H. 258

An act relating to public participation in environmental enforcement proceedings

Rep. Ellis of Waterbury, for the Committee on **Natural Resources and Energy**, recommends the bill be amended by striking all after the enacting clause and inserting in lieu thereof the following:

Sec. 1. 10 V.S.A. § 8002 is amended to read:

§ 8002. DEFINITIONS

As used in this chapter:

* * *

(4) “Person” means any individual, partnership, company, corporation, association, unincorporated association, joint venture, trust, municipality, the state of Vermont or any agency, department or subdivision of the state, federal agency, or any other legal or commercial entity.

* * *

(12) “Environmental court” or “environmental division” means the environmental division of the superior court established by 4 V.S.A. § 30.

(13) “Federally authorized or delegated program” means an area of environmental regulation where the U.S. Environmental Protection Agency has authorized or delegated to Vermont primary regulatory responsibility, including the Clean Water Act, the Clean Air Act, and the Resource Conservation and Recovery Act.

(14) “Post” means the placing of the required information on the website of the secretary or the board.

Sec. 2. 10 V.S.A. § 8012 is amended to read:

§ 8012. REQUEST FOR HEARING

* * *

(b) The environmental division shall have authority to:

* * *

(2) affirm, or vacate and remand to the secretary an order issued under subdivision 8008(b)(5) of this title. The environmental division shall vacate and remand an order under this subdivision when a violation is found to exist but the procedure contained in the order is ~~not reasonably likely to achieve the intended result~~ insufficient to carry out the purposes of this chapter;

* * *

~~(d) The environmental division may grant party status to an aggrieved person for the purpose of providing evidence and legal arguments only in relation to the sufficiency of an order issued under the authority of section 8008 of this title. As used in this subsection, an "aggrieved person" means a person who demonstrates that the interest of that person is not adequately represented by any other party and who at the time of the alleged violation had:~~

~~(1) an ownership, leasehold or contractual interest in real property directly affected by the violation described in the order; or~~

~~(2) an interest in the outcome of the proceeding which is distinct from the interest of the public at large because of the person's place of residence, place of employment or place of business.~~

~~(e)~~(d) Notice of a request for hearing shall stay the order and payment of the penalty, if imposed, pending the hearing. The secretary may issue an emergency order with regard to the alleged violation that is the subject of the hearing, if grounds for such an order develop during the hearing process.

~~(f)~~(e) Any claim a person may have under a private right of action which is not determined in a proceeding under this chapter shall be preserved.

Sec. 3. 10 V.S.A. § 8013 is amended to read:

§ 8013. CONDUCT OF HEARINGS; APPEAL; STAY

(a) The secretary shall have the burden of proof by a preponderance of the evidence.

(b) Parties may be represented by counsel in hearings before the environmental division. The agency of natural resources may represent itself. A party may conduct cross-examination required for a full and true disclosure of the facts.

(c) An appeal from a decision of the environmental division may be taken by the secretary, the board, or the respondent to the supreme court. The

attorney general also may appeal if the attorney general has appeared as a party.

(d) An appeal by a respondent or the attorney general to the supreme court shall not stay an order, but shall stay payment of a penalty. A respondent may petition the supreme court for a stay of an order.

Sec. 4. 10 V.S.A. § 8014(a) is amended to read:

(a) The secretary may seek enforcement of a final administrative order, final orders pursuant to an assurance of discontinuance, or civil complaints pursuant to section 8019 of this title, or a landfill extension order in the civil, criminal, or environmental division of the superior court.

Sec. 5. 10 V.S.A. § 8019 is amended to read:

§ 8019. ENVIRONMENTAL TICKETING CIVIL COMPLAINTS

(a) The secretary and the board each shall have the authority to adopt rules for the issuance of civil complaints for violations of their respective enabling statutes or rules adopted under those statutes that are enforceable in the judicial bureau pursuant to the provisions of chapter 29 of Title 4 environmental division. Any proposed rule under this section shall include ~~both~~ the full, minimum, and waiver penalty amounts for each violation. The maximum civil penalty for any violation brought under this section shall not exceed \$3,000.00 exclusive of court fees.

(b) A civil complaint issued under this section shall preclude the issuing entity from seeking an additional monetary penalty for the violation specified in the complaint when any one of the following occurs: the waiver penalty is paid, judgment is entered after trial or appeal, or a default judgment is entered. Notwithstanding this preclusion, the agency and the board may issue additional complaints or initiate an action under chapter 201 of this title, including a monetary penalty when a violation is continuing or is repeated, and may also bring an enforcement action to obtain injunctive relief or remediation and, in such additional action, may recover the costs of bringing the additional action and the amount of any economic benefit the respondent obtained as a result of the underlying violation in accordance with subdivisions 8010(b)(7) and (c)(1) of this title.

