

Hello,

My name is Alyssa Jones, and I currently reside in Williston Vermont.

I am writing to show my support for 10.82 million for the implementation of the pilot planning grant housing begun by Act 186.

I support developing a pipeline for funding the annual development of stable, service-supported housing for adults with developmental disabilities.

I have a few friends who have developmental disabilities and currently they are being supported by their parents, however this is not a sustainable way to support adults with developmental disabilities. Vermont must take action to support these residents.

Thank you,

Alyssa Jones
