(b) The health information technology plan shall:

(2) educate the general public and health care professionals about the value of an electronic health infrastructure for improving patient care;

(3) ensure the use of national standards for the development of an interoperable system, which shall include provisions relating to security, privacy, data content, structures and format, vocabulary, and transmission protocols;

(4) propose strategic investments in equipment and other infrastructure elements that will facilitate the ongoing development of a statewide infrastructure;

(5) recommend funding mechanisms for the ongoing development and maintenance costs of a statewide health information system, including funding options and an implementation strategy for a loan and grant program;

(6) incorporate the existing health care information technology initiatives to the extent feasible in order to avoid incompatible systems and duplicative efforts;

(7) integrate the information technology components of the Blueprint for Health established in chapter 13 of this title, the agency of human services' enterprise master patient index, and all other Medicaid management

information systems being developed by the office of Vermont health access, information technology components of the quality assurance system, the program to capitalize with loans and grants electronic medical record systems in primary care practices, and any other information technology initiatives coordinated by the secretary of administration pursuant to section 2222a of Title 3; and

(3) Nothing in this subsection shall be construed to affect the time frames established in subdivision (h)(2) or subsection (i) of this section.

(k) Notwithstanding this section, a health plan may not retroactively deny or recoup a pharmacy point-of-sale payment except in the circumstances of fraud, intentional misconduct, a member not receiving the prescription, or error in the processing of the claim.

(2) The participating provider shall have 60 days after receiving the amendment, notice, and summary pursuant to subdivision (1) of this subsection to object, in writing, to the proposed amendment. Termination shall become effective in the time period specified in the health care contract. If no termination period is specified in the health care contract, the termination shall become effective 90 days after the notice of termination is provided. The terms of the underlying contract shall remain in effect through the termination period and shall be unaffected by the proposed amendment.

(2) The amendment of a health care contract is required by a state or federal law, rule, or regulation that includes an effective date for the amendment.

(3) The provider affirmatively accepts the amendment in writing and agrees to an earlier effective date than that specified in the notice required by subdivision (b)(1) of this section.

(4) The participating provider's payment or compensation is based on the current Medicaid or Medicare physician reimbursement schedule, and the amendment reflects a change in payment or compensation resulting solely from a change in that physician reimbursement schedule.

(5) The amendment is a routine change or update of the health care contract made in response to any addition, deletion, or revision of any service code, procedure code, or reporting code, or a pricing change is made by a third party source. For purposes of this subdivision.

It is a violation of this subchapter subject to enforcement under section 9418g of this title to access or utilize a provider's contractual discount pursuant to a provider network contract without a contractual relationship with the provider, contracting entity, or covered entity, as specified in this section.

(2) Contracting entities and third parties are obligated to comply with subdivision (d)(2)(B) of this section concerning the services referenced on a remittance advice or explanation of payment. accordance with the commercial rules of the American Arbitration Association or the rules or procedures of another mutually agreed upon alternative dispute resolution forum, such as the American Health Lawyers Association.

Judgment upon the arbitrator's award may be entered in any court having jurisdiction, and the arbitrator's award shall be binding on both parties.

(5) Nothing in this subchapter shall be construed to prohibit a health plan, contracting entity, covered entity, or payer from applying payment policies that are consistent with applicable federal or state laws and regulations, or to relieve a health plan, contracting entity, covered entity, or payer from complying with payment standards established by federal or state laws and regulations, including rules adopted by the commissioner.