(c) The secretary or board chair and his or her duly authorized representative shall have the authority to amend or dismiss a complaint by so marking the complaint and returning it to the ~~judicial bureau~~ environmental division or by notifying the hearing officer or judge at the hearing.

(d) Subsequent to the issuance of a civil complaint under this section and the conclusion of any hearing and appeal regarding that complaint, the

following shall be considered part of the respondent's record of compliance when calculating a penalty under section 8010 of this title:

(1) The respondent's payment of the full or waiver penalty stated in the complaint.

(2) The respondent's commission of a violation after the hearing before the ~~judicial bureau~~ environmental division on the complaint.

(3) The respondent's failure to appear or answer the complaint resulting in the entry of a default judgment.

(4) A finding, after appeal, that the respondent committed a violation.

Sec. 6. 10 V.S.A. § 8020 is added to read:

§ 8020. PUBLIC PARTICIPATION IN ENFORCEMENT

(a) Prior to sending an administrative order, assurance of discontinuance, or civil complaint issued under this chapter to the environmental division, the secretary or the board shall post the administrative order, assurance of discontinuance, or civil complaint for public notice and written comment for 30 days. At the conclusion of the 30-day notice and written comment period, the secretary or the board shall evaluate the proposed action pursuant to the written comments received. After the evaluation of the written comments, the secretary or the board may withdraw an administrative order, assurance of discontinuance, or civil complaint.

(b) When the secretary or board issues a final administrative order, assurance of discontinuance, or civil complaint, it shall be sent to the environmental division along with any written comments received during the 30-day comment period. Concurrent with filing, the secretary or board shall post the final proposed action for public notice for 14 days. The environmental division shall hold the administrative order, assurance of discontinuance, or civil complaint for 14 days from the date of filing to allow any person to file a motion for permissive intervention pursuant to the procedure in Rule 24(c) of the Vermont Rules of Civil Procedure. At the conclusion of the 14-day period, if no motion to intervene has been filed, the environmental division shall process the administrative order, assurance of discontinuance, or civil complaint as set out elsewhere in this chapter.

(c) In order for a person to permissively intervene in an administrative order, assurance of discontinuance, or civil complaint, the person shall have filed a written comment with the agency or board setting out the specific objection to the proposed action during the 30-day comment period required under subsection (a) of this section.

(d) When the secretary issues an emergency administrative order, the pre-filing public notice and comment provisions contained in this section shall not apply. The environmental division shall act on the emergency administrative order as required by section 8009 of this title. The secretary shall publish the emergency administrative order concurrent with filing it with the environmental division. A person shall have 14 days from the date the emergency administrative order is filed to file a motion for permissive intervention. A motion to intervene shall not stay an emergency administrative order.

(e) The environmental division shall evaluate a motion from an aggrieved person for permissive intervention in light of Rule 24(b)(1) of the Vermont Rules of Civil Procedure. A motion for permissive intervention shall clearly state the basis for the claim that the administrative order, assurance of discontinuance, or civil complaint is insufficient to carry out the purposes of this chapter. A hearing may be held on the motion for permissive intervention in the discretion of the environmental division. When the environmental division determines that a motion to intervene fails to meet the requirements for permissive intervention, the court shall deny the motion.

(f) When the environmental division permits an aggrieved person to intervene, it shall be for the sole purpose of establishing that the terms of an administrative order, emergency administrative order, assurance of discontinuance, or civil complaint are insufficient to carry out the purposes of this chapter. The intervenor shall have the burden of proof by a preponderance of the evidence that the administrative order, emergency administrative order, assurance of discontinuance, or civil complaint is insufficient to carry out the purposes of this chapter. A hearing may be held on the claim that the administrative order, emergency administrative order, assurance of discontinuance, or civil complaint is insufficient to carry out the purposes of this chapter in the discretion of the environmental division. The environmental division upon finding that the proposed action is insufficient to carry out the purposes of this chapter shall inform the parties in writing and shall include the basis of its decision and shall vacate the proposed action.

(g) The secretary or board shall not oppose any motion filed for permissive intervention, but when the environmental division permits a person to intervene, the secretary or board may oppose the intervenor's claim that the proposed action is insufficient to carry out the purposes of this chapter. The secretary shall investigate all citizen complaints of a violation of a federally authorized or delegated program and shall respond to known complainants in writing.

(h) As used in this section, an “aggrieved person” means a person who alleges an injury to a particularized interest protected by a statute listed under subsection 8003(a) of this section, and the alleged injury is attributable to a violation addressed by an assurance of discontinuance, administrative order, emergency order, or civil complaint issued under this chapter. An organization or association is an aggrieved person under this section when one or more of its members would be an aggrieved person in his or her own right, the interests at stake are germane to the purposes of the organization or association, and neither the claim asserted nor the relief requested by the organization or association requires participation of the individual member.

Sec. 7. 10 V.S.A. § 8021 is added to read:

§ 8021. COST RECOVERY

(a) When the secretary expends monies from a special fund to remediate an environmental violation, the secretary may recover such monies through an administrative order, emergency administrative order, or assurance of discontinuance issued under this chapter.

