

To Whom it may concern (aka ALL inclusive community minded people)

There is a great and urgent need to create stable, service-supported housing options for adults with developmental disabilities and moderate to high support needs here in Vermont:

To this end, please SUPPORT allocating 10.82 million for the implementation of the pilot planning grant housing begun by Act 186, in this years budget process.

Additionally, please SUPPORT developing a pipeline for funding the annual development of stable, service-supported housing for adults with developmental disabilities.

Thank You

warmly, Maggie Swanke
Essex, Vermont
