Joint Resolution Referred to Committee

J.R.H. 40

Joint resolution in opposition to the adoption of a project labor agreement for the construction of the new Lake Champlain Bridge

Offered by: Representatives O’Donnell of Vernon, Acinapura of Brandon, Adams of Hartland, Ainsworth of Royalton, Baker of West Rutland, Branagan of Georgia, Canfield of Fair Haven, Crawford of Burke, Devereux of Mount Holly, Dickinson of St. Albans Town, Donaghy of Poultnay, Donahue of Northfield, Fagan of Rutland City, Higley of Lowell, Hubert of Milton, Koch of Barre Town, Komline of Dorset, Krawczyk of Bennington, Larocque of Barnet, Lawrence of Lyndon, Lewis of Derby, Marcotte of Coventry, McAllister of Highgate, McFaun of Barre Town, McNeil of Rutland Town, Morley of Barton, Morrissey of Bennington, Myers of Essex, Pearce of Richford, Peaslee of Guildhall, Perley of Enosburg, Reis of St. Johnsbury, Savage of Swanton, Shaw of Pittsford, Turner of Milton and Winters of Williamstown

Whereas, with the recent demolition of the 80-plus-year-old bridge that crossed Lake Champlain between Chimney Point, Vermont, and Crown Point, New York, construction on a new bridge at the same location is scheduled to start later this year, and

Whereas, in accordance with 48 CFR § 536.271, a project labor agreement (PLA) is “an agreement between the contractor, subcontractors, and the union(s) representing workers. Under a PLA, the contractor and subcontractors on a project and the unions(s) agree on terms and conditions of employment for the project,” and

Whereas, these agreements are permitted, in accordance with 29 U.S.C. § 158(f), to be adopted for major federal construction projects such as the new Lake Champlain Bridge, and

Whereas, on February 6, 2009, the Obama Administration issued Executive Order 13502 reversing Executive Orders 13202 and 13208 of the Bush
Administration that had halted the use of these agreements on federal construction projects, and

Whereas, the Federal Highway Administration and the New York State Department of Transportation are studying the implementation of a PLA for the new Lake Champlain Bridge, and

Whereas, the Vermont Congressional Delegation has written a letter of support to Federal Highway Administration (FHWA) Administrator Victor Mendez in favor of project labor agreements and the adoption of the New York prevailing wage should a PLA be implemented, and

Whereas, according to a letter that the Associated General Contractors of Vermont (AGC/VT), which represents more than 150 commercial construction firms in the state, sent to the FHWA administrator in response to the delegation’s letter, only five percent of Vermont’s contractors are unionized, and

Whereas, the AGC/VT stated in its letter that the imposition of a PLA on the Lake Champlain Bridge “would force a firm to change its labor policy or practice in order to compete for or to perform work” on the bridge which will be one of the largest transportation public works projects ever conducted in Vermont, and

Whereas, the AGC/VT letter further stated that imposition of a PLA would “drive up costs, create delays, lead to job disputes, and disrupt local collective bargaining,” and that many of its members will refuse to bid on the bridge project should a PLA be imposed due to the severe restrictions it would place on their firms, and

Whereas, the PLA, according to the AGC/VT, “would intentionally eliminate the ability for any Vermont contractor to receive fair and equitable access to bid on the project . . . and mitigate the potential for truly competitive bidding,” and

Whereas, with respect to the issue of prevailing wages, the AGC/VT has noted that New York prevailing wages can be adopted without the imposition of a PLA and that all wages paid for work on the Lake Champlain Bridge, as a major federal project, must follow minimum wage standards, and

Whereas, in order that no technically qualified Vermont contractor is disadvantaged in the Lake Champlain Bridge construction bidding process, a PLA must not be imposed on this historic public transportation project, now therefore be it
Resolved by the Senate and House of Representatives:

That the General Assembly expresses its strong opposition to the imposition of a project labor agreement for the Lake Champlain Bridge, and be it further

Resolved: That the Secretary of State be directed to send a copy of this resolution to Federal Highway Administration Administrator Victor Mendez, Acting New York State Transportation Commissioner Stanley Gee, Vermont Agency of Transportation Secretary David Dill, and the Vermont Congressional Delegation.

Which was read and, in the Speaker’s discretion, treated as a bill and referred to the committee on General, Housing and Military Affairs.

