; for the maintenance of forest blocks, wildlife habitat, and habitat connectors; or for other conservation purposes. The mapping of these areas and accompanying policies are intended to help meet requirements of 10 V.S.A. chapter 89. Any portion of this area that is approved by the LURB as having Tier 3 area status shall be identified on the future land use map as an overlay upon approval.

(b) The various elements and statements shall be correlated with the land use element and with each other. The maps called for by this section may be incorporated on one or more maps; and may be referred to in each separate statement called for by this section.

(c) The regional plan future land use map shall delineate areas within the regional planning commission's member municipalities that are eligible to receive designation benefits as centers and neighborhoods when the future land use map is approved by the Land Use Review Board per 10 V.S.A. § 6033. The areas eligible for designation as centers shall be identified on the regional plan future land use map as regional downtown centers and village centers. The areas eligible for designation as neighborhoods shall be identified on the regional plan future land use map as planned growth areas and village areas in a manner consistent with this section and chapter 139 of this title. This methodology shall include all approved designated downtowns, villages, new town centers, neighborhood development areas, and growth centers existing on December 31, 2025, unless the subject member municipality requests otherwise.

(d) With the exception of preexisting, nonconforming designations approved prior to the establishment of the program, the areas eligible for

designation benefits upon the Land Use Review Board's approval of the regional plan future land use map for designation as a center shall not include development that is disconnected from a downtown or village center and that lacks an existing or planned pedestrian connection to the center via a complete street.

(e) The Vermont Association of Planning and Development Agencies shall develop, maintain, and update standard methodology and process for the mapping of areas eligible for Tier 1B status under 10 V.S.A. § 6033 and designation under chapter 139 of this title. The methodology shall be issued on or before December 31, 2024, in consultation with the Department of Housing and Community Development and Natural Resources Board.

Sec. 49. REGIONAL PLANNING COMMISSION STUDY

(a) The Vermont Association of Planning and Development Agencies (VAPDA) shall hire an independent contractor to study the strategic opportunities for regional planning commissions to better serve municipalities and the State. This study shall seek to ensure that the regional planning commissions are statutorily enabled and strategically positioned to meet ongoing and emerging State and municipal needs and shall review the following: governance, funding, programs, service delivery, equity, accountability, and staffing.

(b) A stakeholder group composed of the Vermont League of Cities and Towns, Vermont Council on Rural Development, the Department of Housing and Community Development, the Agency of Administration, the Office of Racial Equity, legislators, and others will be invited to participate in the study to provide their insights into governance structure, accountability and performance standards.

(c) The study shall identify the gaps in statutory enabling language, structure, and local engagement and make recommendations on how to improve and ensure consistent and equitable statewide programming and local input and engagement including methods to improve municipal participation; the amount of regional planning grant funding provided to each regional planning commission relative to statutory responsibilities, the number of municipalities, and other demands; and how to make it easier for municipalities to work together.

(d) On or before December 31, 2024, the study report shall be submitted to the House Committees on Environment and Energy, on Commerce and Economic Development, and on Government Operations and Military Affairs and the Senate Committees on Economic Development, Housing and General Affairs, on Natural Resources and Energy, and on Government Operations.

(i) Meets the requirements of Step Two, or if it has an existing downtown designated under chapter 76A of this title in effect upon initial approval of the regional future land use map and prior to December 31, 2026.

(ii) Is listed or eligible for listing in the National Register of Historic Places.