(b) When costs are recovered under this section, they shall be deposited into the special fund from which they were expended.

Sec. 8. SALVAGE YARD OPERATIONAL STANDARDS

Sec. 6 of No. 93 of the Acts of the 2009 Adj. Sess. (2010) is amended to read:

Sec. 6. REPEAL

24 V.S.A. § 2248(a) (statutory operational standards for salvage yards) is repealed ~~March 31, 2011~~ on the effective date of the rules required by 24 V.S.A. § 2248.

An act relating to a single-payer and unified health system

Rep. Larson of Burlington, for the Committee on **Health Care**, recommends the bill be amended by striking all after the enacting clause and inserting in lieu thereof the following:

Sec. 1. [Deleted.]

* * * Road Map to a Universal and a Unified Health System * * *

Sec. 2. STRATEGIC PLAN; UNIVERSAL AND UNIFIED HEALTH SYSTEM

(a) As provided in Sec. 4 of this act, upon receipt by the state of necessary waivers from federal law, all Vermont residents shall be eligible for Green Mountain Care, a universal health care program that will provide health benefits through a single payment system. To the maximum extent allowable under federal law and waivers from federal law, Green Mountain Care shall include health coverage provided under the health benefit exchange established under chapter 18, subchapter 1 of Title 33; under Medicaid; under Medicare; by employers that choose to participate; and to state employees and municipal employees, including teachers.

(b) The Green Mountain Care board is created to develop mechanisms to reduce the rate of growth in health care through cost-containment, establishment of budgets, and payment reform.

(c) The secretary of administration or designee shall create Green Mountain Care as a universal health care program by implementing the following initiatives and planning efforts:

(1) No later than November 1, 2013, the Vermont health benefit exchange established in subchapter 1 of chapter 18 of Title 33 shall begin enrolling individuals and small employers for coverage beginning January 1, 2014. The intent of the general assembly is to establish the Vermont health benefit exchange in a manner such that it may become the foundation for a Green Mountain Care.

(2) No later than November 1, 2016, the Vermont health benefit exchange established in subchapter 1 of chapter 18 of Title 33 shall begin enrolling large employers for coverage beginning January 1, 2017.

(3) No later than January 1, 2014, the commissioner of banking, insurance, securities, and health care administration shall require that all individual and small group health insurance products be sold only through the Vermont health benefit exchange and shall require all large group insurance products to be aligned with the administrative requirements and essential benefits required in the Vermont health benefit exchange. The commissioner shall provide recommendations for statutory changes as part of the integration plan established in Sec. 8 of this act.

(4) The secretary shall supervise the planning efforts, reports of which are due on January 15, 2012, as provided in Sec. 8 and Secs. 10 through 13 of this act, including integration of multiple payers into the Vermont health benefit exchange; a continuation of the planning necessary to ensure an adequate, well-trained primary care workforce; necessary retraining for any employees dislocated from health care professionals or from health insurers due to the simplification in the administration of health care; and unification of health system planning, regulation, and public health.

(5) The secretary shall supervise the planning efforts, reports of which are due January 15, 2013, as provided in Sec. 9 of this act, to establish the financing necessary for Green Mountain Care, for recruitment and retention programs for health care professionals, and for covering the uninsured and underinsured through Medicaid and the Vermont health benefit exchange.

(d) The secretary of administration or designee shall obtain waivers, exemptions, agreements, legislation, or a combination thereof to ensure that, to the extent possible under federal law, all federal payments provided within the state for health services are paid directly to Green Mountain Care. Green Mountain Care shall assume responsibility for the benefits and services previously paid for by the federal programs, including Medicaid, Medicare, and, after implementation, the Vermont health benefit exchange. In obtaining the waivers, exemptions, agreements, legislation, or combination thereof, the secretary shall negotiate with the federal government a federal contribution for health care services in Vermont that reflects medical inflation, the state gross domestic product, the size and age of the population, the number of residents living below the poverty level, the number of Medicare-eligible individuals, and other factors that may be advantageous to Vermont and that does not decrease in relation to the federal contribution to other states as a result of the waivers, exemptions, agreements, or savings from implementation of Green Mountain Care.

(e) No later than January 15, 2012, the secretary of administration or designee shall submit to the house committees on health care and on judiciary and the senate committees on health and welfare and on judiciary a proposal to

reform the medical malpractice system for Vermont. The proposal shall be designed to address the incidence of defensive medicine, reduce health care costs, and maintain adequate protections for patients, and shall reflect the secretary's or designee's consideration of a no-fault system. The proposal also shall be designed to take effect on or before the date of implementation of Green Mountain Care pursuant to 33 V.S.A. chapter 18, subchapter 2.

