Current Priorities

911 Funding Challenges

- The Enhanced 911 Board, and several other programs, are currently funded by the Vermont Universal Service Fund (VUSF) – a 2.4% fee on retail telecommunications sales in Vermont.
 - VUSF revenues have been declining for several years and since FY20 have not generated enough revenue to fully support the Enhanced 911 program.
 - Distributions from the VUSF to the Enhanced 911 fund have declined by approximately 7.5% since FY20
- Awaiting decisions on how the Administration plans to approach 911 funding in in FY24.

PSAP Staffing Shortages - Issues and Impacts

- Critical Staffing Shortages at the Department of Public Safety(DPS) PSAPs in Westminster and Williston have resulted in:
 - Primary Catchment Area Call Answer Rate Declines
 - Redistribution of Statewide Call Volume to Regional PSAPs

Mitigating the Impact of Staffing Shortages

Since September 2021:

- Board Training Coordinator has been deployed to 911 Call-Taking duties at the Board's Emergency Operations Center during certain critical hours.

Since October 2021:

- Participation by three of our regional PSAPs in a Dedicated 911 Call-Taking Initiative. These call-takers work on overtime to provide 911 call-taking only services to the Board during certain critical hours of the day. Typically answer between 3 – 5% of statewide call volume each month. [

January 2023:

- Board is considering options for continued support of the Dedicated 911 Call-Taking Initiative in a manner that is equitable for the participants moving forward
