**House Proposal of Amendment**

**S. 208**

An act relating to solid waste management.

The House proposes to the Senate to amend the bill by striking out all after the enacting clause and inserting in lieu thereof the following:

\* \* \* Architectural Waste Recycling\* \* \*

Sec. 1. FINDINGS

The General Assembly finds that, for the purposes of Secs. 1–3 of this act:

(1) Certain waste from commercial development projects can create significant issues for the capacity and operation of landfills in the State.

(2) There are opportunities for materials recovery of certain waste from commercial development projects in a manner consistent with Vermont's solid waste management priorities of reuse and recycling.

(3) Substantial opportunity exists in Vermont for the recovery and recycling of certain materials in the waste from commercial development projects, including wood, drywall, asphalt shingles, and metal.

(4) To reduce the amount of waste from commercial development projects in landfills and improve materials recovery, the construction industry

should attempt to recover certain waste from commercial development projects from the overall waste stream.

Sec. 2. 10 V.S.A. § 6605m is added to read:

§ 6605m. ARCHITECTURAL WASTE RECYCLING

(a) Definitions. In addition to the definitions in section 6602 of this chapter, as used in this section:

(1) “Architectural waste” means discarded drywall, metal, asphalt shingles, clean wood, and treated or painted wood derived from the construction or demolition of buildings or structures.

(2) “Commercial project” means construction, renovation, or demolition of a commercial building or of a residential building with two or more residential units.

(b) Materials recovery requirement. Beginning on or after January 1, 2015, if a person produces 40 cubic yards or more of architectural waste at a commercial project located within 20 miles of a solid waste facility that recycles architectural waste, the person shall:

(1) arrange for the transfer of architectural waste from the project to a certified solid waste facility, which shall be required to recycle the architectural waste or arrange for its reuse unless the facility demonstrates to the Secretary a lack of a market for recycling or reuse and a plan for reentering the market when it is reestablished; or

(2) arrange for a method of disposition of the architectural waste that the Secretary of Natural Resources deems appropriate as an end use, including transfer of the architectural waste to an out-of-state facility that recycles architectural waste and similar materials.

(c) Transition; application. The requirements of this section shall not apply to a commercial project subject to a contract entered into on or before January 1, 2015 for the disposal or recycling of architectural waste from the project.

(d) Guidance on separation of hazardous materials. The Secretary of Natural Resources shall publish informational material regarding the need for a solid waste facility that recycles architectural waste to manage properly and provide for the disposition of hazardous waste and hazardous material in architectural waste delivered to a facility.

Sec. 3. ANR REPORT ON ARCHITECTURAL WASTE RECYCLING

On or before January 1, 2017, the Secretary of Natural Resources, after consultation with interested persons, shall submit to the Senate and House

Committees on Natural Resources and Energy a report regarding implementation of the requirements for architectural waste recycling in the State under 10 V.S.A. § 6605m. The report shall include:

(1) a summary of the implementation of the requirements of 10 V.S.A. § 6605m for the recycling of architectural waste;

(2) an estimate of the amount of architectural waste recycled or reused since January 1, 2015;

(3) whether viable markets exist for the cost-effective recycling or reuse of additional components of the waste stream from commercial projects;

(4) a recommendation as to whether architectural waste should be banned from landfill disposal; and

(5) any other recommended statutory changes to the requirements of this section.

\* \* \* Solid Waste Management Facility Certification \* \* \*

Sec. 4. 10 V.S.A. § 6605 is amended to read:

\* \* \*

(j) A facility certified under this section that offers the collection of municipal solid waste shall:

\* \* \*

(l) A facility certified under this section that offers the collection of municipal solid waste shall not charge a separate fee for the collection of mandated recyclables. A facility certified under this section may incorporate the cost of the collection of mandated recyclables into the cost of the collection of municipal solid waste and may adjust the charge for the collection of municipal solid waste. A facility certified under this section may charge a separate fee for the collection of leaf and yard residuals or food residuals. If a facility collects mandated recyclables from a commercial hauler, the facility may charge a fee for the collection of those mandated recyclables.

Sec. 5. 10 V.S.A. § 6605c(a) is amended to read:

(a) Notwithstanding sections 6605, 6605f, and 6611 of this title, no person may construct, substantially alter, or operate any categorical solid waste facility without first obtaining a certificate from the Secretary. Certificates shall be valid for a period not to exceed ~~five~~ 10 years.

(B) any person that transports solid waste for compensation in a vehicle ~~having a rated capacity of more than one ton.~~

\* \* \*

(g)(1) Except as set forth in subdivisions (2) and (3) of this subsection, a transporter certified under this section that offers the collection of municipal solid waste shall:

(C) does not apply a variable rate for the collection for the material addressed by the ordinance.

(3) A transporter is not required to comply with the requirements of subdivision (1)(A), (B), or (C) of this subsection in a specified area within a municipality if:

(A) the Secretary has approved a solid waste implementation plan for the municipality;

(B) for purposes of waiver of the requirements of subdivision (1)(A) of this subsection (g), the Secretary determines that under the approved plan:

(i) the municipality is achieving the per capita disposal rate in the State Solid Waste Plan; and

(ii) the municipality demonstrates that its progress toward meeting the diversion goal in the State Solid Waste Plan is substantially equivalent to that of municipalities complying with the requirements of subdivision (1)(A) of this subsection (g);

(C) the approved plan delineates an area where solid waste management services required by subdivision (1)(A), (B), or (C) of this subsection (g) are not required; and

~~(D)~~ in the delineated area, alternatives to the services, including ~~on-site~~ on-site management, required under subdivision (1)(A), (B), or (C) of this subsection (g) are offered, the alternative services have capacity to serve the needs of all residents in the delineated area, and the alternative services are convenient to residents of the delineated area.

(h) A transporter certified under this section that offers the collection of municipal solid waste may not charge a separate line item fee on a bill to a residential customer for the collection of mandated recyclables, provided that a transporter may charge a fee for all service calls, stops, or collections at a residential property and a transporter may charge a tiered or variable fee based

on the size of the collection container provided to a residential customer or the amount of waste collected from a residential customer. A transporter certified under this section may incorporate the cost of the collection of mandated recyclables into the cost of the collection of solid waste and may adjust the charge for the collection of solid waste.