Sec. 3. 18 V.S.A. chapter 220 is added to read:

CHAPTER 220. GREEN MOUNTAIN CARE BOARD

Subchapter 1. Green Mountain Care Board

§ 9371. PRINCIPLES FOR HEALTH CARE REFORM

The general assembly adopts the following principles as a framework for reforming health care in Vermont:

(1) The state of Vermont must ensure universal access to and coverage for high-quality, medically necessary health services for all Vermonters. Systemic barriers must not prevent people from accessing necessary health care. All Vermonters must receive affordable and appropriate health care at the appropriate time in the appropriate setting.

(2) Overall health care costs must be contained and growth in health care spending in Vermont must balance the health care needs of the population with the ability to pay for such care.

(3) The health care system must be transparent in design, efficient in operation, and accountable to the people it serves. The state must ensure public participation in the design, implementation, evaluation, and accountability mechanisms of the health care system.

(4) Primary care must be preserved and enhanced so that Vermonters have care available to them, preferably within their own communities. Other aspects of Vermont's health care infrastructure, including the educational and research missions of the state's academic medical center, must be supported in such a way that all Vermonters have access to necessary health services and that these health services are sustainable.

(5) Every Vermonter should be able to choose his or her health care providers.

(6) Vermonters should be aware of the costs of the health services they receive. Costs should be transparent and easy to understand.

(7) Individuals have a personal responsibility to maintain their own health and to use health resources wisely.

(8) The health care system must recognize the primacy of the patient-provider relationship, respecting the professional judgment of providers and the informed decisions of patients.

(9) Vermont's health delivery system must seek continuous improvement of health care quality and safety and of the health of the population, and the system therefore must be evaluated regularly for improvements in access, quality, and cost containment.

(10) Vermont's health care system must include mechanisms for containing all system costs and eliminating unnecessary expenditures, including by reducing administrative costs and by reducing costs that do not contribute to efficient, high-quality health services or improve health outcomes. Efforts to reduce overall health care costs should identify sources of excess cost growth.

(11) The financing of health care in Vermont must be sufficient, fair, predictable, transparent, sustainable, and shared equitably.

(12) The system must consider the effects of payment reform on individuals and on health care professionals and suppliers. It must enable health care professionals to provide, on a solvent basis, effective and efficient health services that are in the public interest.

(13) Vermont's health care system must operate as a partnership between consumers, employers, health care professionals, hospitals, and the state and federal government.

(14) State government must ensure that the health care system satisfies the principles expressed in this section.

§ 9372. PURPOSE

It is the intent of the general assembly to create an independent board to promote the general good of the state by developing mechanisms to:

(1) improve the health of the population;

(2) enhance the patient experience of care; and

(3) reduce the per capita rate of growth in expenditures for health services in Vermont across all payers while ensuring that access to care and quality of care are not compromised.

§ 9373. DEFINITIONS

As used in this chapter:

(1) “Board” means the Green Mountain Care board established in this chapter.

(2) “Green Mountain Care” means the public–private universal health care program designed to provide health benefits through a simplified, uniform, single administrative system pursuant to 33 V.S.A. chapter 18, subchapter 2.

(3) “Health care professional” means an individual, partnership, corporation, facility, or institution licensed or certified or otherwise authorized by law to provide professional health care services.

(4) “Health insurer” means any health insurance company, nonprofit hospital and medical service corporation, managed care organization, and, to the extent permitted under federal law, any administrator of an insured, self-insured, or publicly funded health care benefit plan offered by a public or a private entity. The term does not include Medicaid, the Vermont health access plan, or any other state health care assistance program financed in whole or in part through a federal program.

(5) “Health services” means any medically necessary treatment or procedure to maintain, diagnose, or treat an individual’s physical or mental health, including services ordered by a health care professional and medically necessary services to assist in activities of daily living.

(6) “Manufacturers of prescribed products” shall have the same meaning as “manufacturers” in section 4631a of this title.

§ 9374. BOARD MEMBERSHIP; AUTHORITY

(a)(1) On July 1, 2011, the Green Mountain Care board is created and shall consist of a chair and four members. The chair shall be a full-time state employee and the four other members shall be part-time state employees. The chair and all of the members shall be exempt from the state classified system.

(2) The chair and the members of the board shall be appointed pursuant to the process described in subchapter 2 of this chapter.

(b)(1) The initial term of the chair shall be seven years, and the term of the chair shall be six years thereafter.

(2) The term of each member other than the chair shall be six years, except that of the members first appointed, one each shall serve a term of three years, four years, five years, and six years.

(3) Subject to the nomination and appointment process, a member may serve more than one term.

(2) The prohibitions contained in subdivision (1) this subsection shall not be construed to prohibit a board member from:

(A) being an insurance policyholder or from receiving health services on the same terms as are available to the public generally;

(B) owning a stock, bond, or other security in an entity subject to supervision or regulation by the board that is purchased by or through a mutual fund, blind trust, or other mechanism where a person other than the board member chooses the stock, bond, or security; or

(C) receiving retirement benefits through a defined benefit plan from an entity subject to supervision or regulation by the board.