Joint Resolution Referred to Committee

J.R.H. 41

Joint resolution relating to the operating and financing of a new nuclear power plant in the town of Vernon

Offered by: Representative O’Donnell of Vernon, Acinapura of Brandon, Adams of Hartland, Ainsworth of Royalton, Baker of West Rutland, Branagan of Georgia, Canfield of Fair Haven, Crawford of Burke, Devereux of Mount Holly, Dickinson of St. Albans Town, Donaghy of Poultney, Donahue of Northfield, Fagan of Rutland City, Higley of Lowell, Hubert of Milton, Koch of Barre Town, Komline of Dorset, Krawczyk of Bennington, Larocque of Barnet, Lawrence of Lyndon, Lewis of Derby, Marcotte of Coventry, McAllister of Highgate, McDonald of Berlin, McFaun of Barre Town, McNeil of Rutland Town, Morley of Barton, Morrissey of Bennington, Myers of Essex, Peaslee of Guildhall, Reis of St. Johnsbury, Savage of Swanton, Shaw of Pittsford and Turner of Milton

Whereas, regardless of one’s position on the future of the Vermont Yankee nuclear power plant in Vernon, there is unanimous agreement that it will not operate indefinitely, and

Whereas, whenever the plant ceases operation, its contribution to Vermont’s current energy supply, currently approximately one-third of the electricity consumed in Vermont, will need to be replaced, and

Whereas, nuclear power creates a smaller carbon footprint than fossil fuels, and while alternative energy sources, conservation, and newer equipment efficiencies may replace a portion of the loss power, it is not likely that these sources are capable of supplying one-third of the state’s electrical energy needs, and
Whereas, increasing reliance on the spot electrical market opens Vermont to sudden and unanticipated price fluctuations that are beyond Vermonter’s control, and to the threat of foreign imposed oil embargoes, and would possibly increase Vermont’s carbon footprint in a state proud to have the lowest in the nation, and

Whereas, President Obama has proposed that the nation rejuvenate nuclear power in a new direction through the construction of new plants that are better constructed, more environmentally sensitive, and more efficient, and

Whereas, in pursuit of this objective, the President has proposed that the federal fiscal year 2111 budget for the U.S. Department of Energy include an additional $36 billion in loan guarantees for the construction of nuclear power plants, bringing the allocated amount for this purpose to $54 billion, and

Whereas, the Nuclear Regulatory Commission originally approved the Vernon site for two nuclear power plants, and this site is an ideal location to build a new modern and physically more compact nuclear power plant that could replace the power the current plant generates upon completion of construction and issuance of a federal operating license and state certificate of public good, and serve Vermonter’s for decades into the future, and

Whereas, there is already located in Vernon a full contingent of nuclear engineers and technicians, and

Whereas, the fairest and most reliable method to determine a future potential owner of the new plant would be for the public service board to open a docket that would include extremely detailed, professional, and unbiased scrutiny of the financial and technical resources, and prior nuclear power industry history, of any potential owner, and

Whereas, only after the public service board conducted its intensive and orderly examination of applicants would a right to proceed be granted, and the owner would still be required to obtain a certificate of public good from the board and a federal operating license from the Nuclear Regulatory Commission before a new plant could actually generate its first kilowatt of electric power, and

Whereas, the Vermont economy desperately needs a boost in economic growth that will be achieved through the creation of new quality jobs, and

Whereas, access to a reasonable portion of the federal loan guarantee money for the construction of new nuclear power plants would provide an ideal financial incentive for perspective owners, now therefore be it
Resolved by the Senate and House of Representatives:

That the General Assembly requests the committees of jurisdiction to work collaboratively to develop legislation this session authorizing the public service board to open a docket to begin the complex process of selecting a potential operator of a new nuclear power plant in Vernon, and be it further

Resolved: That the General Assembly urges the Vermont Congressional Delegation to make every reasonable effort to reserve the amount of $2 billion in federal loan guarantees for seed financial backing to construct a new nuclear power plant in Vernon, and be it further

Resolved: That the Secretary of State be directed to send a copy of this resolution to U.S. Secretary of Energy Steven Chu, to the public service board, and to the Department of Public Service.

Which was read and, in the Speaker’s discretion, treated as a bill and referred to the committee on Natural Resources and Energy.

