

To Whom it May concern,

I feel it is critical that the State of Vermont provides stable, service-supported housing for adults with developmental disabilities. This is an extremely vulnerable population, that has received very little attention and services from the state. This population tends to NOT have a voice at the table.

I SUPPORT 10.82 million for the implementation of the pilot planning grant housing begun by Act 186, and I support developing a pipeline for funding the annual development of stable, service-supported housing for adults with developmental disabilities.

Thank you,