(d) The chair shall have general charge of the offices and employees of the board but may hire a director to oversee the administration and operation.

(e)(1) The board shall establish a consumer, patient, and health care professional advisory group to provide input and recommendations to the board. Members of such advisory group who are not state employees or whose participation is not supported through their employment or association shall receive per diem compensation and reimbursement of expenses pursuant to 32 V.S.A. § 1010, including costs of travel, child care, personal assistance services, and any other service necessary for participation in the advisory group and approved by the board.

(2) The board may establish additional advisory groups and subcommittees as needed to carry out its duties.

(f) In carrying out its duties pursuant to this chapter, the board shall seek the advice of the state health care ombudsman established in 8 V.S.A. § 4089w. The state health care ombudsman shall advise the board regarding the policies, procedures, and rules established pursuant to this chapter. The ombudsman shall represent the interests of Vermont patients and Vermont consumers of health insurance and may suggest policies, procedures, or rules to the board in order to protect patients' and consumers' interests.

§ 9375. DUTIES

(a) The board shall execute its duties consistent with the principles expressed in 18 V.S.A. § 9371.

(b) Beginning on July 1, 2011, the board shall have the following duties:

(1) Oversee the development and implementation, and evaluate the effectiveness, of the payment reform pilot projects set forth in section 9377 of this title.

(2)(A) Develop by rule, pursuant to chapter 25 of Title 3, methodologies for achieving payment reform and containing costs, which may include the creation of health care professional cost-containment targets, global payments, bundled payments, global budgets, risk-adjusted capitated payments, or other uniform payment methods and amounts for accountable care organizations, health care professionals, or other provider arrangements.

(B) Prior to the initial adoption of the rules described in subdivision (A) of this subdivision (2), report the board's proposed methodologies to the house committee on health care and the senate committee on health and welfare.

(C) In developing methodologies pursuant to subdivision (A) of this subdivision (2), engage Vermonters in seeking ways to equitably distribute health services while acknowledging the connection between fair and sustainable payment and access to health care.

(3) Review and approve Vermont's statewide health information technology plan pursuant to section 9351 of this title to ensure that the necessary infrastructure is in place to enable the state to achieve the principles expressed in section 9371 of this title.

(4) Develop and maintain a health care workforce development strategic plan that continues efforts to ensure that Vermont has the health care workforce necessary to provide care to all Vermont residents, including reviewing the adequacy of health care professional reimbursement rates to determine their impact on health care professional recruitment and retention.

(c) No later than July 1, 2013, the board shall have the following duties in addition to the duties described in subsection (b) of this section:

(1) Set rates for health care professionals pursuant to section 9376 of this title and make adjustments to the rules on reimbursement methodologies as needed.

The board shall report to the house committee on health care and the senate committee on health and welfare within 15 days following its approval of the initial benefit package and any subsequent substantive changes to the benefit package.

(5)(A) Develop and maintain a method for evaluating system-wide performance and quality, including identification of the appropriate process and outcome measures:

(i) for determining public satisfaction with the health system;

(ii) for utilization of health services;

(iii) in consultation with the department of health and the director of the Blueprint for Health, for quality of health services and the effectiveness of prevention and health promotion programs;

(iv) for cost-containment and limiting the growth in health care expenditures; and

(B) The board shall develop the evaluation method pursuant to subdivision (A) of this subdivision (5) by October 15, 2013 and shall report the results of its evaluations and any resulting recommendations in its annual report as required by subsection (d) of this section.

(6)(A)(i) In preparation for implementing Green Mountain Care, develop and approve, upon recommendation from the agency of human services, the Green Mountain Care benefit package within the parameters established in chapter 18, subchapter 2 of Title 33.

(ii) The board shall consider whether to impose cost-sharing requirements; if so, whether to make the cost-sharing requirements income-sensitized; and the impact of any cost-sharing requirements on individuals'

ability to access care. There shall be a waiver of any cost-sharing requirement for chronic care for individuals participating in chronic care management and for primary and preventive care.

(B) Prior to issuing its final approval of the benefit package or any substantive modifications to the benefit package pursuant to subdivision (A) of this subdivision (6), the board shall present a report on the benefit package or modifications to the house committee on health care and the senate committee on health and welfare. The report shall describe the covered services to be included in the Green Mountain Care benefit package, any cost-sharing requirements, and any proposed modifications. If the general assembly is not in session at the time that the board is preparing to issue its final approval, the board shall send its report by first class mail to each member of the house committee on health care and the senate committee on health and welfare at least 10 days before issuing the approval.

(7) In preparation for implementing Green Mountain Care and every three years after implementation, recommend to the general assembly and the governor a three-year Green Mountain Care budget pursuant to 32 V.S.A. chapter 5, to be adjusted annually in response to realized revenues and expenditures, that reflects any modifications to the benefit package and includes recommended appropriations, revenue estimates, and necessary modifications to tax rates and other assessments.