House Resolution Placed on Calendar

H.R. 28

House resolution, entitled

House resolution urging Vermonters to support relief efforts in Haiti

Offered by: Representative Geier of South Burlington

Whereas, the recent earthquake in Haiti has left that Caribbean island nation devastated, and

Whereas, Haiti is now in need of the expertise and materials that our state’s citizens, businesses, and nonprofit organizations can donate to begin the difficult reconstruction process that lies ahead, and

Whereas, Vermonters should be encouraged to open their hearts and be as generous as possible in assisting the Haitian people as they attempt to restore the public services that were seriously impaired and rebuild the numerous buildings that were damaged or destroyed, now therefore be it

Resolved by the House of Representatives:

That this legislative body expresses its deep concern and sympathy for those Haitians who are in pain and suffering as a result of the recent earthquake, and be it further

Resolved: That this legislative body, on behalf of the citizens of Vermont, sends to the Haitian people its prayers and best wishes for a quick recovery, and be it further
Resolved: That this legislative body calls upon Vermont’s citizens, businesses, and nonprofit organizations to aid the nation of Haiti by donating time and materials in support of those who are going to Haiti to participate directly in the relief efforts, and be it further

Resolved: That this legislative body calls upon Vermonter to use their resources to help solve the housing crisis in Haiti by using the advance technology available in our state to provide smart tents, equipped with solar and telecommunications devices, in order to provide safety and shelter for the Haitian people, and be it further

Resolved: That the Clerk of the House be directed to send a copy of this resolution to the Embassy of Haiti in Washington, D.C.

Which was read and, in the Speaker’s discretion, placed on the Calendar for action tomorrow under Rule 52.

House Resolution Placed on Calendar

H.R. 29

House resolution, entitled

House resolution urging Congress to support a fiscal year 2011 federal appropriation for the Northeast Great Waters

Offered by: Committee on Fish, Wildlife and Water Resources

Whereas, the restoration and conservation of our nation’s “great waters” ecosystems are both an economic and an environmental imperative, and

Whereas, Lake Champlain is recognized as a “great water” by the America’s Great Waters Coalition, and

Whereas, Lake Champlain is also identified by the Environmental Protection Agency as a “large aquatic ecosystem” in its “Geographic Areas” initiative, and

Whereas, a comprehensive plan to restore and conserve Lake Champlain has been in place for many years, and

Whereas, historical levels of federal funding have been insufficient to adequately address the many pressing restoration and conservation needs identified in the Lake Champlain plan, and

Whereas, the seven northeastern states have joined hands through an appeal by the Northeast Regional Ocean Council for a unified $70 million 2011 appropriations request to advance implementation of restoration plans for the
region’s four “great waters” ecosystems, including Lake Champlain, Long Island Sound, the Gulf of Maine, and Narragansett Bay, and

Whereas, Lake Champlain would receive approximately $10 million of the regional request, an opportunity that would complement and enhance the many great ongoing efforts, and

Whereas, governmental and nongovernmental organizations are working together with their counterparts in all the other northeastern states in support of the 2011 request, now therefore be it

Resolved by the House of Representatives:

That this legislative body urges Congress to support a fiscal year 2011 federal appropriation for the Northeast Great Waters, and be it further

Resolved: That the Clerk of the House be directed to send a copy of this resolution to the Vermont Congressional Delegation.

Which was read and, in the Speaker’s discretion, placed on the Calendar for action tomorrow under Rule 52.

**H. 542**

House bill, entitled

An act relating to transfers of mobile homes and rent-to-own transactions

Was taken up and pending third reading of the bill, **Rep. Koch of Barre Town** moved to amend the bill as follows:

First: In Sec. 1, in 9 V.S.A. § 2602(c)(1)(B), after the word “transferee” and before the semicolon, by inserting “, and if more than one buyer or transferee, the estate under which the buyers or transferees will hold title to the mobile home”
Second: In Sec. 1, in 9 V.S.A. § 2602(c)(2), in the mobile home uniform bill of sale, following the last line of the section of the form pertaining to “Buyer or Transferee (“Buyer”)” and prior to the section heading “Mobile Home Being Sold or Transferred (“Mobile Home”), by inserting the following:

If more than one Buyer, Buyers take title as:

[ ] Joint tenants (co-owners with right of survivorship).
[ ] Tenants by the entirety (joint tenancy of persons who are married).
[ ] Tenants in common (individual interests without right of survivorship).

Which was agreed to. Thereupon, the bill was read the third time and passed.

“Mr. Speaker:

I would have liked to allow our forces to vote electronically, unfortunately our Secretary of State is telling us that it is not possible at this time to allow the
sanctity of the vote to be insured. I look forward to the day it will be possible
for all of us to vote electronically, knowing that the privacy of our vote is
being preserved.”

Rep. Mrowicki of Putney explained his vote as follows:

“Mr. Speaker:

I vote to support the work of the committee in support of Vermonters far
from home who want to securely exercise their right to vote. I’m someone who

with others ballots.”

easier for all our soldiers.”