(8) Monitor the extent to which residents of other states move to Vermont for the purpose of receiving health services and the impact of any such migration on Vermont's health care system and on the state's economy and recommend to the general assembly in the annual report required by subsection (d) of this section strategies to address any related problems the board identifies.

(d) Annually on or before January 15, the board shall submit a report of its activities for the preceding state fiscal year to the house committee on health care and the senate committee on health and welfare. The report shall include any changes to the payment rates for health care professionals pursuant to section 9376 of this title, any new developments with respect to health information technology, the status of efforts to implement the health care workforce development strategic plan pursuant to subdivision (b)(4) of this section, any substantive changes to the benefit package for qualified health benefit plans pursuant to subdivision (c)(3) of this section, the results of the systemwide performance and quality evaluations required by subdivision (c)(4) of this section, the rationale for any decision to impose or alter cost-sharing requirements for Green Mountain Care pursuant to subdivision (c)(6) of this

section, and the extent and impacts of migration to Vermont for health services as described in subdivision (c)(8) of this section.

§ 9376. PAYMENT AMOUNTS; METHODS

(a) It is the intent of the general assembly to ensure payments to health care professionals that are consistent with efficiency, economy, and quality of care and will permit them to provide, on a solvent basis, effective and efficient health services that are in the public interest. It is also the intent of the general assembly to eliminate the shift of costs between the payers of health services and to ensure that the amount paid to health care professionals is sufficient to enlist enough providers to ensure that health services are available to all Vermonters and are distributed equitably.

(b)(1) The board shall ensure that health care professionals, health care provider bargaining groups created pursuant to section 9409 of this title, manufacturers of prescribed products, medical supply companies, and other companies providing health services or health supplies receive reasonable rates, as determined by the board based on the methodologies developed pursuant to section 9375 of this title and after consultation with the affected parties, in order to have a consistent reimbursement amount accepted by these persons.

(2) The board shall consider compensating health care providers for the completion of requests for prior authorization.

(c) The board, in collaboration with the director of payment reform in the department of Vermont health access, shall establish payment methodologies for health services, including using innovative payment methodologies consistent with any payment reform pilot projects and with evidence-based practices, and may include fee-for-service payments if the board determines such payments to be appropriate. The payment methods shall encourage cost containment; provision of high-quality, evidence-based health services in an integrated setting; patient self-management; and healthy lifestyles.

(d) To the extent required to avoid federal antitrust violations and in furtherance of the policy identified in subsection (a) of this section, the board shall facilitate and supervise the participation of health care professionals and health care provider bargaining groups in the process described in subsection (b) of this section.

§ 9377. PAYMENT REFORM; PILOTS

(a) It is the intent of the general assembly to achieve the principles stated in section 9371 of this title. In order to achieve this goal and to ensure the success of health care reform, it is the intent of the general assembly that

payment reform be implemented and that payment reform be carried out as described in this section. It is also the intent of the general assembly to ensure sufficient state involvement and action in the design and implementation of the payment reform pilot projects described in this section to comply with federal and state antitrust provisions by replacing competition between payers and others with state-supervised cooperation and regulation.

(b)(1) The board shall be responsible for oversight of the pilot projects to test payment reform methodologies as provided in this section. The director of payment reform in the department of Vermont health access, shall develop and implement the payment reform pilot projects and the board shall evaluate their effectiveness. Whenever health insurers are involved, the director and the board shall collaborate with the commissioner of banking, insurance, securities, and health care administration. The terms used in this section shall have the same meanings as in chapter 13 of this title.

(2) The board, in consultation with the director of payment reform, shall convene a broad-based group of stakeholders, including health care professionals who provide health services, health insurers, professional organizations, community and nonprofit groups, consumers, businesses, school districts, the state health care ombudsman, and state and local governments to advise the director and the board in developing and implementing the pilot projects.

(3) Payment reform pilot projects shall be developed and implemented to manage the costs of the health care delivery system, improve health outcomes for Vermonters, provide a positive health care experience for patients and health care professionals, and further the following objectives:

(A) payment reform pilot projects should align with the Blueprint for Health strategic plan and the statewide health information technology plan;

(B) health care professionals should coordinate patient care through a local entity or organization facilitating this coordination or another structure which results in the coordination of patient care and a sustained focus on disease prevention and promotion of wellness that includes individuals, employers, and communities;

(C) health insurers, Medicaid, Medicare, and all other payers should reimburse health care professionals for coordinating patient care through consistent payment methodologies, which may include a global budget; a system of cost containment limits, health outcome measures, and patient satisfaction targets which may include risk-sharing or other incentives designed to reduce costs while maintaining or improving health outcomes and

patient satisfaction; or another payment method providing an incentive to coordinate care and control cost growth; and

(D) the scope of services in any capitated payment should be broad and comprehensive, including prescription drugs, diagnostic services, acute and sub-acute home health services, services received in a hospital, mental health and substance abuse services, and services from a licensed health care practitioner.

(4) In addition to the objectives identified in subdivision (a)(3) of this section, the design and implementation of payment reform pilot projects may consider:

(A) alignment with the requirements of federal law to ensure the full participation of Medicare in multipayer payment reform; and

(B) with input from long-term care providers, whether to include home health services and long-term care services as part of capitated payments.

(c) Health insurer participation.

(1)(A) Health insurers shall participate in the development of the payment reform strategic plan for the pilot projects and in the implementation of the pilot projects, including by providing incentives, fees, or payment methods, as required in this section. This requirement may be enforced by the department of banking, insurance, securities, and health care administration to the same extent as the requirement to participate in the Blueprint for Health pursuant to 8 V.S.A. § 4088h.

(B) The board may establish procedures to exempt or limit the participation of health insurers offering a stand-alone dental plan or specific disease or other limited-benefit coverage or participation by insurers with a minimal number of covered lives as defined by the board, in consultation with the commissioner of banking, insurance, securities, and health care administration. Health insurers shall be exempt from participation if the insurer offers only benefit plans which are paid directly to the individual insured or the insured's assigned beneficiaries and for which the amount of the benefit is not based upon potential medical costs or actual costs incurred.

(C) After the pilot projects are implemented, health insurers shall have appeal rights pursuant to section 9381 of this title.

(2) In the event that the secretary of human services is denied permission from the Centers for Medicare and Medicaid Services to include financial participation by Medicare in the pilot projects, health insurers shall

not be required to cover the costs associated with individuals covered by Medicare.

(d) To the extent required to avoid federal antitrust violations, the board shall facilitate and supervise the participation of health care professionals, health care facilities, and insurers in the planning and implementation of the payment reform pilot projects, including by creating a shared incentive pool if appropriate. The board shall ensure that the process and implementation include sufficient state supervision over these entities to comply with federal antitrust provisions and shall refer to the attorney general for appropriate action the activities of any individual or entity that the board determines, after notice and an opportunity to be heard, violate state or federal antitrust laws without a countervailing benefit of improving patient care, improving access to health care, increasing efficiency, or reducing costs by modifying payment methods.

(e) The board or designee shall apply for grant funding, if available, for the design and implementation of the pilot projects described in this section.

(f) The first pilot project shall become operational no later than January 1, 2012, and two or more additional pilot projects shall become operational no later than July 1, 2012.

§ 9378. PUBLIC PROCESS

The Green Mountain Care board, in collaboration with the agency of human services, shall provide a process for soliciting public input on the Green Mountain Care benefit package on an ongoing basis, including a mechanism by which members of the public may request inclusion of particular benefits or services. The process may include receiving written comments on proposed new or amended rules, holding public hearings, or both.

§ 9379. AGENCY COOPERATION

The secretary of administration shall ensure that the Green Mountain Care board has access to data and analysis held by any executive branch agency which is necessary to carry out the board's duties as described in this chapter.

§ 9380. RULES

The board may adopt rules pursuant to chapter 25 of Title 3 as needed to carry out the provisions of this chapter.

§ 9381. APPEALS

(a) The Green Mountain Care board shall adopt procedures for administrative appeals of its actions, orders, or other determinations. Such procedures shall provide for the issuance of a final order and the creation of a

record sufficient to serve as the basis for judicial review pursuant to subsection (b) of this section.

(b) Any person aggrieved by a final action, order, or other determination of the Green Mountain Care board may, upon exhaustion of all administrative appeals available pursuant to subsection (a) of this section, appeal to the supreme court pursuant to the Vermont Rules of Appellate Procedure.

HEALTH CARE SYSTEM

Subchapter 1. Vermont Health Benefit Exchange

§ 1801. PURPOSE

(a) It is the intent of the general assembly to establish a Vermont health benefit exchange which meets the policy established in 18 V.S.A. § 9401 and, to the extent allowable under federal law or a waiver of federal law, becomes the mechanism to create Green Mountain Care.

(b) The purpose of the Vermont health benefit exchange is to facilitate the purchase of affordable, qualified health benefit plans in the individual and group markets in this state in order to reduce the number of uninsured and underinsured; to reduce disruption when individuals lose employer-based

insurance; to reduce administrative costs in the insurance market; to promote health, prevention, and healthy lifestyles by individuals; and to improve quality of health care.

(c) Nothing in this chapter shall be construed to reduce, diminish, or otherwise infringe upon the benefits provided to eligible individuals under Medicare.

§ 1802. DEFINITIONS

For purposes of this subchapter:

(1) “Affordable Care Act” means the federal Patient Protection and Affordable Care Act (Public Law 111-148), as amended by the federal Health Care and Education Reconciliation Act of 2010 (Public Law 111-152), and as further amended.

(2) “Commissioner” means the commissioner of the department of Vermont health access.

(3) “Health benefit plan” means a policy, contract, certificate, or agreement offered or issued by a health insurer to provide, deliver, arrange for, pay for, or reimburse any of the costs of health services. This term does not include coverage only for accident or disability income insurance, liability insurance, coverage issued as a supplement to liability insurance, workers’ compensation or similar insurance, automobile medical payment insurance, credit-only insurance, coverage for on-site medical clinics, or other similar insurance coverage where benefits for health services are secondary or incidental to other insurance benefits as provided under the Affordable Care Act. The term also does not include stand-alone dental or vision benefits; long-term care insurance; specific disease or other limited benefit coverage, Medicare supplemental health benefits, Medicare Advantage plans, and other similar benefits excluded under the Affordable Care Act.

(4) “Health insurer” shall have the same meaning as in 18 V.S.A. § 9402.

(5) “Qualified employer” means an employer that:

(A) has its principal place of business in this state and elects to provide coverage for its eligible employees through the Vermont health benefit exchange, regardless of where an employee resides; or

(B) elects to provide coverage through the Vermont health benefit exchange for all of its eligible employees who are principally employed in this state.

(6) “Qualified entity” means an entity with experience in individual and group health insurance, benefit administration, or other experience relevant to health benefit program eligibility, enrollment, or support.

(7) “Qualified health benefit plan” means a health benefit plan which meets the requirements set forth in section 1806 of this title.

(8) “Qualified individual” means an individual, including a minor, who is a Vermont resident and, at the time of enrollment:

(A) is not incarcerated, or is only incarcerated awaiting disposition of charges; and

(B) is, or is reasonably expected to be during the time of enrollment, a citizen or national of the United States or an immigrant lawfully present in the United States as defined by federal law.

§ 1803. VERMONT HEALTH BENEFIT EXCHANGE

(a)(1) The department of Vermont health access shall establish the Vermont health benefit exchange, which shall be administered by the department in consultation with the advisory board established in section 402 of this title.

(2) The Vermont health benefit exchange shall be considered a division within the department of Vermont health access and shall be headed by a deputy commissioner as provided in chapter 53 of Title 3.

(b)(1)(A) The Vermont health benefit exchange shall provide qualified individuals and qualified employers with qualified health benefit plans, including the multistate plans required by the Affordable Care Act, with effective dates beginning on or before January 1, 2014. The Vermont health benefit exchange may contract with qualified entities or enter into intergovernmental agreements to facilitate the functions provided by the Vermont health benefit exchange.

(B) Prior to contracting with any health insurer, the Vermont health benefit exchange shall consider the insurer’s historic rate increase information required under section 1806 of this title, along with the information and the recommendations provided to the Vermont health benefit exchange by the commissioner of banking, insurance, securities, and health care administration under Section 2794(b)(1)(B) of the federal Public Health Service Act.

(2) To the extent allowable under federal law, the Vermont health benefit exchange may offer health benefits to populations in addition to those eligible under Subtitle D of Title I of the Affordable Care Act, including:

(A) to individuals and employers who are not qualified individuals or qualified employers as defined by this subchapter and by the Affordable Care Act;

(B) Medicaid benefits to individuals who are eligible, upon approval by the Centers for Medicare and Medicaid Services and provided that including these individuals in the health benefit exchange would not reduce their Medicaid benefits;

(C) Medicare benefits to individuals who are eligible, upon approval by the Centers for Medicare and Medicaid Services and provided that including these individuals in the health benefit exchange would not reduce their Medicare benefits; and

(D) state employees and municipal employees, including teachers.

(3) To the extent allowable under federal law, the Vermont health benefit exchange may offer health benefits to employees for injuries arising out of or in the course of employment in lieu of medical benefits provided pursuant to chapter 9 of Title 21 (workers' compensation).

(c)(1) If the Vermont health benefit exchange is required by the secretary of the U.S. Department of Health and Human Services to contract with more than one health insurer, the Vermont health benefit exchange may determine an appropriate method to provide a unified, simplified administration system for health insurers offering qualified health benefit plans. The exchange may include claims administration, benefit management, billing, or other components in the unified system and may achieve simplification by contracting with a single entity for administration and management of all qualified health benefit plans, by licensing or requiring the use of particular software, by requiring health insurers to conform to a standard set of systems and rules, or by another method determined by the commissioner.

(2) The Vermont health benefit exchange may offer certain services, such as wellness programs and services designed to simplify administrative processes, to health insurers offering plans outside the exchange, to workers' compensation insurers, to employers, and to other entities.

(d) The Vermont health benefit exchange may enter into information-sharing agreements with federal and state agencies and other state exchanges to carry out its responsibilities under this subchapter provided such agreements include adequate protections with respect to the confidentiality of the information to be shared and provided such agreements comply with all applicable state and federal laws and regulations.
